Florists Are Busy Sending Flowers To Mothers of World

Mother's Day is the busiest time of the year for wiring floral remembrances across the country and throughout the world, according to John L. Bodette, general manager of the Florists' Telegraph Delivery Association.

Last year FTD members handled over $6,000,000 worth of flowers-by-wire business for America's favorite person, "Mom". This means that one out of six mothers received a floral tribute sent by wire through FTD.

The age-old custom of a Mother's Day observance started in medieval England when a Sunday in the middle of Lent was set aside for a visit to Mother Children who were within traveling distance made the journey with bouquets of flowers to brighten the occasion.

In this country Miss Anna M. Jarvis started the trend in Phildelphia in 1907 with a church service in memory of her own mother.

W. H. Watkins and daughter of Route 5 were shoppers in Benton Wednesday.

Books and Bouquets

George Matthew Adams, in one of his Today's Talks says, "What a strange world it would be without books. Books make civilization. Into every home that books enter they enrich and uplift. They entertain, instruct and comfort. They are friends to all ages."

The book of the week is "Sing Out The Glory" by Gladys Hasty Carroll. This novel is the fine proud story of a valley in the state of Maine. The sage of this valley and its people is told in a sweep of history from Puritan days down to the present. You will be more proud of your American Heritage after reading this book.

The bouquet of the week goes to the Clarks Homemakers Club. The members are reading one of Jesse Stuart's books, "Taps for Private Tussie".

ASC News & Facts

BY ROBERT L. RUDOLPH

Safety Committee—The Marshall County ASC Committee has set up a safety committee composed of the chairman and secretary of the county committee and the county performance supervisor. This committee recognizes the need for safety measures in all walks of life, and are assuming the responsibility to educate all ASC personnel in Marshall County to observe all safety rules while performing their duty.

Safety signs have been posted in the county office at front and rear entrance for all who come and go.

Wheat Quotas Proclaimed for 1959 Wheat Crop — Marshall County wheat growers will be interested in learning that the Secretary of Agriculture has proclaimed marketing quotas for 1959 wheat, which is required by a wheat supply of 57 percent above marketing quota level.

Growers in the commercial wheat area who stay within their allotments will be eligible for price support on all their production, provided growers approve these marketing quotas in the June 20 referendum.

U.S.D.A. Extends Farm Storage Loan Programs—This program has run from year to year but has now been extended indefinitely. Loans under these programs are designed to help farmers obtain needed farm storage and drying equipment. Any farm operator or producer partnership is eligible to participate. Applications may be made at the county ASC office. The loan may be made directly through the county office or through a local bank. Grains involved on which storage loans may be obtained are corn, wheat, oats, rye, barley, soybeans and grain sorghums.

Control of Noxious Weeds on Soil Bank Farms — The state committee has designated nine noxious weeds in Kentucky, the spread of which must be prevented on conservation reserve areas. These noxious weeds are: Buckhorn, Canada thistle, corn cockle, dodder, Johnson grass, quack grass, sorrell, wild onions and oxeye daisy. Control measures recommended are clipping, or treatment with chemical weed killers, so as to prevent maturity of seed. If either clipping or spraying becomes necessary to control these weeds, attention should be given to preventing the destruction of nests and wildlife.

Senior Class Play To Be Held Friday Night at Benton

Friday, May 9, at 8 p.m. in the Benton High School auditorium, the curtain rises up on "Girl Crazy," this year's senior class play.

"Girl Crazy" includes in its cast such characters as Jake, the crusty old weather-beaten Westener. The East is represented in the forms of Danny and Louie—the former a playboy from the East who goes Western, and the latter a typical New York taxi driver with a Brooklyn accent.

Cactus and Lucky drawl out their Western humor while Pete, the shifty-eyed Mexican, and Lank, the ruthless killer, add the sparkle of suspense to the action.

On the feminine side of things there is sweet, charming Molly and boy crazy Rose. Girls from the East in all sizes and shapes can be found in the characterization of Tess, Betty, Janet, Laura, Sally, and Babs.

All of these, together with Sam, another Eastern playboy, Eaglerock, the Indian, and the serious-minded police lieutenant, combine to make a very entertaining play.

The presentation of "Girl Crazy" by the seniors will mark the beginning of this year's graduation exercises. The seniors will begin the second of these exercises Saturday morning, May 10, when they leave on their senior trip to St. Louis.

Mr. and Mrs. P. C. Morgan of Dearborn, Mich., are visiting his father, J. C. Morgan of Benton Route 5, and her mother, Mrs. M. S. Ross of Benton. The visitors will return next week to Michigan, where Mr. Morgan is employed by Chrysler Corp.

Mr. and Mrs. Wayne Foust of Owensboro were visitors in Benton this week.

Mrs. W. W. Holland attended the funeral services for Mrs. E. W. Wear in Wickliffe.

Mr. and Mrs. W. G. Dappert visited relatives in Effingham, Ill this week.

Set a watch, O Lord, before my mouth; keep the door of my lips. —(Psalm 141, 3.)

How much suffering and sorrow we would spare ourselves and others, how much love and kindness we could give, if we asked God's guidance, ever and always, in all that we do and say, think and desire — and how blessed and strong and happy we would be!

WARM COTTONS

Even the Alps applauded when Swiss designers recently introduced these ski and after-ski clothes in cotton. The extra-bulky knits, warm flannels, and wind and waterproof fabrics are striking examples of cotton's versatility. Cotton industries in Switzerland and eight other countries are cooperating with Cotton Council International in a program to increase cotton consumption abroad.

Science finds healing substance that relieves pain—Shrinks Hemorrhoids

For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids and to relieve pain—without surgery. In case after case, while gently relieving pain, actual reduction (shrinkage) took place. Most amazing of all—results were so thorough that sufferers made astonishing statements like "Piles have ceased to be a problem!" The secret is a new healing substance (Bio-Dyne*)—discovery of a world-famous research institute. This substance is now available in *suppository or ointment form* called *Preparation H.** At all drug counters—money back guarantee. *Ⓡ
