WANT TO SLAP A JAP? FIRING IN YOUR SCRAP - FULTON COUNTY SCRAP DRIVE NOW ON

The Editor's Note

If you haven't been by the J. C. Scudder Memorial Hall lately, you may have missed a few of the scrap bins that have been set out there. If you are interested in the scrap collection scheme, you must have passed this opportunity by. The various declarations made by our Mayor, Mr. Scudder, and others, have only added to the incentive of placing your old scrap in these bins. As the time for the driving of the scrap is only a few days away, you will be able to join in the fun of building up the scrap collection. You may have to place some of your old scrap in the bin at the corner of Main and 5th St., but if you haven't done so already, you can place it there now. The scrap drive is a great idea and you should do your part to make it successful.

SPECIALIST VISITS FULTON HOSPITAL

Dr. L. A. Ray, a specialist in the field of obstetrics, gynecology, and internal medicine, has been visiting the nurses and patients at the Fulton County Hospital. Dr. Ray has been busy examining patients and making recommendations. He has been particularly interested in the care of pregnant women and has given valuable advice on the management of labor.

A Dow Chemical plant is shown in this 1945 photograph. Dow had a large presence in the Midwest during World War II, producing a variety of materials including synthetic rubber, acetate fibers, and plastics. Dow's efforts were critical to the war effort, as their products helped in the production of military equipment, clothing, and other necessities.

YOU WANT TO HELP OUR BOYS WIN!

So Turn In All Your Scrap Metals Now For the Kentucky Newspapers' Scrap Drive

MANY a young Kentuckian has already written his name on the roll of honor of World War II. Many another will join that hero's group before the Axis goes down in final defeat. But all of us at home must do our part to help win this war.

Cpt. George Kaser, the Sosset boy with steel in his wings, has shot down eleven Iap planes since Pearl Harbor. Capt. Tom Spalding of Princeton has been cited for his gallantry in the Philippines. Capt. Richard Stark of Madison, wounded in action, helped to knock down a flock of German fighter planes with his Flying Fortress. Capt. Leon Beam, W. O. Burch of Paducah, flying officer on the aircraft carrier Yorktown, helped to sink four Iap carriers at Midway. Sixty-six officers and men of Mercer County's Tank Battalion took a terrible toll of Iap casualties on Bougain.

These are only a few of Kentucky's new heroes. They are typical of Kentucky and American fighting men, who love the "tools" and will do their job.

Today there is a desperate shortage of scrap metals. And without scrap, American industry cannot supply the "tools"—the guns, tanks, planes, bombs, ships—our forces must have to win.

So get into the all-statewide scrap metals salvage drive sponsored by Kentucky newspapers. Join your fellow citizens in exceeding the State's quota of 280,000,000 pounds (100 pounds per inhabitant) before October 31. Get busy now.

KENTUCKY UTILITIES COMPANY

G. P. LANSDAY, Manager
SAVE KITCHEN FAKE

Taking good care of your kitchen is one of the best ways to avoid waste, save money, and reduce your carbon footprint. Here are some tips to help you save kitchen fake:

1. Plan your meals: Before you go grocery shopping, make a list of what you need. This will help you avoid buying things you don't need and will save you money.

2. Buy in bulk: Buying in bulk can save you money in the long run. Plus, it's better for the environment because it reduces packaging waste.

3. Use reusable bags: BYOB (bring your own bag) when you go grocery shopping. This will save you money and reduce plastic waste.

4. Use reusable containers: Keep some reusable containers in your kitchen to store leftovers and make packing lunches easier.

5. Compost: Composting is an excellent way to reduce food waste. You can use a compost bin or simply pile up your food scraps and let them decompose naturally.

6. Freeze leftovers: If you have leftovers, freeze them for later use. This will save you money and reduce food waste.

7. Avoid overcooking: Overcooking food can be a waste of energy and money. Make sure to cook your food to the right temperature and for the right amount of time.

8. Use leftovers creatively: Don't throw away leftovers. Use them to make something new and delicious.

9. Donate excess food: If you have excess food, consider donating it to a local food bank or shelter.

10. Be mindful of your consumption: Be conscious of your consumption habits. Try to eat locally and seasonally to reduce your environmental impact.

By following these tips, you can save kitchen fake, save money, and reduce your environmental impact. So let's get cooking and saving!
This week's edition of the Fulton County News features articles on various topics, including insurance, military strategies, and local news. The edition also includes advertisements for businesses like Lowes Cafe and Butts Seed Cleaning. The main headline is "Wings of Victory," which discusses the contributions of civilians in supporting the war effort. The edition concludes with a cartoon depicting a group of soldiers and a statement encouraging the public to "not slack off in the lot."
