Ruef Plans Big Demonstration for San Francisco.

Mr. Ruef, the present mayor of San Francisco, has planned a demonstration for the purpose of petitioning the legislature for a seaport to be located on the coast of California. This demonstration is planned for the day after the legislature convenes, and it will consist of a large number of persons who will carry a petition requesting a seaport to be located on the coast of California.

The demonstration is to be held in front of the state capitol, and it will be a large and impressive gathering. The mayor has requested the cooperation of all the city's political organizations in the demonstration, and he has asked for the support of the public in bringing attention to the need for a seaport on the coast of California.

The mayor believes that the demonstration will be successful, and he hopes that the legislature will hear the petition and take action on it. He believes that a seaport on the coast of California is necessary for the economic development of the state, and he is determined to see that the petition is given the attention it deserves.

The demonstration is expected to draw a large crowd, and it is to be held in the late afternoon. The mayor has asked for the cooperation of all the city's political organizations in the demonstration, and he has asked for the support of the public in bringing attention to the need for a seaport on the coast of California.

The figures from New York State show that discontent is very widespread. The kind of discontent is expressed in the figures that show that a plurality of 175,000 in the state carried by Roosevelt in those districts polled marvelously well in a revolution in politics, and slow to anger. But once convinced, the people are finding out gradually which way to go, it is well known that most of the people are finding the same way that others have found.
