Where the Skin Chaps

We recommend the use of Burt's Anti-Chapping Cream as a means of keeping the skin from chapping and suffering applications of soothing ointments and lotions. It is a non-greasy cream and is not greasy. It has been used successfully on the hands and feet, and the nose without the least irritation or discomfort. Rube right into the skin.

Faithful correspondent of the Life

Laten suggests that swimmers, in

particular, would find this new

idea of a tennis ball to be

of the greatest value. The

manner of operation is

as follows:

"The ball is thrown in

air, after which it is

caught, or kicked back and

forth again.

"It requires no special

equipment in the way of

nets, etc., and can be

played on any kind of

ground.

"A great many of the

out-of-the-way club

are interested in this

new game, and expect

to try it on the

first chance.

"It is not a new

idea, but it has been

practiced for some time in

the

country.

"Several of the

local clubs are planning to

organize teams, and expect

to play against each other

in a few weeks.

"The game is

very simple to learn and

play, even for those who

do not have much

knowledge of tennis.

"The object of the

game is to get the ball

over the net, and to

keep it in the air as

long as possible.

"The ball is thrown

in the air, and the player

who is trying to hit it

must use any part of

his body, except the

hands or feet, to

return it.

"The game is

very exciting, and there

is a good deal of

skill required to

master it.

"Several

clubs in the

neighborhood are

looking forward to

playing this new

game, and expect to

have a good deal of

fun with it.

"It is not

likely to

catch on as

widely as

tennis, but it promises to

be a

good deal of fun for

those who try it.

"It is
