L. A. Warren, President of Sears, Roebuck, and a nationally
known figure in the food supply
field, has promoted
shortage figures for public realization.
Following the government's
announced plan for rationing of
processed foods, the Warren said,
"In times like these the figures
are exaggerated." I don't believe the
food short is exaggerated. It is
a very real crux if we are
permitted to wash clothes in
water, or still in the can.

Results in The Beer Industry’s Crusade of Decency

There’s a race now, and the outcomes are set. The beer industry is running to meet the challenge of the government’s crusade against decency. The record speaks for itself. Beer retailers are entitled to do business without illegal competition that brings discredit on the industry.
