We have never been a VITAMIN! No! We've never seen a vitamin—In fact, we wouldn't know it if we saw one. But during the last three years we have heard a lot about vitamins, and the deficiency theories, especially among white families.

The truth is, we had been niling for a third of a century before it was discovered that while there was nothing missing in anything, it was possible to get all vitamins by the recommendation of Nutritional Authorities throughout the United States, and we were persuaded that we had been missing all. So you take no chances when you specify one of our American foods, including white familyBio.
