“A Symbol of Our Spirit”

TODAY, the average American farmer may not have laid aside his overalls for a uniform, but he has been fighting a tough battle so that America and her allies may have the food necessary to win this war. Yes, we must, this is a symbol of America’s great spirit of resourcefulness.

And when we look at our country today, do we wonder if we are doing our job as well as the American farmer? Are we paying our taxes for the four-square meals? Are we helping to conserve food for our fighting men? And, above all, are we buying all the War Bonds NOW!
