VOLUME III.

HOPKINSVILLE, CHRISTIAN COUNTY, KENTUCKY, THURSDAY, AUGUST 30, 1888

NUMBER 146

CONDENSED NEWS.

"Shedden's Memoirs" will be published in December.
Ex-Senator Warner Miller is the Republican nominee for governor of New York.

The railroad strike at Evansville has been settled and the men have returned to work.
Mr. Blaine continues to abuse President Cleveland about his retaliation message. Of course.

The situation at Jacksonville is becoming grave. Several more cases of yellow fever are reported.

Roger Q. Mills spoke to a large audience at Chicago Monday. His speech was received with enthusiasm.

Ex-Senator Jos. E. McDonald, of Indianapolis, at Indianapolis, Monday delivered the opening speech of the campaign in that state, confining himself mainly to the tariff.

Capt. Brice Stewart, of the British army, formerly of Clarksville, Tenn., after an absence of twelve years from this country, has returned for a visit to his father at Clarksville.

Hon. John R. P. Agard, collector and custodian of the postoffice building, at Boston, has issued the following in effect, to the circular sent to the postoffice employees by the Democratic State Committee:

It is reported, and has not yet been denied, that President Cleveland on Monday sent his check to the national Democratic committee for \$10,000. Mr. Blaine will now proceed to ask what right he has to interfere with this election.

Chairman Mitchell C. Alford, of the Democratic State Committee, has accepted Col. Saxe's proposition for a joint debate on the political issues of the day at the opera house in Lexington, Saturday afternoon, September 8. It is not yet known what speaker Mr. Alford will pit against the big Republican Colonel.

Superintendent Metcalf, of the Henderson division of the Louisville & Nashville, has gone to Birmingham to take charge of the Southern & Northern division in Alabama.

Superintendent Donald Allen, who has been in charge of the Southern & Northern division, takes Mr. Metcalf's place on the Henderson division.
Mr. L. S. Buffington proposes erecting in Minneapolis a 28-story building in which he will utilize a method of iron building construction patented by him, and which, if it prove practicable, will probably cause a revolution in the construction of houses. The building, when completed, will not weigh one-half as much as an ordinary one of the same size. It will be 28x30 feet on the ground, 350 feet to the top of the glass lookout, and will contain 728 large offices.

A statement has been issued from the interior department showing the quantity of land actually restored to the public domain to June 30, 1888. The total of the land restored is 2,325,000 acres, and the total of the land restored is 2,325,000 acres, and the total of the land restored is 2,325,000 acres.

To the employees in the collection department in the Third district of Massachusetts, a letter to the effect that the department of the postoffice and sub-treasury building, Boston: I am informed that a circular has been sent to all persons employed in the department above mentioned requesting contributions to a political campaign. Fund. This is to inform all interested that the same has been done without the sanction of the collector and custodian and every employee is hereby instructed that faithfulness in the discharge of his duty will be the best recommendation for his retention in office, and that they are as free as far as convictions are concerned, as if they were employed by a private firm. The vicious system of assessing office-holders, many of whom are very poorly paid, especially in the collector's department, does not hold under this administration.

Better Than Suicide.
Professor Arnold says: "An incurable dyspeptic is justified in committing suicide." We will guarantee to cure any dyspeptic within three months by Acker's English Dyspeptic Tablets.

NEIGHBORHOOD NOTES.

Tobacco Trust.

Roger Q. Mills, the great tariff reformer, was born on the farm now owned by David Tandy, adjoining the farm of Wm. Jessup, three miles east of Fairview, Ky., where Jefferson Davis first saw the light. This is one of the finest agricultural regions in the South, and if the pleasant little town of Fairview has no other claim to recognition it will go down in history as the birth place of two of the leading minds of the present century—Davis and Mills.

Owensboro Inquirer: Owensboro Republicans feel that they can't claim any more honor just at present and that the Republican candidate for congress will be taken from some other county. But for this severe attack of generosity, Col. John H. Henry would probably get the nomination for congress from the Madisonville convention next Saturday, although he should not accept it.

The choice appears to be between Col. McHenry and the young Henderson lawyer, Lige Sobers. Messrs Campbell, Feland, Breathitt, Jolly and the rest of them have declared that they don't want the honor, which is admitted to be worthless except in the event of Harrison's election when it would give claim to patronage.

Bird's Eye View of Minnesota.
St. Paul, Aug. 25th, 1888.

Editor New Era.
I have thought for some time of writing a short letter to your paper, giving the Christian county people some idea of this northwest country, the people, climate, mail service, etc. I may say in the beginning that a postal clerk's view of a country is a dying one, and might be called a "bird's eye view." I have been here two months, two of the warmest months of the year, and have found very little difference in the climate except that the heat does not last all the time, but when the mercury does start up, it goes to the top.

I have my headquarters in St. Paul, and am here about four days in a week, and I can assure you that my "lay off" is the most pleasant part of my duties. My run is over the Northern Pacific to Mandan, just across the Missouri river from Bismarck, Dak. Mandan seems to be noted for its hungry-looking soldiers, thick Indians and big mosquitoes, and the latter have a great mouth for postal clerks.

The Northern Pacific runs through some very beautiful country, perhaps the western portion of Minnesota and eastern part of Dakota, are excelled by none in the union. The immense wheat farm of the Dakotas lies on each side of the railroad and extends for more than ten miles. It is a sight well worth seeing, that they have begun harvesting, with a long string of self-binders—I am afraid to say how many because I am not so very accurate.

Those who have not noticed the growth of St. Paul since the last census, will be surprised to learn that it has increased, since 1880, from a population of 42,000 to that of 250,000. At least they claim that many, and I do not doubt it, for there must have been only a few of the men in the military army, which parades the principal streets every evening for an hour. It is even harder to realize now, that they have begun harvesting, with a long string of self-binders—I am afraid to say how many because I am not so very accurate.

The Verdict Unanimous.
W. D. Sult, Druggist, Bippus, Ind., testifies: "I can recommend Electric Bitters as the very best remedy. Every bottle sold has given relief in every case. One man took six bottles, and was cured of Rheumatism of 10 years' standing." Abraham Hare, druggist, Belleville, Ohio, affirms: "The best selling medicine I have ever handled in my 20 years' experience, is Electric Bitters. Thousands of others have asked their testimony, so that the verdict is unanimous that Electric Bitters do cure all diseases of the Liver, Kidney or Blood. Only a half dollar a bottle at Harry B. Garner's City Pharmacy."

Some time since Mr. Gould exhibited his stocks and bonds to inquiring friends; now he displays his digestive apparatus through a sympathetic reporter to a candid world. In both instances the bench show was in the nature of a refutation, for in Mr. Gould's case, whether he regains collateral or viscera, were he chased as snow or wholesome as an icicle upon Dan's temple, he could not hope to escape calumny.

SHILOH'S COUGH AND Consumption Cure is sold by us on a guarantee. It cures Consumption. H. B. Garner.

Editor—And now, gentlemen, that I have explained the damnable objects of the opposition, perhaps our friend in front of me will favor us with a tonic. Excuse me, sir, what kind of an instrument is that, anyway? Stranger—I was sent by the signal service to measure the velocity of the wind.

CROUP, WHOOPING COUGH and Bronchitis immediately relieved by Shiloh's Cure.

Forty cents on the dollar is the proposition which West St. Louis, lock, stock and barrel, will give up to the aldermen, and burglarized treasury bears to its indebtedness. This sort of thing goes to show the folly of trying to establish a town on the Mississippi River eighteen miles below the mouth of the Missouri.

SLEEPLESS NIGHTS, made miserable by that terrible cough, Shiloh's Cure is the remedy for you. H. B. Garner.

"Private Affairs."

Mr. Blaine said in his Portland speech of Wednesday, speaking of the monopoly trusts of the country: "They are largely private affairs, with which neither President Cleveland nor any private citizen has any right to interfere."

Let us see how far they are private affairs.

We have a sugar trust. It has lately advanced the price of sugar from 1 to 2 cents per pound, and 1 cent per pound on the sugar consumed in the United States gives \$31,000,000 additional profit to the monopoly trust. This trust is made possible only by the high tariff tax on sugar. Is it purely a private affair?

We have a lumber trust, by which every man's shingles and boards and other timber of his house, barn, fence, etc., are arbitrarily taxed, and this oppressive tax on the whole people is made possible only by the high tariff tax on lumber that Mr. Blaine so vigorously denounced in congress. Is it purely a private affair?

We have a salt trust, by which every table in the land is taxed, whether of rich or poor, and that extra tax upon the whole people is made possible only by the present high tariff tax on salt. Is it purely a private affair?

We have a rubber trust, by which every farmer who bays his grain is taxed by a monopoly combine, and it is made possible only by the present high tariff tax on rubber. Is it purely a private affair?

What D'ye Lack Gentles?

What d'ye lack gentles? what d'ye lack? Long ago that was the cry of the London apprentice as he stood by the stall or booth which displayed his master's wares.

That Was Before the time of Advertising, when indeed all mercantile occupations were held in contempt as if the handling of goods left a fouler stain than the handling of

The Bloody Sword.

A great change has come over the world. The apprentice with his apprentice cry has disappeared in the limbo of the past. In his place goes forth the advertisement which still echoes the question

Reports Wanted.

The New Era would like a report
from every thresherman in the county
as to the number of bushels of wheat he
threshed during the season. If any one
living out of the county has done work
within it, they will also send in their
reports. Please attend to this at once.

Terrible Forewarnings.

Cough in the morning, hurried or
difficult breathing, raising phlegm,
tightness in the chest, quickened pulse,
chilliness in the evening or sweats at
night, all or any of these things are the
first stages of consumption. Acker's
English Cod. Remedy will cure these
fearful symptoms, and is sold under a
positive guarantee by H. B. Garner.

Come in Monday.

The subscriptions of a large number
of people on our WEEKLY list expire
next week. We suggest that they come
in Monday—the first day of circuit
court—and renew; so that their papers
will not be stopped and they may be in
good time for our big drawing, which
comes off Oct. 6th.

The above good advice applies also to
TRI-WEEKLY subscribers who are in ar-
rears and all of whom will be dropped
after the drawing.

Out of the Whole Cloth.

The Louisville & Nashville railroad
to-day bought the Ohio Valley railroad
which leads from Henderson to Prin-
ceton, Ky., and this will at once be an-
nexed to the Princeton & Clarksville
branch, thus giving this city a through
line to Henderson.—Clarksville Demo-
crat.

The New Era would like to know
the Democrat's authority for making
this statement. Your adviser was ill-
advised neighbor, for the L. & N. has
done no such thing; at least its vice-
president is not aware of any such pur-
chase, as the following telegram in
"answer to one sent from this office" will
show:

LOUISVILLE, KY., Aug. 28.—KENTUCKY
New Era: So far as I am advised this
company has not purchased the Ohio
Valley railroad. (Signed.)
M. H. SMITH.

ment placed on Ninth street beyond the

has been done and nothing remains but

The Princeton correspondent of the
Courier-Journal says: Dr. Clarence
Anderson, a prominent young physician
of Princeton, makes frequent visits to
Hopkinsville by way of Wallonia. This
is, however, accounted for by the fact
that all roads lead to Wallonia on the
genial young M. D.'s map of that sec-
tion.

The remains of Mrs. Pendleton, of Pen-
broke, passed through the city from
Dawson Tuesday. Mrs. Pendleton had
been in bad health for several months
prior to her death, and had been spend-
ing some time at Dawson Springs, hop-
ing that the water would prove benefi-
cial. She was a lady possessed of many
traits of character, and had a wide cir-
cle of friends who sincerely mourn her
loss.

Clarksville Democrat: An attorney's
office on Strawberry street was the cen-
ter of attraction for news last Saturday
because it was known that a new rail-
road project was there being talked of.
The gentlemen closest together were
D. A. Couter and W. G. Wilson, of
Chicago, A. H. Clark, of Hopkinsville,
and Hon. W. M. Daniel. The visit-
ing gentlemen called in the interest of a
proposed new road from Chicago to the
Mexican gulf, to cross the Ohio at Shaw-
neetown and pass through Hopkinsville
and this city. Their talk was strictly
private, and what came of it is unknown,
so there is no telling whether or not a
cheap coal scheme will be placed before
the dear people in the near future.

The demands upon the nutritive powers are larger, and consequently we can understand how it comes about that the educational level is felt more by town children than in country counties.
