TCP Stops Spark Plug "Miss"—major cause of power loss

When your Spark Plugs are new, all of them fire

You get full power. You get instant response when you touch the accelerator, extra power when you need it.

Without Anti-Miss protection, any of them can be missing after 2,000 miles

Combustion deposits have built up on spark plugs causing them to misfire. You lose power when you need it most—on hills, for passing and getaways.

Change to Super Shell with TCP—all plugs fire again

Super Shell with TCP has neutralized harmful combustion deposits. Spark plug "miss" has stopped. Your car delivers full power again.

TCP adds Anti-Miss to anti-knock

Now you can protect that car you paid so much for against loss of power caused by spark plug "miss"... and save money doing it! Super Shell Gasoline with TCP* is the way.

TCP additive in Super Shell stops spark plug misfiring caused by fast-forming combustion deposits... deposits that can steal 20 to 30 horsepower. TCP actually adds anti-miss to anti-knock.

It insures that you get extra energy and top power from Super Shell's aviation "power pack." The ingredients in this "power pack" give you extra mileage that saves you money—and higher octane to prevent knock.

Remember, you have a big investment to protect in your car. Get that protection from Super Shell with TCP. Get it at your Shell Dealer's white pump today!

Braves Beat Tigers 10 to 9 In Farm League Game Here

The first completed three-inning practice game of the season was held Saturday night under the lights at the Benton City Ball Park.

The Braves, behind the pitching of Mike Mathis and Johnny Tapp, held the Tigers to four hits.

Highlighting the game were two lined doubles by Joe Dycus with bases loaded each time period, accounting for four runs batted in for the Braves.

Seventeen bases on balls were issued during the game, however both managers blamed the cool temperature, in the low 50s, for this.

Come out and see these youngsters play, the first scheduled game will be played on Saturday, June 28, at 6:30. Consult your papers or tune in WCBI between 4 and 5 each evening for scheduled changes.
