"Let's Roll Up Our Sleeves
And Do Our Best!"

Yes, all over the battlefronts of the world our fighting men are pounding the "daylights" out of the Axis. The Yanks have "rolled up their sleeves" and have shown the world what it means to face free-born Americans when they're fighting mad. Italy has called it a day under the terms of "Unconditional Surrender"......

But does this mean the war has been won? Does it mean that Germany and Japan will fold up so easily? Let's not kid ourselves by such wishful thinking. The war has not been won and we know it, so let's face the facts.

Right now our Uncle Sam is asking us here in Fulton County to "roll up our sleeves and do our best" during this THIRD WAR LOAN drive. He is asking that we buy WAR BONDS in the amount of $2,576,000, so that greater battles may be won. This quota is large but it can be met if every individual with an income will buy War Bonds to the extent of his or her ability. So let's show our fighting men that we can do it. Let's work! Let's sacrifice! and above all......

WAR BONDS"
