Laundry Owners
Warned To Obey
Sixty Hour Law

Frankfort, Ky. — William C. Burrow, State Industrial Relations Commissioner, warned Kentucky laundry owners Tuesday that his department would institute legal action against anyone violating a 1912 law which limits the working hours of women to ten hours a day and sixty hours a week.

Burrow said "numerous complaints" against violations had been received. Only women employed in domestic service or nursing are exempt from the act's provisions.

"In my opinion," Burrow said in commenting on a letter he sent to all laundry owners, "the law sets a reasonable limit of hours for women and it is the intention of this department to enforce rigidly that limit."

A PROCLAMATION

To the Citizens of Fulton, Greetings:

WHEREAS, in these days of world-wide turmoil, with subversive forces and influences striving to discredit and destroy the ideas and institutions symbolized by our Country's Flag, all loyal Americans should answer this challenge by displaying and paying tribute to that Flag as the emblem of our rights and liberties; and,

WHEREAS, with this end in view, the period June 8th to 14th has been designated as Flag Week by The United States Flag Association, during which time patriotic exercises and other appropriate functions are to be held in towns and cities throughout all the Land,

NOW, THEREFORE, as Mayor of Fulton, I do proclaim June 8th to 14th as FLAG WEEK and direct that during this period the Flag of the United States be displayed on all municipal buildings and vehicles. Furthermore, I do invite the people of Fulton to display the Stars and Stripes at their homes, places of business and other suitable locations as well as on their cars, and to hold patriotic exercises, plan flag parades and do other suitable things as a public expression of our love of our Country, our allegiance to its Glorious Banner and our belief in the institutions of America Democracy.

IN WITNESS WHEREOF I have hereunto set my hand and caused the seal of the City of Fulton, Kentucky to be affixed this 10 day of June in the year of our Lord Nineteen Hundred and Forty-one.

PAUL DEMYER
Mayor of the City of Fulton, Ky.

"A Friend To Industry"

It has been said, and probably truly, that a nation's prosperity is linked to the soil—that when farmers are prosperous, the country is prosperous. The farmer, with his various agricultural products, helps keep industry moving.

As a business enterprise, we realize the farmer is a friend to industry. Out of our willingness to co-operate with the farmer, we have offered a field service for a number of years. The idea has been to promote better poultry and livestock through select breeding and, of course, proper feeding. Our field representative is qualified to advise you on such problems. You may feel at liberty to call on him at any time.

House Group Approves Reducing
Money For W P A Appropriation

Washington. —A reduced relief appropriation of \$385,905,000 for next year was approved Monday by the House Appropriations Committee, which voted also for retention of present restrictions on W. P. A., such as that forbidding employment of aliens.

The total was \$95,000 below what President Roosevelt recommended for the twelve months beginning July 1, and was 35 per cent lower than the current fund. The committee said the cut would necessitate a reduction in W. P. A. employment from an average of 1,300,000 this month to \$941,315 in July or August.

In addition to trimming W. P. A.'s request the committee allocated \$50,000,000 of the total to the Agriculture Department for extension of the food stamp plan, and called for a \$10,000,000 cut in the \$50,000,000 fund now available to W. P. A. for paying wages higher than usual relief wages to workers on defense projects.

The committee gave "hearty commendation" to continuation of the W. P. A. defense training program which it said had enabled more than 30,000 workers to fit themselves for private jobs.

President Roosevelt and Howard O. Hunter, W. P. A. commissioner, had proposed a series of revisions in the relief law, including removal of the ban on employment of aliens and the requirement that persons on the rolls for eighteen months be dismissed to make room for others.

A BROKEN LINK SMASHES
THE ENTIRE CHAIN

Everybody knows that a broken or weak link in a chain makes the entire chain hazardous. But not every person applies the same reasoning to fire insurance. Yet is equally true in this matter. One poorly written policy, or particularly one that is merely planned and not written, may prove hazardous to your entire business or home. A weak link in your insurance coverage may cause an unexpected loss at any time.

Consult us as your friends about these matters. We know a great deal about insurance, for it is our business. We can make valuable suggestions—and we can write your policy properly.

DEFENSE PROJECT POSSIBLE

News stories yesterday indicated that a huge defense project in this territory is a distinct possibility. The Washington dispatches seemed to say that choice of a location was between Carbondale, Illinois, and the area in Graves county near Wingo. The story did not state that Wingo was being considered, but it is generally known that surveying has been under way in that section for some time. It has been reported here that surveying was first done in McCracken County, and the site found unsuitable. Work was then started on the territory adjacent to Wingo and now it seems that this site may be picked.

It appears that there is little that any organization can do about the matter, although it is probable that civic organizations are working on the matter. No doubt Mayfield people have been at work on the matter for a long time, and it is the general belief here that Senator Barkley and Congressman Gregory might have the final word. It is not generally assumed that politics has much to do with location of these projects, but when it is known that Senator Barkley, one of the strong men of the Roosevelt Administration, has not yet had a plant located near his home county, it might fairly be assumed that he would be entitled to some consideration. These facts being as they are, many people here believe that Barkley might influence the selection of Graves county over the Illinois area. That remains to be seen. It now seems that the War Department will make its selection in due time and made its announcement after the site has been agreed upon.

While the area which is being considered is not adjoining Fulton, it is not far, and quite near enough for this community to feel its quickening impulses. For if a thirty million dollar plant is to be built near Wingo, only ten or twelve miles away from Fulton, we will know it in this town. All lines of business will benefit sharply. A local business man said this morning that right now he would sell his business at par. "But if that plant comes to Wingo, I would not sell at all," he said. "I would also buy all the houses here in Fulton I could get my hands on," he added, "for they will be worth plenty if thousands of men begin to pour in to build this plant and operate it after it is built."

Of course, that is looking pretty far ahead. The plant may go elsewhere, or it may never be built. But these men who look ahead that way are the men who make money swiftly many times, and it does no harm to speculate on the possibilities which may lie ahead of us. These huge plants have been built all around us, and the lightning might strike in this territory without much warning. Graball was just another country settlement a few months ago; today it is the center of a huge defense project. Wingo's turn might be next.

The general opinion here seems to be that ten or twelve miles away is quite close though. Not many thoughtful men here want to see a huge plant

Fifteen Years Ago

(June 12, 1926)

Leslie Weaks has returned from a trip to the Lake.

Mr. and Mrs. Noble Butterworth and Mr. and Mrs. Felix Gossum left last night for a trip to Morgantown, Ind.

Lee Elden Earl, who has been attending school in Memphis, has returned for vacation.

Roy Walch left last night for Chambersburg, Pa., to visit his mother for several days.

Master Theodore Kramer left today for Fairfield, Ill., to visit relatives for several days.

Mrs. Harry Murphy entertained yesterday with a bridge shower, honor Mrs. Winfrey Shepherd, a recent bride.

Mrs. D. F. Lowe and daughter, Martha Norman, have returned from a visit in Memphis.

Mrs. Kate Moore, 86, died yesterday at the family home near Crutchfield.

Alex Inman spent the week-end in St. Louis.

The Lions Club, in an interesting session yesterday, discussed the matter of improving the breed of chickens in this section. Lion Harry Murphy stated in the discussion that chickens from other states brought far better prices than those shipped from this section. A committee was named to investigate the prospects and try to bring about better conditions.

Mrs. Clyde Williams and Mrs. Enoch Browder have returned from a trip to St. Louis.

Selected Feature

THEY FOUGHT NAPOLIAN AND THEY FIGHT HITLER

It seems a pity, in these days of anti-Semitism thinly disguised, that an article on the Rothschilds should find nothing about them to bring forward save only that once on a time they were prodigiously wealthy and that some of the younger branch are "weakened" or play-boys.

True, cursory reference is made to one whose medical prominence and worth could not well be ignored. But the cardinal, basic fact of the family fortunes seems to have escaped the writer. That fact is that, while Napoleon was raging around Europe, the House of Rothschild delectably, recklessly as it then appeared, put its money on what had all the semblance of the wrong horse. They backed, supported, financed Great Britain and those European governments which opposed that conquering military genius. They won. Waterloo recouped them handsomely and vindicated the judgment of these Frankfurt men whose start was so little noble.

Are they making the same "mistake" again? Are all the dollars of the old banking house, relatively diminished in this day of billions, now lined up against Hitler and gambled on his utter discomfiture and defeat?

It would seem to be that way. The London partners have never hesitated. They are as English as the Bank of England. Their Jewry sets the pace for all Jews, all European Jews that is, of means and standing. They cannot parley with the oppressor. They have no truck, no alliances, with Nazism in any form or in any land. And their weight is not negligible.

The story thus completed is less picturesque, but it happens to be more honorable and, above all, more true.—Courier-Journal.

right in the city or at the city limits. Such things have a way of dislocating ordinary business life, and about as many lose as gain in such things. A plant ten or twelve miles away would vastly benefit the towns of Mayfield and Fulton—perhaps Mayfield more than Fulton—and in fact develop this entire area between Fulton and Paducah. It is likely, too, that if Mayfield should get the major part that town would rather see the overflow come in this direction rather than in the direction of Paducah.

Anyhow, it is something to think about and make plans for.

Training For Defense

By Rufus T. Strohm

Dean, International Correspondence Schools

TWO industries, aviation and shipbuilding, are pushing ahead with increasing speed to meet the pressing demands of a national emergency. Orders and more orders have piled up as plant expansion and tooling problems have received the major consideration. Another problem concerns the shortage of trained men.

Rufus T. Strohm

Both shipbuilding and airplane construction might be considered romantic occupations by the young man starting his first job. However, the actual fabrication of ships and airplanes calls for the most exacting, skillful type of workmen. Romance there may be when the finished products are in the air or on the sea, but before a ship or an airplane is placed in service it must be as near perfect as man can fashion it.

New building techniques have been developed for both industries. Twenty years ago shipyards roared with the sound of riveting guns. Today these yards are less glamorous, for the flash of the welding arc and the sound of the gas torch indicate the vogue of the "all-welded" ship. Revolutionary changes have been developed also for the aircraft industry.

Ships of the sea and ships of the air are put together by the most skilled men. To train such men takes time, more time than may be granted us to prepare for defense. To shorten the training period, management has adopted various types of instruction. Much studying must be done by the apprentice in his spare time. Never before has he had such a great moral responsibility. Here is the real test. It rests with every individual. Opportunity is here for the man who is trained and willing.

Laundry Owners
Warned To Obey
Sixty Hour Law

Frankfort, Ky. — William C. Burrow, State Industrial Relations Commissioner, warned Kentucky laundry owners Tuesday that his department would institute legal action against anyone violating a 1912 law which limits the working hours of women to ten hours a day and sixty hours a week.

Burrow said "numerous complaints" against violations had been received. Only women employed in domestic service or nursing are exempt from the act's provisions.

"In my opinion," Burrow said in commenting on a letter he sent to all laundry owners, "the law sets a reasonable limit of hours for women and it is the intention of this department to enforce rigidly that limit."

A PROCLAMATION

To the Citizens of Fulton, Greetings:

WHEREAS, in these days of world-wide turmoil, with subversive forces and influences striving to discredit and destroy the ideas and institutions symbolized by our Country's Flag, all loyal Americans should answer this challenge by displaying and paying tribute to that Flag as the emblem of our rights and liberties; and,

WHEREAS, with this end in view, the period June 8th to 14th has been designated as Flag Week by The United States Flag Association, during which time patriotic exercises and other appropriate functions are to be held in towns and cities throughout all the Land,

NOW, THEREFORE, as Mayor of Fulton, I do proclaim June 8th to 14th as FLAG WEEK and direct that during this period the Flag of the United States be displayed on all municipal buildings and vehicles. Furthermore, I do invite the people of Fulton to display the Stars and Stripes at their homes, places of business and other suitable locations as well as on their cars, and to hold patriotic exercises, plan flag parades and do other suitable things as a public expression of our love of our Country, our allegiance to its Glorious Banner and our belief in the institutions of America Democracy.

IN WITNESS WHEREOF I have hereunto set my hand and caused the seal of the City of Fulton, Kentucky to be affixed this 10 day of June in the year of our Lord Nineteen Hundred and Forty-one.

House Group Approves Reducing
Money For W P A Appropriation

Washington. —A reduced relief appropriation of \$885,905,000 for next year was approved Monday by the House Appropriations Committee which voted also for retention of present restrictions on W. P. A., such as that forbidding employment of aliens.

The total was \$95,000 below what President Roosevelt recommended for the twelve months beginning July 1, and was 35 per cent lower than the current fund. The committee said the cut would necessitate a reduction in W. P. A. employment from an average of 1,300,000 this month to \$94,315 in July or August.

In addition to trimming W. P. A.'s request the committee allocated \$50,000,000 of the total to the Agriculture Department for extension of the food stamp plan, and called for a \$10,000,000 cut in the \$50,000,000 fund now available to W. P. A. for paying wages higher than usual relief wages to workers on defense projects.

The committee gave "heartly commendation" to continuation of the W. P. A. defense training program which it said had enabled more than 30,000 workers to fit themselves for private jobs.

President Roosevelt and Howard O. Hunter, W. P. A. commissioner, had proposed a series of revisions in the relief law, including removal of the ban on employment of aliens and the requirement that persons on the rolls for eighteen months be dismissed to make room for others.

Governor Uses Special Funds To Modernize Old Hospital Building

Frankfort, Ky. —Gov. Keen Johnson Monday announced plans to take money from the Governor's emergency fund to renovate an old building at Central State Hospital to show the possibilities of modernizing and fireproofing antiquate plants at the eleemosynary institutions.

Bids will be opened June 24 for the complete interior reconstruction of Ward Building No. 10, a three-story unit on the rear grounds at the Lakeland institution. Five months will be allowed for com-

pletion of the job that State Engineer Ralph C. Wyatt estimates will cost about \$50,000.

Governor Thought of Idea
"The whole idea is mine," Governor Johnson said. "Three weeks ago I decided to take enough money from the emergency fund to show that it is both possible and practicable to modernize and fireproof these old buildings. So I called them all in here and asked them to select the worst building of the lot, then draw plans to modernize it thoroughly and com-

pletely."

When the work is finished perhaps by late fall, the modernization unit will be available to members of the 1942 Legislature, the Jefferson County grand jury, and such other groups as may be interested to see just what can be done toward the rehabilitation of the mental hospitals at Lexington, Lakeland and Hopkinsville and the Institute for the Feeble-Minded at Frankfort.

The building is 36 by 190 feet. It is solid structurally, with a good roof and solid brick walls eighteen inches thick. However, the heat is only 50 per cent adequate; the window sills have rotted out; the wiring is unsafe and inadequate; the woodwork is worn; the plumbing is out of date; the interior is cut up into small rooms—in short, the building is termed everything that a modern custodial unit ought not to be.

Training For Defense

By Rufus T. Strohm

Dean, International Correspondence Schools

Too much emphasis cannot be placed on the marshaling of our man-power, our money, and our natural resources in the stupendous program of all-out preparedness. Schools and colleges, too, have a heavy responsibility in this program.

If we are effectively to provide for the common defense of democracy and freedom in today's world, every individual and institution in our nation must perform a proper part. Both educators and students must do their work with the same speed and efficiency that is demanded of soldiers and workmen.

Defense training is a widely discussed matter. The experts are pooling their opinions and every source of supply is being exploited to aid the speed-up in training. It is generally agreed by these same experts that the rate of employment in defense industries would be faster if it were not for a shortage of supervisory personnel—managers and foremen.

In the rush to train workers for special jobs, so that they may do certain jobs with their hands, we should not lose sight of the fact that America's ultimate success depends largely upon moral and spiritual preparedness. Perhaps we should encourage this spiritual state by warning young men to give some thought to the longer view—that of preparing for a permanent career.

Educators have a job to do in keeping students interested in the future as well as the present. The task of the moment is pressing, but it is not everything. Democracy is founded on more than jobs. It is a state of mind, properly nourished and properly balanced.

House Group Keeps Present Tax Limits

Washington. — Single persons making less than \$800 and married couples earning below \$2,000 would continue to be exempted from individual income taxes, under a decision Tuesday by the House Ways

and Means Committee.

Writing a \$3,500,000,000 new tax bill to help finance the defense program, the committee voted to retain the current personal exemptions for all individual income

tax purposes. This means also continuance of the present \$400 credit for dependents, such as children.

Only Half Pay
Of the 16,000,000 persons who filed returns this year on their

1940 income only about half actually paid taxes, the remainder going tax-free because the total of their exemption, credits and deductions was greater than their gross income.

OF COURSE You Will Be Much Better Satisfied With— A 1941 Electric REFRIGERATOR

It will always keep your foods fresh and wholesome until used, and freeze more ice and desserts faster in hot weather.

It will cost you less to buy and less to operate year after year than any other type of mechanical cooling unit. Your dealer will be glad to explain why, with plenty of proof.

It will save you more hours of time and work in the preparation of meals every month, year after year.

Its accurate automatic cold-and-moisture control—clean, cool, simple electrical operation—roominess, convenience and beauty—will constantly please you.

It will not need any plumbing connection for service. You simply plug it into the handiest electric outlet—whether you live in city, village or country.

No wonder about 85 of every 100 women choose electric refrigeration! They know it is the best there is.

CLUBWOMEN RESPOND TO NEEDS OF WAR

Lexington—May 15—Mrs. R. G. Williams of Somerset, president of the Kentucky Federation of Women's Clubs, who presided over the state convention in Lexington May 13-15, said yesterday "it has not been difficult to mobilize the minds of clubwomen to respond to the needs of war and that response will continue just as long as there is war."

In her report of the year's activities, Mrs. Williams included these things: participation in the "Victory Book" and "Victory Garden" programs, sponsorship of patriotic rallies and educational forums, sponsorship of school art contests, purchase of an "Iron Lung," sponsorship of a contest to select a sesquicentennial poem, participation in various child health, war work and community service programs.

Mrs. Williams, who succeeded Mrs. Weylan Rhodes who died in office last year, paid tribute to the late president for her "unselfishness and untiring work."

ANNIE ARMSTRONG CIRCLE WILL MEET MONDAY

The Annie Armstrong circle of First Baptist church will meet Monday night at 7:30 o'clock with Mrs. Malcolm Bell at her home on Arch street. Mrs. Edna Abell will be co-hostess.

BETTY SUE HOUSTON ENTERTAINS CLUB

Miss Betty Sue Houston was hostess to her club of Fulton High girls Wednesday evening at her home on Bates street when she entertained at a spaghetti supper.

The group of seven girls met at her home early in the evening and after a delightful supper, enjoyed the remaining hours informally.

Those present were Misses Doris Branch, Mildred Mount, Sara Nell Alexander, Grace Cavender, Martha

Ellen Duley, Donna Jean DeMyer, Marilyn Shankle and the hostess.

FULTON GARDEN DEPARTMENT ENJOY LUNCHEON AND GARDEN PILGRIMAGE

Members of the Garden Department of the Fulton Woman's Club enjoyed an outstanding meeting yesterday afternoon, a luncheon and a pilgrimage of lovely gardens in Mayfield. Thirty-six members of the department were in attendance.

Serving as hostesses for the afternoon were Mrs. Vester Freeman, Mrs. Jim Hutchison, Miss Dorothy Phillips, Mrs. W. L. Carter and Mrs. K. E. Dawson.

The group met at the club home here at 12:30 o'clock and from there went in a body to the gymnasium in Water Valley. The ladies of the Methodist church in Water Valley served them a delightful luncheon before the trip to Mayfield, and a brief business session was held. The retiring chairman, Mrs. Clint Reeds, turned the meeting over to the recently elected chairman, Mrs. S. M. DeMyer, who conducted the business routine.

In Mayfield they visited the exquisite flower gardens of Miss Catherine Beadles and Wilkes Beadles and Mr. and Mrs. Ed Gardner. These gardens are perfectly planned, beautifully landscaped and hold an outstanding variety of early summer flowers in which roses, peonies and pansies are predominant. Artificial lakes, bridges, shelter houses and other unique garden oddities add to their beauty.

Those enjoying the trip were Mesdames Reeds, DeMyer, Warren Graham, Bill Cloys, Smith Atkins, K. R. Key, I. H. Read, Dick Bard, R. E. Belw, Lon Jones, Jim Hutchison, J. O. Lewis, John Earle, Ernest Bell, Lawrence Shelton, F. M. Jenkins, Leon Browder, J. J. Jones, Roy Barron, Rob Fowlkes, F. G. Schoe, C. C. Parker, James T. Fowlkes, Poyner DeMyer, Sam Winston, B. B. Alexander, F. H. Riddle, M. L. McDade, Robert Graham, Ray Graham, W. W. Miller, Vester Freeman, J. W. Elledge, S. E. Campbell, Abe Jolley and K. E. Dawson.

BETTY JEAN BOWLES IS HOSTESS TO CLUB

Five members of the N. S. C. club gathered at Evans Drug Store last night for an informal meeting when Miss Betty Jean Bowles was hostess. Following the serving of delicious refreshments the group attended the picture show.

Present were Miss Bowles, Miss

Martha Bell Grayhorn, Miss Sara Mae Evans, Miss Sue Clements and Miss Anna Jean Norris.

Faulkner, Paul Underwood, James A. Bonner, F. S. McNeil, R. R. Rives, R. R. Slater, A. W. Ferguson, and J. S. Reeks.

GAS RATION MAY BE EXTENDED TO INCLUDE NATION

Forecast National Transportation Ration in Congress Circles

Washington — Nation-wide rationing of transportation was forecast in Congressional circles today and some informed legislators said there were strong indications that the rationing of gasoline in 17 eastern states might be extended to include the whole country after July 1st.

As footsore easterners formed long lines around registration places for the third day to obtain ration cards that expire June 30, Senator Aiken (R-Vt.) said he believed that before that date arrived plans would have been worked out to limit the use of domestic transportation systems.

He predicted that government control of the movement of all products carried by rail and water would be reflected in the rationing of gasoline on a nation-wide basis, a development Senator Downey (D. Calif.) predicted would come in any event.

Downey said he looked for a

continued decline in gasoline and fuel oil reserves on the eastern seaboard, despite efforts to patch together a pipeline which might be capable of delivering 100,000 barrels of oil daily from Texas fields.

This meant, Downey added, that eastern motorists were likely to find their quotas even skimpier after July 1 than during the first rationing period which goes into effect Friday. The least allowance in the east will be three gallons a week for "non-essential" motoring.

Fear of repercussions at home caused some legislators to exchange their unlimited X cards to A and B cards with limited quotas.

Tigers Hand Jackson Shutout In Opening Game Of Series 11 To 0

Hanging up their sixth straight victory and the third shutout during this stretch, Manager Mullen's Tigers handed Jackson a shutout there last night, winning easily 11 to 0. Herman Bishop was master of the situation at all times, holding the Generals to four scattered singles, and never getting in trouble. Jackson used the old reliable, Jess Webb, who soon went out under fire and Shean finished the game. The Jackson hurlers pitched well, but seven bobbles behind them kept them in trouble all the way.

Bishop fanned seven and had remarkable control. Peterson, playing his first game in several days, poled a homer in the seventh with the bases empty.

The Tigers are playing in Jackson again tonight and tomorrow afternoon. They come back to Fairfield Monday night with Owensboro moving in for the first meeting of these two teams. The Fulton-Jackson game was the only league game played last night, with the other teams arranging for double bills Sunday afternoon.

McCLELLAN STARS IN TRACK MEET AT LEXINGTON

Five Fulton Entries Are Lone West Kentucky Survivors

Coach Hughes' thimble, led by Hots McClellan, did themselves proud in the qualifying round of the State high school track meet at Lexington yesterday, the Bulldogs being the lone West Kentucky survivor in the finals. Entries from Murray Training, Murray high and Hopkinsville failed to qualify.

McClellan, who is a senior, turned in the best records in the 100 and 220 dashes and the high jump, in the first day's heats. He sprinted the 100 in 10.2; the 220 in :24 and cleared the bar at five feet, five inches. Billie Reed tied his effort in the high jump.

The 440 yard relay team, composed of Cannon, McClellan, Sharpe and Moore, also qualified and will compete today in the finals with Male, Danville, Ashland, and Manual.

In the finals today Fulton will be represented in the 100, 220, 440 relay, and high jump.

BLACK STICKERS TO REPLACE STATE CAR LICENSE TAGS

Motorists To Be Required To Keep Plates On Cars

Frankfort, Ky. —Kentucky will use orange and black wind shield stickers in place of automobile license plates for 1943.

The stickers of the transparency type will be approximately four by two inches and will be applied to the lower, right hand corner of windshields acting State Revenue Commissioner Ward Oates said today. He added that operators would be required to keep their 1942 plates on their cars in addition to having the stickers next year.

Oates said Kentucky had been spending \$36,000 annually and using 200 tons of steel for 500,000 plates and estimated the stickers would cost two and a half cents each at the most and save \$20,000 a year.

The War Production Board has limited each state to one-tenth of the amount of steel it used for tags last year and Oates said that about 25,000 plates would be made for new cars, replacements, dealers and for motorcycles. He explained that stickers would not be practicable on motorcycles.

Oates said bids would be called for on the stickers and that they would be distributed next December through the county clerks.

Consideration was given to other types of stickers, Oates said, and also to plastic and plywood plates and to "date strips" to be applied to the 1942 plates. He added plastic was too expensive, plywood too fragile and that the "date strips" bearing the numerals "1943" might be too readily stolen and transferred to other 1942 plates.

Now is the time to subscribe for the Leader.
