## I. C. SPONSORS VICTORY GARDENS

With an advance report that more than 1,000 Victory Garden plots along the Illinois Central Railroad right-of-way have already been allotted, announcement is made by R. E. Barr, vice-president in charge of traffic, that he is offering cash awards in a system-wide competition. Thirty awards will be made, the top being \$100.

Competition is open to all employees who plant Victory Gardens on the right-of-way or on adjacent railroad-owned property. Photographs of the gardens at their peak of production, together with diagrams showing arrangements and varieties of vegetables, plus records of expenses and yields, should be submitted to Mr. Barr before September 30 and will be considered by three qualified judges.

It is hoped that this contest will spur the interest of employees and others living along the Illinois Central," said Mr. Barr, "so that they will grow vegetables for immediate consumption, as well as for home canning. This will, we believe, help to release commercial vegetables for other wartime uses and thus contribute to an early victory."

## FORMER EMPLOYEE OF NEWS HOME ON FURLOUGH

Donald Hall, former employee of the Fulton County News and who is now in the U. S. Navy spent the past few days with his mother, relatives and friends here.

If any of his friends care to write to him his address is J. D. Hall,

Plans for operation of the Fulton Country Club this season, made several weeks ago, will be put into execution this week, and on Wednesday and Thursday workers staged a campaign for members and membership dues for the coming year. Plans have already started on the golf course, but the time has come for the grounds to be put into playing condition and this means the beginning of regular expenses. Harley Dunn who has been around keeper for several years, has returned from California where he has sent the winter, and will begin working at once.

The small building recently bought from the board of education, must be moved to the Country Club, and this will entail considerable expense. In addition, the greens must be worked and placed in playing condition.

Many people seem to have the opinion that membership in the Country Club is a sort of closed affair, but President Bushart states that new members are always welcome. Several new members have recently been received, and club officials are hoping that many others may be found.

## TEACHERS' SALARIES

A special session of the Legislature to relieve the "crisis" in regard to teachers' salaries was urged yesterday in a statement by Dr. O. F. Hume, Richmond, Republican national committeeman from Kentucky and a member of the Kentucky State Senate.

He said he had talked with "a great many Republican members of the House and Senate and I am convinced that every member will unhesitatingly join in a legislative program to relieve this situation."

Dr. Hume cited the "pitiful pay" received by Kentucky teachers, the loss of many teachers and the "crisis now facing the youth of our state at one of the most critical periods of maintaining our high standards of morals."

His statement said, in his opinion, Gov. Keen Johnson had refused to call a special session of the Legislature "for political reasons" while there is a "surplus of many millions of Kentucky's money lying around in the treasury."

He called a "lame excuse" Governor Johnson's refusal to issue a call for a special session because Lieut. Governor Rodes Myers "will pull some sinister stunt by trying to repeal the state income tax if such session is called."

Dr. Hume charged the Governor knows "that no legislation can be acted upon except that included in the call."

He added "there is no reason whatever why the State cannot utilize some of its surplus to aid education in such a crisis. It seems to me that the Equalization Fund should be raised to the legal limit first. Then whatever money the Legislature decided to spend on schools could be distributed on the per capita basis. However, this is only my plan. I am ready to join in any other plan that will give us relief," Dr. Hume stated.

#### TREAT THOSE EWES

Agricultural Agent, R. W. Shirer, of the Illinois Central Railroad came into our newspaper office this morning with a warning for our sheep raisers advising that now is the time to treat our breeding ewes for nodular worms. It is the last step in ridding the animals of these parasites which ruin the intestines for wartime use in making surgical sutures.

Ewes, of course, should have had their first treatment in early winter. Certainly they should have one now. Usually two treatments are more effective than one. Phen-thiazine is the drug to use. The dose for a sheep is one ounce and for a lamb use only one-half ounce. Shirer suggests this be taken care of at once as your contribution to the wartime effort.

Pfc. Paul Walker of Camp Leonardwood, Missouri, arrived Tuesday to spend a few days with friends and relatives here.

#### LIFE-SAVING "BOMB"

The newest "radio bomb" isn't meant for destruction, but for saving lives. Frequently an airplane pilot can't see the ground, and must fly by instruments. Lee frequently, the instruments get out of order, and the pilot has a tough time keeping his plane in the air, since he doesn't know his altitude. The new "bomb" is a small radio sending unit. The instant the pilot tosses it out of the plane, it begins sending out a signal. This signal ends immediately upon contact of the bomb with the earth. The pilot can measure the time of the instrument's fall, and thus compute his altitude.

#### FOR ACCURATE GUNFIRE

Electricity, coupled with American ingenuity, has given American bombers and warplanes a decided edge over those of the enemy. Most of our tanks and bombers today have electrically-powered gun turrets which enable the gunners to fire accurately in any di-

rection while the tank or plane is in motion. Moreover, both our tanks and planes have electrical firing controls which are greatly superior to those of the enemy. Our tanks can fire their heavy guns with great accuracy while traveling at top speed. The Germans are forced to come to a dead stop before firing if they want to shoot within fair accuracy.

## Plant Your VICTORY GARDEN NOW!

### Help Grow Food for Freedom and for Your Own Family

### Six Steps to Success:

1. Make the soil rich- Apply rotted barnyard manure at the rate of 10 to 15 tons per acre. Use a high grade fertilizer liberally
2. Plow and harrow the soil until it is pulverized as fine as sugar.
3. Get a planting calendar of varieties to grow and dates to plant from your County Agent.
4. Plant all the different vegetables the family likes.
5. Cultivate vegetables clean.
6. Keep on planting. When one crop is harvested, plant another.

BUT WAR BONDS AND  
HELP TURN THE HEAT  
ON HITLER!

ADOLF may not live long enough to pay for his mass murders by actually sitting in the "hot seat." But electricity is already hastening the day of his doom!

Electricity drives delicate machines that turn out time fuses—and thundering presses that forge tank armor. Electricity is a basic part of every bayonet, bomber and battleship—of all America's roaring war production.

Even when war began, America had more electric power than all the Axis countries combined. It's no military secret that today our power supply is far greater. And it's no secret,

either, that the electric companies under experienced business management supply about seven-eighths of it!

Free Americans set world production records primarily because they are free—because they have grown up under a business system that encourages initiative and invention—instead of reducing them to the ranks of Axis slaves.

Free Americans are freely giving billions of dollars to help put Hitler in the chair. But once he's there, a cent's worth of electricity will finish the job! Which goes to show what BIG things penny-priced electricity can do!

### A LETTER FROM SECRETARY OF THE TREASURY

To All Newspaper Publishers:

To make current and continuing war financing a complete success we shall need the wholehearted cooperation not only of the newspapers but also of newspaper advertisers.

In addition to the powerful aid that your newspaper itself can supply, I shall appreciate your help in informing business and industry in your community of the important role that that sponsored local newspaper advertising can play in advising the public of the

urgent need for investment in Government securities.

Sincerely,  
H. MORGENTHAU, JR.  
Secretary of the Treasury

### TWO NEGRO BOYS ARRESTED FOR MEAT STEALING

Fred Ountes, 17, of Chicago and Johnny Lewis, 19, both negroes, have been arrested by local officers in connection with the theft and disposal of 200 pounds of link sausage from an I. C. box car north of the coal chute, Thursday night. They are being held in the local jail awaiting a FBI man who will take them to the Federal jail at Paducah.

Ountes is alleged to have broken into the box car and stole the meat and Lewis, who lives on the G. H. Dallas farm north of town, is charged with disposing of the stolen goods.

### Sentinels of Health

Don't Neglect Them!

Nature designed the kidneys to do a marvelous job. Their task is to keep the flowing blood stream free of an excess of toxic impurities. The art of living—the art of constantly producing waste matter—the kidneys must remove from the blood if good health is to endure.

When the kidneys fail to function as Nature intended, there is retention of waste that may cause body-wide distress. One may suffer nagging backaches, persistent headaches, attacks of dizziness, getting up nights, swelling, stiffness under the eyes—feeling tired, nervous, all worn out.

Frequent, scanty or burning passages are sometimes further evidence of kidney or bladder disturbance.

The recognized proper treatment is a diuretic medicine to help the kidneys get rid of excess poisonous body waste. Use Doan's Pills. They have had more than forty years of public approval. An endorsed remedy for kidney trouble.

### CONTROL CAN DO WHAT PROHIBITION CAN'T!

THE OLD JUDGE SAYS...

"Looks like a pretty expensive cigar you've got there, Judge."

"Yes, it's a real good one, Bill. Won it from Chris down at the cigar store yesterday. He got pretty positive in a discussion we had and I had to take him up on it. Let me show you three good cigars to my one that the three states that still have prohibition have less crime than the other states. Well, all I had to do was step across

the street to my office where I had some recent F. B. I. figures in my desk drawer. Why, on the average, those three states have a worse crime record than the whole rest of the country. And there's no good sound reason for it, Bill. There's no such thing as a dry community. It's only a question of whether liquor is sold legally or illegally. And when it's sold illegally it means bootleggers, gangsters and more crime."
