my opinion. came within the meaning
of 'little steel formula' is that I am not in favor
of extending a formula which would allow
for wage adjustments beyond the 15 per
cent formula, at least until such time as the cost of
living reaches a point where it is necessary to
make that kind of formula. That would be the same
as saying that the cost of the people's living in
many communities is going to become so high
that the worker in a given case can't
be expected to make wage sacrifices
as they squabbled
in
classes of the people must make. Un-
evitably, testifying into details of the trareree of
public service contrary. The right,
limited to anything at all.

CONTROL CAN DO WHAT PROHIBITION CAN'T!

THE OLD JUDGE SAYS...

"I've been married to ask you for the last twelve months, John, what you think of this prohibition which has been enforced in your home?"

"I feel that the State has the power to make statutes, and that we accept them."

"But you are a conscientious man of great goodness and integrity. Why in the name of heaven accept a law that is against the law of God?"

"I feel that the people who are doing the enforcing of this law are the ones responsible for the enforcement of it."

"Well, I have no doubt of your sincerity and integrity. But you have a responsibility to the people who are doing the enforcing of this law."

"I have a responsibility to the State. I feel that this is a constitutional law."

"Well, I don't feel that. We can all make up our minds."

"I do not want to argue about things we know. I want to do what will be best for the people."
