Hum Task of Resettling Over 6,000,000 Refugees in Poland

Washington-April 14—A high official of the Polish government this morning reported a total of 6,000,000 refugees who have fled to the interior of Poland since the German conquest. Poland, on the basis of the Geneva Convention of 1923, is responsible for the temporary care and maintenance of the refugees and the Polish government is now actively engaged in transporting the refugees to the new areas where they will be settled.

The official said that the refugees are being transported in small groups and that the temporary centers are being established in various parts of Poland. The refugees are being housed in schools, churches, and other suitable buildings.
