INFORMATION OFFICERS SHOULD KEEP THEE IS OFTEN

The Fulton Police Department has issued a warning to citizens to keep their doors locked and to be cautious in answering the door when a caller claims to be an information officer.

In recent weeks, several residents have been disturbed by a false caller who claims to be an information officer. The caller asks for personal information, such as Social Security numbers and bank accounts, and then threatens to arrest the resident if they do not cooperate.

The Fulton Police Department has issued the following warning:

1. Be cautious when answering the door to a caller claiming to be an information officer.
2. Ask for identification and call the Fulton Police Department if you are uncertain about the caller.
3. Do not provide personal information to anyone you do not know.

FULTON COUNCIL MEETS

The Fulton City Council met Monday evening to discuss various topics.

The council members discussed the installation of new lighting on Fourth Street, which will improve safety for drivers and pedestrians.

The council also discussed the need for additional police officers to assist with patrolling the city.

The meeting was adjourned.

They manufacture out of whole cloth the individual and collective chastity recruiting officials consider it is so precious. Sometimes they lasse.

WAVES, along with the other legs, have confirmed women's issues. The release of thousands of men for battle duties deters the war effort. In its armed forces, WAVES is enduring the men's services. Everybody remembers about this impossibly factorial expansion. If Goebbels himself didn't laise.

It's been a WAVE that tales are chief. We Salute the unsung heroes of World War II. With patriotic fervor, the Army Air Forces are transforming and switching equipment and the solution of highly intricate problems. This is how America's armed forces are doing a magnificent job. When the full story is unfolded, the important thing is that the railroads are doing a magnificent job. They have come through gloriously.

To Buy ELECTRIC POWER

THAT'S TRUE, even though the electric light and power industry in America was called to its aid in 1917, the present amount of electric power in history—189 billion kilowatt-hours! As of the end of 1942, the average home used twice as much electric power in 1910, and in those 12 years the price per kilowatt-hour decreased 410 percent. The annual use increased 600 percent.

FULTON COUNTY NEWS, FULTON, KENTUCKY

Let's Stop This Waste!

Our trains are killing an average of 1600
head of livestock per year.

The cattle and hogs being destroyed on
the GM&O per year have a ration
value of approximately $50,000—enough
to feed 3,000 people for one year.

Last year we paid claims in this
connection to the amount of
$50,000. We would like to
eliminate this expense.

What is more important now, however,
the loss to our country of the
animals involved.

Furthermore, these killings slow down and
stop our trains, causing loss of
hour delays in the handling of
and war materials.

And then, they can cause serious acci-
dents which we cannot afford.

Our equipment is irreplaceable.

May we not appeal to the patriotism of
the citizens along our lines to cooperate,
least for the duration of the war, in keeping
our livestock off of our railroads.
