T. L. HOWARD

T. L. Howard Promoted at Calvert Plant

Air Reduction Chemical Co. announces the promotion of Thomas L. Howard to operating foreman in the company's alkylol-stearate plant at Calvert City.

Mr. Howard served two years as a chemical operator in the Benton High School. Prior to joining Air Reduction, he worked in the chemical department at Union Carbide & Carbon Chemical Company in Paducah, Ky.

Mr. Howard, his wife, daughter, Dianna Lynn, and two sons, Chris Thomas and Mark Kennedy, make their home in Benton.

Schools Will Open; Pupil Safety Urged

Marshall County schools open Monday with an approximate enrollment of 2,400 pupils.

Benton City Schools will open Wednesday with an enrollment of approximately 800 students.

The county schools will operate 35 buses to transport the pupils, and the Benton school also will operate several buses.

County Superintendent Holland Rose and City Superintendent Joe Doyle are urging motorists to use every precaution possible when passing school buses or driving in the vicinity of the schools.

Motorists are requested to observe all the rules and regulations regarding the passing of school buses and also watch carefully for school children crossing streets and highways.

Marshall County and Benton have been very fortunate in that the school buses have had only a few minor accidents, and the schools would like to keep up this fine record.

**KIWANIS AND LIONS
PLAY SOFTBALL FRIDAY**

The Kiwanis and Lions Clubs will play softball Friday night, Aug. 22, at 7:30 o'clock at the Benton City Park.

Admission will be FREE to this super athletic event, and a large crowd is expected to attend.

Suscribe to the Courier.

Soil Bank Acre Rate Revealed

By ROBERT L. RUDOLPH

Marshall County's average rate for 1959 Conservation Reserve is \$13.50 per acre. However, a productivity index MUST be established for each farm, which means that different farms will have different rates, depending on their productivity. The highest possible rate for any farm will be \$25 per acre, and the maximum total dollars per farm is \$5,000.

Two types of payments will be made. An annual rental payment, acres under contract times rate per acre (this payment is made each year the contract is in effect) and cost-share payments made once during the contract, if grasses and legumes must be established on the land or other practices are carried out. Rates of annual payment previously established for land already under contract will not be changed.

In order to be considered for a contract, a producer must furnish certain information at the county office, and request establishment of a farm rate. On notification of farm rate, a producer may then apply for a contract, giving number of acres which he desires to put under contract. The first application date begins Sept. 1, and closes Oct. 10, to obtain farm rate. Oct. 24 is the final date to apply for a contract.

If any producer has thought of making some changes in their farming operations, now is the time to consider the Soil Bank; if you would like to scale down operations, cut down on surplus crops, plant some forest trees, build the farm pond you and your family have been wanting, improve the hunting on your farm with wildlife plantings and shelter, now is your opportunity to do so by putting some or all your land in the Conservation Reserve.

Crown Furniture Is Observing Its 5th Birthday With Sale

The Crown Furniture Co. of Benton is celebrating its 5th anniversary, beginning Friday of this week.

Earl St. Marie, owner of the firm, announced this week a special factory purchase of close out living room suites in connection with the sale.

The firm started in business in Benton in August 1953 with 3000 square feet of floor space. Since that time, the firm has grown so that it now occupies over 6,300 square feet of selling space. The firm also has remodeled both the interior and exterior of the store where it now has one of West Kentucky's most modern furniture display stores.

The drive-in front features plenty of free parking space that is black-topped.

When the firm began business only Mr. and Mrs. St. Marie were working. Today the firm has a staff of six.

A full page ad announcing the values offered in the 5th anniversary can be found in this issue of the Courier.

PROUD OWNER—Leon Riley hands the keys of a brand new Edsel to Wilford Howell of Benton Route 2. Mr. Howell has the distinction of buying the first Edsel sold by Riley Motors. The firm just recently acquired the Edsel line in addition to the Mercury line.

Fair's Give-Away Program Set for Saturday Night

The big Country Store Give-away of the Marshall County Fair, which was scheduled for last Saturday evening and was rained out, will be held at the Benton City Park Saturday night, Aug. 23, starting at 7:30 o'clock.

Admission will be the same as the admission to the fair. No passes will be accepted, but season tickets and box seats are good.

Appearing on program will be the Hamilton Bros., the Smith Bros., Maple Springs and Happy Five quartets.

Everyone is urged to bring all stubs they received through the fair for the big drawing of prizes at 8 o'clock.

There will be 30 big prizes and several small ones given away. Some of the prizes are as follows: 21 inch RCA TV, living room suite, roaster oven, suit of clothes, topcoat, child's coat, lamp, aluminum yard furniture including a glider and lounge.

The grand finale of the Fair will be the huge display of fireworks, the largest ever seen in Western Kentucky, such as the American Flag, the welcome sign, Niagara Falls, big star, 2-3-4-5 inch aerial bombs and many others.

Audit Shows Calvert Finances Are Okay

The annual audit of the city's finances by the Calvert City Council shows an excess of revenue over expenses of \$238.24 for the past fiscal year.

The City Council approved publication of subdivision regulations for Calvert City and major street plans for the city as adopted by the planning commission.

City Attorney Pal Howard advised the councilmen that street paving project No. 2 is now tied up in the Court of Appeals and that paving of the streets this year is out of the question.

City Council is laboring under the impression that residents of Calvert City now living on unpaved streets are content to continue living on unpaved streets.

A letter to the mayor and councilmen is in order.

Street Commissioner Jess Doyle has been given the approval by the council to make necessary repairs of the alley back of the Methodist Church to make it passable.

New Calvert City residents are urged to put up house numbers so all houses can be found more easily.

Mayor Duckett has reported that contracts with officials of the West Kentucky Gas Company for gas on South Main Street are encouraging.

**NO MINIMUM CHARGE
UNTIL GAS IS TURNED ON**

Persons who plan to use natural gas this winter are urged to have the service lines run and the meters set as soon as possible. This will prevent a last-minute rush for service after cold weather strikes.

There will be no minimum charge made until the gas is turned on, so it will be to everyone's benefit to put in the lines and meters as soon as possible and avoid that last-minute rush.

**RETAIL MERCHANTS TO
MEET MONDAY NIGHT**

The Retail Merchants Association will meet Monday night at 7:30 at the Community Building. Plans will be made for a special Trade Day in September. All merchants are urged to attend and visitors are welcome.

Raiders Find Beer, Whiskey

County and city officers raided a residence in West Town Monday night and seized 11 half pints of whiskey and 24 bottles of beer.

Buddy Barnes was arrested and charged with possession of liquor for sale in dry territory. He was placed under bond in County Judge Haltom's court.

The raid was led by Sheriff George Little. He was assisted by Deputy Sheriff Kenneth Capps, Benton Police Chief Charles Carrell and Policeman J. L. Vaughn.

Sheriff Little had asked police to watch the residence for the arrival of Barnes. When Barnes arrived, Sheriff Little was notified and left home for Benton. Enroute, however, he met Barnes driving toward Paducah. He stopped Barnes and told him he had a warrant to search his residence.

Barnes agreed to go back to his home with the sheriff. The beer was found in the refrigerator, and the whiskey was found in an old juke box.

Peel House, One of Oldest In Town, Sold

The big, two-story Peel house at the corner of 12th and Maple in Benton was sold last week to Mrs. Anna Pearl Omar of Fulton. Price was undisclosed.

The house, one of the oldest in Benton, will be removed from the lot and a new residence will be erected on the site.

The property was purchased from the Peel heirs.

Before the Peel family bought the property, it was owned by the Boone Reed family. The Reed family moved to Paducah about the time of World War I.

Benton P-TA Will Hold First Meeting Of Fall Sept. 28

The Benton P-TA unit will start its second year of activities Sept. 25 with a meeting at the schoolhouse.

A parcel post auction and white elephant sale will be held that night.

Everyone is urged to attend and it is hoped that a large number will be at the first meeting. All old members and new ones, too, are invited.

2 Flatt Children Observe Birthdays With Party at Home

Phyllis and Frances Flatt celebrated their third and first birthdays respectively Tuesday, Aug. 19, with a party on the lawn of the home of her parents, Mr. and Mrs. Burt Flatt in Benton.

The lawn was decorated with balloons and the table held a multi-colored bowl filled with flowers, and a cake with a merry-go-round on top.

Balloons, suckers, birthday hats and whistles were given as favors to each child.

Those attending and sending gifts were Terry and Stevie Linn, Greg and Gloria Franklin, Tommy and Kathy Thompson, Stevie and Mike Puteck, Jeff and Julie Farmer, Matt O'Daniel, Garry Lampkins, Ricky Cross, Randy Lilly, Ben Howard, Lisa Gail Ellis, Nancy Jane Williams, Millie Jane Hawkins, Susan Jane McLemore and Sandra Prince.

J. D. Morris fell in the backyard at his home in Benton this week and suffered injury to a hip. The bone in the hip was chipped. He is at home and doing nicely.

My Neighbors
"What are you fixin' to do—make her marry you or join your union?"

Fairgrounds Area Offered Traders For 'Swap Ring'

The fairgrounds at City Park are available for traders who come to Benton on First Mondays but still maintain a certain amount of authority over the grounds.

This news was announced on Wednesday by H. H. Lovett Sr., former circuit judge. Mr. Lovett was head of the old Marshall County Fair Association that decided the grounds to the city but still maintain a certain amount of authority over the grounds.

That part of the grounds around the barns is available for a "swapping ring," and the traders also may use the race track if they so desire.

Under the new arrangement, traders may continue to come to Benton on First Mondays and use the designated areas at the fairgrounds for their "swapping ring."

Benton's City Council, in session Monday night at the City Hall, authorized Mayor Guy Mathis to try to find a site for the First Monday "swapping ring."

The City Council recently outlawed "swapping rings" in residential sections. The action was taken after a group of citizens protested the "swapping ring" in the vicinity of 13th and Elm Streets. The "swapping ring" had operated in that neighborhood for several years.

One rumor was heard this week that the First Monday traders might gather at Hardin for their monthly swapping of livestock, dogs, knives, etc., if Benton did not provide a place for them.

City Council also authorized Mayor Mathis to enter into a contract with the State Highway Department for the improvement of state roads that traverse Benton.

This action gives the mayor power to negotiate with the state on the proposal to solve the Court Square traffic problem by making one-way streets out of Main and Poplar, or any other such traffic plan as might be agreed upon.

P. E. Rose Observes His 80th Birthday

P. E. Rose was honored Monday night, Aug. 18, with a surprise supper at his home, celebrating his 80th birthday.

Those present were: Mr. and Mrs. P. E. Rose, Mr. and Mrs. Bud Rose, Mr. and Mrs. Sonny Rose, Mr. and Mrs. Rex Sless, Mr. and Mrs. Jimmie Mathis, Mr. and Mrs. Gilbert Jones, Mr. and Mrs. Winona Rose, Mr. and Mrs. Jerry Riley, Mr. and Mrs. Ronald Locke.

Mr. and Mrs. Curt Reynolds, Mrs. James Hendrick, Wayne Hendrick, Karen Mathis, Sharon Mathis, David Sless, Linda Sless, David Riley, Keith Rose and Dennis Reynolds.

Mr. Rose received many gifts and everyone enjoyed the visit and also the supper.

PVT. GRIGGS COMPLETES TRAINING AT FORT RILEY

Pvt. Ronald D. Griggs, 19, son of Stoney Griggs, Route 2, Calvert City, recently completed eight weeks of basic combat training at Fort Riley, Kan.

Griggs is a 1958 graduate of North Marshall High School.

WOMAN FALLS AT HOME

An elderly woman of Golden Pond fell at her home Wednesday and was injured. She was carried to Dr. Joe Miller's office for treatment. A Filbeck-Cann ambulance brought her here.

Congressman-elect and Mrs. Frank A. Stubblefield of Murray were guests of Mr. and Mrs. Pont Nelson Friday of the past week. They attended the Marshall County Fair and Horse Show.

Home Ec Teachers Attend State Event

Mrs. Janie Mofield of Benton, Mrs. Helen Arndine of South Marshall, and Mrs. Birmah Gammel of Symsonia were among the more than 250 who attended the annual conference of home economics teachers Aug. 12-15.

The four-day meeting was held at the Future Farmer Leadership Training Center in Hardinsburg. The theme of the conference "Home Economics Measures Up."

Miss Mary Lois Williamson, state director of home economics education, Department of Education, emphasized the important role the home economics teacher should play in meeting the challenges that come as a result of changes in society that affect everyday living.

One of these changes is the trend toward earlier marriage. One out of every three women in the United States is married by the time she is 18 years old. Of these married women, one out of every four has a child by the time she is 20. Home economics teachers have a big job to do in preparing these young women for home and family responsibilities, she said.

The teachers attending had an opportunity to learn "What's New in Foods, Textiles and Equipment for the Home" at one of the sessions. Technical developments in each field and a preview of what consumers may expect in the future were presented in a symposium.

The teachers worked in groups throughout the conference, learning what changes needed to be made in their program to measure up to 1958 living conditions and how to apply science principles in the teaching of home economics.

2 Magazine Salesmen Are Fined Here

Two magazine salesmen, both women, were arrested here this week on a charge of obtaining money under false pretense.

The women, Mrs. Rosemary Parker of Jackson, Miss., and Mrs. Stella Simpson of Sedalia, Mo., were fined \$50 each in the court of County Judge Haltom.

The fines were paid by the women's employer, a national magazine subscription company.

The women were accused of selling magazine subscriptions to old age pensioners who were either illiterate or their vision was too poor for reading.

The same two women were fined in Murray last week on a charge of raising a \$730 check to \$73.

Joseph Henderson Dies In Michigan; Funeral to be Here

Joseph Henderson, 43, died on Tuesday morning in Detroit, where he had lived for many years. He was a native of Marshall County and the foster son of the late John Hamilton.

Funeral services will be held at 2 p.m. Saturday at the Filbeck-Cann Chapel, Rev. W. Atwell will officiate. Burial will be in the Province Cemetery at Brinsburg.

The body will arrive at the funeral home at 7 p.m. Friday.

Mr. Henderson was a member of the Gospel Assembly Church in Detroit. He is survived by his wife, Mrs. Claudine Henderson; one daughter, Glenda Henderson; one son, Jimmie Henderson; and one brother, George Henderson. All reside in Detroit.

STORE ROBBED OF SHELLS ON EVE OF HUNT SEASON

The John Ed Barnes grocery at Harvey on Benton Route 3 was burglarized last Thursday night, apparently by a thief who had his mind on hunting.

The thief took several boxes of shotgun shells and some small cash.

The squirrel hunting season opened Friday.

H. L. Culp of Brinsburg is visiting his sister, Mrs. Fred Filbeck, this week.

Home Ec Teachers Attend State Event

Mrs. Janie Mofield of Benton, Mrs. Helen Arndine of South Marshall, and Mrs. Birmah Gammel of Symsonia were among the more than 250 who attended the annual conference of home economics teachers Aug. 12-15.

The four-day meeting was held at the Future Farmer Leadership Training Center in Hardinsburg. The theme of the conference "Home Economics Measures Up."

Miss Mary Lois Williamson, state director of home economics education, Department of Education, emphasized the important role the home economics teacher should play in meeting the challenges that come as a result of changes in society that affect everyday living.

One of these changes is the trend toward earlier marriage. One out of every three women in the United States is married by the time she is 18 years old. Of these married women, one out of every four has a child by the time she is 20. TVA Power Report Made

TVA sold 56.7 billion kilowatt-hours of electricity in the fiscal year ending June 30, approximately the same amount as last year.

Over half of the power it sold—29.4 billion kwh, or 52 percent—went to the area's federal defense installations, primarily the Atomic Energy Commission.

The remainder of 27.3 billion kwh sold was for use in the region's 1 1/2 million homes, farms, businesses and industries. These sales were 2 1/2 billion kwh, or 10 percent, greater than for last year. Sales to federal agencies were smaller than last year by 2.8 billion kwh, or 9 percent, because of reduced requirements of the AEC's plants at Oak Ridge and Paducah.

The total power required to meet the demands on the TVA system was 62.2 billion kwh during the fiscal year. In addition to the sales of 56.7 billion kwh, two billion kwh were delivered to the Aluminum Company of America in return for electricity generated at the Company's plants, 1.7 billion kwh were delivered to neighboring private

utility systems, and the remainder of 1.8 billion kwh was absorbed in transmitting the power from the generating plants to the loads.

The TVA system requirements were supplied by the generation of 19.3 billion kwh in the hydro plants, 41.5 billion kwh in the steam plants, and 14 billion kwh received from other systems. Hydro generation was greater than for any previous 12 consecutive months in TVA's history. The record hydro generation was due to the unusually favorable rainfall during the

year in terms of both the amount of rain and the manner in which it was distributed throughout the year.

Covington, Tenn., will be the 100th municipality to distribute TVA power when service starts some time in September. There are 51 cooperative distributors.

New Table Spread For Low Fat Diets

A low fat diet, recommended by many doctors to combat the problem of high blood cholesterol, takes much of the pleasure out of eating for many people. Yet such a diet is considered essential, since it is becoming more and more evident that high cholesterol levels are related to atherosclerosis, the most serious form of hardening of the arteries.

A new table spread and cooking fat made from nonhydrogenated corn oil promises to solve one of the major diet problems of such individuals. The product, Emdee margarine, does not elevate blood cholesterol and therefore can be used in preparing palatable meals for those on low fat diets.

Inasmuch as the new margarine is a food, not a medicine, it can be used by all members of the family, so that the homemaker's work is greatly simplified. She can do all her cooking with the new margarine and also serve it as a table spread.

At the same time, the person on a low fat diet can enjoy many favorite foods, if they are prepared or served with the new margarine.

The new product, which is made by Pitman-Moore Co., a long-established Middle Western pharmaceutical firm, has a tastiness and texture comparable to butter and better margarine and is fortified with vitamins A and D. A unique feature is its sale through drug stores, although no prescription is required for it, of course.

Nonhydrogenated corn oil, source of 80 per cent of the fat content of the new margarine, is high in unsaturated fatty acids, particularly linoleic. Linoleic acid is believed by many doctors

to be an important factor in lowering blood cholesterol.

Hardening of the arteries, known scientifically as arteriosclerotic heart disease, is one of the nation's most serious health problems. This ailment, including coronary disease, in 1956 accounted for 428,800 deaths, according to the National Office of Vital Statistics.

About 14,000,000 living Americans are affected by one form or another of heart and circulatory diseases, according to estimates of the National Health Education Committee, Inc. No definite figure is known for those with the type of hardening of the arteries known as atherosclerosis, but it undoubtedly runs into seven figures.

Results of 4-H Club Events at County Fair

Here are the winners in the various 4-H Club events at the County Fair.
