UNITED STATES COURT OF CLAIMS

The Publisher's Claims Sustained

The claimants, who are the owners of The Miami News, filed a petition in the United States Court of Claims, appealing the decision of the Commissioner of Patents. The petitioners alleged that the Patent Office had erred in its ruling on the patentability of their invention. The court agreed with the petitioners, finding that the invention was novel and non-obvious. The court also ruled that the Patent Office had not followed the proper procedure in examining the patent application. The court awarded the petitioners a judgment of $50,000 for the infringement of their patent rights.

(The Miami News)
A bill has been introduced in the Tennessee Senate making it a felony to sell or possess beer. The bill, the first of its kind in the state, was introduced by Sen. W. H. Johnson of Nashville.

The bill is designed to curb the growing problem of alcoholism in the state. It is being supported by a group of lawmakers who believe that the current system of regulating alcohol sales is not effective.

The bill would make it illegal for anyone to sell or possess beer without a license. Violators would face fines of up to $1,000 and imprisonment for up to six months.

The bill was introduced on the same day that a new study was released showing that the number of people in Tennessee who are unable to work due to alcoholism has increased by 25% in the past year.

The lawmakers who introduced the bill say that it is necessary to take action to protect the health and safety of Tennesseans.

The bill is expected to be debated in the Tennessee Senate next week.

EXPERIMENTAL PLUMBING

In the summer of this year, the plumbing of the new building was undertaken by a firm of plumbers who had just returned from the West. The result is that the plumbing of the building is better than any other in the city.

The plumbing fixtures are all of the best quality, and are installed with the greatest care. The work was done by a force of skilled laborers, who were carefully selected for the work.

The plumbing fixtures include all the latest improvements, and are provided with the most modern sanitary apparatus. The hot and cold water supply is provided with the latest improvements, and is thoroughly tested before being put into use.

The plumbing work is done in a manner that is sure to please the public, and is sure to stand the test of time. The plumbing fixtures are all designed to meet the needs of the building, and are provided with the latest improvements.

PROOF THAT YOU NEVER CAN TELL

The author is not one of those people who are satisfied with the present, but who spend a great deal of time and energy in endeavoring to make the present better. He believes that the present is not what it should be, and he is determined to do something about it. He has written many books and articles, and his work has been widely read and admired.

COMMUTER TESTS MRS. COMMUTER

A case thing happened on the recent trip to Chicago. I was going to pick up my wife at the train station. The train was running about 20 minutes late, and I was getting worried. I called her, and she said she was on the train, and that she would be there in a few minutes.
