Sheriff, Aide Recovering From Wreck Injuries

Sheriff George Little and Chief Deputy Kenneth Capps were seriously injured at 12:30 a. m. Sunday in an automobile accident on the Benton-Symsonia Road.

The officers were pursuing a speeding 1956 Ford at the time of the accident. Little's car failed to negotiate a curve near the John Lee Reeder farm, ran into a field, hit a tree, a glancing blow and landed in a gulley. The car did not overturn.

Deputy Capps suffered a broken back and four broken ribs. Sheriff Little's shoulder was broken and two ribs fractured. He also suffered multiple cuts and bruises.

Sheriff Little and Deputy Capps radioed the State Patrol for help. Capps, despite a broken back, crawled out of the car, up the gulley and walked to the road and hung his coat on a fence post so rescuers could find the spot. He then returned to the car.

State Patrolman J. E. Brown and ambulance driver Johnny Linn brought the injured men to McClain's Clinic in Benton and then took them on to River-side Hospital in Paducah.

The speeder escaped, but was arrested Wednesday night of this week. He was a McCracken County youth visiting his grandmother at Dexter.

Sheriff Little is expected to return home this weekend. Deputy Capps will remain longer at the hospital.

Little was driving his Mercury station wagon, equipped with two-way radio.

Loan Rate On Corn Here Is \$1.06 Bushel

The minimum 1958-crop corn loan support rate of \$1.06 bushel has been established by Marshall County, according to Renlee Rudolph, chairman of the ASC County Committee.

Mr. Rudolph stated that warehouse-stored loans, farm-stored loans and purchase agreements would be available from the time of harvest through May 31, 1959.

The chairman went on to say that every corn producer in the county would be eligible for price support at the announced rate since this county has been designated as a non-commercial corn county and does not have corn acreage allotments established as is the case in commercial corn counties.

He also stated that farmers should be cautioned not to harvest corn that is high in moisture because corn will not be eligible for loan if it contains any moisture in excess of 20 1-2 percent.

Roy C. Gray, chairman of the ASC State Committee, advised farmers throughout the state to consider securing a farm-stored or warehouse-stored loan or purchase agreement on their corn, soybeans, wheat and other grains before they sell their grain on the open market at the extremely low prices now being offered in many areas of the state.

Mr. Gray said farmers will profit in some cases as much as 40 cents a bushel by securing a loan or purchase agreement. He went on to say that farmers who are interested in a loan or purchase agreement should contact their local ASC county office for detailed information.

Hardin Man Hurt; Soldier Dies in Crash

Ed Gardner of Hardin received head and chest injuries and cuts and bruises in an automobile collision at 5:15 p. m. Tuesday in which a Fort Campbell soldier was killed.

The accident happened on the Highway 80 hill just outside of Hardin on the Hardin-Aurora road.

Mr. Gardner, enroute to Nashville, had a car in tow behind his own automobile. At the top of the hill he met a car driven by James Reynolds, a Fort Campbell soldier, and occupied by three other soldiers.

The soldiers' car skidded and crashed into the Gardner car, according to Deputy Sheriff Claude Crenshaw, who "worked" the accident with State Trooper Turner of Murray.

Barkley Dam Funds Requested by Morton

Washington—Senator Thurston B. Morton of Kentucky Monday asked the Bureau of the Budget to approve expenditure of \$22,200,000 to continue construction of the massive Barkley Dam in Western Kentucky during 1959-1960.

The Barkley Dam item was the largest single amount recommended by the Kentucky Senator for Corps of Engineer projects in his state for the 1960 fiscal year. Senator Morton's total program for water resources projects for 1959-1960 amounted to \$84.9 million, including a related flood control project in Virginia near the Kentucky border.

The big Cumberland River structure, estimated to cost \$174 million, is being constructed primarily for navigation, flood control, and hydro-electric power use.

Senator Morton also recommended \$10,000 to start advance engineering and design of the local protection project at Sturgis, Union County. He pointed out to the Bureau that the Sturgis community now has available the \$69,000 in local participation funds required to finance its portion of the \$712,000 total cost of the floodwall.

The Kentuckian commented that orderly development of waterways projects was essential to Kentucky's economic growth, to the removal of the threat of floods, and to enable more productive use of abundant natural resources.

From my front porch
By CARL HELM

I happened to be passing by one day when the five-year-old daughter of my neighbor brought in from the nearby vacant lot "a bouquet" for her mother—a little handful of Bouncing B's and Queen Anne's Lace and other wild flora; flowers, to the child, and beautiful.

Her mother thrust them aside with a frown. "Those are weeds, Dotty," she said. "Throw them away!"

Somehow I felt a little sorry, and I think the child felt a big one. I think, too, that flowers are flowers to a child, wherever they may grow—and they're beautiful, until some grownup says that they're not; they're only weeds, "because Mama says so!"

I got to wondering, then, about when and where race prejudice starts—and I can't believe it begins in the heart or the mind of a child!

It was Albert Schweitzer, one of the greatest of living men, who said: "You must give some time to your fellow man. Even if it's a little thing, do something for those who have need of help, something for which you get no pay but the privilege of doing it."

Pilate saith unto them,
What shall I do then with
Jesus which is called Christ?
—(St. Matthew 27, 22.)

This question was asked by
a pagan judge of a riotous
mob nearly two thousand
years ago, but it is a question
of prime importance today.
Each of us should ask himself
daily, What shall I do with
Jesus which is called Christ?
The destiny of the world may
depend on our answer.

Methodist Church To Observe World Communion Sunday

The Methodist Churches of the Paducah District will join with churches with all denominations around the world in observing world wide communion Sunday this coming Sunday, according to an announcement by Rev. Marcus Gurley, pastor of First Methodist Church of Benton.

Due to the varying time zones, Christians will be partaking of the Sacrament of the Lord's Supper during each hour of the

day, said Mr. Gurley. If you are a Christian and your denomination has no church in this vicinity, you will receive a hearty welcome at your nearest Methodist Church.

October has been designated as "My Loyalty Month" throughout the Memphis Conference of The Methodist Church. First Methodist Church of Benton has extended this Loyalty period to include November. During these two months, every member is urged to attend church every Sunday. While the church believes members should attend every Sunday of the year, this loyalty emphasis is made in the

fall to encourage members in fulfilling their responsibility. All visitors are always welcome to all services of the Methodist Church.

Mr. and Mrs. Louis Locker spent the weekend in Memphis and attended a ball game.

Van M. Siedd of Gilbertsville is enrolled as a student at Belmont College at Nashville.

Mayme Chumler of Route 6 is enrolled as a student at Campbellsville, Ky.

Luke Lyles of Route 3 entered the Fuller-Morgan Hospital this week.

REPRESENTING THE MOST progressive change in Pontiac Motor Division's 51-year history is the Catalina Vista. The beautifully contoured Vista-Panoramic windshield and large, wrap-around rear window provide unparalleled vision for driving safety. Absolute simplicity in styling is achieved with the twin "air scoop" grille housing dual headlamps and a low, cleanly styled body, topped by a slim-line roof. Vista models are also featured in the Bonneville and Star Chief series.

Roberts to Show '59 Pontiac on Thursday

The new 1959 Pontiac models will be on display Oct. 9 at Roberts Pontiac Co. in Benton.

Unmatched in beauty and unprecedented in fresh styling approach, the 1959 Pontiac debuts with 14 all-new, breath-taking body styles.

The exciting new line of automobiles, from the luxurious Bonneville to the lowest priced Catalina, is lower and wider. Window area is up to 37 percent greater, providing unsurpassed visibility for driving safety.

Imparting added appeal is

the standardization of dazzling Magic-Mirror acrylic lacquer finishes, 15 solid colors and 42 recommended two-tone combinations. The high gloss lacquer, introduced by Pontiac in 1956, said to be two to five times more weather resistant than other paints. The '59 Pontiac line will entice even the artist's eye with such colors as: royal amethyst, gulfstream blue, shoreline gold, seaspray green, canyon copper, silvermist gray and mandalay red.

The startling new four-door Vista hardtop, available in all

series, features a modernistic roof over-hang in the rear.

Dual headlamps mounted in twin grilles, wrap-around two-bar bumper, and a V-shaped hood design extending rearward from the grilles, are predominant features of the front view. The Pontiac or Bonneville name in gold script adorns the chromed rectangular grille work on the left side. Parking and signal lights are located between bumper bars at the outer edges. At the vertex of the V-shaped hood design is an attractive triangular, white plastic medallion trimmed in chrome and embellished by a centered gold star. Narrow, chromed fender ornaments of air swept design deck the front fender tops.

Woman's Club Holds Season's First Session

The Calvert City Woman's Club met Thursday, Sept. 25, at the private dining room at Ky. Dam Village with a dues luncheon. This was the first meeting of the season.

\$4,000 Raised For New Fire Station At Calvert City

Following a meeting of Fire Department officials Wednesday night, M. S. Pfeiffer, chairman of the Calvert Fire Department administrative group, announced that \$4,000 had been collected or pledged to the building of a new fire house.

He urged those who had made pledges to pay their contributions as soon as possible so that work on the fire house could begin. Although the \$4,000 realized to date is a most gratifying response, this sum is still short of the \$5,000 goal.

Therefore anyone not yet contacted or anyone who has not yet supported the fund-raising drive is urged to make his cash or check contribution to the Calvert Volunteer Fire Department, Inc.

Contributions should be mailed to the Calvert Volunteer Fire Department, Calvert City, or contributions may be made in person at Rendleman's Jewelry Store in Calvert City.

Mr. Pfeiffer stated that construction of the new fire house would be started just as soon as complete financing could be arranged. He hoped that this would be within the next month.

Little League Has Wiener Roast to Close Its Season

BY FRANK TOMSIC
On Thursday, Sept. 18, at the Community Park, Calvert City's Little League team enjoyed a wiener roast as a closing for this year's activities and to honor the boys for their fine season of play.

A program was carried out featuring a 3-inning ball game, picture taking, and a brief summary given of each boy's achievements of the past season. The wiener roast followed with the Calvert City Woman's Club supplying ice cream for dessert. All team members and their parents attended.

Calvert's Little League team is a member of the Three Rivers League and wound up the season play with a record of 15 wins and 8 losses. The team is sponsored by the Woman's Club of Calvert City, who originated the team in 1955.

They have made extensive improvements to the playing field this season which enabled the Little League to enjoy a better season. Thanks also goes to those who have helped in the Little League program: Service Plumbing and Heating, Powell Coal Co., Calvert City Lumber Co., Chem-Lite, Riley Electric Co., Sweiheart Cafe, Draffen Dept. Store, James Gootie, Edson Lee, Paul Harrington, R. L. Puckett, Rob Early, B. Strader, D. Robb, J. Holland, D. Smith, H. Yepsom, F. M. Parrott, Bill Travis and A. Massee. Manager of the team is Frank Tomsic, assistant manager, Charles Killcoyne; and coaches, Edson Lee and Joe Veasey.

After the business session, Mrs. Duckett, program chairman, introduced the guest speaker, Mrs. Bill Perry of Paducah, fourth vice president of Kentucky Federation of Women's Clubs, who gave an inspiring talk on federation.

Hostesses were Mrs. Hayward Alford, Mrs. Russell Badgett and Mrs. William Colburn.

Other guests for the occasion were Mesdames Lottie Liebscher, Joe Veasey, Kenneth Obrecht, B. W. Blewitt of Kansas City, Joe Maurin and Enoch A. Knight. Mrs. Malcolm Cross was welcomed as a new member.

STRENGTH FOR THESE DAYS
from The Bible
And these words, which I command thee this day, shall be in thine heart; And thou shalt teach them diligently unto thy children...

—(Deuteronomy 6, 6-7.)
The God of the Hebrews, the same yesterday, today and forever, makes clear the duties of all parents. Juvenile delinquency is but the result of the shirking of parental responsibility.

STRENGTH FOR THESE DAYS
from The Bible
When thou hast eaten and art full, then thou shalt bless the Lord thy God for the good land which he hath given thee.

—(Deuteronomy 8, 10.)
These words of Moses apply as much to us today as they did to the Israelites after he led them to freedom from captivity in Egypt. Surely we have been given a land of freedom and plenty. Surely we should give thanks for it.

New Safety For Hunters

TO BE SEEN, not hurt. That's the credo of wise hunters this year who will be wearing the new Air Force "safety yellow" which, according to tests, is four to five times better than any other color in perception. And, subject as they are to hard wear and all kinds of weather, it's important that the yellow in these garments retain its depth and strength for life. For the well-dressed hunter, Utica-Duxbury has designed this "Top Gun" poplin coat with full-length game pocket (left) and this Onondaga deer-hunting target twill parka with drawstring hood in vat-dyed yellow. Vat dyes are the most durable colors known. They will not run, bleed or fade; rub-off or be affected by perspiration or salt water.
