CARD OF THANKS

We wish to express our heartfelt thanks to our many friends and neighbors for their acts of kindness in the recent death of our aunt and sister-in-law, Miss Myrtle Cloud.

We especially want to thank Dr. Miller, Bro. Buron Richerson, Bro. Henry Ramey, donors of flowers, singers, those who brought food, Linn Funeral Home and all that helped in any way.

May God bless you all is our prayer.

Nieces, Nephews,
Sister-in-Law.

Walking suits, fashion-important for fall, range from the hip length jacket with skirt to the almost-full-length coat with either a skirt or dress. Suit shown pairs a thirty-four inch, patch-pocketed coat, in British woolen ribbed tweed, with an Empire sheath. It's by Huntleigh.

Hog Prices Likely To Continue Down Remainder of Year

Lexington—Hog prices are expected to continue a downward trend the remainder of this year, says the bi-weekly outlook letter of the Kentucky Agricultural Experiment Station economics department. But lower hog prices next year may be offset by somewhat lower feed costs.

Hog prices passed a peak the week of July 5 when average price of barrows and gilts at Chicago was \$24.72 per 100 pounds, the letter said; but in the last week of August, Chicago hog prices were about \$1.50 below the same period for 1957. The economists predict that the period of "unusually high hog prices is almost ended." They believe that sometime this year

hog prices probably will drop below the levels of a year ago (1957) and continue at that low level in early 1959. This is due partly, they say, to the fact fall hog farrowings will be up an estimated 14 percent.

2,569 AT MURRAY COLLEGE
Murray—Murray State College has enrolled 2,569 students for the fall semester, 258 more than the previous high enrollment of 2,309 set last year.

Mr. and Mrs. Herman Kanatkar left last week for Bridgeport, Conn., to visit in the home of their daughter, Jane, Mrs. Charles Freeman.

Mr. and Mrs. Lex Turner of Route 5 were shoppers in Benton Monday.

Mrs. Clay Jones of Route 1 was a shopper in Benton Friday.

Soft, Lofty Hats Blend With Clothes

The soft and lofty look prevails in fall millinery, and among the many interpretations of this look are costume-completing hats for each of the season's new silhouettes. Textures, colors and trimmings add to the effect of made-for-each-other luxury.

The soft slouch hat makes a perfect costume mate for the new walking suits, while the lofty, high-crowned fedora is particularly effective with easy, long-jacketed suits.

Casual tailoring of fall suits echoes the casual lines of the unfitted suit jacket. Textures and colors also match clothing, with wool jersey, mohair and other "bearded" wools, iridescent effects, bold plaids, buttons, bows and leather

trimming makes style harmony easy to achieve.

For the chemise and the blouse, milliners suggest bouffant, ballooning silhouettes in high, gently rounded cloches and turbans. Pluffy, long-napped velours, shaggy tweed fabrics and long-haired furs make these bloused hats cloud soft and light looking.

With the increasing importance of fur-trimmed fashions, fur hats become more appealing than ever, in every known variety of felt from sable, chinchilla and mink to broadtail beaver, leopard and a wealth of novelty furs.

Wig hats, a summer favorite, play a return engagement for fall. Beautiful plumage in stained glass color combinations makes attractive head coverings. Fur wigs are cosy as well as fashionable.

Appearing in fashion, along

with the trend to high-waisted dresses and coats, are tall-crowned bonnets inspired by the Napoleonic era. Inflated pillboxes, soaring turbans and high hats with small forward-reaching or ruffled brims are designed to settle comfortably over tiny chignons and clusters of curls worn Empire-fashion high on the crown of the head.

The colors of fall hats are as exciting as their textures. Jewel-like tones and color combinations as vivid as those of stained glass are favorites, while jet blacks are a striking contrast to the color-drenched autumn palette.

Miss Emma Barrett who is attending Bethel College at Hopkinsville, visited her parents, Mr. and Mrs. Robert Barrett in Calvert City last weekend.

Carl Owen, who has been in the Hammond, La., hospital since being injured is better and is reported that he will soon be home. Mrs. Owen has been at his bedside. They live on Calvert City Route 2.

Mr. and Mrs. W. B. Elam of Calvert City made a visit during the weekend to Greenville, Ill., to visit her brothers and sister and attended a Perkins family reunion.

Take a headache band for fall fashion, is suggestion from Butler. This one is of shimmering taffeta in a choice of bright hues, looks well with flattering "souffle" coiffure. By Baar and Beard.

Soft, shaggy texture of mohair, important in fall fashion, is used here for a sophisticated beret, in a warm golden tone. It's by Betmar.

Soft texture and color interest, high-crowned cloche is of solid glass in pale beige. Brown ribbon trim has orange facing. By Chanda.

Colmore Upton of Vienna, Ill., spent the past two weeks in the home of his step-son, W. B. Elam, in Calvert City.

THE GREAT GREEN FLEET is just that! Over 85,000 cars and trucks are used by the Bell System—the largest private automotive fleet in the world. Of this total, over 10,000 of these vehicles are in use in Southern Bell's nine-state area. They're a familiar sight as they roll through the highways and byways of our land, and in times of emergency or disaster they're often first on the scene. Bearing the Southern Bell emblem, this great fleet is a symbol of progress and good telephone service to all of us wherever we live.

SAFE DRIVING is a habit. With school days underway, it's a good time for all of us to get the habit of driving carefully, especially near school zones and playgrounds. Each year traffic deaths of children alone add up to a terrible toll—a fact that should remind each of us to drive with extreme care. Drivers of telephone cars and trucks can be counted on to set a good example . . . because safe driving is part of every telephone employee's training. Southern Bell is proud of the record of its drivers who have helped earn for the Bell System the nation's top safety award for the sixth time in seven years . . . the Award of Honor by the National Safety Council.

THERE GOES DAD! Racing from the shower to answer the phone! Now wouldn't it be wonderful to have a convenient extension phone right there in the bathroom? And wherever you need them, you'll find colorful extension phones make living so much easier. In the kitchen . . . bedroom . . . den . . . enjoy extra phones where you work, sleep, live. The cost is really low. And, they're available in pastels and other beautiful colors. To order as many as you'd like, call our Business Office any time.

Dresses Offer Pretty Variety

Youthfulness, ease and color are the dominating characteristics of this fall's dresses and costumes, with luxury expressed in richly textured fabrics and fur trims.

Probably never before has there been a greater variety of silhouettes — among them the bubble, the chemise, the trapeze and the still-popular sheath and shirtwaist.

Newest looking are styles with high-waisted Empire lines and subtle shaping through the bustline. Very often, fitted fronts are combined with backs that flare, billow or curve in a rounded co-

coon or sickle line with no waistline demonstration. Both high and low waistlines are popular. When high, for the new Empire look, they are marked by drawstrings, belts, seams and trimmings placed below the bustline.

Very young indeed is the "Flapper" look chemise with long, unfitted waist and brief pleated or flared skirt, the hip-line usually marked by a closely fitted band.

Favored fabrics include woads, brushed mohairs, printed sheer wools, velvets and jerseys, textured matelasses and crepes.

Air Reduction Will Build Big New 10 Million Dollar Plant at Calvert

Calvert City has been chosen as the site of another \$10,000,000 chemical plant.

Joint announcement of the new project was made by Air Reduction Company and Mastic Tile Corporation of America.

The new plant will be located on Air Reduction's plant site and will be the seventh to be built on the Airco property in recent years.

The plant is expected to be completed by early 1960. It will give employment to about 90 persons.

Air Reduction and Mastic Tile have formed a new company — Cumberland Chemical Corporation — for which the new plant will produce materials for use by Mastic Tile in the manufacture of floor coverings and other building construction products.

Announcement of the new firm and the new plant was made in New York by John A. Hill, president of Air Reduction, and Seymour Milstein, president of Mastic Tile Corporation of America.

Air Reduction holds a 60 percent stock interest in the new corporation and Mastic Tile 40 percent.

The new plant will produce vinyl chloride monomer and vinyl chloride polymer. It will also produce substantial quantities of a new type plasticizer.

Acetylene, one of the major raw materials, will be supplied by Air Reduction.

Blaw-Knox Company, engineering contractor firm of Pittsburgh, Pa., designed the plant and will start construction of it this fall.

Mastic Tile Corporation of America, Air Reduction's partner in the new chemical company, is one of the country's leading producers of floor tile with plants in Newburg, N. Y., Houston, Tex., Joliet, Ill., and Long Beach, Calif. Headquarters of the corporation are in New York City.

Mammoth Cave Had Big Part In 1812 War

Mammoth Cave played an important part in the War of 1812 as a source of saltpetre from which gunpowder was made. England had placed a rigid embargo on all shipping to the United States. American forces thus suffered a severe shortage of gunpowder, because they were cut off from foreign supplies of saltpetre.

The precious ore did much to

save the young republic during those perilous years.

The nitrates in the cave earth originated from two sources: water charged with nitrogen compounds which drained into the cave and from the nitrification of bat guano (manure).

The first step in the process of extracting saltpetre was dumping the nitrous earth into

large leaching vats, where it was saturated with water brought into the cave through pipeline made of hollow logs.

The solution of nitrates leached from this earth drained into wooden troughs and then into a large trough by gravity. From this a large wooden pump raised the solution into an elevated tank near the ceiling. From this

tank it flowed by gravity to the entrance of the cave through another wooden pipeline.

On the surface the nitrate solution was boiled and the concentrate was then run through hoppers filled with wood ashes. It was then boiled a second time and cooled in wooden troughs. The resulting product was salt-petre.

Cave earth contains four pounds of nitrates. Cost of manufacturing 4 cents a pound and price was about 25 cents.

Your Wonderful Acceptance of

All Jersey Milk

On this the first anniversary of our ALL JERSEY MILK program, we would like to thank our loyal customers who have supported us through the years, and who, along with our many new customers gave such wonderful acceptance to ALL JERSEY MILK.

We are well pleased for many reasons. First, we think we offer to our customers a bottle of milk that is nutritionally superior because of certain well known factors inherent to the Jersey breed.

Too, we are pleased that this program offers the dairy industry in this area an opportunity to grow and expand.

Mrs. Harry McCall Hostess to Group Of Presbyterians

(Left from Last Week)

Circle No. 1 of the Presbyterian Women's Group met at the home of Mrs. Harry McCall with 12 members present. Opening devotion was given by Mrs. Robert Arnold. The Bible Study was given by Mrs. T. W. Hellala.

Mrs. G. H. Alford presided at the business session and announced the annual fall training session of the Presbyterian for women of Western Kentucky will be held at Hopkinsville Oct. 8.

It was also announced that Mrs. Russell Badgett will have the annual devotional all-day retreat Oct. 18 for the local organization.

Mrs. H. V. Duckett gave the program on the political situation in the Middle East. A duet was given by Mrs. Otis Fortner and Mrs. McCall. Mrs. McCall served light luncheon to the group. Guest and new member was Mrs. Ken Obrecht.

This is the first step in putting land in the Conservation Reserve, and this MUST be done on or before Oct. 10, if the land is to be in the program for 1959.

Certain wildlife practices will be set up later by the committee for conservation reserve.

Walking Suit Here to Span Fall, Winter

Fabrics and silhouettes, with the frequent addition of fur trimmings, combine to give many of the new suits a definite fall-through-winter character.

Longer jackets team up with skirts or dresses in the highly important walking suits, which are designed to go on into winter. The jackets vary from wrist-to seven-eighths length.

Short jacket suits, too, can span the seasons, thanks in large part to their unfitted ease.

The variety of suit styles finds a corresponding variety among coats, thus facilitating the choice of a coat to go over a suit. And, since the three-piece ensemble of fall's favorite looks, many suits come with their own matching coats.

"Into winter" fabrics of the new suits feature warmth without weight and plenty of surface interest, in highly textured tweeds, hairy boucles, nubby surfaces, ribbed and knitted effects. Worsteds in blends with fur or rabbit hair, wool prints, supple broadcloths and bold houndstooth checks are other suiting favorites.

Unfitted ease, as noted, the prevailing theme in suits. High-belted jackets, walking-suit tunic jackets, trapeze and chemise shapes and double-breasted

jackets appear among the newsmakers, while shapes for skirts vary from slim and straight to tapered oval, and from jutting trapeze to pleated.

Fur trimmings are at the peak of interest, with special attention to long-haired furs such as lynx, red or black fox and raccoon.

When it comes to color, anything goes—including bold plaids and checks, bright shades, harvest hues and new winter pastels.
