## UNION CITY CADET KILLED NEAR HERE

Cadet James Matthew Ossi, of the Embury-Riddle Field of Union City, was instantly killed when his plane crashed in a field on the Sam Holman farm near Harris, Tenn., about 5:30 Saturday afternoon. Cause of the accident is unknown.

Cadet Ossi, who came to the Union City field on October 2, is the son of Mrs. Julia Ossi, of East Patterson, N. J. His parents were native born Italians. Cadet Ossi formerly attended Columbia University at New York and was an employee of the Wright Aeronautical Corporation before his enlistment as an aviation cadet.

## BULLDOGS BEAT DRESDEN

The Fulton Bulldogs romped over the Dresden Lions here Friday night with a score of 33 to 0, and barely missing another touchdown just as the first half closed. A moment more play would have sent another man across for a touchdown, in all probability. Dresden made one real threat driving to the 18 yard line in the third quarter, only to lose the ball on a fumble.

The Bulldogs looked much better in this game than in recent games although Dresden was weaker than other teams played this season. The Bulldogs had three regulars in the backfield for one thing, and all the regular line. Every man on the team seemed imbued with a desire to really play ball well. The players carried out their assignments well and carried the ball well. Whitesell and Barron scored two touchdowns each, and Dick Meacham thrilled the crowd with a 70-yard sprint in which he outran the entire Dresden team for the touchdown. Between time the Bulldogs made the Lions miserable by recovering fumbles and intercepting passes. The climax of pass interceptions came in the final quarter when Don Sensing flagged a Dresden pass and ran it back for a nice gain.

The offensive stars of the game were Robert Whitesell and Leon Barron and each of them piled up plenty of yardage. Whitesell rambled into the Dresden line time after time to pick up a needed two or three yards for a first down and drove through for ten or fifteen; and Barron also picked up a lot of yardage in smashes at the line and sweeps around the end. The backs got better blocking than usual and this resulted in much longer gains.

The Bulldogs used a lot of passing late in the game and several were completed. Dresden tried many, but most of them were intercepted.

Jimmy Lansden, who has been trying to play end all season, but who has been forced to play elsewhere when other players were crippled, finally played end Friday night and did a good job. He helped his back with good interference and his tackling was extremely good. Don Sensing played a good game at center and Loyal Hartman played with an injured ankle, but stood off every drive that came his way. Bobby Parham as usual spent a lot of time worrying the Dresden ball carriers and Paul Tash played well on offense and defense. Red-headed Jones also turned in a good game, while Tolbert Dallas was a strong cog in the Bulldogs line-up. Jack Adams, who played in the backfield, showed plenty of stuff all the way through.

## JAMES STEEL COMPLETES "BOOT" TRAINING

Pvt. James Kenneth Steel has completed his basic or "boot" training at the Marine Corps training base at San Diego, California and will now be transferred for further training. His basic training included three weeks at the rifle range, where all qualifications with a rifle and pistol were met. ## FRANCIS JAHN GUEST SPEAKER AT LIONS CLUB

Francis Jahn of the Federal Bureau of Investigation, was introduced by K. P. Dalton, and was the guest speaker at the Lions Club meeting this week. He detailed several counter espionage cases, where spy rings were discovered and apprehended.

In the past year over 390,000 cases have been brought to the attention of FBI. There has been little sabotage, but many cases of spy systems sending information covering troop and ship movements defense plants and fortifications back to Germany have been uncovered.

The FBI has many calls from Selective Service to trace delinquents. Mr. Jahn requested that everyone report anything to police or FBI that should be investigated.

## WILLIS APPARENT WINNER IN RACE FOR GOVERNORSHIP

Political Upheaval Biggest Upset In 25 Years In Kentucky As People Vote For Change

Fulton county polled only 1909 votes in the General Election held Tuesday, with 1544 going to Donaldson, 354 to Willis, and the other 11 votes to the prohibition candidate. Thursday morning the GOP nominee held a lead of 5,238 over Donaldson in the governor's race. Unofficial reports gave Willis 256,833 votes, and Donaldson 251,595. The remainder of Democratic candidates for state offices held a slight edge over Republican opponents on basis of returns from all but 306 precincts.

The vote by precinct in Fulton county was as follows, Democratic and Republican votes, respectively:

Fulton court house, 72 and 25; Fulton No. 2, 72 and 28; Fulton 3A, 138 and 41; Fulton 4A, 96 and 31; Riceville, 43 and 16; Wolverton, 32 and 3; Palestine, 34 and 7; Crutchfield, 53 and 12; Cayce, 182 and 21; Jordan, 41 and 2; State Line 97 and 8; Roper's Store, 91 and 46; Hickman court house, 77 to 17; Clinton Street, 94 to 17; County Barn, 123 and 37; Craddock Store, 83 and 17; Mengel Lane, 39 to 16; Bondurant, 25 and 3; Sassafras Ridge, 67 and 3; Madrid Bend, 15 and 0; Brownsville, 70 and 4.

## CRUTCHFIELD, R. 2

Mrs. Martha Friedls was a Monday night guest of Mrs. Lawrence Lomax. They attended the Woodman Circle meeting in Clinton at the home of Mrs. R. L. Johnson. Plans were made for the District Convention in Murray. They also made plans for a Christmas party at the lodge hall in Clinton on Dec. 17. Committees were formed and each person is asked to bring a covered dish and a 25c gift. Bring as many friends as you can. Mr. Joe Lutten spent this week at home planning to harvest his crop.

Mrs. Hub Lowry spent Friday with her mother, Mrs. George Ferguson.

Mrs. Richard Bellew, Mrs. Murrell Jeffress and Mrs. Vester Jeffress were in Union City Friday afternoon.

Mr. Eugene Waggoner has been home for a few days. He will return to Columbia University for advance training as a cadet.

Evidently Robert Nugent isn't so far away as usual. It only takes seven days for a letter to come. Ronald Nugent has been moved from the South to the East. Bill Edwards hasn't been heard from in nearly a month.

Jewell Lomax writes home every day. He passed all examinations. He is an apprentice seaman. James Lee Childers has a new address in Co-Postmaster, New York City.

I suppose many are wondering why the other Lomax twin did not enlist. Well, he wanted to grow a little more. They are just 17 and he plans to enlist after his brother returns on his furlough and gives him the low-down on the Navy.

Mrs. Juanita Jameson visited Miss Marjorie Bellew Friday evening.

Mr. and Mrs. Walter Corum were in Fulton on business Saturday.

Mr. Carl Hastings, who recently sold his place where the Evans live, has bought a farm on the Union City highway and the Evans plan to move there.

Mrs. Herman Fields spent Friday night with the Lomax family and she and Mrs. Lomax attended the District convention at Murray as District Chaplain and was re-elected.

Mrs. Fields went as the elected for that office. Mrs. Lomax was elected advisor. These ladies joined Mr. Lomax and Bobby in Benton, and had a pleasant visit with Mrs. Ollie Edwards and baby.

The Farm Bureau held a meeting at Crutchfield Tuesday evening. The homemakers entertained them.

A thought—How is your prayer life; not having good results? Well, remember the clause—You must first meet the condition of your request.

**CARR INSTITUTE JR. TEAM  
BEATEN BY UNION CITY**

The Junior Team at Carr Institute coached by Jack Moore, played its first game of the season at Union City Thursday of last week and was beaten 13 to 0. For the greater part of the game the Pups held the Golden Breeze pretty well and both touchdowns were more or less

were almost even with their heavier opponents and in individual lucky. In the first downs the Pups brilliance the Pups showed two players who outshone anything the Breeze had.

Playing guard the greater part of the game was Charles (Sizzler) Moss, proving to be the roughest, toughest player on the field. Time after time, after a Union City back had bounced off some of the smaller players and seemed destined to go somewhere in earnest, he came into violent contact with this grinning Moss lad. Moss was tackling hard and permanently and when a Tennessee player came into contact with him he went down. He also opened up nicely on offense and in general played a great game. He went back for the kicking and once or twice got as much as 30 yards. He will bear watching.

L. C. Bone, running at tailback for the entire game, was the chief ground gainer and was also a tower of strength on defense. He brought down Union City runners in fine style, and with a bit more speed and he might have broken off for some touchdown runs. He was the biggest man on the local squad and played a good game.

Playing quarter back and both calling signals well were Mac Nail and Paul Kasnow and both did good work on defense. Mac recovered one blocked kick, falling on the ball and holding on under a wave of Union City players. On the last play of the game, Kasnow was the only Pup player between a Union City back and a long run and perhaps a touchdown, and he dropped the Union City player with a deadly tackle. Bobby Carney, small center, passed well and was good on defense.

The boys all played unbelievable smooth football for youngsters and many showed outstanding promise.

**From where I sit...**

by Joe Marsh

The other day we were talking about George Washington—who besides being a great general was a surveyor, a farmer, and a wise statesman.

"And he made mighty good beer too," says Grandma Hoskins. "His private recipe's filed in the New York Public Library." Now Grandma Hoskins knows her history—and she told us how other famous men believed in beer and moderation. William Penn, for instance, who had his own brewery and James Madison, who "urged the manufacture of beer in every State of the Union."

When the dark years of Prohibition came along, they proved how right those early American statesmen were—that no law ever takes the place of moderation.

They were right about a lot of things—Washington and Adams and Penn—and the others who founded America. And from where I sit they were certainly right about moderation too.

With hybrid corn, the important thing is NOT where the seed was grown, but how it performs where you plant it. former judge of the Court of Appeals, went ahead when first votes were reported. Then Donaldson, Carrollton lawyer, banker and former state highway commissioner, took the lead and held it until early Wednesday afternoon. Alben W. Barkley of Kentucky, who left Washington to stump speech for Donaldson, said before the election that a Republican victory would be a repudiation of President Roosevelt's leadership.

Kentuckians voted against two proposed constitutional amendments by big margins. One was a plan to make Workmen's Compensation Insurance compulsory instead of optional. The other would have removed the constitutional ban on payment of more than \$5,000 annually to any state, county or city official or employee except the governor.

**That Nagging  
Backache**May Warn of Disordered  
Kidney Action

Modern life with its hurry and worry, irregular habits, improper eating and drinking—its risk of exposure and infection—throws heavy strain on the work of the kidneys. They are apt to become overtaxed and fail to filter excess acid and other impurities from the life-giving blood.

You may suffer nagging backache, headache, dizziness, getting up nights, leg pains, swelling—feet constantly tired, nervous, all worn out. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.

Try Doan's Pills. Doan's help the kidneys to pass off harmful excess body waste. They have had more than half a century of public approval. Are recommended by grateful users everywhere. Ask your neighbor!

### Beware Coughs from common colds That Hang On

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

The laundry problem, a real headache in many war-congested areas has been attacked on two fronts by the War Production Board.

1. Use of precious copper for domestic washing machine parts

## Feels Like Different Person, Says Mrs. Davis

Few People Suffered More From Nervous, Rundown Feeling, She Says. Retonga Brought Prompt Relief.

MRS. ALMA DAVIS

My sister recommended Retonga to me, and I can never thank her enough for I feel like a different person," declares Mrs. Alma Davis, well known resident of 317 Doyle St., Knoxville, Tenn. Discussing her relief through this famous her-

bal stomachic and Vitamin B-1 medicine, Mrs. Davis continued: "Few people felt more nervous and miserably rundown than I did. I had no appetite, and after every meal I would belch up a sour acid liquid that seemed to burn my throat. For several years I had to use laxatives almost every day, and this may have been the cause of all my troubles. My nerves were badly on edge, I hardly knew what it was to get a good night's rest, and I fell off until I was many pounds underweight. I felt so miserable that I did not want to be around anyone.

"I think the relief Retonga gave me is little short of marvelous. I have a wonderful appetite and eat anything I want. My nerves are calmer, and that terrible constipation is also relieved. I have regained several pounds and I have plenty of strength to enjoy my family and friends. Retonga is the greatest medicine I ever saw."

Thousands praise Retonga. Accept no substitute. Retonga may be obtained at DeMyer Drug Co.

2. The Office of Civilian Requirements launched a series of meetings all over the country to deal with the problem of war time laundry, linen supply, and dry cleaning. Meetings this month were concentrated in the South and South-west.

Realizing the importance of washing machines in the homes, in these days of laundry problems, WPB amended its Order L-6, covering laundry equipment, to permit the manufacturer to produce specific repair parts made of copper or copper base alloy. The reversed order also permits him to maintain an inventory equal to the one he had in the first half of 1943. But purchasers of the parts must turn in a similar part, or its equivalent in copper.

Too, under specific approval of WPB, washing machines may be assembled from pre-fabricated parts on hand—but most of these will go to merchant vessels and seamen's organizations overseas.

At the series of meetings, to which operators of laundries and linen supply companies have been invited, questions regarding the manpower shortage, price and wage adjustments, and delivery schedules are being threshed out. The hope is that definite plans for improvement can be solved.

Reverting to copper, control over use of the metal in air conditioning systems, refrigeration and industrial processing was relaxed, but control was retained over copper to be used for plumbing, heating and cooking purposes.

Synthetic rubber figured in the news, way was cleared for eventual use of it in such items as girdles and garters, by suspending restrictions on making of elastic thread.

Industrial alcohol requirements were stepped up because of the synthetic rubber program, from 410 million gallons in 1943 to 640 in 1944. Estimates have it that the rubber program will consume 330 million gallons next year. Government stocks on hand have slumped 20 million gallons between July and September.

More news on shoes: Minimum

quality specifications were established for outsoles on all footwear, whether made of leather, rubber or synthetics. Most affected will be shoes not now rationed.

Odds and ends: More than 5,000,000 sugar bags from Calcutta are to be released to the Cuban sugar trade. . . . Darts and dart boards have been designated as toys. . . . Quotas on canning machinery have been set up. . . . More than \$100 million in chemicals have been allocated for civilian use in October. . . . More essential paints and varnishes for civilian use are in prospect. . . . Released for essential use during the week were 1,844 vehicles, bringing the total since March, 1942 to 173,718. Nation-wide collection of discarded clothes was started, for use in relief and rehabilitation abroad. Rags will be picked up, too, for industrial wiping cloths.

Newsprint is being used up faster than it can be made, the Indus-

try Advisory Committee was told. The committee recommended dipping into inventories at the rate of 40,000 tons a month for the rest of the year, rather than further reducing allowed consumption at this time. Commercial printers were cut another 5 percent.

### Silo Simpkins Says

When you match goes out, be sure it can't come back—this is the fire season.

War Bonds "put on weight." Each \$3 invested now will grow into \$4 in ten years time.

The scarcer feed gets the more important it becomes that it go only to healthy, high producing animals.

Non-laying older hens should be culled out, both to save feed and to obtain a higher rate of egg production. Cholera kills over two million hogs a year—wasting enough meat to supply an Army of a million men for a year. That waste can be prevented by vaccination.

"A" flags will be presented to counties which farmers have done outstanding work in food produc-

tion, corresponding to the present E awards of industry.

Safeguarding farm buildings, machinery, livestock and stored food-stuffs from fire is another important way farmers can make a real contribution to the war effort.

Young, tender, growing pasture plants are rich in the necessary vitamins A and G and provide a good source of certain minerals and protein for animal requirements.

### Cooked A Fine Dinner; Then Threw It To Dog

A lady said she used to throw her own dinner to the dog most of the time. It made her sick just to look at food. She was swollen with gas, felt worn out and was badly constipated. She got ERB-HELP and now eats everything in sight. Bowels are regular and she enjoys life once more since taking this new medicine.

ERB-HELP contains 12 Great Herbs; so don't go on suffering!—Bennett's Drug Store.

# NO ARMISTICE TODAY

TWENTY-FIVE years ago this world went wild with joy. The world cried "Peace". But there was no peace. There was only a truce.

This time there must be no truce. This time we are grimly determined to see the job through. We will make whatever sacrifice is necessary. We won't let it happen again.

Armistice Day this year marks the beginning of a new call upon our patriotism. A call directed especially to the people of this community.

One of the gravest threats to our all-out war effort is a shortage of pulpwood. We who live in the pulp-

wood-cutting areas are asked to make good that shortage. We will be paid for our wood, of course. But we are asked to do it as our special part in the war—backing up our own boys in the service.

In whose honor will you cut your cord? A son? A brother? A friend?

Give us his name, and yours, so that both may be entered on the roll of honor. No boy shall die because we failed.

FILL OUT THE COUPON AND MAIL TODAY.

CHAIRMAN, PULPWOOD COMMITTEE  
FULTON COUNTY NEWS

In honor of \_\_\_\_\_  
I pledge to cut an EXTRA CORD of pulpwood during the drive period—Nov. 11 to Dec. 11.
