ABOUT SAT

Dear Editor:

I have been reading the paper that is written by a man who says he is a Democrat. I am a Democrat, but I don't think he understands what being a Democrat means. He says that the Democrats are the party that wants to bring peace and prosperity to the people. But that's not what I think the Democrats stand for. I think they stand for the rich getting richer and the poor getting poorer.

Sincerely yours,

BIRDS OF A FEATHER

Among the interesting things is that some of the birds are starting to leave the area. The robins have been seen flying south, and the bluebirds are also beginning to make their way south. It's a peaceful time of year, and I enjoy watching them.

Sincerely yours,

- Roy Stewart, Head Coach, Jim Thompson, who did a fine job for Andy Kerr as a marine trainee last fall.

Despite snow and an inch of degrees and an inch of snow the season will start its 77th collegiate game in Met. That isn't too discouraging to the Brooks because Ivy believe they were the same club that had been able to take Brocklyn all plovers a galley slash? The tale of which we can't confirm. Is that true?

For Increase in Telephone Rates

Your Telephone Company has found it imperative to file application with the Kentucky Public Service Commission for higher rates on local telephone service and on non-local (long-distance) calls within the state. This action was taken because telephone earnings are dangerously low and reasonable earnings are required to furnish adequate service. We ask that you read this message carefully so you will understand clearly why increased telephone rates are necessary.

Your telephone rate is low and it is in the current interest of your Telephone Company to keep it low. The total cost of furnishing telephone service has doubled in the past 18 months by increases many times. The cost to you has increased 110 per cent, while services increased only 60 per cent.

Wage Rates Up $3,895,897

Much of the increase is in the expenses of furnishing telephone service, wages have made up the greater part of the cost of furnishing telephone service. Wages have been raised many times through increased personnel, the provision of better facilities to furnish service.

The new rates will go into effect on December 1. Since the first of this year, 45,000 new telephone lines have been installed in Kentucky, but 70,000 people are still waiting for service. The new rates go into effect at the beginning of this month.

Residence Rate Held at Minimum

Today's rates include a surcharge for increased service, which is included in the rates. This is the same surcharge that was used in the past.
