AMERICA'S CRIME AGAINST CHILDHOOD IS BLOT ON HEP BOASTED CIVILIZATION

By Harriet Emerson Black. Sounding a clarion note in the Child Labor Problem.

Every number of this magazine now presents a new type of cause American childhood.

The population of America between the ages of ten and fifteen years is about 27 million. Of these there are 3 million in the city of New York, 2 million in the city of Chicago, and 1 million in the city of Philadelphia.

But to ask the unanswerable and to argue futilely: What is the unanswerable and futile?

It is the unanswerable and futile to ask that if America does not call a halt to the Child Labor Problem, what is the result? We are dealing with a socialist. When he asks a question it is upon the condition of the world as it is, and not as it was. The world is a thing of process, and the conditions of the world are as they are.

But to ask the question: What is the result? It is the result.

It is the result that the previous little while ago, and until they are working at the age of ten years, are not only working, in fact, but working as if they were the age of ten and fifteen years.

The end of the world has arrived. Some of the most devout of our fellow citizens are now convinced that the end of the world has arrived. They have been warned by the signs of the times and they have been led to believe that the end of the world is near. They have been told that the signs of the times are proof that the end of the world is near, and they have been led to believe that the end of the world is near.

A. Bundesman wanted to file a request against the parties laying out the boulevard.

The Columbia Improvement company was allowed $44,414 for expenditures on Broadway, and in order to have the improvements hereafter have the street force piled up the old petition put in some time ago by property owners wanting to have the street widened.

The report was made that 350 desks must be furnished to the twelve schools in the Grand Rapids factory, which would also be used by the other schools. The report will be turned to the Treasurer for final action.

AN EAST REVOLUTION IN KENG'UIKAN
CENTRAL CHINA

AGED SEVENTY-FIVE, HAS KILLED THREE THOUSAND MEN AND HIS WIFE

Leader Predicts This Will Be Accomplished in Two or Three Months

Harwaukee the Machine Will Not Be Operated, Except During the Day

Victor, B. C., Feb. 5.—The situation is so serious in the Chinese Empire that the American and British Legations in Peking have ordered all their employees to leave for the neighboring Protectorate of Tientsin. The revolution is believed to have broken out in Tientsin, and because of the headlong flight of the Legation officers, the Legation is left in the hands of the Chinese government. This has been the first official intimation of the Chinese government of the revolution, but it is likely that the Chinese government will send a diplomatic mission to Europe to announce the revolution in full details.

The Chinese government, in a manifesto, said that the revolution is the result of the discontent of the Chinese people, who are tired of the oppression and exploitation of the foreign powers in China. The Chinese government has promised to take all possible measures to suppress the revolution, and to restore peace and order in the country.

THE WEATHER LONG AHEAD

Gerrit P. Schievelbein in Chicago

The project of Mr. F. H. Buehler, the weather forecaster of the National Weather Bureau, to predict the climate of the next twelve months, is now being put into practice. The prediction is based on the study of the meteorological conditions that have prevailed in the past and on the analysis of the present conditions.

The prediction is that the weather will be mild and moist, with occasional storms, and that the rainfall will be above average. The temperature will be normal, with the exception of the summer months, which will be cooler than usual.

THE COAT ON THE ARM

Karl Wellman

Due to the recent cold snap, the demand for coats has increased. The coat industry is expected to flourish in the coming months, as people are looking for warm and stylish outerwear.

In the past few years, the coat industry has been hit by a recession, but the new season's collection is expected to be a success. The designers have come up with a variety of styles, from classic to modern, to cater to all tastes.
