FORESTER STATES NEED OF TIMBER

Local Camp Man Says Farm Lands Should Be Managed Thoughtfully

While Calloway county farmers are sweating under a hot early September sun it is not too early to plan winter work in farm woodlands, according to Henning Carlson, forester of the CCC camp at Murray.

Timber stand improvement is a major item on the winter work list of the camp, Carlson explained, since the weather often keeps both the farmer and the camp workers out of the fields. A systematic plan of improving farm woodlands is now being furthered by the Soil Conservation Service staff.

Although the camp's prime interest in farm woodland is that a good timber stand is the most effective erosion control known, Carlson pointed out that the woodland should also be considered as a valuable part of the farm because it is capable of producing considerable revenue if properly managed.

"Few farm woods have been managed with a thought for the maintenance of a good forest," he said. "Practically no attempts have been made to weed thin-out, and generally improve growing conditions. As a consequence, trees of no value have frequently become dominant, and crooked, injured, and diseased trees are often prevalent. This means that the average farm woods is poor, both from the standpoint of soil erosion control and the production of timber."

Carlson invites all farmers interested in timber stand improvement this winter to get in touch with the camp immediately.

INFANTILE MALADY TAKES 4TH VICTIM

Edwin Clayton Doores Dies in Farmington Wednesday of Paralysis

Infantile paralysis claimed its fourth victim in Calloway county during the year with the death Wednesday night August 25 of 11 year old Edwin Clayton Doores, son of Mr. and Mrs. Newell Doores, of Farmington, route 2, near the Graves and Marshall county lines.

The child had been ill scarcely more than a week. Others in Calloway who have died from the disease "this year" were Willy Phillips, 18, Murray; Alan Lax, 32, who died in a hospital in Murray, although he lived in Buchanan, Tenn.; and Hicks Thurmond, 18, who lived at Brandon.

Private funeral services for the youth were held at the residence, and burial took place Thursday in the Mt. Zion Cemetery. Besides his parents, those who survive the child in his immediate family are two sisters, Mary and Anna; a brother, Edgar Thomas; and his grandparents, Mr. and Mrs. Willy Doores and Mr. and Mrs. Monte McClellan.

According to Dr. J. A. Outland, county health physician, there is no great danger of a further spread of the epidemic.

DANGER OF FEVER IS IMMINENT HERE

Two Sure Cases of Typhoid and One Suspected Case Have Been Reported

With the report during the week of two new cases of suspected or diagnosed typhoid fever, Dr. J. A. Outland, county health physician, urged that people in the county use special care to drink pure clean water and clean food, so that the danger of an epidemic in the county will be reduced to a minimum. The typhoid germ, Dr. Outland said, gains admittance to the body only through the mouth.

The new case diagnosed positively as typhoid is that of Mrs. Betty Morris, Mayfield, a former Calloway county, who is receiving treatment in the Keys-Houston Clinic here. Hospital officials declared that the peak of the disease has already been reached in her case and that she is improving rapidly.

Amos Sumner, Faxon, son of Mrs. Lum Sumner, recently taken ill, is believed by attending physicians to have the disease. A blood sample has been sent away for inspection, but no word has yet been received to ratify the typhoid belief.

Hugh Miller, 16, who lives near Hazell, is now almost completely recovered from a severe attack of typhoid. Dr. Outland made known.

Outland, Garrison Are Charged With Robbing Aged Man

Sheriff Carl B. Kings and Chief of Police W. B. Parker arrested Ora Garrison and Kelsy Outland, both of Murray, early Friday morning on a charge of overpowering and robbing Tom McNeely, a 74-year old farmer of near Aurora in Marshall county, Thursday night.

McNeely had on his person \$62 which he alleges the bandits took. The robbery occurred after McNeely and Wavel Butler, both of whom had been selling watermelons in Murray last Thursday, started to leave town. Outland and Garrison were riding with them, according to the complaint. They were threatening Butler, Sheriff's office, and said he'd need help. When officers got into the street immediately thereafter, the car with the three persons was gone.

McNeely said the robbers did not use guns, but simply overpowered him and took the money. Sheriff Kings found Outland at his home asleep about 2 o'clock Thursday morning, and Garrison surrendered sometime later. Both denied the charges, although McNeely definitely identified them as the culprits Friday morning. A search of the two disclosed only \$15, that in one of Outland's shoes.

SINKING SPRING CHURCH IS ONE OF OLDEST IN COUNTY

One of the oldest, if not the oldest, churches in Calloway county is the Sinking Spring Baptist Church, in the Sinking Spring community, which was instituted in 1831, 106 years ago on August 15, with 12 charter members.

August 15 this year came on a Sunday, and the church celebrated its birthday with preaching service. From its humble beginning with 12 members—almost symbolic of the beginning of Christianity with the original 12 apostles—the church has grown in membership until its enrollment now totals 40.

The 12 original charter members were David Owen, Nancy Owen, Hezekiah Owen, Elizabeth Owen, William Flowers, Sarah Ann Flowers, Elizabeth Adams, Sarah Ann Hall, Nancy Adams, Elizabeth Greenwood, Eady Owen, and Arson Flowers.

Last year, the church added 44 members to its rolls, and thus far this year has gained 33 new additions. During the life of the church, it has had 13 different pastors. They were, serving in order named, Samuel McDowell, Thomas McChen, E. Owen, Isaac Cooker, George Sherman, Carol Morris, Isaac Cooker, J. C. Spann, Jack Padgett, J. C. Spann, W. A. Beale, N. S. Castleberry, W. A. Gregory, and J. J. Gough, present pastor. J. C. Spann served the church as pastor for 24 years, and N. S. Castleberry was pastor for nearly 30 years.

The Sinking Spring church has elected two church clerks in the last 84 years. The Reverend Mr. Gough invites any person who wishes to visit the church any Sunday at 11 o'clock for preaching services.

COACH HOLLAND CALLS TIGERS TO GRIDIRON WORK

30 Report for First Day's Call; 5 Lettermen to See Action

Will Play Seven Home Games on M. H. S. Field

Coach Preston "Ty" Holland called the Murray High School Tigers to their practice field Wednesday, September 1, and 30 reported for the first day's practice. They will work out twice daily until school begins Monday, September 13.

With five lettermen back for this year's gridwork the Tiger squad looks as though there would be a good team. Many of the squad saw actual work in last year's games and are not new to the game, hence a better nucleus to build the team from.

Lettermen reporting yesterday were Wilson, guard and captain, Cutchin, half, Buchanan, full, Crier and Oakley, tackles. New prospects for this year's Tiger lineup are: Gardner, Erwin, Mahan, Hart, McNutt, brother to last year's captain; Farris, Baker, Puckett, Gingles, and the Hule brothers, Bob and Harold, who will try to fill the place vacated by their brother, Van, steller guard of the Tiger eleven.

Assisting Coach Holland will be Gordon Johnston, former Murray High star, and "Dub" Russell, Murray State College staunch guard.

With such material there seems no reason why the Tigers can't come through with a winning season. A heavy line, with experienced players at each post, and a fast flanking backfield, none too green, will give opposition something to think about, even before they class on the gridiron.

The Tiger schedule is as follows: Sept. 17, Dawson Springs, here; Sept. 24, Paducah, here; Oct. 1, Fulton, here; Oct. 8, Mayfield, here; Oct. 15, Bowling Green, here; Oct. 22, Marion, here; Oct. 29, Fulton, here; Nov. 5, Morganfield, here; Nov. 12, Princeton, here; Thanksgiving—the annual classic, Paris, Tenn., here.

ENGINEER STATES COLDWATER ROAD AWAITS 'GO' ORDER

Andrews Expects Work Summons Soon, Contract Lists \$80,000

CADIZ PROJECT IS NEAR COMPLETION

S. A. Andrews, resident engineer and chief of engineers in this district, told the Ledger & Times this morning that R. L. Cocke, Wickliffe contractor, would begin work on the Murray-Coldwater state highway project, just as soon as a work order is issued by Commissioner Robert Humphreys in Frankfort.

The order is expected soon, Andrews said, and citizens here believe that it will be forthcoming immediately upon satisfactory "right-of-way" judgments by the Calloway county court.

The project originally listed at an expenditure of \$273,000, calls for approximately \$80,000 in the contract let to Cocke. However, the concreting originally proposed will not take place under the present appropriation, and the road will be one of grade and drain and low type (gravel) surface.

Road workers will be chosen through relief agencies, the engineer said, and all applicants must register through the National Employment Bureau at WPA headquarters in Paducah, where he said, may register at any time, he said.

Concerning the Cadiz highway, closed for long for concreting, Andrews said it was being travelled except for the last two miles on which concrete is being poured. The road will be ready for travel all the way through by mid-November, he declared.

Concrete, he said, has been poured on the Hardin-Graves County lines road since Saturday, and by Wednesday night a half mile will be ready for travel. The project, which calls for 11.2 miles of road work, will probably last through the winter, in the opinion of the engineer.

Dater and Rates for Clover Crops

A Kentucky College of Agriculture leaflet on clover crops gives the dates of seeding the various crops in that state and the amount of seed to use per acre as follows:

Local Boys Hybrid Corn Project Proves Success

The Utopia Club of Calloway county, which has a membership of 10 boys, put out off the White farm near Hazel, two acres of single cross hybrid seed corn.

These boys have detasseled one strain of this corn and forced the pollination to come from the other strain, thus producing a double cross hybrid. W. C. Johnston, field agent in agronomy, of the University of Kentucky, estimated that the corn will yield 50 bushels to the acre. The boys lined and phosphated this soil and will have excellent seed corn for sale next year to the farmers of Calloway county.

These same boys planted on their own farms double cross Hybrid seed corn and will grow it in comparison with other corn on the farm. Reports indicated that Hybrid corn is showing evidence of out-yielding the other varieties and types of corn now produced in the county on the same soil and under the same conditions.

When the seed corn came into existence in the county farmers of Calloway were rather quick to accept this new, clever and found it very advantageous to their cropping system. It appears now that Hybrid corn has the possibility of increasing the corn crop of the county like the seed corn has increased the hay crop of the county.

Farmers interested in this new corn that is capable of producing more corn on the same soil, under the same conditions than the ordinary varieties of corn are invited to attend a field meeting at the White farm across the road from Mason Chapel Church Thursday, September 9, at 1:30 p. m. Everyone is invited to come.

When the seed corn came into existence in the county farmers of Calloway were rather quick to accept this new, clever and found it very advantageous to their cropping system. It appears now that Hybrid corn has the possibility of increasing the corn crop of the county like the seed corn has increased the hay crop of the county.

Farmers interested in this new corn that is capable of producing more corn on the same soil, under the same conditions than the ordinary varieties of corn are invited to attend a field meeting at the White farm across the road from Mason Chapel Church Thursday, September 9, at 1:30 p. m. Everyone is invited to come.

To the Citizens of Calloway County

At the meeting of the Temperance forces of Calloway county at the First Baptist church last Saturday it was decided to employ Mr. Hall Hood to represent the Temperance forces of the county in the case before the Court of Appeals.

Mr. Hood in his address to the meeting stated that Judge Smith, on August 13, in his final decision in this case, supported completely the election commissioners, ruled that the election was legal and valid in every way. This decision was a great victory for the forces of law and order in this county, and the friends of temperance have every reason to be encouraged. But for the appeal to the higher court, no intoxicating liquors could have been sold in this county after August 25.

Now that the liquor crowd has appealed, it will be necessary to meet the appeal as in every other court action, and the Central Committee engaged Mr. Hood to represent them before this higher court.

Also it was decided to organize a "Vigilance Committee" in every magisterial district of the county. The Rev. A. V. Havens was continued as the treasurer of the Central Committee, and Mr. E. Lassiter, of the Bank of Murray was elected Assistant Treasurer.

This appeal to the higher court by the liquor crowd, in which we feel that the decision of Judge Smith will be sustained, calls for some expense so the Central Committee are asking all citizens who favor the enforcement of the law to make contributions as they see fit, and such contributions can be left with Mr. Lassiter at the Bank of Murray.

This statement was authorized by the Central Committee for the reason that many thought that the Local Option Election was of no avail. Quite the contrary is true. The temperance people have won at every point this time.—The Central Committee, by J. Mack Jenkins.

Vance School

With seven weeks gone, Vance school is moving along nicely. We have recently organized a new form of government known as the student cooperative government.

This type of government has many advantages over other forms of school governments, having for its major objective—giving each student an opportunity to take an active part in that which he is so vital a part; which gives him an insight into democratic government and good citizenship. It also gives the student practical training in the organization of a government and election of officers. This government is patterned from our own state government.

Our constitution accomplishes four major purposes: First, places the authority in the hands of the students under the guidance of the teacher. Second, provides for the organization of the government. Third, makes a division of governmental powers into the upper house made up of the teacher and the lower house which consists of members of the student council. Fourth, it defines a field of individual liberty, rules, and regulations.

Monday, August 23, the students elected the members of the student council. Those elected were as follows:

Joe Rob Houston, president; Dorothy Pool, vice-president; Gracie Lee Workman, secretary; Louiean Washburn, treasurer; James Burken, sergeant-at-arms; The student council met August 23 and appointed committees and defined the duties of each. The committees and members appointed are as follows:

Schoolroom Committee: Oeda Hopkins, chairman, Robbie Fennell, Lorene Todd, Jewell McKenney, Dorothy Todd.

Playground committee: Euel

Cole, chairman, Rupert Emerson, Joe Ed Emerson.

Program committee: Anorine Lovett, chairman, Geraldine Brandon, Euel Cole, Rupert Emerson, Eugene Moore.

Chapel committee: Lucille Washburn, chairman, Mildred Ramsey, Eula Morris, Dorothy Hopkins, Clara Nell Dunn.

Athletics committee: Eugene Moore, chairman, Clifton Emerson. News committee: Dorothy Pool, chairman, Gracie Lee Workman, Louiean Washburn.

On Tuesday, August 24, the student council met and proposed laws and regulations that are to guide the student body in governing themselves.

If the student body continues to work and cooperate in the future as they have in the past we feel that this form of government is going to be a great success.

The first four grades have organized two clubs. "The Humming Birds" and "The Busy Bees." These clubs are working under the hands of the Pupil Cooperative Government in making this one of our best schools.

The following students were elected as club officers: Humming Birds: G. T. Brandon, president; Junior Ahart, vice-president; Lita Sue McReynolds, secretary; Junior Burken, president; Junior Burken, vice-president; Katherine Lovett, secretary.

Those who visited our school during the past week were: Mr. John Key, Lottie Fennell, Estelle Lovett, and Dorothy Moore.

The school wishes to thank the parents and young people of the community for their past cooperation and interest and extend to them an invitation to visit the school at any time.

Around Paschall School

By Frances Fuqua

The revival meeting closed at Mount Pleasant Presbyterian Church last Saturday night with the results of a fine meeting. There were quite a number of professions and additions to the Church.

"Uncle" Sid Winsor has improved in health enough to return to his home from the Clinic Hospital, and we are sure glad.

Mrs. Lona Nance and daughter Mildred, and Miss Lottie Mae Kuykendall were week end guests of Mrs. Nance's sister, Mr. and Mrs. Fred Orr, Mildred and Lottie Mae had a big smile on their pretty faces from the thoughts of starting to school Monday, August 30.

Haughtie, that fine little wife of Hollon Byars, killed a chicken for Hollon Sunday Morning, and got afraid before Hollon quit eating that she would have to call the doctor for him or stand him in the pond one. In fact, he did quack a few times.

I guess everyone around here is about through canning. It seems like most of the women have their cans full. But drying apples and peaches seems to be taking the day now.

Miss Ethel Paschall spent last week with her niece, Mrs. O. T. Paschall. Mrs. Paschall has been in ill health for some time but is much improved at this writing.

S. Pleasant Grove

Mr. and Mrs. Edgar Nesbitt and baby, of Detroit, Mich., and Mr. Carl Smith of Cleveland, Ohio, came Saturday to visit relatives, among whom are Mrs. Ollie Nesbitt, their mother and grandmother, Mrs. Hub Dunn, T. W. and Cully Nesbitt and families.

Mrs. Ivan Guthrie and the writer, of this vicinity, and Prof. Vernon James, principal of Hazel High school, attended a temperance meeting at the First Baptist Church of Murray last Saturday afternoon. Though the legality of the prohibition vote on June 20 was called into question by big writers, according to statements made there in an able address by County Attorney Hall Hood (who deserves much credit in court assistance in maintaining the legality of the recent local option election with the help of Mr. Hood and the wide awake ministers of Murray, who, with others are assisting in the final round of test in Supreme Court, the dry forces of Calloway county will be winners.

The Rev. J. Mack Jenkins made a statement of a remark he heard which is complimentary to Calloway county officers who have offices in the Courthouse building. "Not one of those officers would drink a bottle of beer." Two of those officers, Mrs. Neale and M. O. Wathen, were reared in this vicinity. Thank you!

Mr. and Mrs. Holmes Ellis, of Lone Oak, visited their uncle and aunt, Mr. and Mrs. Duncan Ellis last Sunday. The Rev. and Mrs. W. A. Baker, Gleason, Tenn., called at this home Thursday afternoon. Sorry Mrs. Ellis, who has been bedfast several weeks, is having chills, but hope she may soon be improving.

It was with sorrow Thursday that we learned of the death of Mrs. Charlie Guthrie, of Hazel. She was a fine Christian woman. She was reared near Crossland and in her childhood days was a leading member of Lebanon Church. Of a family of seven children, Miss Onie Dunn and Mason Dunn survive. She was an aunt of Mrs. Jim Orr and Asher and Chester Dunn of Pleasant Grove.

An incomplete list of the persons from this vicinity who attended funeral services for the Rev. W. P. Prichard, former pastor, were Mrs. Manerva Orr, Clayton Orr, Mr. and Mrs. Bert Moore, Mr. and Mrs. Walter Moore, Mrs. Letha Brandon and daughter, Mrs. Orr and children, Mr. and Mrs. Curt Brandon, Mr. and Mrs. Lucian Adams and daughter, Miss Ruth.

Mr. and Mrs. Shannon Ellis and Mary, Leslie Ellis, Mrs. Florrie Stark and daughter.

Mr. and Mrs. Bob Orr and daughter, Mrs. Billington (formerly Miss Trease), and son who have been visiting relatives here, will return to their homes in Detroit the first of September.

Mr. and Mrs. Clarence Erwin, Mr. and Mrs. Tom Erwin, Mr. and Mrs. Emmet Erwin, Mr. and Mrs. Bob Orr and their families attended the Erwin reunion at Bob Noble Park, Paducah, Saturday, T. W. Erwin and family and Mrs. Ellis Paschall and baby remained over Saturday night and Sunday to visit with relatives among whom were Mr. and Mrs. Riley Gunter.

A good attendance was reported at the cottage prayer meeting service held Saturday at the home of Mr. and Mrs. C. W. Humphreys. Prayer services will be held Saturday evening, September 4, at the home of Mr. and Mrs. Cully Nesbitt.

Mr. and Mrs. Wilson, who arrived August 21 to visit their grandparents, Mr. and Mrs. Tom Erwin and others, visited relatives of Mr. Wilson's a few days last week in Arkansas. Mrs. Wilson was formerly Miss Briensburg.

Sam Galloway, of Aspermont, Tex., visited with his niece, Mrs. Willie Brandon, and family last Tuesday and Wednesday.

Billie Burke Wilcox, of Hazel, was the guest of Mary Ellen Brandon of this home Monday and Tuesday.

The three days' meeting closing Sunday at Providence Primitive Baptist church, was an enjoyable occasion to many.

Mr. and Mrs. Goebble Scarbrough and family attended the birthday social of Miss Dorothy Carraway's last Wednesday night.

Preaching services will be held here next Sunday at 11 a. m. by the pastor, K. G. Dunn. Mrs. Elzo Gupton will hold prayer meeting services in the evening just after Epworth League program.

Across the River

We're having weather too warm for my liking over here, tho' at last the canning rush is diminishing. It's the men working in hay who are doing the perspiring now.

Fruit cans have been in great demand this year and country people especially, should be very thankful for their well filled pantry shelves against the winter needs, if only the freezes don't take their toll of our labors later. I've even heard some men complaining about the abundance of fruit, because during their leisure they've been having to help can. Even my dad in his late years is taking pride in drying peaches since his trees were breaking down with their weight.

It takes pretty constant summer toil, I find, to prepare for winters of life, else we'll be just like the ant found the grasshopper.

Mr. and Mrs. Raymond—Kirk motored in from Houston, Texas, and spent the week end. Stayed with us Friday night, matter-of-fact, that salesman's wife helped me pick peas till about dark one afternoon down in Cumberland River bottom. It wasn't work for as we picked we visited different places in Texas, saw the most covered trees along the Gulf of Mexico and passed real ranches where real live cowboys grow. Then when our task was finished—and our talk—we really did sit down in the watermelon patch, burst some watermelons and with our fingers for spoons, helped ourselves.

R. B. thought he was to be transferred but hears now that he is to go back to Texas Monday or to W. Va.

Schools begin over here Friday so that by Monday Tennessee will be prepared and no time lost. Miss Geneva and Linus Speelard go back to their last year's spots at Fort Henry and Blue Spring. I almost went to Concord last Monday for the school opening.

Guests it would have been and the missing faces of all the old gang.

I did stop in for a few minutes at McCuiston school recently, and all seats were filled and everything was quiet and orderly.

That Tilton Taylor, after holding a very successful meeting at Pleasant Valley Church, has gone to Clear Spring or some such school to become principal. Congratulations, neighbor.

Policeman Burman Parker and family vacationed last week visiting relatives, Mesdames, Guy and Oldis Lovins, Mrs. Mansel Barker, Mr. Walter Brandon and others near Brandon. We hope "Uncle Pete" Brandon is better at this writing.

Mrs. Gaylon Thurman has bruised her hand canning and was suffering from it last week.

Why hasn't Woodrow Smith told us he and Miss Fittman married and lived happily ever afterward. Lots of news is downright old by the time it gets here. And Mr. and Mrs. Edwin Dick hadn't said a word about being proud parents of a plump little daughter. I just happened to come across her at the Bluff where most folks go at the first visit.

I didn't even know Mr. and Mrs. Ramond Hamlin were living in Hopkinsville till they happened to get-out and were seen in the company of Mr. and Mrs. Dewey Coleman from Detroit at the Bluff.

Really, the Ledger & Times could afford to pay my ferrriage every week to have me go to the Bluff and find out about folks—tho some might prefer to pay me to stay home.

Life's pretty hard for the ambitious youth today. There are so many things to wish for and so much competition in keeping up with the Joneses. If it were best, sometimes I'd find myself wishing that every boy and girl could have been born with a silver spoon already in their mouths, so they would never have to experience humiliation, longings, and despair. But I know that it is those very trying and common experiences which unite humanity with a more kindly and sympathetic understanding. And, after all, isn't that what we have that counts but what we are. Now I've used the cool part of the morning scribbling and must iron in the heat.

FAXON SCHOOL NEWS

W. H. FARRIS
School opened with a bang. Everything is going nicely.
At the opening of school there were 150 visitors.

Prof. George Parker, Bro. Curt Winters, Prof. Dennis McDaniel, and Mr. and Mrs. George Dubois were some of the outstanding visitors and speakers for the opening of the fifteenth year of Faxon High School. We were very glad to have them and so many others come out. We want them to come back at every opportunity.

Athletics
The football teams, both boys and girls, are expecting the Almo teams over to play them Friday afternoon. Mr. Clark is coaching the boys and Miss Brandon the girls.

The Faxon Community Fair
We are now planning for the annual Faxon community fair on the usual date, October 15. We hope to have even a better fair than last year.

We wish to thank the business men of Murray for the way they are responding in helping us to get up our catalogue.

Brother Robert A. Hart, county road commissioner, visited the school last Friday morning. While here he recited some of his poetry for us. We all enjoyed his visit and we invite him to come back again.

The fifth grade will have an honor roll soon. Those doing especially good work last week were: Edward Colson, Joe Dan Dyer, Maybel Colson, Ina Jean Outland, Jerrold Holland, Julia Ann Holland, and Helen Billington.

Intermediate Room
Everyone is busy working for perfect marks to be put on our reading and spelling chart.

We have three new students this week. They are: Frances Vance, James Vance, and Glynn Blackney.

W. A. Cunningham is out of junior high school because of a bad injury to his ear, which was almost torn off in a fall from his bicycle.

A new freshman was added this week. Miss Ethel Lee.

CHRISTIAN SCIENCE
"Man" is the subject of the lesson-lesson which will be read in Churches of Christ, Scientist, on Sunday, September 5.

Among the citations which comprise the lesson-lesson is the following from the Bible: "But we all with open face beholding as in a glass the glory of the Lord, are changed into the same image from glory to glory, even as by the spirit of the Lord." 2 Corinthians 3:18.

The lesson-lesson also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Man reflects infinite Truth, Life, and Love. The nature of man, thus understood, includes all that is implied by the terms 'image' and 'likeness' as used in Scripture." (p. 94).

North Lynn Grove

Well, we are still wishing for rain but seems we don't get any. Crops are beginning to go back although there is still chance to make good tobacco if it rains come.

We enjoyed a very pleasant afternoon last Friday at the home of Mr. and Mrs. Bun Swann, where they gave Mrs. Reba Fane a nice shower which she seemed to enjoy so much. She received many nice gifts.

Mr. Earl Miller and family were in Murray Saturday, shopping.

There was a very serious accident occurred last Saturday to Mr. Guise-Tidwell and Mr. J. C. Paschall. They were found in the Elwood Dick bottom, both in the same yellow jacket's nest. Fighting for life, Tidwell looked at Paschall and said there is one in the bosom of my overalls, so they fought till they got out. Paschall was lucky to receive only one sting.

He came in with one hand about three times as large as the other. Tidwell was trying to make friends with one of the jackets so he kissed one of the pesky things. He came in with a thick upper lip.

Mr. and Mrs. Rudy Pogue had their daughter, Mrs. Ruth Nix, of Paducah, with them this weekend.

Mrs. Lillie Hayne is happily expecting her son Coy Hayne and wife to visit her this weekend from St. Louis.

PIG-IN-A-POKE

The Coldwater road construction is starting and will include grade and drain work and a light gravel surface. Some of the people are disappointed but the fault is local. If we could have procured the right-of-way in time to have completed the road before next year we would have had the promise of a complete road with a high type surface. But we could not do so. We had been working to this end for two and a half months.

We were told that we had no money for right-of-ways. Then at last a promise of some allowance and with a committee from court we started out to close up the gaps in order to get even started on construction this fall with a deadline on September 1. We have the right-of-way. However, of course, it is not satisfactory to all concerned. Several signed when told that there was nothing to pay, while others held back and have been paid. It is not my fault. I was working under orders.

Backusburg School News

As school goes on the interest seems to increase. The cream supper was a great success and we thank everyone for helping us to put it over. We are going to get some new shades and several other things we need.

We have been saddened by the death of one of our dear little pupils, Edwin Doores, who died of infantile paralysis August 25. His illness was short and came as a shock to us. We miss his sweet smiling face in our school room and his leadership on the playground. We will say as James Whitcomb Riley said, "He is not dead, he is just away." We will think of him as being the same in the land where he'll never grow old.

We dedicated our chapel room Friday morning to the passing away of Edwin Doores.

The honor roll pupils are:
First grade—Mildred Mason and Orlis Fields, Jr.
Second grade—Christine Mason, Anna Frances Smith and Robbie Nell Mason.
Sixth grade—Clara Nell Coleman.

Woodlawn School News

Our school attendance for the first few weeks has been excellent. Of course we hope to continue the same.

We received our report cards last week. Some of the students were pleased with their grades while others were disappointed.

The Woodlawn softball team united the series with Grindstone Friday. The score was 13-3 in our favor. We also played McClellon Friday and were defeated by the score of 14-1.

Miss Johnnie Lee Coleman has written the chief warden of the penitentiary at Eddyville to find out whether or not we can go through the penitentiary. We are all anxious to receive the answer.

We intend to go within two or three weeks.

Research Shows More Operators Than Car Drivers

By Wednesday of this week, 2,885 persons in Calloway county had purchased drivers licenses for automobiles, the Circuit Court Clerk made known today.

Information from the office of the County Court Clerk also revealed that there were 2,580 licensed cars in Calloway county, which is rather definite proof that every car owner in the county (if not every driver) has his operator's license.

MURRAY SQUARE

By JULIAN III

LEAD—For Murray Square — George Bingham, Mayfield newspaper man, columnist, and writer whose words strike so simply at the heart of things, impresses one with that kindness which is always a part of great men.

I talked with him and Mrs. Bingham and their daughter, Margaret, on the porch of his home in Mayfield, for "White Tuesday" evening. He said he didn't know about journalism, but he could talk "newspaperism," all right. He was full of memories of a long career.

His children have acquired their father's gift of writing. They believe the simplest things are the most beautiful. Danny is the oldest of the children, is married, and is working on the "Gazette" at Clinton. Both he and Margaret, the second child, were on the Sun-Democrat staff during the summer. Margaret won a gold key in the state contest for a news story she wrote last spring when she was on the staff of the College News at Murray. Virginia, the youngest child, is only 12, but she pinch hits for her daddy in writing his column sometimes when he's away.

Mr. Bingham writes the "Hog Wallow Happenings" in the Louisville Times under the pen name of Dunk Bots. His contribution to clean journalism and to literature for the people has been great.

The signs were all right for rain Monday. A circus was in town, and it rained. Of course, the clouds had been lowering and pulling together all morning and a few sprinkles had fallen, but at noon when the regular circus band decided it would venture out on the street and play the grand march around the square, the real shower fell. It made no bones about it. The red-uniformed bandmen were soaked to the epi-

dermis, but they kept up their tune, nonetheless. The sun peeped out to see how they were getting along, and seeing they'd taken their morning (or is it noon-tide?) baths it decided to keep on out.

The week's assortment of movies in Murray is far above that which the average small town (or even large towns, for that matter) enjoys. Very few theatres in the country, I suspect, will furnish you such entertainment as "Easy Living," with Jean Arthur and Edward Arnold, "Toppers," with Cary Grant and Constance Bennett, "The Toast of New York," with Edward Arnold, and Cary Grant all in the same week. In addition, during that same week, there were two other pictures of high class rating. And just two days later in the next week comes Pearl Buck's powerful Chinese drama, "The Good Earth."

Speaking of movies reminds me, John D. Sexton has a striking resemblance to Donald Meek. Bill Martin looks like Freddie Bartholomew and Bonnie Tant is reminiscent of Jean Arthur.

Vignette: A small scurrying figure ran out into the roadway. It was evening, and the grass was high along the side of the road, so that the driver did not see the dog until he heard its sharp, hurt cry. After he stopped, it was too late. That night, a child cried. The fault was not the child's, the driver's, nor the dog's. Yet it was tragedy!

We hope to see you at one of our churches on Sunday.

CHURCH OF CHRIST

Lord's Day: Bible Study at 9:45, preaching at 10:45 a. m. and 7:45 p. m.
Wednesday: Prayer meeting at 7:45 p. m.

When one thinks of life with all its intricate and complicated attributes and vicissitudes, its joys and sorrows, its pleasures and pains, he stands a helpless wonderer if he be without divine counsel. But Jesus solved the problem. He taught that there are eternal values which lie beneath the surface. By His words and deeds, He revealed the eternal and infinite values. These values are not measured in days, months, and years. Not quantity, but quality makes life.

The subject at the morning worship will be "The Value of Life." COME, you are welcome.

Social Security Office Opens in Paducah

Paducah will host Friday, August 27, to the Social Security Institute which marked the official opening of the Paducah field office in charge of S. E. Stratton, acting manager.

The purpose of the Paducah office, according to Mr. Stratton, is to serve employees and employers in McCracken, Livingston, Caldwell, Trigg, Union, Christian, Webster, Calloway, Graves, Fulton, Hickman, Ballard, Carlisle, Marshall, Lyon, Crittenden, and Hopkins counties, and is concerned primarily with the old age retirement benefits of the Social Security Act.

"Generally speaking, persons who have attained the age of 65 and who have been paid wages for employment in a covered occupation since December 31, 1936, are eligible to file a claim for a lump sum benefit payment, Mr. Stratton stated. "Also persons who are legal heirs of deceased workers, or administrators, or executors of estates of wage earners will may be due claims."

The Paducah office of the Social Security Board is located in the Weille Building, 617-19 Broadway. Persons desiring information on any phase of the Social Security Act may write the Paducah office for such information.

Hospital Staff Is Pleased

Dr. William H. Mason and his staff as well as all of the other doctors bringing patients to the William Mason Memorial Hospital are very highly pleased with the additional equipment which is purchased by the hospital from time to time. One of the most outstanding additions to the already modern equipment and facilities of the hospital, is the purchase which was made this week on the latest invention in the form of a gas machine used in giving anesthesia and assisting in the revival of patients in need of artificial respiration. During the few days that this modern equipment has been used on trial by the hospital, more than 40 surgical cases were taken care of in the operating rooms of the hospital, with wonderful satisfaction.

Dr. Katherine Fisher who serves as anesthetist, is very highly pleased with the addition of this modern equipment. The purchase involves a gas machine—fully equipped with gauges and meters and controls, including force feed, so that with the simple turn of the hand, the anesthetist can administer vaporized ether, ethylene, nitrous oxide, carbon dioxide or oxygen, as the case may require. With this equipment the anesthetist can put the patient to sleep in about two minutes without causing unpleasant sensations, such as are experienced when other methods are employed. Sensations of nausea and vomiting are materially reduced.

With this modern equipment, anesthesia is administered under most delicate control, in harmony with the very latest findings of the medical profession. This community can well appreciate the efforts made by the William Mason Memorial Hospital to provide the latest there is possible for the successful care of surgical and medical patients. Other equipment purchased during the past few days include a centrifuge microscope, electric incubator, electric water bath and binocular microscope.

WOODLAWN SCHOOL NEWS

Another week has gone by and the grades have been very good and hope they will continue to be so.

We had a ball game Friday with Outland. The scores were 11-7 in our favor.

At our ice cream supper Saturday night we took in \$1.79. A fine time was reported by everyone.

I don't suppose we will get to go on our trip to the Eddyville Penitentiary. We received a letter from the chief warden Saturday. He said it would not be permissible for us to enter the prison. We are planning to go to Columbus, Ky. or Union City, Tenn., after we have our pie supper in the near future. Written by J. W. Scott, fourth grade, Rebecca Coleman, sixth grade, Maybelle Shills, eighth grade, and Ruth Scott, organizer.

Staudts Announce Arrival of Child

Mr. and Mrs. Harry Staudt, daughter and son-in-law of Mrs. E. D. Covington, are the happy parents of a jovial little daughter, who was born early Monday morning, at the home of Mrs. Staudt's mother, Mrs. E. D. Covington. Mrs. Staudt was formerly Miss Elizabeth Covington. The child, a lovely little juvenile, named "Beverly Jean," is doing quite splendidly, according to its grandmother.

Engineers? Well, Yes! They Run To Blondes in Murray; Pretty Ones, Too!

With a little mobiliangular piece of blue-enamelled steel each of them measures more than 1,000 acres of land per day.

They have looked over, or will look over, practically every farm in Calloway county, and a more charming survey crew you'll never have an opportunity to see.

There's a blonde with brown eyes, and a brunette with blue eyes, and a pure blonde like the clear blonde of sunlight on Pacific sands.

It's a pleasure to watch them tell you in two minutes how many acres there are in the lespepede field it'd take you two hours to walk around.

Their names are Rubye Carolyn Wilson, Martha Sue Johnson, and Dorothy Dale. Miss Wilson is the 100 per cent blonde, and Miss Johnson is the brown-haired lass with the blue eyes. Miss Dale has a blue eye and a blue eye, but will just as soon as her instrument which has been ordered comes in.

Neither Miss Wilson nor Miss Johnson are quite 20 yet, and Miss Dale barely is, but no rear chain man ever blushed an eye to a clyometer half as accurately as these clear-eyed lassies watch the gauges on their planimeters.

You wouldn't believe it, but these young engineers never leave their office to measure a single acre. They just do it with huge pictured maps of the farm land in Calloway county—pictures taken by airplanes of the farming territories—and they just run their planimeter around the boundaries of the farm, and presto—they know immediately how many acres you have in turnip greens or kudzu. It's all very simple as clear as mud—anybody could do it (Yes, if they knew how).

Frozen Niagara in the Mammoth Cave of Kentucky is 748 feet high and 50 feet wide. Scientists say that it has been forming more than

six million years. Geological surveys show that Mammoth Cave is 748 feet above sea level, while the average height of the knobs of the region is 898 feet.

Vernon Baily in his book on the "Cave Life of Kentucky" states that there are 500 known caves in Edmonson County in addition to 4,000 sink holes. This region he states included half of Kentucky.

The county agent sent letters to 1,200 Metcalfe county farmers extolling the merits of barley as a crop.

The object of optometry also is twofold: to examine the manner in which the eye transmits or refracts light, and to aid the mind in receiving visionary impressions.
