Their Needs Over There
May Delay Your Getting Telephone Service Over Here

Because needs and other communication materials are so
heavily needed in war, it is becoming more and more difficult
for the telephone company to fill service requests. In fact, faci-
tiles are now insufficient to meet the demands for service. So
unless you qualify as an essential user—one whose tele-
phone usage is directly essential to defense—unless you
qualify as an essential user—one whom telephone usage is di-
rectly essential to defense—and your telephone usage is direc-
tly essential to defense, it is becoming more and more difficult
for the telephone company to fill service requests. In fact, faci-
tiles are now insufficient to meet the demands for service. So
