COST OF LIVING

The cost of living as shown by recent government statistics has increased more than 40 per cent in most of the Eastern cities. Retail food-cost increases are below the average. The United States Bureau of Labor Statistics says that the average increases were greater in the first World War than at the present time.

One peculiar slant relating definitely to the problem is the tremendous increase in wages and salaries. An interesting phase of the situation is found in the growth of independent labor unions that have upset the efforts of the AFL and the CIO to rule union labor, largely because those independents are not following along with their big brothers, or with the White House.

When the New Deal was young the 70-year-old AFL was the only nationwide organization of labor. Then the CIO started and the United Mine Workers increased its powers. The independent unions now claim 5,000,000 members. These new groups have stirred up major political complications largely because they are not under President Roosevelt's control. The independents are said to have "voted as they pleased" in the past three elections. Thus the influence of the Administration isn't as effective as in the early years before the war, at the time John L. Lewis was unchecked when he pulled off the sit-down strikes in the automobile plants in the Detroit district.

INCOME TAX RETURNS

There is only one thing harder on the American people than figuring out their income tax returns—that more important matter is paying the heavy taxes. But tremendous taxation is here and the amounts that they will have to pay in future years will not be less than the present year. In facing the facts everyone is convinced that taxes will go higher.

The confusing form of the income tax returns will be simplified—in response to the nationwide clamor that the blanks should make more horse-sense. The returns were made to conform with the chair laid down by the United States Treasury, and accepted by the House Ways and Means Committee. There is no alibi for the Treasury Department and the attempt of the Administration to lay the blame on Congress didn't go over with the public. Simplified forms of returns are promised, and as a matter of fact, the next set of blanks will likely be understandable to persons with average intelligence.

"EMPLOYMENT SERVICE"

The Farmers Union is critical of the recommendations of the Baruch report and asserts that it offers nothing for the farmers, or for the Nation's workers, but merely promises an employment service that aims to bring about a speedy withdrawal of the government from war time business while assisting in the restoration of private enterprise.

The War Production Board has issued a series of slight revisions of about 60 restrictive orders. A few months ago there was a big scarcity of metal including steel, aluminum and copper, all of which are more plentiful at this time.

"In general, our turn has been down the line of the Truman recommendations, provided that civilian wants can be met without using labor, plants or materials, needed for war production," said a recent statement from the War Production Board.

THE OLD JUDGE SAYS...

"Sorry Judge, my shipment of suspenders still hasn't come in. Some articles are mighty scarce these days. I don't get anywhere near as much as I could sell."

"With the war going on, Frank, we've got to expect those things. It's true of luxuries just as it is of necessities. Take whiskey, for example. There's a real shortage in that. It's to be expected when you realize there hasn't been a drop of it distilled in this country since way back in October, 1942.

"The only thing distillers have been making during that time is war-alcohol for the Government. So, I wasn't surprised a bit to read how bootlegging and black markets have sprung up around the country as a result of the dwindling supply. Our 13 years of prohibition proved that if folks can't get legal whiskey, they'll get illicit whiskey. Sure hope the shortage doesn't last too long. I'd hate to see this country turned over to the bootleggers again."

Hats off to the People who Produce your Electric Light and Power

The Charles A. Coffin Foundation confers a special citation for distinguished wartime achievement on the
ELECTRIC LIGHT AND POWER INDUSTRY

"Faced with unprecedented demands, the Electric Light and Power Industry has met every war-production requirement without delay and without impairment of its peacetime services to the public. This achievement merits the appreciation not only of American industry but of the entire nation."

—FROM THE CITATION

THIS CITATION is richly merited—for here is a branch of industry that has done a remarkable war job that has not been generally recognized.

If electric power should fail, or if it be too little or too late, the disastrous effects would startle all America. Vital machines would be motionless. Millions of homes would be cold—and an eerie blackout would descend over the land.

But, electricity has not failed. Rather, in 1943 twice as much power was produced as in the year before the war—with the minimum of new facilities—and despite large losses of skilled employees to the Armed Services.

In the words of J. A. Krug, Director, Office of War Utilities of W.P.B., "Power men—public and private—should be proud of the job that has been done in providing power supply. Power has never been too little or too late."

We of General Electric, who have built a large part of the electric equipment which generates, distributes, and uses the electric power of America, take pride in the way this equipment is standing up under the strain of "forced draft" wartime operation.

Many of the men and women responsible for this remarkable record are your neighbors—the manager or meter reader who lives across the street, the girl in the accounting department who is in your bridge club, the lineman with whom you bowled last night. A word of appreciation from you to them will lend added significance to this well deserved citation. General Electric Company, Schenectady, New York.

What Is the Charles A. Coffin Foundation?

THE PURPOSE of the Charles A. Coffin Foundation is to encourage and reward distinguished achievement in the electrical field by "prizes to employees; by recognition to lighting, power, and railway companies for improvement in service to the public; by fellowships to deserving graduate students; and by the grant of funds for research work at technical schools and colleges."

Establishment of the awards was announced twenty-two years ago in a statement issued by President Swope and dated December 2, 1921:

"On May 16, 1922, Charles A. Coffin in his 78th year retired from the active leadership of the General Electric Company. Mr. Coffin has been identified with the development of the electrical industry since 1882. He was the founder and creator of the General Electric Company, of which he has been the inspiration and leader for thirty years."

"As an expression of appreciation of Mr. Coffin's great work not only for the General Electric Company but also for the entire electrical industry and with the desire to make this appreciation enduring and constructive as Mr. Coffin's life and work have been, the Board of Directors of the General Electric Company, created on his retirement and now desires to announce the 'Charles A. Coffin Foundation.'"

LETTER TO THE EDITOR

The following letter was submitted for our FORUM, and does not necessarily express the opinion of the editor. Anyone who differs, or agrees, may write a letter to the editor and it will be published. Comments by readers are always acceptable when properly signed.—The Publisher.

Dear Editor:

Here's a letter that speaks for itself. It will be prized in years to come as an index to the goofiest period of America's history; as the decade during which we were governed by Bureaus, Bureaucrats and crackpots; governed by those who were never elected by the people, never accountable to the people, but derived their power by appointment, decrees and directives.

The letter follows:

Hon. H. P. Fullmer,

Congressman from South Carolina, Washington, D. C.

Recently I had a letter from you relative to the Alphabetical Agencies created under the Roosevelt New Deal Party. Am sorry I could not answer sooner.

I did not send you the folder. It was sent by some one else. For many months I had been wondering about the number of these Bureaus. Either there was no record of them, or those in charge did not want to give the information so I decided to get it.

After printing a limited number to give to friends I thought others might also be interested in seeing such a list. I became a bit uncertain and sent out only a few copies as a "feeler" to names taken at random from my local mailing list. The response overwhelmed me. By noon the second day I had calls for more than 5,000; before these could be printed the requests had grown into the thousands, and at this date I am nearing the 200,000 mark—every one asked for. I shall continue to bear the burden of supplying free to those willing to distribute, and who ask for them.

I have received more than 2,000 letters, and yours is the only one critical. They come from every walk of life and every section of the nation. Small town merchants about to fold up; large manufacturers fearful of what is in store; postal cards; RFD numbers; cooperatives and just plain citizens.

Senators, Congressmen, Governors—those high in the ranks of both parties—have written for copies for distribution. All ask that they be billed for the cost, or enclose checks. A money order for \$2 from the mother of three boys in the armed forces—one in Africa, one in the South Pacific, and the youngest in a Texas training camp. She attempted to carry on the filling station business her boys had to give up. The OPA was so hard, boiled she closed the business "improper handling of gas rationing coupons." It has been my information that no two of these Bureaucrats have ever been able to agree on how they want anything done.

What do you suppose her boys are going to think of that Bureau when they return, if they do, from fighting for America?

I have returned every contribution and shall continue to do so. The records are open for the inspection of anyone you care to designate. You will be astounded at the comments. Taxpayers Associations in three states; educational groups; the Secretary of the South Texas Press Association wrote for 200 copies, and in a few days asked for 350 more to supply the demands.

I am convinced the people in America are awakening to the dangers involved in these damnable Bureaus, every one of which at this very minutes is high-pressureing the Congress for larger and larger appropriations, not for war purposes, those some of them are so camouflaged, but solely for the benefit of the self-seeking politicians operating them, and who are not interested that our nation is engaged in a life struggle and too busy to guard the rat holes.

I have but one purpose in supplying these folders: I want to do something to put our Government back into the hands of the people and their duly elected representatives, and to restore faith and confidence in the minds and hearts of the people in their Government. Can this be done under the Roosevelt New Deal Party?

An attempt was made to liquidate the NYA. The War Manpower Commission was created with McNutt in charge, and, according to newspaper reports, the first thing he did was pick up the NYA bodily and carry it over to the new Board—not a day lost, not a cent saved the taxpayers; another board took care of the Faithful!

We see every day where some New Dealer is placed in a better paying Government job than his home voters ousted him from. There's Josh Lee, of Oklahoma; an attempt to pay off Jimmie Allred, of Texas; Flynn, and Brown, and so on down the line. You know them better than I do. Will Congress awaken to such practices before it is too late? Is the Roosevelt New Deal Party allowing evil influences to hide behind a false cry of War while the nation is being plundered?

You ask who I am and what line of work engaged in. I am the head of a small but very modern printing company. Do not own one dime of stock in any other corporation; draw a modest salary; am able to get along comfortably, and hope to retire in a few years—unless the New Deal Party gets us all in reverse.

As to your question: Whether or not you would prefer going back to the conditions which existed in every line of business in 1930-32 when Mr. Roosevelt took charge as President of the United States.

That is a fair question and I shall answer it sincerely:

Yes! I would prefer what we had when Mr. Roosevelt took charge to what we have now, and I am not referring to the war part.

Then we had distress, but we had our rights, we had our liberties, we had our self-respect, we had our initiative, we had self-confidence. We had faith in our Government, and faith in our ability to come out of the depression. The "gimme" era had not blossomed.

We did not have "verboten" signs at every turn; we had not been fingerprinted, numbered, regimented. We had not been told where we could work, when we could work, and for what salary we could work. We had not been told what we could plant, how much of the crop we could harvest, where we could sell it, and for what price we could sell it. We had not been told what we could buy, when we could buy it, where we could buy it, and the number of points we had to pay for it.

Had the people of America been warned of the ultimate cost of the hypocritical generosity of those experimenters in Washington, such a foolish program would never have been allowed. But like old age, it crept upon us so slowly and was fed us so adroitly that we were enmeshed in the coils before we realized what was happening.

Then we were individually burdened with debts, but now look at what we are collectively burdened with, and in addition we have all these dam Bureaus on our backs.

Yes, I would prefer a system that allowed me to buy that for which I did not have the money to pay, than a system that forbids me to buy that for which I did have

SAUL BECOMES A NEW MAN

LESSON TEXT: Acts 9:1-9, 13-19.
GOLDEN TEXT: If any man be in Christ, he is a new creature.—II Corinthians 5:17.

The lives of great men inspire us with an eagerness to make our own lives count for God and for country. Particularly is that true of the life of the apostle Paul, for he combined personal greatness with an absolute surrender and devotion to Christ, which made his life doubly effective.

We recall, however, that this peerless leader for Christ was at first the bitter enemy of everything Christian and we ask, "What changed this man?" The answer is—the redeeming grace of God—but that is the story of our lesson. He became a changed man as he went—

I. From Threatening to Trembling (vv. 1-7).

The enemies of God and of our Christ are often loudmouthed and terror-spreading individuals, who, for a time, strike fear into the hearts of men. Such was Saul of Tarsus, and such are the antichristian leaders of our day. They seem to be so powerful and able to sweep all before them.

But wait! Luther said of God's arch-enemy, "One little word shall fell him," and it is true. See what happened to Saul. Off on his journey of persecution and destruction, bold and determined, he met Jesus on the Damascus road, and the great threatener is found to be "trembling and astonished" (v. 6). The Lord is still on his throne, and one day every mouth shall be stopped (Rom. 3:19), and all His enemies shall tremble before Him. Would that they would do it while there is time to repent.

II. From Persecuting to Praying (vv. 2, 9; see also v. 11).

Paul utterly devoted to the rooting out of this hated sect of Christians was on his way with letters authorizing their imprisonment. It was all very official, zealous and marvelous in men's sight, until he met Jesus, and it all blew away.

Ananias, that faithful layman (may his tribe increase!) was called of God to go and speak to the stricken Saul. When he feared to go, God encouraged him (v. 15), for the powerful persecutor had now become a penitent prayerer (v. 11). That's what a face to face meeting with Jesus did for Paul—yes, and will do for any man or woman.

III. From Scolding to Suffering (vv. 1, 13-15).

Saul doubtless gloried in the breathing out of threatnings and slaughter of which we read in verse 1. He was riding high in the seat of authority and of official approval. It was satisfying to his fleshly pride to make known his dreadful purposes of destruction and imprisonment for these helpless Christians.

Did we say helpless? Oh, no, they had on their side all the power of the Eternal One. He who touches the people of God touches the Lord Himself. Paul thought he was fighting a little sect of Christians, but found that he was fighting the Lord Himself (v. 5).

But now that he had met Jesus and was ready to turn in devotion to His sacred cause, he was to learn what it meant to suffer. Let us note well that suffering for the sake of one's faith may be entirely within the will of God, yes, and for His glory.

IV. From Spiritual Death to Spiritual Life (vv. 17-19).

Men have tried to explain the experience of conversion on the ground of psychology, as a cataclysmic change in the life of an individual who has gone through some great sorrow or trial, but it simply will not go down. There is in real conversion a regeneration which means a completely changed life.

Saul did have a sudden and moving experience on the Damascus road, but it was not just because of a blinding light and a mighty voice. It was a light "from heaven" (v. 4), and the voice of the Lord.

Saul was "filled with the Holy Ghost," and received his sight. He was ready now to be used of the Lord as the greatest missionary evangelist and theologian that the world has ever known.

This change was one which reached down into his inmost being and transformed his beliefs. The Jesus he had hated, now became his all consuming passion and love. He no longer looked to his works to save him, for now he knew the personal Saviour.

What happened within showed itself in his attitude toward those without. It always does. He now came to love the very people he had hated and persecuted, and turned every bit of his strength and ability into the task of working with them in the spreading of the gospel throughout the world.

Men and women—yes, boys and girls—today need this same change from death to life. Too long have we been trying to polish up the exterior of lives unchanged within.

WACS BENEFIT FROM PLANNED BASIC TRAINING

Members of the Women's Army Corps, when they arrive at a WAC camp from basic training can prepare to dispense with pills, girdles and reducing diets. In fact, many who start the physical training given five days a week throw these artificial aids to health and a good figure right into the ash can, pills and all.

Interviewed in the Kentucky Utilities building at WAC headquarters here, Lieut. Ellen Young, Recruiter, pointed out the way in which physical training in the WAC creates women ready to "take it." Lieut. Young will answer questions or supply application blanks at the K. U. office each Wednesday from 10 a. m. to 4:30 p. m.

That Nagging Backache

May Warn of Disordered Kidney Action

Modern life with its hurry and worry, irregular habits, improper eating and drinking—its risk of exposure and infection—throws heavy strain on the work of the kidneys. They are apt to become over-taxed and fail to filter excess acid and other impurities from the life-giving blood.

You may suffer nagging backache, headache, dizziness, getting up nights, leg pains, swelling—feel constantly tired, nervous, all worn out. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.

Try **Doan's Pills**. Doan's help the kidneys to pass off harmful excess body waste. They have had more than half a century of public approval. Are recommended by grateful users everywhere. Ask your neighbor!

DOAN'S PILLS

Regains 20 Lbs. On Retonga; Back On Job

He Puts In Seven Days Work A Week And Feels Better Than He Ever Did, States Mr. Collins. Tells About His Case.

Happy and grateful men and women continue praising Retonga for the prompt relief they obtained from this noted medicine. For instance Mr. G. P. Collins, well known resident of 723 Hanon St., Madisonville, Ky., gratefully stated:

"I suppose constipation was at the root of my trouble, for I had to take awfully strong laxatives all the time. I felt so nervous I could not sleep more than an hour or two at a time, and my appetite went back on me completely. I could

drink only a glass of milk for breakfast, and ate a slice or two of bread for lunch. Then in the evening I would try to eat more, but eating to me was surely a task, and I lost over twenty pounds.

"Retonga gave me wonderful relief. I eat three meals a day with a fine appetite, and am back on the job seven days a week. My nerves are steady, I sleep fine, and the constipation is relieved. I have regained twenty pounds, and I never felt better. My gratitude to Retonga is beyond words."

Retonga is intended to relieve distress due to Vitamin B-1 deficiency, constipation, insufficient flow of digestive juices in the stomach, and loss of appetite. Accept no substitute. Retonga may be obtained at DeMyer Drug Store, adv.

From where I sit... by Joe Marsh

Sam Abernethy Knows a Thing or Two

Dropped in Sam Abernethy's store the other day and we got to talking about the American way of life.

"Suits me to a T," Sam said, as he trundled out a bale of barbed wire that Bert Childers aimed to call for after dinner.

"Well, I reckon we all feel the same way, Sam," I told him, "Just think—if we were regimented, like folks in enemy countries, most likely you wouldn't have this store business and you wouldn't be serving your customers in the friendly, accommodatin' way you do."

"That's right," said Sam, "and you and I wouldn't be allowed to talk out loud about our government, or to listen to verboten radio programs or to enjoy each other's company over a moderate glass of beer now and then."

From where I sit, that little confab with Sam just about summed up the things our country's fighting for.

Mr. And Mrs. Joe Doakes Discover Something That Pleases Them!

FOLKS: In the cartoon above, you see Mr. and Mrs. Joe Doakes struggling with their income tax report. It has just about got Joe down. His wife Mary can't help any, except to give him another pot of black coffee and wish him luck. Scenes like this took place recently in countless thousands of homes, probably including yours.

But Joe found one pleasing item as he puzzled over his tax report. Wading through the details of his living expenses, he discovered what a very small part of his income he pays for his electric service.

"Shucks!" Joe exclaimed. "I used to squawk about our light bill being too high, and now I find it is only a little over one cent out of each dollar it costs us to live. That's not even pin money."

"That's true," Mary said. "Here's a piece in the evening paper about it . . . U. S. Bureau of Labor Statistics cost-of-living index for fifty-six cities. It says the average family spends 42c for food out of each dollar of income . . . 17c for rent . . . 12c for clothing . . . 5c for fuel and ice . . . 3c for house

furnishings . . . 20c for miscellaneous purposes . . . AND ONLY A LITTLE OVER 1 CENT FOR ELECTRICITY."

Joe wondered why some people say that government subsidized electricity, like TVA power, would be such a big help in lowering the average family's living expenses.

"Why if a family cut its electric bill 30 per cent it would be less than half-a-cent out of each dollar of living costs," Joe explained. "And if the government can sell electricity cheaper, why not have government food and clothing stores, and homes to rent—since these are the biggest items in a family's living costs?"

"But if the government should take over all business we would have Socialism, and we don't want that in America!" Joe snapped.

Joe is right too. It is easy to see why government can sell you food, clothing, insurance, newspapers, electricity, etc., cheaper than privately owned business can. Government agencies like TVA, and government stores and enterprises, pay little or no taxes, no postage, etc. And whatever they lose or waste is paid out of the pockets of the tax payers.

WE'LL GROW MORE IN 1944

Say AMERICA'S VICTORY GARDENERS

The pledge of every American who has a gardening plot is to---GROW MORE IN '44! Make it your pledge, too, because now as the war reaches such enormous and critical proportions, in order to hasten Victory, it is most vital that our fighters and our allies have all that they need to eat. By growing a VICTORY GARDEN you assure your family all the healthful nutritious foods it needs too, without depleting the farm production too much for civilian needs.

the money to pay. I object to registration; object to being ruled by a bunch of fan-tailed theorists who are attacking everything that has made America great—even the geography, the calendar, the clock, and the unchangeable law of supply and demand.

It is easy to rebuild our lost fortunes, but liberties and human rights once taken away are not easily recaptured.

I note you are Chairman of the Committee on Agriculture, and as I have long been active in that line, am making some observations:

I objected then and I object now to the slaughtering of some 6,200,000 pigs; hundreds of thousands of brood sows; more than 800,000 dairy

cows, not even allowing the hides to be saved because that would lower the price of leather, when at that time shoes were so high many people could not afford a new pair. I objected to destroying hundreds of thousand of acres of growing farm products, the essentials and necessities of life. All this with millions hungry and unclothed. Some how I feel that God will punish those who do such foolish things.

I protested to our Congressman when two new post offices were erected in this county—right in the midst of cheap gas, cheap and abundant fuel oil—and the heating plants were designed and installed requiring hard coal from Pennsylvania and other states. John L. Lewis was in the saddle, and the railroad boys were whooping it up for more rail tonnage. The New

Deal Party graciously complied. Was it right, sensible or honest? It was extravagant.

We have Boards, Bureaus and Commissions to deal with production, and we have Boards, Bureaus and Commissions to deal with surplus along the same lines. That does not make sense. The real burdensome surplus we have is that of Boards, Bureaus and Commissions, and a surplus of political gangsters living off the efforts of the producers and the farmers. All the farmer asks is a market, and he will find a way to produce.

I am getting along well in years and have gone thru several depressions, some of them much worse than this one, but none so deliberately and purposely drawn out. The others got going in a short time. I lost something like a quarter of a million dollars in this depression, but I did not blame the Government. If this depression had been left alone it would have corrected itself, as the others did. But the New Deal Party had to call in a bunch of super-economists, Guinea pig experimenters, and it has been prolonged needlessly.

The Roosevelt New Deal Party will go down in history for just what it is: A rotten, selfish, plundering political machine. I do not believe that any true Democrat can go along with the Kelley-Nash-Mea-Flynn-Hague outfit—every one of them a front rank New Dealer.

The whole policy of the Roosevelt New Deal Party seems to be to upset everything that is proven. We were wrong yesterday, therefore, we are right today because we are different. If things are scarce we shall make them too plentiful; and if plentiful we shall make them too scarce. If prices are high we shall make them too low, and if low we shall make them too high.

I have in my possession a list of large land owners in Texas who were paid \$5,000 and more per year for not producing crops. Many of them are big ranches, insurance companies, and corporations that never did produce crops. Others were paid more for allowing their land to lie idle than they could have made by working it. The tenants went to the cities and got on relief, the lands grew up in Johnson grass and weeds, and thousands of rich bottom farms are now ruined for all time—a high price the land owner paid for New Deal relief.

At the very time our cotton industry was at its lowest ebb, the largest cotton concern in the world (Anderson, Clayton Company, of Houston) began erecting modern gins (electric), oil mills, compressors and great cotton plantations in Mexico and South American countries, taking away America's cotton business because we were paying a bonus for NOT producing while foreign countries were paying a bounty TO produce. Another indictment that the New Deal Party paid a premium on laziness and put a penalty on thrift.

I fear the confusion, turmoil and strife now prevalent is for a sinister purpose, and that it has been deliberately planned by those who brought forth such Bureaus as the NYA, the USES, and others equally vicious. There may be those who want things to get out of control so that martial law can be invoked. That will be the final step to a dictator.

I love my country, love its past; I love what its future can be. The same methods that made America Great can make it even greater. I have fear of what is in store unless those of you in charge at Washington take back to Congress the control you have surrendered to the President and these selfish Bureaus and Agencies. I pray that you be given the courage to do so.

With kindest regards to you personally, and the highest possible faith in our Congress to do the right thing when you are given the light to guide you, I am,

Yours truly,
E. M. Biggers,
100 Sabine Street,
Houston (10) Texas.

CHRISTIAN SCIENCE
The subject of the Lesson-Sermon to be read in Churches of Christ, Scientist, throughout the world on Sunday, April 2, is "Unreality," and the Golden Text is: "Truly in vain is salvation hoped for from the hills, and from the multitude of mountains; truly in the Lord our God is the salvation of Israel" (Jeremiah 3:23.) Among the citations are the following passages:

"Let both grow together until the harvest: and in the time of harvest I will say to the reapers, Gather ye together first the tares, and bind them in bundles to burn them: but gather the wheat into

my barn" (Matthew 13:30.)
"Truth destroys mortality, and brings to light immortality. Mortal belief (the material sense of life) and immortal Truth (the spiritual sense) are the tares and the wheat, which are not united by progress but separated" ("Science and Health with Key to the Scriptures" by Mary Baker Eddy, p. 72.)

SAFETYGRAMS

We must work harder than ever in 1944 to eliminate accidents on the Home Front. The results of accidents are tremendous losses in man power, time, and material. These

losses are prolonging the war and delaying the final day of victory.

We on the home front have many reasons to be ashamed of the record we established in 1943 as far as casualties and accidents are concerned. We killed more people on the Home Front than were killed in battle when men make a "business" of killing.

Two railroad disasters in 1943 took a combined toll of more than 150 lives.

Two coal mine explosions, one in Montana and the other in Alabama, took 74 and 26 lives, respectively.

A Texas hotel fire killed 51 persons.

Drownings took from the Home Front and production line 7,500 lives.

These figures are from the National Safety Council, and represent but a few of the types of accidents to which any of us might be subject.

I hope that as this year progresses each of us will become more and more safety conscious, so that we can add our bit to the tremendous effort that is required to produce the material with which to win this war.

The less a man thinks and knows about his virtues the better we like him.—Emerson.

Candidate
For
CIRCUIT JUDGE

To the voters of the First Judicial District of Kentucky, composed of Ballard, Carlisle, Graves, Hickman, and Fulton Counties.

I am a candidate for the office of Circuit Judge of the First Judicial District subject to the action of the Democratic Primary Election on Saturday, August 5th, this year, to complete the unexpired term of the late Judge L. L. Hindman, and will deeply appreciate your votes and influence in my behalf. Having served my County two terms as County Judge and two terms as County Attorney, and having been an active practicing lawyer for about twenty-five years,

I feel that I'm qualified to properly perform the duties of the office.

If elected as your Circuit Judge, I promise to give you the best service of which I am capable in order that the work of the Courts may be properly conducted, that all litigants may be treated with fairness and courtesy; and that justice may be dispensed.

Very sincerely,

ELVIS J. STAHR,
