ILLINOIS CENTRAL WILL NOT GIVE UP GOVERNMENT

GENERAL AGENT JOHN DONOVAN SAYS POSSESSION WILL NOT DISPOSE OF CRET ABBEY

Mr. Donovan said that General Terhune, the late company's president, was not disposed to make the reversion of the land to the state without a contract for the use of the road.

On the proposed abandonment of the road, Mr. Donovan said, "If the state wants the road, it can purchase it for the same price that it was purchased for. If the state does not want the road, it can abandon it and we will not be forced to continue operations unless we receive a just compensation for the property."

The Illinois Central railroad will not willingly give up possession of the land at Vandalia, but will resist any effort to compel it to do so.

MUST HAVE DIMPLES.

There are many different ways to make dimples on the face. Some people believe that dimples are inherited, while others think they are caused by natural accidents. Whatever the cause, dimples are a popular feature in beauty contests and in Hollywood films.

In the treatment of dimples, there are two main methods: surgical and non-surgical. The surgical method involves cutting a small incision on the skin and then placing a small piece of tissue under the skin to cause a dimple to form. This method is often used to create dimples on the face of newborn babies.

The non-surgical method involves using a combination of heat and pressure to create dimples on the face. This method is often used to create dimples on the face of adults. The treatment is relatively painless and requires only a few minutes to complete.

Prevention is the key to avoiding dimples. To prevent dimples, try to avoid any procedure that might cause the skin to stretch or tear. This includes avoiding any procedure that might cause the skin to become loose or saggy.

In conclusion, dimples can be a beautiful feature on the face. Whether you have dimples or not, it's important to take care of your skin, as it can be affected by a variety of factors. By following these tips, you can help prevent dimples and keep your skin healthy and beautiful.
