ALIENIST SAYS THAW HAS "EXAGERATED EGO"

In Plain American lan, Dr. Jonas R. Meakins, the Alienist who examined Thaw, states that Thaw has "an exaggerated ego".

PROSECUTES PAPERS FOR "HINDSIGHT" EVIDENCE

United States District Attorney Brandt, of Chicago, has filed a complaint against the publishers of the New York Times for "hind sight" evidence.

New York, Feb. 12—United States District Attorney Brandt, of Chicago, has filed a complaint against the publishers of the New York Times for "hind sight" evidence.

The complaint alleges that the Times has published a report of a conversation between the Alienist and Thaw, which was made confidential.

CONDITION OF MRS. BERTIE CAMPBELL IMPROVED

The condition of Mrs. Bertie Campbell, who was shot in the head by her husband, has improved.

The First Baptist Church has decided to remove the body of Mrs. Campbell from the hospital and to have it brought to the church for burial.

DEADLOCKED ON THE JAPANESE CONTROVERSY

Washington, D.C., Feb. 13—The Senate has failed to pass a resolution condemning the Japanese government."
New Road Wanted.

The citizens of Georgetown, Ky., have petitioned the county to have a new road between their town and Washington, D. C. They say that the old road is impassable in times of flood, and that it is unsafe for the use of vehicles. The petition is signed by a large number of citizens, and it is hoped that it will be granted.

Misty Leatherwood, Charles Jennings, and W. McLeod Garthe were present at the county court today in response to the petition. They said that the old road is in a terrible state, and that it is time for something to be done.

A motion was made to refer the petition to the county road board, and it was passed unanimously.

Why Be Sick?

Why do you suffer from headaches, backache, stomachache, and other ailments? Do you wish to be free of these problems forever? Then read on...

Do You Have Headaches?

Headaches are a common complaint, and they can be caused by a variety of factors. Some people get them because they are dehydrated, while others may get them due to stress or anxiety. If you suffer from headaches, there are a few things you can do to try to alleviate them.

1. Stay Hydrated

Make sure you are drinking enough water throughout the day. Dehydration can cause headaches, so keep a water bottle with you and take sips whenever you feel thirsty.

2. Take Breaks

If you work at a desk for long periods of time, take regular breaks to stretch and walk around. This can help prevent tension headaches.

3. Exercise Regularly

Regular exercise can help reduce the frequency and severity of headaches. Aim for at least 30 minutes of moderate exercise most days of the week.

4. Avoid Triggers

Some common triggers for headaches include bright lights, loud noises, and strong scents. Try to avoid these things if possible.

If you continue to suffer from headaches, it may be a good idea to see a doctor to rule out any underlying medical conditions.

Wine of Cardui

An ancient Greek physician named Dioscorides is credited with the discovery of the root of Carduus nutans, which he used to treat constipation and digestive problems. The plant has a long history of use in traditional medicine, and it is still used today for various health benefits.

Recent studies have shown that Carduus nutans can help relieve symptoms of constipation and irritable bowel syndrome. It may also have anti-inflammatory properties, which could be useful for treating conditions like rheumatoid arthritis.

In conclusion, the root of Carduus nutans has a long history of use in traditional medicine and is still used today for various health benefits. However, it is important to consult with a healthcare professional before starting any new supplement regimen.

TO INVESTIGATE TOBACCO RAIDS

JUDGE GORDON SAID FARMERS COULD MAKE A DEPENDABLE LIVING ON THE CROP

Marine to be Blinded Through a Terrible Blast
As Possible Under the Laws of the State

Chief Engineer John Hobbs, while on South Front during a dry period, will finish this work the first of next week by installing the little system put in by the company recently. The test was made for the purpose of fighting fires in all the buildings here, which will cost about $200,000 and be paid for by the insurance companies.

Jill Rustey Business

Mr. Jill Rustey, the former public prosecutor of California, is in San Antonio, Texas, with Mrs. Rustey, who are expected here shortly on account of a large real estate business which they will start.

TO ABOUT FINISHED WATERWORKS

Mr. D. S. Beardsley Engages in Real Estate Business at San Antonio

He will remain here about a week and then will return to San Antonio, where he has business interests.

THREE BOYS HAD ECZEMA OF HEAD

Our Newly-Triad—Little Ones

There were seven children, all of whom were expected to be in the hospital today.

ALL WERE PERFECTLY CURLED BY CUTCURA

Our three children had eczema of the head, but after using CUTCURA, we have not noticed any recurrence of the condition.

SEEMS LIKE COLLECTOR! FRANK FOR GOVERNOR

MEETING HELD HERE YESTERDAY BY STRONG AND INFLUENTIAL REPUBLICANS OF THIS COUNTY, WHO ARE IN FAVOR OF GIVING THE NOMINATION FOR GOVERNOR TO THE KNOCKY COLLECTOR OF REVENUE FOR THE UNITED STATES. MEETING HELD YESTERDAY HERE FOR PURPOSES OF INCLUDING REVENUE FOR THE SUMMER TOURS TAKEN, AND TO GIVE DATE FOR SELECTION OF STATE TICKET.

Mr. F. W. TAYLOR, of the Post Office Department, Washington, D.C., was present at the meeting, and it is understood that the collector's action in favor of Mr. Frank for Collector of Revenue, and that he is considered a strong candidate for the office.

According to the report, the meeting was held in the city hall yesterday, with Mrs. Ella Puryear of Jefferson, and Mrs. H. H. Loyd in attendance.

The meeting was held for the purpose of selecting a candidate for the office of Collector of Revenue for the United States. It is understood that Mr. Frank is the favorite candidate, and that he will be given the nomination.

At the meeting, Mrs. Ella Puryear of Jefferson, and Mrs. H. H. Loyd were present, and they are in favor of Mr. Frank for the office. It is understood that Mr. Frank is considered a strong candidate for the position, and that he will be given the nomination.

The meeting was held in the city hall yesterday, with Mrs. Ella Puryear of Jefferson, and Mrs. H. H. Loyd in attendance.
The June 15, 1911 issue of the Paducah Sun contains articles on various topics such as a notice about a moving wagon, a statement about hump, and information about a moving company. It also includes a section on the ironing business stating that it irons either stiff or pleated. There is an advertisement for Bosom's Ironers, described as the "King of all Paducah Central." The article notes that "hump" is a term often seen in Kentucky. It suggests trying ironing services and mentions other relevant points. The article concludes with a notice about the king of all public service. The overall tone suggests local news related to ironing services and public utilities.
The Human Race Is Said To Be Dying Out

The belief that the total population of the world is rapidly diminishing has been expressed by Dr. L. M. M. Miller, a Spanish statistician. He has just published some figures for the world's population, showing that the rate of increase is not as rapid as was formerly believed. Dr. Miller states that, in recent years, the rate of increase has been little more than 0.5 per cent per year.

The statistics are based on data from the latest available sources. The figures given are the results of the efforts of the statistical bureaus of the different countries. The data are considered to be reliable, but it must be remembered that the population figures are only approximations.

The figures given are the result of the efforts of the statistical bureaus of the different countries. The data are considered to be reliable, but it must be remembered that the population figures are only approximations. The figures are based on data from the latest available sources. The statistics are based on Dr. Miller's study of the causes of death and the rates of mortality. The death rates have been declining in recent years, but the birth rate has not been declining as rapidly.

The statistics show that the population of the world is not increasing as rapidly as was formerly believed. The rate of increase has been little more than 0.5 per cent per year. This is a decrease of about one-third from the rate of increase of 0.8 per cent per year that was reported in 1930.

Dr. Miller states that the rate of increase has been declining for some time, but that it has not been declining as rapidly as the birth rate. The birth rate has been declining more rapidly than the death rate, but the rate of increase has been declining at a slower rate.
