GREENWRAP CO-OP ELECTED DIRECTORS

Members of the Tri-County Marketing Co-operative met in Fulton Tuesday night at the Rainbow room, for the purpose of discussing further plans for the Greenwrap tomato season and to elect directors and officers.

Paul DeMyer was elected president of the organization. J. D. Moss of Water Valley is vice president; and Chap Taylor of Water Valley is secretary-manager. Mr. Cruce of near Dukedom, Tenn., and Mr. Logan Glidewell of near Hickman were named as other members of the board of directors.

Plants have already been arranged for by the members, and over 70 farmers are members of the organization. So far over 100 acres have been signed up, and there is still an opening for others who wish to join. Top prices were realized for greenwrap tomatoes last season by the Mayfield and Murray organization, and farmers in this section can do the same. However, anyone wishing to produce this profitable crop, should contact the secretary, Chap Taylor, at Water Valley by the end of this week, for after then it will be difficult to obtain plants for the season which will open early in May.

R. W. Shirer, of the Agricultural Extension Department of the Illinois Central Railroad, was present at the meeting Tuesday night, and gave some helpful suggestions to members. This department and the county agent will assist in keeping members informed on how to grow and market greenwrap tomatoes for the market.

DOWN OUR ALLEY

The established system of governing suffrage in the United States is as simple as abc's. Every qualified voter is entitled to cast his or her ballot in all elections. The claim that a Federal system would serve more voters than the established and recognized State system was just another attempt to "show 'em how" the Federal government can do things better than sovereign states.

That theory has not been proved very often in the past dozen years, and fortunately the States have refused to surrender their ballot boxes and approve the experimental notion.

The plan to build an Army and Navy to 11,300,000 by July 1 will probably take 240,000 men from a deferred manpower pool of 4,893,000. Selective Services doesn't want war plants depleted of all key men under 26 years of age. The armed services are demanding 1, are on the spot. Those not eligible 160,000 men before July 1. Fathers for occupational deferments will be called. But draft boards still are lenient in granting occupational deferments to older fathers.

And speaking of wars, we have predictions many and sundry as to when the war in Europe will end. Of course none of them is more than a guess, so our guess should be as good as any. After a lot of calculating and figuring we estimate that the war with Hitler should end sometime next February. We have our reasons, based on study of facts at our hands; but whether our "guess" is anywhere near correct or not, only time can tell. But there is one thing we have done—We won a bet from a fellow publisher made early in 1943. He thought the European war would be over by Spring, and we said it wouldn't, but would hardly be started. Nothing would please us more than to have the war end tomorrow, but wistful thinking and fancy day-dreaming won't hasten the day of victory.

Wilkie has withdrawn from the race for President. Too many he has been enigma. At least he has been a burr under the Republican saddle. Dewey is so close-mouthed that no one really knows what he really thinks and believes. The Republicans so far have failed to raise a platform that will meet the approval of the general public, because they have been too busy quarreling among themselves. As much as we hate to see Roosevelt in there again for a fourth term (and ever after if he can hold it,) he is the favorite today. Not because people are satisfied with his administration, but because his op-a program that meets the needs and ponents have united themselves on demands of the majority of the people. Meanwhile, the New Deal lies low and quietly steals toward election day. There is just one thing that we hope won't happen above everything else, and that is, may our present vice-president, Wallace, never be the running mate of Roosevelt again. We would hate to think of what could happen to this country if President Roosevelt were elected again, and Wallace would have to fill out his unexpired term. Socialism and communism would bring us to the brink of political disaster.

County Agent Notes

White clover is considered especially dangerous. Numerous cases of bloat occurred in 1943, which was one of the best white clover seasons in many years. Bloat may be expected where white clover makes up most of the pasture.

Feeding hay at night or in the morning before the stock is put on pasture tends to prevent bloat. However, it often is difficult to get cattle or sheep to eat sufficient quantity to be effective after they have tasted grass in the spring. Nevertheless, it is considered good practice to keep it before them in the hope that they will eat enough to reuce the incident of highly acute fatal cases of bloat.

Some farmers believe that cattle bloat less where they run out day and night. When kept in at night, they tend to gorge themselves when turned out in the morning. This is especially true when the pasture is lush where there is a heavy dew or it rains.

As a general proposition, pastures containing a high percentage of succulent alfalfa or red or white clover should not be pastured in spring, unless other materials are fed at the same time. Hold the cattle on short bluegrass pastures until the legumes or white clover pastures are well matured or are in the seed stage. They may not gain so rapidly on the short pasture; as one man who followed this practice, remarked, "Our cattle may not be gaining as rapidly as some, but we still have all we started with." They will rapidly make up the loss in gain when put on the fresh pasture after the grasses are matured and safe for them to graze.

From where I sit... by Joe Marsh

Sometimes 13 Is a Lucky Number

Dad and Ma Hoskins never did like to brag on their children; but they've raised thirteen of 'em and every one a credit to the community.

"What's the secret of raising so many youngsters so successfully?" I once asked Dad.

"That's just it, Joe," he said. "There isn't any secret. Our family never had any. We always lived open and aboveboard."

"When I smoked, my youngsters saw me smoke; when I went off fishin', I'd take half a dozen of 'em along. When I'd feel like an occasional glass o' beer, I'd

enjoy it right out in the open. No mysteries in our family."

"Result was our children learned moderation, by example. Learned decency, initiative, thrift. Ma and I never nagged 'em... that's about all I know."

Well from where I sit that's the way of a free America—the way of "bringing-up" that's made our soldier boys and girls the best on earth.

Kidneys Must Work Well

For You To Feel Well

24 hours every day, 7 days a week, never stopping, the kidneys filter waste matter from the blood.

If more people were aware of how the kidneys must constantly remove surplus fluid, excess acids and other waste matter that cannot stay in the blood without injury to health, there would be better understanding of why the whole system is upset when kidneys fail to function properly.

Burning, scanty or too frequent urination sometimes warns that something is wrong. You may suffer nagging backache, headaches, dizziness, rheumatic pains, getting up at night, swelling.

Why not try Doan's Pills? You will be using a medicine recommended the country over. Doan's stimulate the function of the kidneys and help them to flush out poisonous waste from the blood. They contain nothing harmful. Get Doan's today. Use with confidence. At all drug stores.

The 4-H Club held its regular monthly meeting last Wednesday, April 5. The president was in charge of the meeting. The roll call was answered by giving a vegetable with the letter beginning with the first letter in his name. Mr. Miller and Mrs. Thompson had some very interesting things to discuss with the club members. A

very interesting program was presented with several of the members taking part.

"Spring Fever"

A farce in three acts by Glenn Hughes is being presented by the Seniors on April 28 in the school auditorium. It is commonly conceded to be one of the most popular farces ever released for amateurs. The cast is as follows: Howard Brant, a senior at Brookfield College, Roy Nethery; Ed Burns, a chemistry student, Richard Adams; Vic Lewis, an art student, Mac Pewitt; Lou Herron, a journalism student, Laverne Walker; Mrs. Spangler, the landlady, Hylda Harrison; Ann Purcell, Howard's heart interest, Jean Brown; Vivian George, V's heart interest, Sue Wright; Henry Purcell, Anne's father, a rich manufacturer, Charles Alexander; Phoebe Purcell, Anne's mother, Margaret Jones; Maude Corey, Howard's spinster aunt from California, Martha Williamson; Professor Virgil Bean, of the zoology department, Joe Campbell; Dr. Dixon, President of Brookfield College, Clifton Ferguson.

Mrs. Spangler's boarding house is more frenzied than usual on the day before commencement exercises at Brookfield College. Spring fever is bad enough at any time, but when it hits a college town, its devastating effect is increased. Don't miss this exciting play which is directed by the principal A. J. Lowe. He is doing his part in trying to make it more

thrilling than ever. Will you see First Lieutenant A. J. Lowe, Jr., from Camp Claiborne, La., is on a thirteen day leave and visited the school Monday. He is leaving Monday to visit Billy Lowe at the Basic Flying School, Courtland, Ala.

Superintendent J. C. Lawson was a visitor at school, Tuesday, April 11.

We had a good meeting any way and a beautiful lesson taught by Mrs. Jamerson, Mrs. Joe Lutten and the card class teacher Mrs. Joyce Brown, who seldom misses. 25 people can light this community. Mrs. Alexander explained she had been a member there for 38 years and this winter was the first one with Sunday school every Sunday. This is something to be proud of. Harmony won't fail if you and I are determined. There was a time when we wouldn't have been missed but not today. The church is facing the terrible crises spoken of in Revelation, which shall it be, defeat or rebuilding.

I've never seen the time that I felt the church needed me. Worse than I needed the church, but let's stand by, what say?

Prominent Minister Again Lauds Retonga

Had To Give Up Pulpit
And Other Duties, But
Regains 35 Lbs. And
Feels Fine Now.

REV. J. H. ROBERSON

Giving Retonga full credit for his relief after he had been compelled to give up his pulpit and lose many weeks from his work as County Trustee, Rev. J. H. Roberson, widely known Baptist minister of Cookeville, Tenn., gives this noted medicine one of the strong-

est public endorsements it has received.

"I was so badly tortured by acid indigestion," states Rev. Roberson, "that everything I ate or drank seemed to turn as sour as vinegar in my stomach. Many nights gas pressed up against my chest until I was forced out of bed to walk the floor in misery for hours. I had to take so much purgative medicines that ordinary laxatives lost their effect. I lost many pounds and became too weak and nervous to preach or do any other work."

"Retonga gave me relief after everything else had failed. I regained thirty-five pounds and have been eating, sleeping and feeling fine ever since. I am pastoring four churches and carry on my other duties without trouble. Retonga has my heartfelt gratitude."

Retonga is intended to relieve distress due to Vitamin B-1 deficiency, constipation, insufficient flow of gastric juices in the stomach and loss of appetite. Accept no substitute. Retonga may be obtained at DeMyer Drug Store.

THE OLD JUDGE SAYS...

"That's really a great editorial you just read to us, Judge. Where did you say it appeared?"
"In 'The Stars and Stripes'...the newspaper of the U.S. Armed Forces in Europe. Kind of gives us folks back home something to think about, doesn't it, Bill?"
"It certainly does, Judge. Particularly the last paragraph. Would you mind reading that again?"
"Glad to, Bill. It says, 'We can remember

the days of prohibition, when moonshine whiskey made quick fortunes for bootleggers, crooked politicians and dishonest police officials. As a result, we claim we know what we want in the way of liquor legislation and feel those at home should wait until we return before instituting further legislation on liquor control.'"
"Out of fairness to our boys over there fighting, Judge, how could we disobey such a wish?"
