SEEK FAIR OPINION
The Young Men's Business Club has eight appointed com-
mmittees to assess the betterment of the city and the
interests of the Y.M.B.C. The members believe that
the committee's good judgment will aid the society in
the development of the city.

Bouncing Egg
Is On The Way

Ag Day's, Scientist
Conserving Power Cover
On Farming

One of Arrow's, Georgia
States Division head staffmen
Field service at what is
Known as the technical, service
Agency for Consumer, Service
Agency of Agriculture

For a long while, the depart-
ment of Agriculture workers
on farms, have been
Conserving energy, with the
completion of the war
Ag. Dep't. Scientists

Weekly, reports came from
areas around the state, on
the energy, conservation
efforts. Farmers have been
Conserving energy, in many
ways, from the use of
Electricity, to the use of
Water, and the use of
Fuel. The department has
been working on a
Conservation program, to help
farmers conserve energy,
and to help them save money,
by using less energy.

One example of this,
was a report from a farmer,
who had conserved energy
by using a windmill, to
pump water, instead of
using electricity. The farmer
had been able to save
money, by using the windmill,
and he had been able to
conserve energy, by not
using electricity.

Another example of this,
was a report from a farmer,
who had conserved energy,
by using solar panels, to
heat his house. The farmer
had been able to save
money, by using the solar
panels, and he had been able to
conserve energy, by not
using electricity.

These are just a few
examples of how farmers have
been conserving energy,
and how they have been
saving money, by using
less energy.

There have been many
other examples, of how
farmers have been
conserving energy,
and how they have been
saving money, by using
less energy. The
department has been
working hard, on this
program, and they have
been making
progress.

Kentucky Will Test Alabama In Montgomery This Saturday

Montgomery, Ala., Oct. 25—(AP)—An all-around effort by Kentucky, which will make its first appearance here since 1936, is expected to give Alabama its first really tough conference contest of the year.

The third ranked Alabama team, which is now riding a three game winning streak, faces the unknowns of Kentucky, which is ranked fourth in the south and which has won four of its five games so far.

The game, which will be played tomorrow, is expected to be played in front of a record crowd.

Sports Roundup

Harris May Head Yanks

New York Daily—Harris "hold" on Post At Noon

New York: (AP)—"You're holding me out of the game," New York Post owner William Randolph Hearst, Jr. told the Post today, as the case of the "hold" on the Post was scheduled for the noon hearing.

Mr. Hearst's son, however, took a different view of the situation, saying the "hold" is an attempt to prevent the Post from publishing the news of the $40,000 a year access to news stories.

Hearst's son, who is the manager of the New York Post, said the "hold" is an attempt to prevent the Post from publishing the news of the $40,000 a year access to news stories.

Dutch Reprising German War Loot

Amsterdam—(AP)—The Dutch government has announced that it will reprise Germany's war loot on a large scale.

The move is in response to the demand of Allied governments for the return of war assets.

A Dutch government official said that the Dutch government would begin negotiations with Allied governments for the return of war assets.

Longest Fence In World Stops Hares

Rabbits—(AP)—What a barrier! A fence 900 miles long in the United States is said to be the longest fence in the world.

The fence, which is called the "bass fence," was built by the U.S. Bureau of Land Management and is said to be the longest fence in the world.

It is said to be made of a single strand of wire and is said to be the longest fence in the world.

For the first time in history, domestic and imported hares and rabbits are being raised in the United States.

The fence consists of two strands of wire, each 10 miles long, and is said to be the longest fence in the world.

BAKERS BUS LINE

Kentucky to Michigan

An impromptu beer run to Michigan has been arranged by the Bakers Bus Line.

The bus will leave tomorrow morning and will arrive in Michigan around noon.

The owners of the Bakers Bus Line said they are planning to return the beer to the Michigan area.

Hollywood Sends Abbott Only Best Of Current Film Crop

AP Newsphotos

New York-Because of the war in Europe, the number of films that can be seen here will be severely cut, and the number of bookings held to a minimum. In the opinion of several of the world's outstanding producers and directors, the world will see only the best and most valuable pictures of the year. This is the reason why the American motion picture company, Metro-Goldwyn-Mayer, has agreed to send only the best pictures to the world today. The company has agreed to send only films that are of high quality and that will be welcomed by the world's audiences. This is the reason why the company has agreed to send only the best pictures to the world today. The company has agreed to send only films that are of high quality and that will be welcomed by the world's audiences.

Milk May Contain Unknown Aid To Stop Tooth Decay

New York, Dec. 1 (AP)—Battling the world's tooth decay, the American Dental Association has begun a new campaign to stop the disease. The campaign has been launched with the release of a new film, "The Power of Milk," which encourages people to drink milk as a means of preventing tooth decay. The film features interviews with dentists and shows how milk can protect teeth from decay. The campaign is expected to be successful, as people are increasingly aware of the importance of dental hygiene.

Cattle Receipts Lowest In Week; Also Down

Chicago, Dec. 9--(AP)—Chicago, the nation's cattle center, has reported a decline in cattle receipts for the first time in weeks. The drop in receipts is expected to continue, as farmers are increasingly reluctant to send their cattle to market due to the war. The war has also affected the demand for beef, as people are increasingly concerned about the availability of food. The drop in receipts is expected to continue, as farmers are increasingly reluctant to send their cattle to market due to the war. The war has also affected the demand for beef, as people are increasingly concerned about the availability of food.
