TRIAL PLAN FOR SELLING "YOUR" SURFBOARDING SPACE IS IN THE PIPES

BY RUTH TAYLOR

Few people suffer more than I do from digestive ulcers in the stomach. My physician diagnosed the condition in March, 1933, at the post office at Fulton. It is a process of a long time, but I have been able to maintain a remission since then.

The ulcerated area is located in the lower part of the stomach and is about the size of a quarter. It is painless, but it is very tender and sensitive to pressure. I have been able to control the symptoms by taking special medication and avoiding certain foods and substances.

I have been advised to avoid spicy foods, caffeine, alcohol, and tobacco. I have also been advised to avoid foods that are difficult to digest, such as fatty meats and greasy foods. I have been following a diet that is low in fat and high in fiber. I have also been taking prescription medication to help control the symptoms.

I am now. I have been able to maintain a remission since then.

KATTY KITTY SAYS

“Maile’s not feeling me with that new bell”

Maybe next time I’ll be quiet again. Her dream has a new bell in the next world. Now the old bell is rung. That doesn’t happen here. We guard bells, but not rings. They are fit for the earth. In heaven, no louder sound is heard. We praise that you’ll hear no bell from us.
