Milestone Shared

Actress Shirley Temple and Hollywood's famed Brown Derby Restaurant share a mutual anniversary this year—their thirtieth birthday. Shirley was born in 1929, the year the Brown Derby opened its doors to a film-star clientele. Shirley, pictured in the renowned restaurant with her young son, Charles, is taking a last look at familiar surroundings, for the Brown Derby is undergoing complete remodeling, inside and out. In another twenty-five years, young Charles may be sitting in the "new" Derby, feeling the same nostalgia his mother does today.

PRESENTING FOR 1960... BUICK'S ALL-TIME BEST

THE TURBINE DRIVE BUICK '60

New comfort, quietness, and quality
Doors that open wider—easier to get in and out. Family-size interior. Seats that are higher, more deeply cushioned, and repositioned to provide more room for feet and legs. Perhaps the quietest running car in America due to Buick's high use of insulation and torque-tube drive. Buick's quality control program comes to a peak in the Turbine Drive Buick '60.

New interior decor and convenience
An entirely new "Mirromagic" instrument panel. It lets the driver see speed, gas gauge, and other necessary readings at a glance in a mirror he tilts to suit his own eye level. And a new exclusive safety option—the Twilight Sentinel*—that turns headlights on automatically at sunset...off automatically at sunrise. All-new colors and fabrics. Richer appointments. *At slight extra cost.

Outstanding performance with economy
1. Buick's Exclusive Turbine Drive Transmission† is jet-smooth, responds faster, more economically than ever. No gears ever shift while the car is in motion.
2. Buick's Exclusive Air-Flo Aluminum Drum Brakes—found on no other American car. Fin-cooled drums front and rear for faster cooling. Fast cooling means safer stopping, longer brake life.

Slotted wheels pass a current of air from under the car constantly over the brakes for added cooling efficiency. (Wheels are 15" size which gives you up to 1/3 more tire life.)
3. Buick's exclusive Wildcat Engines give high efficiency with high economy. (An optional new LeSabre Engine is designed to give Buick performance on regular grade fuel.)
†Optional at extra cost on LeSabre, standard on Invicta and Electra.

MRS. Homemaker's FORUM
by JANE STEWART
Remove imprints left on carpeting after you have rearranged heavy furniture—sweep the spot with hot iron placed over damp cloth the same as you would wool trousers. After steaming, brush the spot quickly with stiff brush.

Unless it maintains adequate air-flow, a vacuum cleaner can't pick up dirt—it just rubs it deeper into the rug the way careless people do to cigarette ashes with their shoes. It's the hidden accumulation of dirt in the dust bag that curtails vacuum cleaner efficiency. To make certain it is always doing a thorough cleaning job the new automatic Electronic vacuum cleaner stops and the cover pops open whenever it needs a new dust bag. Then it won't operate properly again until the new bag is in place.

Stains can be removed from china teapots if you soak them overnight in hot soda water. Then rub with a cloth moistened in vinegar and dipped in salt.

To stop annoying "hammering" noise in radiators, place small wooden blocks under the end opposite the steam supply line. This allows water in the radiator to return to the boiler.

If you starch the cover of your ironing board, clothes iron much more easily and your cover will stay clean longer. Sprinkle a little talcum powder on the board before putting the cover back—it'll neutralize the smell of the hot iron on the cover.

Uncle Ned ... From Dogtown

DEAR MISTER EDITOR:

These pamphlets and things them State and Federal agencies fill up my box with ever day ain't so had if you learn how to read 'em.

The trick is to read the fillers, them little paragraphs they put in to make the columns come out right. I never read nothing in them Government hand-outs but the fillers and I find 'em mighty enjoyable and educating.

In fact, Mister Editor, the reason I'm so well educated is on account of reading them fillers so regular fer 30 years.

For instant, I see here where George Washington could broad jump 23 foot. Since George's time we've had Presidents that could sidestep twice that distance without moving a muscle.

And then I see in one of 'em where Government scientists is now claiming the shortest distance ain't necessarily a straight line between two points.

I reckon it's getting so's a feller don't necessarily have to be here or there, he can just be over yonder.

And then there was one last week that said the Wildlife Bureau conducted some experiments and found a feller had to catch one fish per hour to honestly say "fishing was good." If I couldn't git but one fish a hour I'd call it mighty pore fishing.

But you see what I'm talking about, Mister Editor, there's some mighty fine reading in them Government fillers. If you've been throwing yours away, you better check the fillers.

Well, I see by the papers where they got at least one Judge in the country that understands the marriage situation. A Judge in Georgia had a feller in his court last week fer stealing two of his neighbor's mules. He told

the Judge this feller stole his wife and he stole the mules to git even.

The Judge allowed as how a wife that would run off with a neighbor wasn't worth much to start with, and he made the feller return one of the mules.

I was reading in a magazine last night where the telephone folks estimate that 50 per cent of the out-going calls in the Pentagon in Washington is personal calls. It's a safe bet that 50 per cent of the incoming calls is personal, so as far as us taxpayers is concerned, it would be one and the same if they'd just take the telephone service out of the building. Or at least they could git a party line and take their turn like the rest of us.

Yours truly,
Uncle Ned.

Navy ROTC Tests Now Available

Vice Adm. H. P. Smith, chief of naval personnel has announced that the 14th annual national competitive examinations for the regular Naval Reserve Officers Training Corps will be given to eligible high school seniors and graduates on Dec. 12. Application forms are now available and must be received before Nov. 14.

Designed to supplement the officer output of the Naval Academy, the NROTC program makes it possible for a young man to earn a regular commission while studying at the civilian college of his choice which has an NROTC unit. All tuition, fees and books are furnished by the Navy, and the student receives an annual retainer of \$600 for four years.

During the summers the student goes on interesting training cruises as a midshipman. After completing the usual four year college course, he is commissioned in the Regular Navy or Marine Corps and goes on active duty as a prospective career officer with the Navy's far-flung fleets. For those who apply and qualify, immediate assignment to flight training will open new careers in naval aviation.

High school seniors and graduates, 17 through 20 years of age, may apply for the NROTC aptitude test. Those who make a qualifying score will be given a

rigid physical exam early in 1960. From the pool of qualified young men remaining in competition, approximately 1600 will be selected to begin their naval careers next September.

Application forms are available at high schools, colleges and Navy Recruiting Stations.
