PULPWOOD CUTTING is one of the 35 essential activities listed by the Wac Manpower Commission and designated by Selective Service Headquarters as a guide for local draft boards in considering applications for occupational deferments. If you are deferment-eligible and are cutting pulpwood, you may be entitled to deferment providing you —

1. Regularly engaged in cutting pulpwood and in 26-28 age group or

2. An essential farm worker of draft age, 18 through 37, and cut pulpwood part time as

3. Now 45 but cut pulpwood regularly and with occupational class-B status of 2-A or 2-B as an essential war worker.

Your local Selective Service Board is the judge of your essentiality, subject to review by your State Selective Service Director, and will treat you squarely. But you should know that the government recognizes pulpwood cutting as an essential activity.
