Uncle Ned . . . From Dogtown

DEAR MISTER EDITOR:

November has the honor of
being the only month in the year
with a "Week" that makes
sense. Back in 1955 they started
observing National Long Under-
wear Week around the middle of
November.

It was about time!
A kid that ain't wore his long
handles or long Johns from Oc-
tober to May ain't been brung
up right. I been figuring for a
long time that all this virus stuff
we've been having the last few
year is on account of folks not
wearing their long handles in the
winter time. There ain't nothing
that can beat 'em fer keeping
the cold out and the heat in dur-
ing a rough winter.

Of course, they had to go and
change the pattern a little bit.
Instead of making 'em with the
flap seat and famous trap door,
they're making 'em now in two
pieces. I reckon the two-piece
kind is better'n none.

When I was a boy nobody but
city slickers went without his
long underwear in winter. A fel-
ler that didn't wear long under-
wear was a suspicious character
in the community. We wouldn't
trust him as far as a doodlebug
could bore a hole in a brass door
knob.

I see where one outfit, the N.
Y. Cooper Manufacturing con-
cern, says they'll sell 750,000

dozen suits of long underwear
this year. I reckon things is a
little better'n I was figuring.

If we can get this country back
into long underwear, we'll be
gitting it back to basic thinking
and sound performance. Of
course, I know that most of the
present generation don't know
what long handles or long Johns
is anymore. Things has moved
along so fast that even a heap of
country folks don't wear 'em no
more.

In fact, things has moved
along even out in the country
to the point where the farmer's
daughter now tells the jokes to
the traveling salesman.

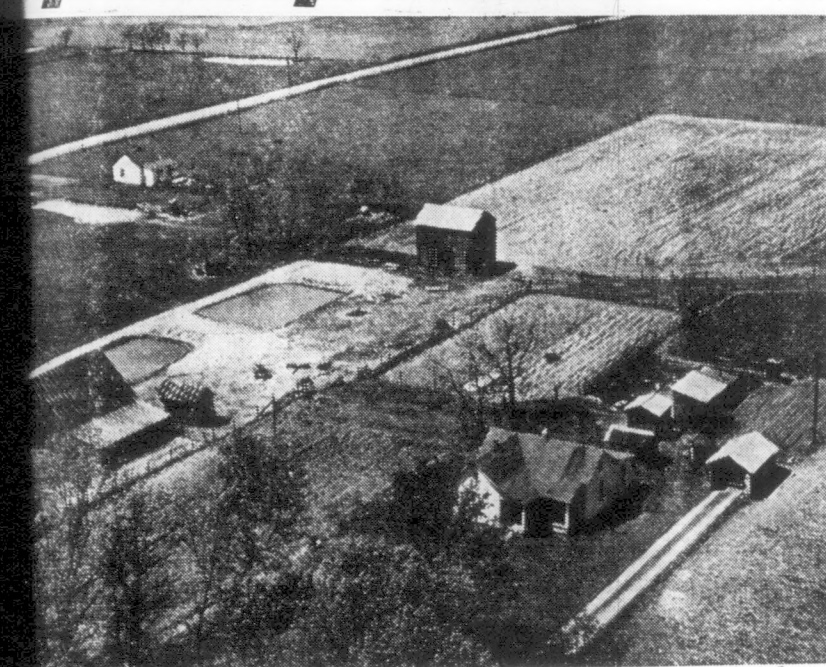

Our preacher took his text
Sunday from old Ben Franklin.
Some of the folks didn't like him
not taking it from the Bible, but
anyhow he took it from Ben:
"Spend half your time looking
after your own business, and the
other half letting other people's
business alone."

He wasn't aiming at me. The
only business I look after is mine
and a few of my close neighbors.
But there was a heap of folks
there Sunday that needed that
sermon mighty bad.

He also talked a spell about
people being humble. He said
the meek inherited the earth just
like the Bible says. I got to be-
lieve my preacher, Mister Edi-
tor, but in 1959 it looks like ever

HOLIDAZE AHEAD! Thanksgiving's just a few weeks
away, and Christmas closer than you think! Lots of fes-
tive plans being made at my house—how about yours?
If the rush holiday season is going to keep you running,
why not ease things a bit with a handy Extension phone
where it would help most. In the kitchen, say, where
you'll be doing double duty. Or in the bedroom where
you can chat in peace. Extension phones come in pretty
colors, and cost very little.

SPEAKING OF DAZE—folks planning to
build a new home can save a lot of time and money
hard to think of ALL the things a new
home should have for easy, modern living.
If you're planning to build (or remodel)
here's a helpful suggestion. Let us help you
arrange for concealed telephone wiring.
While your house is being built or remod-
eled the telephone wiring can be built into
the walls, and you'll have extra outlets
when you need to change your telephone location. Simply
call us to learn more about this plan for convenience.

WORKING ON THE RAILROAD. Bell Laboratories has
had many well-known "firsts." Here's an interesting one I
discovered recently. The first public address system for use
on a train—particularly for back platform "whistle stop"
speeches—was developed by the Labs in 1923. Designed
at the request of President Harding, it was used by him on
his last trip across country, concluded by his sudden death
on the West Coast. For "whistle stop" speeches or just
calling around the corner, Telephone Company research
is always coming up with something to get the word around
faster, easier!

COMING—Friday, November 6—another wonderful Bell
Telephone Hour TV program. See your newspaper for
time and channel.

CONTINUOUS FILAMENT TYCORA
"TYCORA CARPET YARN IS PEOPLE-PROOF"

NYLON CARPET
By C. H. MASLAND & Sons

REMARKABLE STAMINA
—Tycore carpet yarns are made of nylon in a continuous filament that is texturized. There are no short ends to shed or mat down.

A CLEAR SENSE OF COLOR
—The pure whiteness of the fiber enables it to dye magnificently, sharply, subtly.

CONSTANCY OF TEXTURE
—The fibers bounce back. They won't pill or fuzz.

IMMUNE TO THE MOTH
—Insects are not attracted to Tycore. In fact, they don't like it at all.

A NATURAL TIDINESS
—Because the yarn is smooth, dirt and dust are easily removed. Also nice to know about Tycore, it's mildew free and non-allergenic.

... AND THE FLAME
—Tycore is non-combustible.

One long year has passed since you went God's way. Yet we miss you as if you left today.

The midnight stars are shining upon your silent grave. Beneath it sleeps the one we love, the one we could not save. Although your soul is now at rest and free from grief and pain, The world would seem like heaven if we had you back again.
