Kentucky To Have An "Ocean Of Electricity"

Economic highlights of the state's electric field will be discussed at a meeting of the Kentucky State Electric Association next month.

Kentucky's power companies are operating at a capacity of 60,000 kilowatts, which is about 10 per cent of the state's total electric capacity.

The Kentucky Power Company, which operates in Kentucky, has a capacity of 40,000 kilowatts, while the utilities in Tennessee, Missouri, and Indiana operate at a capacity of 20,000 kilowatts.

The capacity of these companies is about 100,000 kilowatts, which is about 50 per cent of the state's total electric capacity.

Kentucky has a total capacity of 60,000 kilowatts, which is about 10 per cent of the state's total electric capacity.

**DEATHS**

(Continued From Page 1)

MRS. ELLA CUNIMAL

Mrs. Ella Cuningham, 82, of Lylesville, died Monday afternoon at the home of her daughter, Mrs. Edythe Taylor, in this city. Mrs. Cuningham, who had been ill for several months, has been in failing health since October 1941. At the time of her illness she was living in the home of her daughter, Mrs. Edythe Taylor, in this city.

Mrs. Cuningham was born in this county and was married to Mrs. Elly Cunningham in 1908. She was a member of the United Presbyterian Church and had been active in the church for many years. She is survived by her daughter, Mrs. Edythe Taylor, and her son, Mr. Robert Arrington. She also leaves three grandchildren and two great-grandchildren.

Funeral services were held Tuesday afternoon at the home of her daughter, Mrs. Edythe Taylor, in this city. Rev. A. W. Porter of Greenfield, Ill., officiated at the service.

Mrs. Cuningham was a member of the Church and was active in the church for many years.

**"The Fruits of Labor"**

America still stands foremost as the land of opportunities. In this land of plenty, men and women toil that they may share in the fruits of American soil. But now that harvest time is passing, you might turn your attention to winter feeding. Home-grown grain, alone, will not solve your feeding problems in the next winter months. So phone your grocer for a supply of Breeder Feed. Always specify Flour or Feeds made and Guaranteed by Breeder Milling Company.

That Hang On
We must think of our national defense, our civic interest, church and social activities, and the character of our industries in connection with the primary purpose of calculating costs, and will do the job of providing electricity at the lowest possible rate. The apparatus is economic, it is proving valuable and will go on the market now. The plain truth is that it is better to save the people from being put in the position of paying exorbitant prices for energy. We areawned at the nation that has been put by the Kentucky Utilities Company during the past year, and we will not pay an extra cent for it. This move is not consistent with the national defense program.

This is the reason that this Federal money is being spent for the purpose of preventing the price charged by these private industries or governmental agencies from being impreror. The armistice is just the beginning of the struggle. There can be no truce in this fight for Democracy. Ours is the true American way of life. The armistice is just the beginning of the struggle. There can be no truce in this fight for Democracy. Ours is the true American way of life.

The armistice is just the beginning of the struggle. There can be no truce in this fight for Democracy. Ours is the true American way of life.
