I got one of the greatest thrill of my life the other day when I went to see a girl I once knew. She got married two years ago and was set for life. She told me some of the things she had heard since then, and it just about killed me. She said she had seen two of my old friends in the movies, and that they were both doing well. She also told me that I had been mentioned in the newspaper a few weeks ago, and that some of the old-time friends of ours were after me to get back to the city. I said I would think about it, but I don't know if I'll ever be able to go back. I've heard so much since then that I don't know how to begin. I really don't know what to do, but I'll try to find out soon.

CONSTRUCTION WORK ADVANCES AT GILBERTSVILLE

By WALTER NELSON

The construction of the new lock and dam on the Tennessee River at Gilbertsville is progressing rapidly. The lock is nearly complete and the dragway is in operation. The lock is being built to accommodate vessels of 600 tons, and will be ready for use when the dam is finished. The lock is being built by the U.S. Army Corps of Engineers, and is being financed by the Tennessee Valley Authority. The lock is expected to be completed by the end of the year.

THE POCKETBOOK OF KNOWLEDGE

I will tell about some of the girls who have been auditioned—of the happiest events of my life. After the critics and public were so well to me in "Leave It To Me," Paramount offered me a contract in Hollywood, and since then I have been constantly in film work. I got one of the greatest thrills of my life the other day when I went to see a girl I once knew. She got married two years ago and was set for life. She told me some of the things she had heard since then, and it just about killed me. She said she had seen two of my old friends in the movies, and that they were both doing well.
