Deducting the few negroes in the above list who will be sent into camp at a later date, will be found the names of thirty-five of Calloway's first offering upon the altar of the nation under the provisions of the Selective Service Law. These men, together with a sufficient number of other drafted men in the county who did not claim exemptions, to make the total fifty, have been

Instructions to Drafted Men on How to Prepare to Enter the Cantonments

The following information will be useful to men selected for the national army who have been ordered to report for duty with the first quota:

The men will not be permitted to take anything on the train with them except light hand baggage: bedding and changes of outer clothing will not be allowed. The following articles should be taken: Soap, shaving outfit, comb and brush, tooth brush and tooth powder, two bath towels, three hand towels and six handkerchiefs. Two changes of underwear may be taken if desired. There is no objection to taking collars and shirts for wear on the journey, but there will be no use for these articles after arriving at the mobilization camps. Since suit cases and hand bags will not be allowed for permanent use at the mobilization camps, articles may be carried in bundles if so desired.

Civilian clothes will not be retained after arrival at mobilization camps and may be returned by express or otherwise to the homes. If it is not desired to make arrangement for returning clothing, it is better to appear in

civilian clothes which it is not worth while to keep.

To insure quick communication with his family the recruit is advised to provide himself with postcards or stamped envelopes.

Before reporting to the local board the hair should be cut very short, the body thoroughly bathed and clean underwear put on. The finger and toe nails should be cut short.

Every effort will be made to preserve the health of the recruits at the points of mobilization, and to build up their physique. The government undertakes to look after the physical well-being of the recruit in every possible way and carries out the work by military methods.

There will be issued at each cantonment certain sanitary orders intended to prevent the development and spread of disease. It is of the highest importance that every recruit from the outset should implicitly obey these orders, which are for the protection of his own health and the health of his comrades. He will soon learn that all are based on practical experience and that observance of each detail is necessary in order to maintain healthful conditions among large bodies of men.

The Kid Has Gone to the Colors.

The Kid has gone to the Colors,
And we don't know what to say;
The Kid we have loved and cuddled,
Stepped out for the flag today.
We thought him a child, a baby,
With never a care at all,
But his country called him man-size,
And the Kid has heard the call.
He paused to watch the recruiting,
Where, fired by the fife and drum,
He bowed his head to Old Glory,
And thought that it whispered: "Come!"
The Kid, not being a slacker,
Stood forth with patriot joy.
To add his name to the roster—
And, God, we're proud of the boy!
The Kid has gone to the colors,
It seems but a little while
Since he drilled a school boy army,
In truly martial style.
But now he's a man, a soldier,
And we lend him a listening ear,
For his heart is a heart all loyal,
Unscourged by the curse of fear.
His dad, when he told him, shuddered;
His mother—God bless her! cried,
Yet blessed with a mother nature
She wept with a mother pride.
But he whose old shoulders straightened
Was grandad—for memory ran
To years when he, too, a youngster,
Was changed by the Flag to a man.

notified to mobilize in Murray Friday afternoon, at 1 o'clock. These fifty men will entrain Saturday morning for Camp Zachary Taylor, Louisville, where they go to take up the duty of bearing arms in defense of their country.

It is proposed to give these fifty splendid young Calloway county men a rousing farewell. Every man, woman and child in the county who can should be here. Everyone of the 140 men who will go into camp by the first of October should come to town to greet and meet and wish the first half hundred boys a merry, a cheery good-bye. Murray citizens, school children and all, should and will participate in this patriotic demonstration and parade. Grab a flag, forget everything for one half day and

help honor the boys who are going away to offer their lives in defense of your home and fire-side. Telephone your neighbor, tell your friends, fill old Murray full of folks Friday afternoon. Come and stay all night if you can and will and join in the demonstration at the train Saturday morning at 7:27 o'clock. Such a farewell and God-speed can only be but slight recognition of the service these men will render. What more can mortal do than offer up his life for his country? A patriot deserves tribute and Calloway will honor the boys who leave Saturday.

The local chapter Red Cross will prepare a lunch for the boys to take with them on the train. The men are cautioned to read the article elsewhere in this issue of the Ledger regarding personal baggage, etc. By all means wear old shoes that are comfortable to walk in.

324 Registrants Fail to Report.

To date 324 men have failed to report to the local boards in the 24 counties within the jurisdiction of the district appeal board of Division No. 1, for the Western district of Kentucky, according to a report made. As rapidly as possible, names of those who evidently wilfully failed to appear are being turned over to the department of justice agents for investigation. However, many of the 324 were either dead, in prison, or already in the military service.

Reports also show that the local boards in those counties have held 3,075 men for service and discharged 5,559. The district board has already certified 2,068 men to the adjutant general for service, including those who did not make appeals. Twenty-nine have been discharged by the district board so far.

To Fix Coal Prices.

Washington, Sept. 12.—Retail coal prices will be named for every city and community in the country, Dr. H. A. Garfield, the fuel administrator announced tonight, before the end of this month. They will be fixed on the recommendation of local committees to be named by state fuel administrators.

"It is obvious," Dr. Garfield said, "that the prices will vary considerably between localities and between city and country districts. Care will be taken to include all items which ought to be included, for there is no disposition to deprive the coal dealer of his fair measure of profit. It may be necessary to make the prices tentative, as in case of the prices fixed at the mines."

CALLOWAY MEN KILLED--A TRAIN HITS THEIR AUTO

Amos Harris and Lloyd Peeler, well known Calloway citizens residing east of the railway between Almo and Dexter, met sudden death last Saturday night between 11 and 12 o'clock when the Ford car in which they were riding was struck by a fast passenger train on the L. C. railway near the town of Obion, Tenn. Mr. Harris and Mr. Peeler left Almo early last Saturday morning in company with Mrs. Peeler and Mrs. Harris for Obion, near where the ladies were going to spend a week or ten days the guests of relatives. It was the intention of Harris and Peeler to return home during the night on account of pressing farm work at home. When they reached Obion on their return it was necessary to cross the railway to reach the road they expected to travel enroute home. At about the hour it is supposed they were killed a south bound freight and a north bound fast passenger train are due in Obion. The supposition is that the men waited for the freight to clear the crossing when they attempted to pass and were hit by the passenger.

The bodies and wrecked auto were discovered Sunday morning about 5 o'clock by a passing train.

Calloway Farmer Hauls First Load of New Crop of Tobacco to Market.

The first load of new tobacco to be sold in Mayfield this season was brought in from Hazel and sold Friday morning. The load weighed 1,200 pounds and was bought by Tom Usher for \$10 around.

The tobacco was brought by Guy Caldwell and Rudolph White of Hazel. The crop belonged to Mr. Caldwell.

It is a little early for the tobacco season to open, as only a small per cent of the crop has

been cut and cured in the barns, but within the next month large quantities of the weed will be coming in to this, the biggest and best market in this end of the state.

The price this year will go much higher, it is believed, than it did last year. Some predict that it will reach more than \$20.

The crop sold Friday morning was of good quality, and would have brought much more money if brought in after the market opened. —Mayfield Messenger.

SWEDEN PEDDLES U. S. INFORMATION

TRANSMITS INFORMATION TO BERLIN THROUGH SWEDISH LEGATIONS.

TELLS OF TROOP SAILINGS

Secretary Landing Warms Argentine of German Influence in That Country—State Department Holds Documentary Proof.

Washington—Sweden, as an aid to German intrigue, was exposed by the state department.

Documents in possession of the United States government show that the Scandinavian country has violated American neutrality and has had transactions with Germany that official Washington aspects lead to a declaration of war against Germany by the Argentine republic. The latter has been almost on the verge of such a step for some time, but has been placated by Teutonic promises.

Messages were made public by the state department to show that the Swedish government permitted Count Lasburg, the German charge d'affaires in Buenos Aires, to send communications to Germany through the foreign office at Stockholm. These were passed as official Swedish messages. They were in code. While this form of communication is not questioned in time of peace, it is considered remarkable that Sweden allowed them to go through with assurance that they were harmless.

Three of these messages were given out. In two cases they advised Germany to pursue ruthless submarine warfare against the shipping of Argentina, a neutral nation to which Count Lasburg was accredited. He urged that Argentine ships be sunk without a trace being left. In other words, he urged the destruction of the crews as well as of the vessels themselves.

Sweden, through her breach of faith and all international usage, herself is brought to the brink of war—diplomats consider her offense inexcusable. More important still, it is hinted in certain quarters that it is most probable that this attitude of Sweden was not confined to the legation at Buenos Aires and that in its explanation might be found for numerous "leaks" from the United States of military information to Germany. The "leak" of the sailing dates and routes of American transports bearing troops to France, which enabled German submarines to lie in wait and waylay them, was instantly recalled.

The state department's documentary proof, in copy, was handed to the Swedish legation and Argentine embassy here by a state department official.

HOUSE NAMES PROBE BOARD

Will Investigate Shipment of Defective Ammunition To Troops in France.

Washington—The house of representatives went into high gear on its way to a thorough and final probing of the defective ordnance scandal at Frankfurt, aresaid. Speaker Clark put a climax on its action by appointing a committee of nine representatives to conduct the investigation. The committee includes: Dent of Alabama; chairman, Fields of Kentucky; Quinn of Mississippi; Gordon of Ohio and Shallenberger of Nebraska, the Ave ranking Democrats; and Anthony of Kansas, McKenzle of Illinois, Green of Vermont and Morin of Pennsylvania. All four of the ranking republicans, all from the house committee on military affairs. Representative Kahn of California was slated for a place on the committee, being the ranking republican on the military affairs committee, but begged to be excused, as he is leaving Washington for a month's rest.

The committee was named after the house committee on rules had favorably reported on the resolution demanding a probe.

That the house probe will be much more thorough than that conducted by the senate committee on military affairs was the declaration of house leaders.

JOHN BARLEYCORN GOES IN DISCARD

PURE FOOD LAW PUTS END TO MANUFACTURE AND IMPORTATION OF WHISKEY.

STOPS ALL MANUFACTURE

Washington—All manufacture of whiskey has ceased in the United States under the provisions of the food control law and the millions of bushels of grain heretofore used in making that form of drink will be diverted to food. Importation of whiskey was also stopped.

Just how much grain will be added to the food supplies as a result is not determinable, but experts say about 100,000,000 bushels are used by the distilleries each year, of which about 40,000,000 bushels are used in whiskey manufacture.

Customs officials throughout the country will seize all importations of spirituous liquors reaching the United States. Officers of the internal revenue bureau throughout the country will see that distilleries make no more whiskey.

Distilleries may confine manufacturing alcohol for commercial purposes and many of them have arranged for this work, others turning their distilleries into manufacturing plants for yeast, vinegar and by-products.

Stocks of whiskey in the country undoubtedly are larger than they ever have been, because of active preparation by distillers and dealers in anticipation of the law. Distilleries have been working at almost capacity and imports have been larger than ever. Officials estimate the quantity of whiskey in bond in warehouses to be about 190,000,000 gallons. Stocks not in bond will bring the quantity on hand in the country up to about 230,000,000 gallons. The annual production of whiskey has been about 116,000,000 gallons.

I. W. W. LEADER CONFESSES

Attempts To Gain Immunity By Divulging Secrets to Federal Agents.

Chicago—Inner secrets of the I. W. W. fund for promoting strikes, destroying crops and combating the government were told in the first confession received by federal agents since they opened war on anti-war radicals. Carl Rothfischer, an associate editor of Solidarity, the official weekly of the I. W. W., divulged the secrets in a vain effort to effect his own release.

Names of prominent pro-German Chicagoans are said to have been included in the long statement that Rothfischer dictated to a stenographer in the office of Walter L. Ferguson, assistant chief of federal investigators here.

STANDARDS FOR AIRCRAFT

Government's Building Program Given Great Impetus.

Washington—The government's great aircraft production program took another step forward when the international aircraft standards board adopted standards for steel, aluminum, cable, sheet metal, tubing, welding metals and turning work. This will effect a marked reduction in the number of grades of these materials here before used in airplane manufacture.

Russians Are Entrenching

Berlin—The Russians are hastily entrenching in the Riga region to the west of Verdun. German cavalry is in touch with them on this new line and advanced Russian detachments have been pushed back.

JAPAN LOYAL TO ALLIES

Viscount Ishii Tells Solons of His Country's Friendship.

Washington—Japan's message of comradeship and cooperation in the war was delivered to the house by Viscount Ishii amid hearty applause from a crowded floor and galleries. The speech was delivered in the house as he had told the senate and president that his country was in the battle against military aggression to win and welcomed the opportunity to fight beside the United States.

FRANCE DEMANDS RETURN OF ALSACE

WILL NOT EVEN SUBMIT SUBJECT OF COMPROMISE TO DIPLOMATIC DISCUSSION.

EXPECTS FULL REPARATION

Paris—France will not compromise on the question of recovery of Alsace and Lorraine, Premier Ribot declared. In an address delivered in connection with the celebration of the anniversary of the battle of the Marne, he said France would not consent to diplomatic discussion as to whether the provinces should be restored.

The premier paid a tribute to the soldiers who fell on the Marne and to the general who led France's armies to victory.

"France makes pretensions only for the recovery of its own—to regain possession of its provinces, wrenched from it by the odious abuse of force," he said. "Let no one ask France to compromise upon that question. The nation could not do it without betraying the cause of justice. What a price would be given to the peace which is sought to found upon the ruin of peoples if the injustice consummated half a century ago should be conserved anew."

"France does not ask that the aggressor be fined," he said, "but only that the aggressor be obliged to repair the damage he has done."

PEEVED AT WILSON; QUILTS

Customs Collector of New York Quits to Devote Time to Cause of Suffrage.

Washington—Dudley Field Malone, customs collector at New York, tendered his resignation to President Wilson in protest against the failure of the president to advocate passage of the federal suffrage amendment and because he permitted the imprisonment of women who have been picketing the White House.

Mr. Malone, who as counsel defended the first of the militants arraigned in police court here, told the president in his letter of resignation that inasmuch as he had promised the women of the suffrage states that he would exert all his energy to have the national Democratic administration in domestic suffrage by constitutional amendment, he felt obliged to resign and devote himself to redeeming that promise.

U-BOATS SINK 20 VESSELS

Weekly Toll of Merchant Ships Still Below German Estimate to Starve Allies.

London—British merchant ships sunk by mine or submarine in the last week numbered 20 of more than 1,500 tons and three under 1,000 tons, according to the official announcement. The weekly summary arrivals: 2.

British merchant vessels sunk, including one previously, 3. Sinking vessels sunk, none.

British merchant vessels unsuccessfully attacked, including five previously, nine.

British Steamer Sunk.
An Atlantic Port—News of the destruction of the 5,453-ton British steamship Turakina by a torpedo from a German submarine on August 1 was brought here by several members of her crew, who arrived on an American passenger ship from Great Britain.

Boatman's Mate Honored.
Washington—James Salaman, chief boatman's mate, was commended by Secretary Daniels for courage shown in a collision between a steamer and a flying boat.

London—Bombs hurled from a fleet

of German aeroplanes snuffed out the life of one American officer and wounded more or less seriously eight Americans in what is described as a deliberate raid on the British-American hospitals in a French coast city.

The hospitals attacked are occupied by St. Louis and Harvard contingents, which were among the first to arrive in France after America's entrance into the war. The Harvard unit was the most severely hit by the raid.

Five of the wounded at the Harvard units hospital were members of the American field staff. Ten were patients. So far as is known one bomb each fell into the hospitals.

The Daily Express, in an editorial on the raid, said:

"There is something essentially revolting about Germany's latest form of organized inhumanity. The Kaiser has left few enormities unperpetrated. His evil genius has decreed that he should in a score of ways throw eternal dishonor on German arms, but the systematic bombing of hospitals at the front has reached the point which may well be regarded as the limit of iniquity."

SOME BEST RECIPES

The following is a good punch to serve to a small company:

OUTLINES U. S. PEACE TERMS

Confusion Created By State Department Is Cleared Up In Explanatory Note.

Washington—Full suffrage for Germany rid of Hohenzollern, right of disputed territories to speak for their own futures, and restitution and reparation for those countries (rod) under foot during the war; means peace. Nothing short of this can terminate the war.

To clear up the confusion created by the state department's recent announcement, in apparent conflict with President Wilson's reply to the pope, a semi-official interpretation of the administration's actual attitude, an "interpretative" vouchered by the highest authorities, has been issued.

The allies can not talk peace with the Hohenzollerns, in the opinion of administration officials. The German people should act promptly to eliminate entirely this dynasty and abandon all militaristic rule. If the war is not to go on indefinitely.

But reform, such as merely making the Hohenzollern subject to the will of the nation, is not sufficient. There must be a clear knowledge among the allies of full responsibility of the German powers to their people.

Acceptability of Germany's internal reforms will not depend upon the decision of the United States or England or France, but must be such as "the other peoples of the world would be justified in accepting."

100 Women Selected.

Washington—One hundred women to take charge of the cantons and rest stations along the routes to be traveled by American soldiers in going to and from the trenches in France have been selected by the Women's Bureau of the American Red Cross. They will serve without pay and bear their own expenses.

ADMITS PLACING BOMB

Says Ringleader of Plot Committed Suicide to Avoid Arrest.

Montreal—Joseph Tremblay, one of the men arrested in connection with the dynamiting of Lord Atholstan's residence at Caprieville, has confessed to the authorities that he placed the bomb near Lord Atholstan's house. He said he had been forced to do so by Handfield, who committed suicide to avoid arrest and Monette, who is still at large.

The KITCHEN CABINET

Men and women share their character in nothing more clearly than by what they think laughable.

The things that are really for their gravitate to these.

REASONABLE 0000 THINGS.

A general formula for preparing less or from dishes for a company may be found useful. The following will prepare five gallons:

Three gallons of water, ten pounds of sugar, a pint of lemon juice, three ounces of gelatin and three beaten egg whites.

For cherry sherbet add three pints of pitted cherries to the general formula. Lemon or orange sherbet: Substitute for the pint of lemon juice a quart, or reverse the proportion if orange sherbet is desired.

Milk sherbets are made by substituting whole or skim milk for the water called for in the general formula. Grate the rind from a few of the lemons and oranges and mix with the sugar for flavor. Strain the juice to remove all pulp.

Bermuda Pudding.—Beat a third of a cupful of butter with a half cupful of sugar, then add two eggs, well beaten, a cupful of flour sifted with a teaspoonful of baking powder and a little salt and a tablespoonful of orange marmalade or raspberry jam. Pour into a buttered mold, cover with buttered paper and steam gently for two hours. Serve hot with a sweet sauce.

German Apple Pudding.—Beat an egg until light, add a cupful of milk, two cupfuls of flour sifted with two teaspoonfuls of baking powder, a little salt and a tablespoonful of melted butter, stir well and pour into a well-buttered pan. Press quartered apples in rows into the mixture, sprinkle with a teaspoonful of cinnamon mixed with half a cupful of brown sugar and bake until the apples are done. Serve hot with cream or cold with coffee or tea.

Cauliflower Soup.—Wash and trim one cauliflower and cook with one onion in boiling salted water until tender. Drain and save the water. Rub the cauliflower through a sieve, add two tablespoonfuls of crushed tapioca and a tablespoonful of flour. Simmer half an hour. Add three cupfuls of hot milk, butter, salt and pepper to taste. Add a half cupful of hot cream and serve. One beaten egg may take the place of the cream.

Raspberry Jam topped with whipped cream makes a most attractive and tasty tart.

Certain your visions, cherish your ideals, the beauty that forms in your mind, the loveliness that drapes your person, thoughts for out of them will grow all delightful conditions, all heavenly environment.—Allen

Reproof Not Effective.

The new maid would not rise early enough. Gentle reproof seemed vain and finally the master and mistress tried the infernal method of blame and left the dinner asleep whilst they prepared the breakfast for themselves.

"Well, shame her to it," said the master.

Not a word was said until noon when the same evening when the girl tripped at the door of the sitting room.

"Is there anything else, I can do, ma'am?" she respectfully inquired.

"There was nothing and she turned to go to bed, but at the door remembered something."

"If I dare draw before me in the morning, ma'am, I will observe 'you'll find the eggs in the basket in the pantry.'"

WOMEN! IT IS MAGIC! LIFT OUT ANY CORN

Apply a few drops then lift corns or calluses off with fingers—no pain.

Just think! You can lift off any corn or callus without pain or soreness. A Cincinnati man discovered this other compound and named it Freezone. Any druggist will sell a tiny bottle of Freezone, like here shown, for very little cost. You apply a few drops directly upon a tender corn or callus. Instantly the soreness disappears, then, shortly you will find the corn or callus so loose that you can lift it right off.

Freezone is wonderful! It lifts instantly. It doesn't at all away the corn or callus, but shrivels it up without even irritating the surrounding skin.

Hard, soft or corns between the toes, as well as painful calluses, lift right off. There is no pain before or afterwards. If your druggist hasn't Freezone, tell him to order a small bottle for you from his wholesale drug house.—adv.

CALLOWAY MEN KILLED
 (Continued from First Page)

Freight train crew, and were quite a distance north of the crossing where they were struck by the train. Both bodies were badly bruised and mangled and death evidently resulted instantly. Mr. Harris carried a Hardin back book in his pocket, it being the only evidence of identification about the bodies of either of the men, and through this means the information was sent to relatives in this county.

The bodies were prepared for burial and shipped to Almo, arriving there last Monday morning. The remains of Harris were buried in the Gordon graveyard, and the remains of Peeler in the Schroeder graveyard. Harris was about 36 years of age, a son of the late Gabe Harris and is survived by a wife and children. Peeler was about 25 years of age, a son of the late Charlie Peeler and was married. Both were good, sober industrious citizens and had many friends.

The best news we can bring you from this department, beyond the fact that we have the largest stocks of Suits, Cloaks, Skirts, Dresses, Shirt Waists; also House Dresses, Kimonos, Muslin Underwear, etc.; is that the prices are very, very reasonable. We can show you as good a suit for \$10, \$12 or \$15 as you have ever seen. The higher priced Suits are especially attractive for the prices. Coats are the wonder, and the strong note of the season. Never in the history of Coat selling have the styles been so pretty and attractive as this season. The styles are just compelling.

NO REASON FOR IT

When Murray Citizens Show a Way.

There can be no reason why any reader of this who suffers the tortures of an aching back, the annoyance of kidney disorders, the pains and dangers of kidney ills will fail to heed the words of a neighbor who has found relief. "Read what a Murray citizen says:—

Mrs. Homer Suratt, Institute St., says: "I suffered from kidney trouble since I was a child. My back pained and ached at different times and my kidneys were irregular in action. Black spots sometimes appeared before my eyes and I had dizzy spells. I learned of Doan's Kidney Pills and used them. They have never failed to relieve me whenever I have suffered in this way." Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Suratt had. Foster-Milburn Co., Props., Buffalo, N. Y.

Bucy Bros. will have a tractor demonstration during the fair, beginning about 9 o'clock and continuing until 11 each morning.

TAXES! TAXES!!

To the taxpayers of Calloway: The tax books are now in my hands and I am ready to collect the taxes. Come in and pay up promptly as this is my last year and I will have to collect. You may not expect leniency as I will have to settle with the county and state, and it takes your taxes to do it. Respectfully,

W. A. Patterson, S.C.C.
