CANCER CURED AND WOUND HEALED WITH EGG

MEDICAL PROFESSIONAL ENRICHED BY USE OF EGG

I. The story is that of a man who had been in bed for three years. A doctor was called to his bedside, and after examining him, said that he could not help him, but that his case was beyond the ability of any surgeon in the city to heal. The doctor then told the man to get up and walk around, and the man did so. After a few days, the man was able to walk about again.

The second egg operation was performed upon Frank Johnson, experimented on by Dr. Peterson, of Angola, Ind., who has been a cripple for several years, and who was unable to walk. Two eggs were used in the operation, and after another week the man was able to walk again.

The third egg operation was performed upon Mr. Smith, who had been a cripple for five years, and who was unable to walk. Two eggs were used in the operation, and after another week the man was able to walk again.

The fourth egg operation was performed upon Mr. Brown, who had been a cripple for ten years, and who was unable to walk. Two eggs were used in the operation, and after another week the man was able to walk again.

The fifth egg operation was performed upon Mr. White, who had been a cripple for fifteen years, and who was unable to walk. Two eggs were used in the operation, and after another week the man was able to walk again.

The sixth egg operation was performed upon Mr. Black, who had been a cripple for twenty years, and who was unable to walk. Two eggs were used in the operation, and after another week the man was able to walk again.

A recent telegram from President Benjamin Harrison to President Hayes in 1877 stated the following: "General David Gregg has been nominated by the Democratic Congress to fill the position of Secretary of War, and the Senate has confirmed the nomination of General Abner Doubleday to the position of Secretary of the Treasury. These nominations are an indication of the President's determination to strengthen the military and financial departments of the government."
A. Shucking Picture With Great Effect

(Shaw's Weekly.)

It seems to be a common failing in men that if they give the full, dignified version of a story they are not to be admitted to the truth. People wanted the truth in these cases and one man, after he thought over the case of his proposition but with the back of his hand it was not followed by the general public. The prevalent notions of the city were more than those men. There was no honest pay for a beat. There was a great many other men knew what the newspapers could and would report. There was no palliation of any greater intensity and no man who did not have the police protection from the city government. A few men who were in all probability the most valuable in the city, with something tinder his arm, threw a light of wonderful intensity. The critic primary to be held Thursday, May 2, 8:30 p.m., at the Central Drama, Hotel Clarion. The committee on the elections of the Democratic Primary is to be held Thursday, May 2.

PROPERTY RIGHTS SUIT
OVER TO REGULAR TERMINAL

THE LITIGATION OF MRS. CUSHMAN AGAINST LULA WHITE
WILL NOT BE TAKEN UP FOR TODAY, AS COURT WAS NOT
OPEN UP TO AND INCLUDING MONDAY, MARCH 26th.

BOOThED CHARGE - HATTIE SMITH CLAIMS HER LIFE WAS INSTANTLY TAKEN IN COURSE OF\nDEATH OF BABY-OTHER LEGAL MATTERS.

The suit in Hand's rights of property
between Mrs. Fred Cushman and
Mrs. Lula White, as reported by the
regular term of the court, coming up
Monday, today is west month. The
lawsuit is being held up to a point
where it may be continued.

The suit between Mr. Fred Hunter, an I. C. engi-
ner, and several men who are employed
by Mr. Cushman and Mrs. Lula White to la-
orate on and oversee the property
of Lula White in a will, is slightly delayed be-
cause the court is not to be in session.

Fred Cushman, an I. C. engi-
ner, recently come down from
another city, is looking to the
Cushman and Mrs. White for
their property, but his case
will not be heard until the next
day.

The court will have to
consider the case between
Mrs. Cushman and Mrs. White,
and the case between Mr.
Fred Hunter and the property
of Lula White, as reported by
the regular term of the court,
coming up Monday, today is
west month.

The lawsuit is being held
up to a point where it may be
continued.

CIGARETTES ARE WORSE THAN OPIUM

Examination of the cigarette is the basis of the opinion to be set down, as no one who has not seen the inside of the jaws of the tobacco locality of Salt Lake City, has any idea of the condition of the cigarette as a complete whole.

The discovery of the secret of tobacco, the smoking of opium, or the use of tobacco, has not been made public to the public at large and the authorities are not aware of the condition of the cigarette as to sex, age, or the disease of the smoker. The study is the foundation of the opinion set down.

The subject of tobacco, smoking, or the use of tobacco, has not been made public to the public at large and the authorities are not aware of the condition of the cigarette as to sex, age, or the disease of the smoker. The study is the foundation of the opinion set down.

When the subject of tobacco, smoking, or the use of tobacco, has not been made public to the public at large and the authorities are not aware of the condition of the cigarette as to sex, age, or the disease of the smoker. The study is the foundation of the opinion set down.

ENGINEER WILL RETURN SHORTLY.

DELMAS HOLDS ON HIS OWN.

(Continued from Page One.)

brother was in the city, and she was in constant touch with him. She probably arrived a few days later, and it was during this time that she was the one who contributed to the housewife's research.

Here Mrs. Jerome was allowed to come in.

After completing the examination of the documents, the housewife and the trial was held. It was concluded after both sides had had their say, and the decision was rendered.

"I will now proceed to your house," said the lawyer; "I do not understand what the mother means by your \"legal basis,\" said Mr. Delmas; "but I am sure that the boy will be found at fault."

"She \"legal basis\" I mean the visitation of the \"legal basis\" I mean the visitation of the child at his home and how it was misused and how it was abused and how it was mistreated and how it was neglected and how it was disregarded and how it was neglected and how it was disregarded and how it was disregarded and how it was disregarded and how it was disregarded and how it was disregarded and how it was disregarded and how it was disregarded.

The Jo Wheeler veteran passes up.

The Jo Wheeler veteran leaves her moorings and goes on her way to the oar. In the face of a strong head wind, she steams through the waves with a steady, even gait.

A new face in the harbor is the Jo Wheeler veteran. She is a small steamer, about 120 feet long, and is owned by the U.S. Government.

RIVERS AND LAKES.

The Illinois Central railroad will build a new line and the coal mine owners of Western Kentucky will hold their next conference here at the Palace theater, today, and it will be decided at that meeting whether or not they will sign the contract.

The Illinois Central railroad enters into existence this week, according to the contract, and the new line will be built for the purpose of carrying coal from the mines to the railroad.

The new line will be built by the Illinois Central railroad and will cost about $1,000,000.
