**MRS. SAGE’S SIGNIFICANT GIFT TO HUMANITY**

John Russell Sage’s gift of $1,000,000 to the improvement of social conditions in the United States may be seen by many as a modest sum in today’s times, but for the year 1870, it was an enormous amount. This gift was a significant contribution to the improvement of social conditions in the United States, including the establishment of benevolent societies. It aimed to address issues such as ignorance, poverty, and vice, and to put in operation any appropriate measures to that end.

**PAPRTICOTIC SOCIETIES**

The Russell Sage Foundation succinctly described its purpose: "It will be within the scope of its object to investigate and remedy, by means of experiment, the social, industrial, and moral conditions of the country, and to promote the betterment of the conditions of society in every way possible." This foundation attack the problem of poverty in various ways, including the establishment and aid of benevolent societies. It goes much further than that, however, and to put in operation any appropriate measures to that end.

**BEAUTIFUL SPRING DAY**

**CELEBRATED THE “EVACUATION DAY” OF SAGE’S SOCIETY.**

Anniversary of the Day the British Marians, a charitable organization, held special spectacles.

Boston, Mass., March 18—The special notable ceremonies were held today commemorating the evacuation of Boston by the British. The Bay area of the city was well decorated with flags and banners when the guests of honor and the worthies of the party arrived outside the navy yard at the hour the signal was fired for the act of evacuation, and the signal fired for the evacuation of the city’s exercise. In the military parade of the day was the spectacular feature of the day, were all the available military units of the British army, a considerable force of horses, and a large number of private horses in similar condition, were reviewed by the governor, the mayor, and other officers of the city.

**The Constitution of the State.**

There is a sort of grim humor in the fact that the very people who were once the most bitter enemies of the Union are now the first to make a claim on its spoils. For the moment, Mr. Lincoln and Mr. Seward are the guardians of the Constitution of the United States, and they have the power of making those who were once the most bitter enemies of the Union the guardians of the Constitution of the State.

On its purely charitable side Mrs. Sage will do much good or no good, for she herself seems to have no clear idea of what she is about. Her millions shall be devoted or to the poor, or to the state of South Carolina, or to the state of any other state, and she does not seem to know that she is doing anything more than giving her money to a charitable cause.

THE FIRST DISTRICT AND \ 
WATERFRONT COMMISSION.

In the Courier-Journal of yesterday, we made an interview with the United States Senator, Mr. Foraker of Ohio, in regard to the deep-waterways committee, and fully explain to the reader the fact that he has been appointed to this committee and that he will be in Washington on that board. The middle west is excited to the utmost, and in the First District of Kentucky, as in other sections of the country, there is much excitement being on the construction business. The readers of this paper have found that our Congressmen, Mr. James, is an active representative of the people of his district, and we believe that Mr. Rischel will show the same interest in this investigation and be as likely to bring about legislation as any other member of Congress. Mr. Rischel's services in the past have been of great benefit to the people of his district.

ROLLING SKATING ORDINANCE GIVEN KNOCKOUT BLOW

(Continued from Page One)

The effect of this regulation is to reduce the number of serious accidents resulting from rolling skating, and to prevent the issuance of permits for the use of these machines. This ordinance is a step in the right direction, and we hope that it will be followed by other similar measures for the protection of the public.

FLYING MACHINES MAY BE USED IN NEXT GREAT WAR

In the presence of the French minister of war and a number of officers present by him, experiments were made today with a military dirigible balloon, which was in the pilot house of which a dirigible was invented. The balloon was in the pilot house of which a dirigible was invented.

There are two men in the taster, one a rider, the other the pilot. The balloon is guided by the rider, who is seated in the taster, while the pilot controls the height and direction of the flight. The balloon was in the pilot house of which a dirigible was invented.

The experiments indicate that the present dirigible can be equipped with propellers which will enable it to travel at a speed of 40 miles per hour. The dirigible will be able to carry a load of 500 pounds and can travel for 2,000 miles on a single charge. The experiments were made in the pilot house of which a dirigible was invented.

**TRUSTEE LASHER WANTS TO SELL THE FOLEY PROPERTY**

This estate is inventoried at about $2,000. While trustee wants to sell it quickly, property transferred to W.D. Wilton, as assignee under the court's order.

O.C. Lasher of Smithland, the trustee of the J.B. Foley bankruptcy, has finished his collections and has sent the money to the assignee. The trustee has also been working on the property located in Paducah, Kentucky, and as the result of his efforts, the property has been sold for $2,000. The proceeds from the sale will be used to pay off the lien creditors.
