THIRTY-SEVEN GO
FROM CALLOWAY
TO CAMP TAYLOR

Another good-bye was said by a large crowd of Calloway folks Wednesday morning of this week when thirty-seven splendid boys answered the summons of their government for military service under the provisions of the Selective Service Law. Thirty-eight men were summoned to report here at 1 o'clock Tuesday afternoon for the purpose of perfecting the necessary organization before entraining for Camp Taylor. Thirty-seven men in the official list published in these columns last week answered the summons, the only failure to report being Wm. Henry Ducan, who is recovering from an illness of months and was not able to be here. Three men in the list

of substitutes, Henry Elkins, Brent Shackelford and William Morton, were called upon to go in the places of Everard Mason, whom the district board placed in Class 2. H. Clay Denham, who appeared from the decision of the local examining board at Blackfoot, Idaho, and whose appeal had not been passed upon by the district board, and Jesse Hart, who was held by the local board at D. S. Arc, Ark., for limited service. Duncan will be sent to camp as soon as his recovery will permit. When no leaves will be completed the full quota of white men to be sent from this county under the first draft:

after this announcement was made the men were assembled in the circuit court room of the court house where Rev. H. W. Brooks, Rev. H. B. Taylor and Elder Kyle-Brooks each delivered short talks. At the station Wednesday morning a large crowd assembled to bid the boys good bye. The farewell was marked with few tears, in quietude a contrast to previous similar

BIT OF FINANCIAL HISTORY

The credit of the United States was so high and unquestionable that in 1900, two years after the Spanish war, 2 per cent bonds were offered at par and oversubscribed. This is a financial performance no other nation has ever equalled.

United States 4 per cent bonds in 1888 sold as high as 130 and in 1901 brought 139 1/2 on the stock market.

The United States has never defaulted on any of its bonds. Not one of its bondholders has ever lost a cent of principal or interest except those who voluntarily have taken losses by selling their bonds in a period of temporary price depression. One hundred cents on the dollar, principal and interest, has the United States always paid.

Back of the two hundred and fifty to three hundred billion dollars of our national resources stands the rugged honesty of America. Liberty Loan Bonds are the safest security in the world.

Eczema spreads rapidly; itchy almost drives you mad. For quick relief, Doan's Ointment is well recommended. 60c at all stores.

Will Move Up Timepieces.

The American people beginning this spring, probably, will be required by law to turn their timepieces an hour forward in the daylight saving movement. Favorable action on the pending bill is expected in the house this week and the senate has passed a similar bill. Virtually the only dispute is regarding the time this spring when the plan shall be put into effect.

T. C. Bearman was in Louisville this week transacting business and while there visited the Calloway boys in Camp Taylor.

This Corn Will Peel Right Off!

"Gels-It" Makes Corns Come Off The "Banana-Feel" Way!

Will have to step on the floor, squeeze yourself up like the letter "Z", and with bulging eyes draw your face up into a wrinkly knot while you goose and pull at the "quick" of a tender corn? That's

3 or 3 Drops Applied in a Few Seconds—Thores no Fussing or Cutting. "Gels-It" Always Works!

The old, savage way, "Gels-It" is the modern, painless, simple way. Lean over and put two drops of "Gels-It" on the corn, put your stocking and shoe right on again, and forget the corn. Pain is eased.

"Gels-It" has revolutionized the treatment of corns. It never irritates the true flesh. You'll stop limping on the side of your shoe, and do away with greasy salves, bandage bandages, thick plasters and painful methods. Use "Gels-It".

"Gels-It" is sold by all druggists (you need pay no more than 25 cents), or it will be sent direct by E. Lawrence & Co., Chicago, Ill.

Sold in Murray and recommended as the best corn remedy by H. P. Wear and Dais & Stubbfield.

A Murray citizen's statement forms convincing proof.

It's local testimony—it can be investigated.

Jim Stubbfield was topping the high cotton last Monday while circulating around the big fourth Monday crowd telling about hauling \$101.75 worth of corn to town at one load. He had hardly finished his story (and it was true—he hauled the corn and it brought \$101.75) when in walked Albert Smith, from down in Jim's country, and dad blamed 't'e didn't up and tell us the same identical story. Truth will out. The corn belonged to Albert and Jim did the hauling, and Albert swears that Jim's entire crop last year was not worth as much as his one load. The corn was shelled and brought \$1.85 per bushel.

At a meeting of the clothing manufacturers recently held in New York, the representative of one of the leading concerns, during the course of his speech, made this statement:

"If conditions existing at present prevail for another year, the character of clothing made by my firm will retail as high as \$100 a suit or overcoat."

This was not an exaggerated statement.

Q We know from personal experience that money will not buy necessary requirements of all-wool fabrics.

Q We know that everything that goes into the construction of clothing has advanced in prices beyond the conception of those who buy for their personal use.

Q We know that it will be difficult to buy all-wool clothing at all.

Q We know particularly that such suits and overcoats as we are selling today will cost fully double our present prices.

Q While we have an immense stock of fine clothing on hand, as well as piece goods in our New York shop, we do not urge the purchase by individuals for the purpose of hoarding same. Our government frowns upon such a practice.

Q For this reason we deem it a patriotic duty to restrict purchases by individuals to such goods as actually needed. To those who require a suit or an overcoat for immediate or later use, we suggest their buying now.

Q While the same conditions apply to the New Spring Clothing we are prepared to show a most comprehensive line at reasonable prices.

Q We do not hesitate to say that conditions compel us to narrow the margin of our profits in order to maintain our supremacy as value-givers. With us today it is not a question of profit-making, but rather conserving the interests of a host of customers who depend upon us for their wearing apparel. We shall do this under all circumstances and at all times.

No plumed knight or warrior of old ever wore his decorations or armor with more pride or grace than will our own Simon-pure-blown-in-the-bottle-all-wool-and-warrior Colonel. While transacting business in Frankfort last week Ben Grogan, assistant cashier of the Bank of Murray, called to pay his respects to Gov. Stanley and while in the chief executive's office was handed a commission signed by the governor naming S. H. Dees, of this city, aide to his excellency with the rank of colonel. This appointment carries with it the necessity of dress parade at least twice a year, at which times the Colonel will be required to don his full dress regalia, gold braid, chevrons, side arms and all, and will even be required to wear a covering of some character on his bald head. It is quite an honor to have a real live Kentucky Colonel in our midst, and here's hoping he'll live to collect interest for another thousand years.

Mortuary

J. Clint Wood, 39 years old, died at his home about 7 miles west of Benton Thursday, February 14, after an illness of tuberculosis. After funeral services at the late residence by Elder N. S. Castleberry, Friday, the remains were laid to rest in the Wallace cemetery, where a large concourse of sorrowing friends and relatives assembled to pay the last sad tribute of respect to the dead. The deceased was a member of the Missionary Baptist church and is survived by his parents, Mr. and Mrs. A. J. Wood, one brother, Rev. W. K. Wood, and two sisters, Mrs. T. J. Stahl, Paducah, and Mrs. Cleve James, Murray.—Benton Tribune Democrat.

Mrs. Mary Elizabeth Paschall, aged 72 years, died Sunday at her home after an extended illness of complications. She was a member of the Baptist church with her membership at North Fork. She was a good christian woman who has scores of friends. She is survived by her husband and three children. Funeral services were conducted Monday afternoon by Rev. D. T. Spaulding and the remains were buried in Oak Grove cemetery.—Paris Parisian.

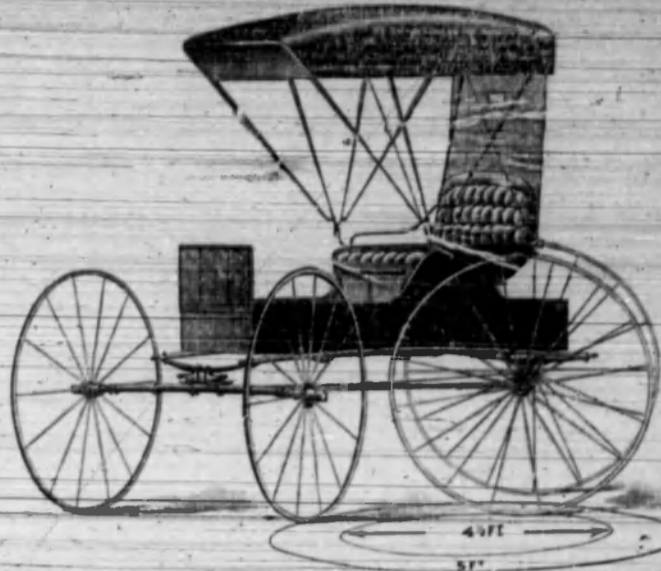

Regarding the death of John T. Stubblefield at Fulton recently the Courier-Journal contained the following:

"John T. Stubblefield, 76 years old, one of the most prominent citizens of Fulton, died of complication of diseases after a long illness. He had served Fulton as councilman, was in the revenue service under President Cleveland's administration, residing at Owensboro, Ky., and was sheriff of Fulton county from 1888 to 1902. He also was a director of the First National Bank and for years owned a large retail grocery. He was a Confederate veteran and member of the Masonic lodge. Mr. Stubblefield was a native of Rocking county, North Carolina. After the death of his first wife he was married to Mrs. Sue Dean, of Louisville, Ky. Besides his wife he is survived by two daughters, Mrs. Geo. T. Beadles and Mrs. Minnie Webb, both of Fulton."

Death has again invaded the ranks of the Trigg county boys in the soldier camps of the country. This time the victim is Alton Poindexter, son of Mr. Robt. Poindexter, a prominent farmer who lives near Cerulean Springs. He died at Camp Jackson, S. C., last Friday of pneumonia. Mr. Poindexter volunteered at Paducah early this year, and went into service the third of January and was sent to Camp Jackson for training.—Cadiz Record.

22 Million Families in the United States

IF EACH FAMILY saved one cup of wheat flour it would amount to 5,500,000 pounds, or more than 28,000 barrels. If this saving was made three times a week, it would amount to 858,000,000 pounds, or 4,377,000 barrels in a year. You can do your share in effecting this saving and really help to win the war by omitting white bread from one meal today and baking in its place muffins or corn bread according to this recipe:

Corn Meal Muffins

1 cup corn meal	2 tablespoons sugar
1 cup flour	1 egg
1 teaspoon salt	1 cup milk
4 teaspoons Royal Baking Powder	2 tablespoons shortening

Mix dry ingredients together in bowl; add milk and melted shortening and beat well. Bake in greased muffin tin in hot oven about 20 minutes. Sifted batter may be baked as corn bread in greased shallow pan.
