## Still No Sign Of Missing Plane In Washington Peaks

Seattle, Dec. 16—(AP)—Weather-weary searchers renewed their vigil today for a break in the elements that would permit them to comb the slopes of Mount Rainier for the missing Marine Corps transport plane which vanished in a storm last Tuesday with 32 men aboard.

The lofty 14,408-foot peak was still the most likely locale for the plane was indicated early this morning when a small band of Coast Guardsmen and others returned from checking a report that plane wreckage had been sighted 12 miles east of Eatonville, a small community 33 miles southeast of Tacoma.

"We covered every foot of ground without sighting a thing," said one of the party. A new group, however, was to undertake a final check on the region.

## Says Campaign Money "Lost"

**Mississippi Contractor Testifies He Learned His Gift Never Reached Party**

Washington, Dec. 16—(AP)—B. L. Knost, Meridian, Miss., contractor, told the Bilbo investigating committee today that he had learned that a \$3,750 contribution he and his partner made to a Mississippi campaign fund in 1941 had not been turned over to men running that campaign.

He testified that he turned the money over to Edward P. Terry, then secretary to Senator Bilbo (D-Miss.), for use in the unsuccessful campaign to elect Wall Doxey to the United States Senate.

He added, however, that in recent talks with Robert Gandy and Forrest Jackson, also associates with Bilbo in backing Doxey's candidacy, he had been told they did not get the money from Terry.

"It may have been used in the campaign but it never got into their hands," Knost said.

## I Didn't Get A Damn Dollar

Thus testifies Sen. Theodore G. Bilbo (D-Miss.), as he leans forward in his chair at a Senate Committee inquiry into his dealings with war contractors. Bilbo referred to a \$25,000 contribution by a contractor to a 1942 Mississippi political campaign.

(AP Wirephoto)

knost said the \$3,750 was contributed on behalf of himself and Mike Morrissey, another contractor.

Previously he had testified that in June of 1942 he and Morrissey jointly gave another \$5,000 to Bilbo for Doxey's campaign.

F. T. Newton, still another contractor, also had told of giving \$25,000 for the same purpose.

Knost also told the investigating committee that he had given Bilbo a \$1,200 loan on Nov. 6, 1941, and that Bilbo has repaid only \$750 of the sum.

"Why did you make this loan?" asked Senator Ferguson (R-Mich.).

"Because he needed the money," Knost said, explaining that he was a long-time friend of the Mississippi senator whose dealings with contractors are under Senate scrutiny.

Knost conceded that Bilbo had assisted him in his quest for government contracts, by introducing him to government officials and sometimes accompanying him for interviews.

He explained the belief that the senator will pay the \$450 balance when he can.

## New Bombing Warnings Sent

London Authorities Now Have Received 14 Threats But No Blasts Reported

London, Dec. 16—(AP)—A total of 14 telephoned warnings that London buildings would be blown up have been received by police since Friday night, but there was no report of terrorist violence anywhere in Britain's sprawling capital.

Authorities intensified precautions to avert possible violence, but expressed belief the calls were the work of a prankster.

The 14th in the series of threats was made by an unidentified caller who said London's huge Paddington Station would be blasted.

A man speaking in a gruff perhaps disguised voice, telephoned a local police station today that London's Stockwell Subway Station would be blown up.

Shortly afterward the Daily Mirror, morning tabloid, was threatened would be blasted at noon.

A similar warning call was made late last night, directed at Shepherd's Restaurant in the fashionable west end.

Successive calls last night said the bombs would be set off at Scotland Yard, world renowned London police center; at the Royal Artillery Records Office in nearby Kent County, and at a building—name not specified. The respective calls were to the British Broadcasting Corporation, the Artillery Office and the General Post Office.

College Group Requests Higher Salaries After Public School Agitation

Louisville, Ky., Dec. 16—(AP)—Agitation among teachers in the Louisville public schools for pay increases was followed today by a formal request for salary boosts by professors of the University of Louisville, a municipal institution.

Prof. Richard Kain, president of the local chapter of the American Association of University Professors, said that invitations to a wage conference had been presented to acting President Frederick W. Stamm and members of the board of trustees. The meeting probably will not be attempted until after the Christmas vacation, Kain said.

"We don't know enough about the budget to know what raises are possible," Dr. Kain explained. "That is why we have named a committee to go over the matter with the trustees." He announced the appointment of Dr. David Maurer as committee head but stated that other members of the group would remain anonymous for the present.

Dr. Kain said that most instructors at the University have to teach during the summer or at night "in order to break even."

## Senator Bailey Dies In Raleigh

16-Year Career In Senate Ended By Death Sunday; Fought Many FDR Bills

Raleigh, N. C., Dec. 16—(AP)—A 16-year-old career in the U. S. senate ended in death here yesterday for Josiah William Bailey, 73-year-old Democrat.

Bailey, the state's senior senator, died of a heart ailment at his home where he had lapsed into a coma Saturday. He was still on the mend after a serious heart illness eight months ago but seemed unusually well and cheerful earlier Saturday, relatives said.

Funeral services were set for 3:30 p. m. (EST) today from the First Baptist church.

Speculation mounted over his successor whom Gov. R. Gregg Cherry said he would appoint this week to serve out the two years of Bailey's term.

The Charlotte Observer said it was virtually certain that National Democratic Committee-man William F. Horton of Pittsboro would be the governor's choice.

Although Senator Bailey supported the late President Roosevelt in each of his four campaigns, the North Carolinian did not hesitate to fight against a number of the President's proposals. He was one of the senate's most vigorous opponents of the proposal to enlarge the supreme court but on the other hand supported such measures as the TVA, the social security act and the reciprocal trade treaties.

## New Housing Program Free Of Priorities, Price Ceilings Announced; Wyatt Aide Ready To Quit

Washington, Dec. 16—(AP)—The government prepared today to boost non-residential construction by perhaps 40 percent, put a floor-space limit on new homes, and give private enterprise a much bigger say-so in fighting the housing shortage.

With these as policy guides laid down by President Truman, officials set out to run a housing program minus priorities and price ceilings—a program which was catching bricks from Wilson Wyatt's admirers and bouquets from the building industry.

One of Wyatt's chief aides, Norton Long, prepared to take the cue of his former chief and resign as deputy housing expediter. He denounced Mr. Truman's new housing policy as

"not a program at all" but a bid for a "boom and bust" in real estate.

Climaxing a series of White House huddles, Mr. Truman on Saturday night wiped out the \$10,000 ceiling on the selling price of new houses and announced that any citizen can build a home for himself—a right that for 11 months only veterans have enjoyed.

Nevertheless the President said the new program will be a "vigorous one" with the government stressing rental housing. The whole new program, with emphasis shifting from federal control to business initiative, "will produce results," he promised.

Henceforth, Mr. Truman ruled, only a few raw materials will be allocated—that is, channeled

**Cold Wave Coming South In Next Few Days; Zero Temperatures Recorded**  
By The Associated Press

A push of cold air penetrated the northern plains states today, accompanied by light snow, and temperatures fell to near zero in the area.

The southward and eastward movement of the cold air will bring colder temperatures to the upper Mississippi Valley and lower Lakes region tonight, with the reading in Chicago expected to reach 20 degrees.

Cold wave warnings have been issued for Wisconsin, Iowa and Minnesota. Temperatures are expected to fall as low as 10 to 15 degrees below zero in northern Minnesota tonight.

There was no official forecast as to the expected duration of the cold snap, but the U. S. weather bureau at Chicago said that in the wake of cloudiness and light snow and drizzle, weather would be fair and quite cold for several days.

Weather continued mostly fair and cold over the eastern United States, with temperatures below zero in northern Maine.

Automobile driving throughout the middlewest was made hazardous by a light freezing drizzle.

In the Pacific northwest, freezing weather following on the heels of a snow flurry brought hope to the residents of western Washington that the worst of the week's floods were over.

## Plea For Local Lawyer Denied

State Game Warden Had Asked Private Counsel After Threat Of Death

Frankfort, Ky., Dec. 16—(AP)—Prosecution of a man alleged to have threatened death to a game and fish conservation officer is the duty of local officials, attorney general Eldon S. Dummit declared in a letter made public today.

Frank Phipps, superintendent of conservation officers for the game and fish commission, wrote that when an officer attempted to check a repeating shotgun after stopping two hunters in Lincoln county, one of them first pointed the weapon at him and then brandished it as a club and threatened to kill the officer.

The men were tenants on the land on which they were hunting, Phipps said, and after determining that they did not require hunting licenses, the conservation officer wanted to examine the shotgun.

Phipps requested approval of attorney general Dummit to hire a local attorney at Stanford, if the attorney general could not intervene. Phipps expressed doubt he could depend on the county prosecuting officials.

"The county attorney and our men don't hitch very well," Phipps said today in explaining his position.

## Churches Join In Honoring Editor For Cooperation

CULVER, IND.—A unique tribute to a newspaper's cooperation with local churches was paid here last week when M. R. Robinson, publisher of the Culver Citizen, and his staff were feted at a testimonial dinner by the three Culver churches.

To thank Robertson and his staff for featuring church news week after week, pastors of the Grace Evangelical and Reformed, Evangelical United Brethren and the Methodist churches joined in sponsoring the testimonial.

A dinner was served in the basement of the Methodist church, two pastors spoke, and later the guest of honor took his hosts for a tour of the Citizen house of 1,500 square feet can be built for around \$15,000 in high building cost areas.

Merle Hapes, New York Giants fullback, covers his face with his hands as he leaves a police station in New York, after night of questioning about what police and National Football League officials called an attempt to "fix" the championship playoff in New York between the Giants and the Chicago Bears. Hapes was suspended from playing in the game. Both he and Frank Filchok said that they had refused to accept bribes of \$2,500. Frank Filchok will be remembered in Fulton as outfielder and second baseman on the 1937 and 1938 Fulton Clutch. A native of Pennsylvania, Filchok hit over .300 both seasons here. He was playing football with the Washington Redskins at that time. This is his first season with the New York Giants. (AP Wirephoto)

## Phone-Tapping Led To Arrest Of A. J. Paris For Bribery

New York, Dec. 16—(AP)—The "tip" that resulted in exposure of yesterday's attempt to fix the National League championship football game between the New York Giants and Chicago Bears actually was the result of police tapping of the telephone wires of Alvin J. Paris arrested on a bribery charge, it was disclosed in court today.

Meanwhile, authorities launched a sweeping investigation of local gambling and bookmaking circles to discover whether Paris, 26-year-old officer of a novelty concern, acted alone in attempting to bribe Merle Hapes

and Frank Filchok, two of the Giants' backfield stars.

Assistant district attorney George Monaghan said the investigation was continuing and that no further warrants yet have been issued. "I can't say whether there will be any more arrests today," he said.

Paris, held in \$25,000 bail on the bribery charge, was charged with bookmaking in Municipal Term Court today and held in \$5,500 bail on that charge. In the complaint Paris was quoted as telling police when they questioned him: "If you were listening on the phone as you say, you know what went on."

Monaghan, in asking yesterday that bail be set at \$25,000 told the court that "I believe that the defendant has the backing of a very large bookmaking outfit outside of the state of New York. I believe they have substantial means and would not hesitate to get this man out of the jurisdiction of the state or even tamper with witnesses."

The law under which Paris was arraigned yesterday was passed in 1921 to protect professional sports after the scandal involving the 1919 World Series baseball games. The law makes an attempt to bribe a professional athlete a felony punishable by one to five years imprisonment.

## Pretend They're Crazy

December is the most dangerous month of the year on the nation's highways, according to National Safety Council figures, and more people are killed in automobile accidents in that month than any other. January follows close behind.

Cause of the increased driving hazard is obvious—snow and ice on the roads. We haven't had our quota of snow yet, and before it falls and makes our roads more dangerous, it would be well to check our driving habits, our knowledge of rules of the road, and the mechanical condition of our cars and trucks.

## It's Nice, But Will It Last?

By J. H. Roberts, Jr., AP Foreign Affairs Analyst  
For ten months and three weeks of 1946 the foreign ministers council and the United Nations gave cause for little except pessimism. For each step forward there seemed to be a step back.

Russia seemed determined to turn the international conferences into mere forums for propaganda. Britain's prime minister went to Paris in the summer for what he termed "one last effort" to get the Russians to really cooperate. Little seemed to come of it.

## Deafened People May Now Hear Clearly

Science has now made it possible for the deafened to hear faint sounds. It is a hearing device so small that it fits in the hand and enables thousands to enjoy seasons, music, and friendly companionship. Accepted by the Council on Physical Medicine of the American Medical Association. This device does not require separate battery pack, battery wire, case or garment to bulge or weigh you down. The tone is clear and powerful, so made that you can adjust it yourself to suit your hearing as your hearing changes. The makers of Beltone, Dept. 6099, 1499 West 18th St., Chicago 5, Ill., are so proud of their achievement that they will gladly send free descriptive booklet and explain how you may get a full demonstration of this remarkable hearing device in your own home without risking a penny. Write Beltone today.

Sports Roundup

By Hugh Fullerton, Jr.
New York, Dec. 16—(AP)—Commissioner Bert Bell of the National Football League claims that most of the money lost in

pro football is lost after Nov. 15—and we can see where there wouldn't have been so much dough made on yesterday's play-off if most of the advance sale hadn't taken place early in the week when the weather was warm. Bert's theory is that almost any club can break even early in the season, but once a team is out of the race and the weather becomes uncertain, the customers stay away in large numbers—it must have been November all this fall in Miami—Carl Rebele and Harry Robb, the spare officials who merely 'observed' the Bears—Giants tussle, were paid more for that job than the top college officials get for working a game and the officials who worked got exactly twice as much.

His Bite Was Worse
Bell also is authority for this yarn about big Joe Skydahn of the Bears. Seeps Joe lost most of his teeth playing football and, taking no chances, he leaves his crockery choppers in the locker room, displaying only one middle tooth and one on each side as he comes down the field under a punt, grinning at the thought of the destruction his impact with the receiver will cause. It's a fearsome sight. After one such experience Davey O'Brien, who weighed only 144 pounds when he played for Bell on the Philly Eagles, told his boss: "I don't mind getting hit by him, but I hate to look at the so and so."

head-man of minor league baseball. Billy Evans, who refused to be considered as minor league boss, resigned as president of the Southern Association to take the job Trautman left at Detroit. Dick McGuire, the St. John's U. basketball ace, has a kid brother, Micky, at St. John's prep who is considered a red-hot prospect. Word from the south says that sometime in January Georgia's Charley Trippi will accept a sizeable chunk of cash to sign a pro baseball contract. The Braves had better get his name on the line before the bonus restrictions go in—they say Charley can't hit to left.

Brick Worker Held For Death Of Wife

East Liverpool, O., Dec. 16—(AP)—Police Chief Hugh McDermott said he would file formal charges today against Frvyn Brown, 39-year-old brick yard worker held in the slaying of his wife and another man. Mrs. Beulah Brown, 33, signed a statement shortly before her death saying she was shot by her husband, County Prosecutor Frank W. Springer reported. The shooting occurred Saturday in the home of Mrs. Ada Hall, 87. The body of Brady Fedy, 49, the other victim, was found in bed, clad in pajamas. Mrs. Brown, suffering from 2 chest wounds, crawled from the building and summoned aid before dying two hours later. Fedy, a potter, was struck in the head by three bullets. The United States often has 4,000,000 malaria cases a year.

KHSAA Drops Three Schools

Wurtland, Morganfield And Sturgis Named By Ted Sanford, Secretary
Louisville, Ky., Dec. 16—(AP)—Wurtland, Morganfield and Sturgis high schools today were under suspension by order of the Kentucky High School Athletic Association's Board of Control. Ted Sanford of Henderson, secretary of the board, said the three schools were ordered barred from participation in athletic competition within the association at a meeting of the board here Saturday. He gave the following reasons for the suspensions, which are effective immediately and continue until July 1, 1947: Wurtland—"For the playing of Hobart Knight, an ineligible player, against an Ironton, O. team." Morganfield—"For the playing of Raymond Thomas, who had not satisfied the attendance requirement in the preceding semester which was the spring semester of last year." Sturgis—"For the playing of Billy Stewart, who also had not satisfied the attendance requirement during the spring semester of last year." Sanford explained that each of the alleged violations of KHSAA rules occurred during the football season just closed.

Only 2 KIAC Teams Winners

Eastern, Transylvania Still Undefeated As Three State Fives Lose
Only Eastern Kentucky and Transylvania of Kentucky Intercollegiate Athletic Conference basketball teams possessed unblemished records today. Three KIAC quintets faltered for the first time in last week's competition. Union lost its initial game in six starts to Lincoln Memorial University, 31-46; Murray was toppled for the first time at the hands of Southeast Missouri, 44-47, and Morehead sustained its first and second losses, 55-50 to Texas A. & M., and 50-54 to Marshall. The KIAC outfits, while dropping 14 games to out-of-state opponents last week, racked up some significant victories, including the University of Louisville's 83-46 win over Indiana; Eastern's 64-55 decision over Pepperdine, and Murray's 49-46 triumph over Texas A. & M., and 59-43 decision over Arkansas State. Eastern was left in command of the KIAC season's standings with three victories and no defeats following the Maroons' victory over Pepperdine and a 50-40 decision over Georgetown. Transylvania was idle last week but had a previous victory over an Alumni quintet. Another week of inter-sectional clashes is ahead for the KIAC teams. Morehead meets St. Ambrose at Davenport, Iowa, tonight; Eastern encounters Baylor, and Morehead takes on Duquesne in a doubleheader at Louisville Friday, and Louisville opposes Tulane, one of the ranking Southern conference teams, at Paducah Saturday. More than half the population of New Zealand lives in 14 urban areas.
