## BOARD CALLS THE MEN WHO WILL LEAVE MONDAY.

The hour has passed when citizens of this nation can even consider personal affairs when a call for federal service is made. That which confronts America today is the most momentous problem in the life of the nation, and this mighty problem must be solved and this war must be prosecuted to a victorious conclusion. Calling to arms men of draft age will continue for a period of time, possibly years, at regular intervals, and every citizen must consider it his duty to have his private affairs in such order that he can answer the summons immediately and without friction.

Next Monday morning twenty-six young men will leave here for Camp Taylor to equip themselves for the duty of soldiers. The list of names was selected at a meeting of the county board last Monday and contains well known and popular young men of the county. The first five men waived any claim for deferred call and volunteered for immediate service. Following is the list called:

Barney Eiton McCuan.  
Raney J. Wells.  
Alton E. Barnett.  
Hubert Jackson.  
Everett Bogard.  
K. H. Osborn.  
Cecil H. Thurman.  
Bernice H. Miller.  
Adolphus Butterworth.  
John Alvin Davis.  
Albert Garland.  
John Kelley Dick.  
Burnie B. Crouch.  
Lloyd Watson Creason.  
Eubert C. Parker.  
Jesse J. Roberts.  
Robt. G. Fair.  
Jas. O. Seawright.  
Isaac E. Ailbritten.  
Wildy Graves Harding.  
Thos. L. McElra.  
John Thurman.  
Tremor O. Baucom.  
Nicholas P. Hutson.  
Harry L. Dunn.  
Nolan L. Kemp.

Should any of the above select become totally unfit for military service before time of departure an alternate will be sent to fill the vacancy. However, alternates are not required to go in the place of any slacker. The alternates are Jefferson Davis Rowlett, Thos. Henry Brandon, Homer H. Hart, Jas. Z. Ferguson, L. C. Winchester, Leland E. Owen.

In addition to the above list of white select, who comprise the first increment of the second draft, there will be sent twelve negroes who are due to complete the first draft. The negroes will leave here at the same time the white registrants leave and the list is as follows:

Sherman Greer, D. Lee Wiley, Gladys Jones, Andrew Patton, Vernon Gilbert, Wm. W. Perry, Ralph Nuckols, Odie Blanton, Noble Wall, Burt Morris, Robert Rose. Alternates.—Naaman Williams, Tom Skinner.

All of the above select have been notified to meet the local board in Murray Saturday afternoon at 1 o'clock, at which time they will organize and a leader appointed for the trip to camp. They will be permitted to return to their homes and must report back here early Monday morning in time to leave on the 7:20 train.

The Ledger hopes to see every citizen who can possibly do so come to town Monday morning and give the boys a rousing farewell. They are going to give

their lives to maintain the safety and happiness of Calloway citizens and there is nothing the stay-at-homes can do that these boys do not deserve.

### Teachers' Checks Sent Out

Frankfort, Ky., April 22.—Superintendent of Public Instruction V. O. Gilbert has mailed checks to city and county school superintendents for 68 per cent of the sixth installment due on teachers' salaries. Of the amount sent out \$58,375.60 goes to the city school teachers and \$194,459.49 to the rural school teachers. Supt. Gilbert hopes to be able to meet the seventh and last installment due the teachers, together with the one one third due on the sixth installment by the middle of May.

### KANSAS NIGHT RIDERS VISIT GERMANS; LEAVE WARNING.

Hutchinson, Kan., April 22.—Handbills printed in black ink and signed "night riders" made their appearance today in the eastern part of Barton county, where there is a large population of German origin.

The posters, were nailed to barns and fences, warned "German spies, German sympathizers and slackers" that a visit from the "riders" might be expected.

"We are among you and know all of those who are traitors to their country," says the poster, "and you may expect a visit from us. There is no neutral ground. You are either for or against the government. Line up and get right while you have a chance."

The night riders, it is said, announced their presence at each farm by firing a pistol.

### Mortuary

Tom Harris died at his home at Farmington Friday at noon after having been in failing health for several months. He was a member of the Baptist church and had been a resident of this county many years. The burial was at Farmington. He leaves several children. He was a brother of Mrs. A. T. Pullen of this city.—Mayfield Times.

The people of Mayfield and Graves county were made to mourn Thursday morning when the news of the death of James D. Watson was circulated. He died at his home on South Sixth street at 5 o'clock Thursday morning, April 18, in the presence of all his family.—Mayfield Messenger.

Mrs. Cora Lewis, 53 years of age, died very suddenly last Monday morning at the home of her brother, Rev. W. O. Hargrove, near Almo. Her death occurred while she was sitting in a chair and resulted from a stroke of apoplexy. The body was taken to Chapel Hill, Graves county, for burial.

Miss Dora Ragsdale, daughter of the late Porter Ragsdale, of the Faxon section, died in Nashville, Tenn., the first of the week where she had gone for an operation. The remains were brought to this county for burial. She was a well known young woman and had many friends.

Lonnie Bynum died last Friday morning at about 4 o'clock at his home in St. Cloud, Minn., after a short illness of pneumonia. The remains were brought to this city, arriving here Sunday, and were laid to rest in the City Cemetery. He was a native of this city, a son of Will Bynum and was about 35 years of age. A widow and one daughter, parents, two brothers and two sisters survive him.

## SHERIFF'S SLAYER IS STRUNG UP AT LEXINGTON, TENN.

Lexington, Tenn., April 22.—Driven to bay about noon today between Wildersville and Farmville by a posse headed by former Sheriff John D. Franklin and H. J. Tate, the negro murderer, Berry Noyes, who killed Sheriff W. H. McBride Saturday night was captured after being mortally wounded by the officers, at whom he fired until shot down. His body was at once taken in charge by a mob, who took him from his captors and brought him to this place in an automobile at a high rate of speed.

He was still alive when the court square was reached at 5:30 o'clock p. m. The mob, composed chiefly of young men and boys, who had been in the hunt for the criminal for more than 36 hours, was uncontrollable. Kicking the negro from the car, a rope was thrown in evidence and placed about his neck, the body being dragged to a flagpole on the south side of the square, where it is the custom for Old Glory to be unfurled.

An attempt to hang him on that pole having failed, the mob dragged him to a telephone pole on the west side of the square, and in a jiffy the rope was thrown across a beam and the body drawn up. The purpose of the crowd clearly being to perforate it with bullets, being unable to pull the body to a height at which it would be safe to fire into without endangering the pedestrians, the mind of the mob instantly changed at the cry of "Burn him, burn him." Lowering the body, from which life was now gone, it was dragged by the mob down Clifton street, the leading residence street of the town.

Covering the distance of three-quarters of a mile from the court house to the scene of the crime in a comparatively short time, the body was covered with brush and pine boards and saturated with kerosene. This was lighted with a match in the hands of a relative of the deceased sheriff and the flames quickly shot upward. No shooting occurred on the court square, but at the scene of the burning possibly 50 shots were fired through the flames and through the body.

A private court of the citizens of the county had just heard earnest appeals from County Judge W. H. Lancaster, Circuit Judge N. I. Barham, City Marshal J. W. Knowles, Attorney E. W. Tssary and others that no mob be formed and the law be allowed to take its course.

Ed Douglas, a companion of the murderer, was only saved from mob violence by being spirited from the jail in which he was confined.

### LOCAL DRAFT BOARDS TO PASS ON ALL FURLOUNDS

Representatives in congress are receiving many inquiries from constituents asking for information as to the method of procedure in obtaining furloughs for enlisted men to work on farms. Congressmen are answering the inquiries by telling them that the applications for these furloughs are not being passed on in Washington, except as to specially qualified farming experts, and that when applications do come to Washington they are returned to local boards for action.

Relatives seeking a furlough

for a soldier must go before a local board at their own county seat and then take the application to a county demonstrating agent, who exercises his judgment and if the judgment is favorable, passes the application on to the soldier's division commander. If the soldier asks for the furlough, he applies through his commanding officer to the local board, which takes up the application with the farmer on whose farm the soldier wants to work. The farmer and the county agent then fill out the necessary blanks, which they forward to the soldier's commander for final decision.

### Kirksey Kinkles.

We are having fine weather at present and the farmers are moving along with their farm work very rapidly. Some corn planted. Tobacco plants are somewhat scarce in this section. Wheat and grass are on a standstill owing to the cold weather, but it is hoped that our truck will come out of this when it turns warm.

The school closed at C. N. C. last Friday night with a class of four graduating from the tenth grade. Lloyd Tucker, Harry Dunaway, Misses Vera Martin and Clotile Tucker were the class. Prof. Glasgow made quite an interesting talk to the class. The pupils all did well.

About three hundred relatives and friends surprised Uncle Bruce Cunningham and wife last Sunday in honor of Uncle Bruce's birthday, everybody bringing a basketful of cooked provisions suitable for the occasion. This was his seventy-fifth birthday and many of his old friends were present. Everyone seemed to enjoy the dinner and in the afternoon we spent two or three hours in prayer service.

Glen Swift and wife are rejoicing over the arrival of a new democrat at his house a few days ago.

The singing convention that was held at Mt. Hebron last Friday and Saturday was quite a success in every respect and was well represented both days. Prof. J. B. Swann was there with his class and many other leaders were present.

The German measles are in our neighborhood.

Frank Hanley has his tobacco barn about completed.

Most everybody in this section have subscribed for Liberty bonds and could have handled twice as many more.—T. B.

### TEACHERS ARE ELECTED FOR TERM OF 1918-19 BY BOARD.

A meeting of the school trustees was held at the school building last Friday night at which time teachers for the next fall and winter term of the school were elected as follows:

High school.—J. W. Jones, Ed Filbeck, Carlisle Cutchin, Etna Baker, Laurine Wells. Grades.—Wadie Miller, eighth; Erie Keys, seventh; Mavis Miller, sixth; Florence Pogue, 5th; Verna Robertson fourth; Anna Hood, third; Lucile Glasgow, second and Desire Beale, first. Mr. Waldrop was re-elected janitor.

### 118 Killed by Long Range Gun

Paris, April 22.—The long-range bombardment of Paris resumed today.

An analysis of the German long-range bombardment of Paris shows that shells have fallen on seventeen days since March 23, and that with the figures for two days missing, 118 persons were killed and 230 wounded.

Mrs. Lewis Smith and children left this week for Nashville to make their home. Mr. Smith is employed on the powder plant in course of construction.

## LYNNVILLE IS THE SCENE OF DUEL MAY PROVE FATAL

In a fight four miles southwest of Lynnville last Monday afternoon about 1 o'clock Charley Alderdice was shot two times and probably mortally wounded, and Bob Austin cut seriously through the nose with an axe.

The men had trouble over a strip of land between the Austin and Alderdice farms and a fight resulted between Austin and Charley and Clyde Alderdice, brothers. Four shots were fired by Austin with a 38 Colt's special revolver, two of the bullets taking effect in Charley Alderdice, one in the fleshy part of the arm and the other in the left breast. Dr. John Kirksey of Sedalia, and Dr. Forrest of Lynnville, were summoned to attend the injured men. They probed for the bullet in the breast but it could not be found, having ranged downward.

It is not known who struck Austin, as the three men were all in the fight at the same time. The injury to Austin may also prove serious. The Alderdice brothers, it is said, took the pistol from Austin after the shots had been fired.

Each side claims self defense. Austin declares that he did not shoot until after he had been hit with an axe, while the Alderdice brothers say that Austin was not struck until after he had fired the shots.

It is said that Austin had employed some laborers to work on the strip of land dividing the farms Monday morning and that the Alderdice brothers stopped them. At 1 o'clock the parties met for the purpose of reaching an agreement on the line when the difficult followed.

### Enroute to the Trenches

The first drafted soldier from Paducah to reach France is Joseph Wade Brooks. News of his safe arrival in France was received by his mother, Mrs. J. R. Brooks of Tennessee street, yesterday in a brief card. Brooks was one of the first men drafted from this county and went to Camp Taylor with the first increment. His arrival would seem to indicate that some of the Kentucky draft contingent of the first call are either overseas or enroute.—Paducah Sun.

The Ledger is advised that registrants who are called to leave here the morning of the 29th for Camp Taylor can secure full information regarding government insurance by calling upon Attorney John Ryan. This information will be furnished without cost to each registrant and it is the desire of the government that each man in the service carry the full allowance of this insurance.

Capt. D. Y. Dunn, stationed at Camp Custer, Mich., near Battle Creek, since he was commissioned an officer, was in the county the past week on a five days' furlough visiting his parents, J. C. Dunn and wife, of the northwest part of the county. Capt. Dunn is the ranking commissioned officer from this county and is one of the finest specimens of physical manhood that has gone out of Calloway into the service.

J. F. Morris, north of town, spent several days of the past

week at Camp Shelby, Miss., where his son, Calvin Morris, member of an Indiana infantry regiment, is located. Mr. Morris returned home Monday of this week and reports the Calloway boys in fine health and fine spirits. He says the storm that struck the camp Wednesday night of last week did some damage and one soldier, an Indiana boy, was killed.

Sergt. John Meyer, Camp Shelby, Miss., was in the county the past week on a short furlough visiting his father, J. V. Meyer, east of town. Sergt. Meyer was one of the selectmen who left Calloway last fall. He is a splendid young fellow and is making an excellent soldier.

John Wells, 113th Ammunition Train, Camp Shelby, Miss., was in the city Monday the guest of Billie Stone and wife. John enlisted with old Co. L while the boys were in Lexington and later went with the company to Camp Shelby. He is a son of Judge A. J. G. Wells and has many friends in this city who are glad to see him looking so well.

Herbert H. Morris, of Puryear, has just completed a three months' training at Camp Gordon, Ga., and has been commissioned a second lieutenant in the infantry. He is well known to many Murray people.

Mrs. Joe T. Farley is in receipt of a wire from her son, Lamar Holt, stating that he had won a commission at the officers training camp at Tacoma, Wash., and had been ordered to report at Charleston, S. C., for duty. He will possibly visit here enroute to his point of assignment.

Guy Montgomery, of New Concord, teacher of the school at that place the past several years, has enlisted in the navy. A recruiting officer was here this week securing men for this service. Mr. Montgomery is a splendid young citizen and will make a valuable man.

### 400 At First Christian Sunday School.

Sunday, May 5, is "Go to Sunday School Day" all over Kentucky. The aim is to have a million people in Sunday school that day. The Sunday school of the First Christian church of Murray has set its goal at 400 for that day and expects to reach it. Each class in the school has been apportioned a definite number. If you are not a member of any Sunday school we invite you to come to the First Christian church on Sunday, May 5 and see a really big school. Be one of the million. Time 9:30 a. m. A warm welcome awaits you.—Kyle Brooks.

### MAY DRAFT MEN UP TO FORTY YEARS OF AGE.

Washington, April 22.—Members of the house military affairs committee returned to the capitol from the weekly conference with military authorities today. It is almost solidly convinced that the draft age must be extended from 21 to 40 years of age. In describing to the committee its confidential news from Picardy and Flanders the fighting fronts, the war department officials laid stress on the necessity of more man power.

Representative Kahn, the actual leader of the committee, declared on his return that a bill to extend the draft would surely be passed at this session. He said it would be approved by both house and senate so that on June 5, when it is proposed to register all men who have become 21 that men up to 40 will also be summoned.

### The New Dog Tax Law.

On and after January 1, 1919, it shall be unlawful for any person to own or keep any dog unless such dog is licensed by the county clerk, and unless such dog at all times wears the collar and tag provided by the new law.

It shall be the duty of the sheriff or his deputy to seize and impound any dog or dogs which are found running at large unaccompanied by its owner or keeper, and which do not bear the license tag. For failure to perform any duty under the provisions of this law any officer shall be liable to a penalty of not less than \$5 or more than \$20 for each offense.

Any person may kill any dog which he sees in the act of pursuing, worrying or wounding any livestock or attacking human being whether or not such dog bears the license tag.

Any dog that enters any field unaccompanied by its owner shall constitute a private nuisance and the owner or tenant of such field, or either agent or servant, may kill such dog while it is within the field, without liability of any nature. Any dog found off the premises of the owner between sunset and sunrise, unaccompanied by the owner, shall be considered as being an unlicensed dog and may be killed by the one finding said dog.

On or before January 1, 1919, owners of dogs shall apply to the county clerk for a license for each dog they own or keep in their possession. A fee of \$1 shall be paid for the first male dog, \$2 for the first female dog, and a fee of \$2 for each male and a fee of \$4 for each female for which license is applied subsequent and in addition to the first male or female license.

Many other important features are provided in this new dog law and all owners will save trouble by becoming familiar with the law and conforming to its provisions.

Pigs Wanted.—Pedigreed Duroc pigs, six to ten weeks old. See or write Geo. Gatlin, Murray, Ky.

For any itching of the skin, for skin rashes, chaps, pimples, etc., try Doan's Ointment. 60c at all drug stores.

## THE PINK AND YELLOW CARD FIXES STATUS

Both Indicate Blackers, Though One Has Subscribed—But Not Enough.

Two colors are going to figure prominently in this Third Liberty Loan campaign, Yellow and Pink. Every person who is financially able to buy a bond and who refuses will have his name recorded on the yellow card—the slacker card.

In the last two campaigns for the sale of Liberty Bonds there were many persons who slipped quietly into their banks and made a small purchase of Liberty Bonds, when, as a matter of fact, by reason of their financial ability, they should have bought ten times as many bonds. Such individuals are considered by the federal government as slackers, just as much as are those who can but will not buy any bonds at all.

In order to get a permanent record of persons of this character, the Federal Reserve Director of Sales of Iowa has sent to every county chairman a supply of pink cards, upon which the names will be recorded of such persons as do not do their full duty—who do their "bit" instead of their "utmost."

These pink cards will be carried by every Liberty Bond salesman, and when an individual who ought to buy a \$1,000 bond will only buy a \$50 bond down goes his name on the pink card. These cards will be handled the same as the yellow cards—they will be reviewed by the county chairman and his executive committee. The individual will then be given another opportunity to increase his subscription to its proper amount, and, failing in this, the cards will be forwarded to the Federal government for such action as the Federal agents deem proper.

Each state in each of the Federal Reserve Districts has similar plans, and no man may be a slacker without the knowledge of Uncle Sam.

## BARBERS WILL BUY BONDS

Union Secretary Asks Them to Share Good Fortune With Government.

Union barbers in St. Louis, who recently have been benefited by an increase in their wage scale, are being asked by F. A. Heller, secretary of Local No. 102, Journeymen Barbers International Union of America, to share their good fortune with their country.

Heller is advising the more than 600 members of the local craft to invest some of their earnings in Liberty Bonds. Haircuts are now costing 35 cents.

Under the new scale barbers are getting a guarantee of \$16 a week and 60 cents on every dollar over \$24 a week that a barber takes in. The "boss" barbers, or shop proprietors, have inaugurated a higher charge on shaves and haircuts to meet the increased pay of the men at the chairs.

"There can be no better investment than a Liberty Bond," said Heller. "I would like to see our men, who are now getting a share of the prosperity which the war has brought to some fields of industry, help our government in turn. So I am telling them to divert some of their earnings to Liberty Bonds."

## WHAT WE CAN DO

Prominent Kentucky Educator Points Out Duty of American.

By FRANK L. McVEY,

President University of Kentucky. There are a number of things that we can do in this war. Some of us can do all of them. Any of us can do part of them. These things are:

1. To enlist.
2. To go in the draft.
3. To work for the government.
4. To buy bonds.
5. To save food materials and money by buying bonds.

Unless there are materials and food the men who enlist, who go in the draft, or who work for the government cannot be maintained. The means by which the government gets food and materials and pays wages is through the sale of bonds. This is the key, and when the government has the funds it can go on with the war. If it does not have them its efforts must cease. The duty of the patriotic citizen is apparent.

## WHY FARMERS MUST BUY

Besides Being Patriotic, Their Investment Provides Nation With Shipping Facilities.

Some farmers may not understand just what is the significance of ship-building to them. They fail to see how they are to be benefited when the money they lend the government by purchasing Liberty Bonds is spent for ships that sail the seas they never have seen.

Ships today are carrying our farm products to Europe. If there are no ships the farmer's goods never would reach the market. If German U-boats were devastating freight cars instead of ships the farmer's crops would not even reach the Chicago and Kansas City markets. We must have ships to get our produce to market. Bonds will help build them.

## MOVIE STARS AND CABINET MEMBERS AMONG SPEAKERS

ORATORS FROM EVERY RANK TO SPREAD LIBERTY LOAN DOG TRINE IN UNITED STATES.

## ALLIED ARMIES ALSO HELP

Former President Taft, Governors of Many States and Soldiers From the Front Will Be Among the Lists.

The speaking campaign in connection with the Third Liberty Loan will be one of the largest and most comprehensive ever undertaken in the history of the nation. Virtually the entire country has been organized along district lines. Beginning with the National Federal Speakers' Bureau in the Treasury Department, the work is in charge of organizations controlling units from federal reserve districts down to villages. In some cases the organization extends into rural communities.

The total number of speakers who will participate in the campaign will run into thousands. Between 400 and 500 of them will receive personal direction from the National Speakers' Bureau and about 3,000 will work under the direction of various other organs. All of the speakers are being supplied with fresh information in relation to the loan as it develops.

The personnel of the speakers' list embraces men in almost every walk of life, including a former President of the United States, members of the cabinet, state governors, federal officials and actors and actresses, both of the silent and speaking stages. Some of the persons who have agreed to make addresses are: Former President William Howard Taft, Secretary McAdoo, Secretary Lane, Secretary Daniels, John Burke, Treasurer of the United States; Maj. Gen. E. E. Swinton, Assistant Secretary of the British War Cabinet; Gov. Hamberger of Utah; Gov. Brough of Arkansas; William J. Bryan, former Secretary of State; Martin E. Glynn, former Governor of New York; Carl Vrooman, Assistant Secretary of Agriculture; Clarence Darrow, Charlie Chaplin, Douglas Fairbanks, Marguerite Clark, Mary Pickford, Lillian Russell, Marie Dressler, Harry Lauder, Alice Nielson and Katherine Ridgeway. Many theatrical stars who will be unable to leave their regular work will give Liberty Loan talks in lieu of encores.

Many soldiers from the allied armies have accepted invitations to talk. Scores of them from Australia, England, Scotland and Canada will speak in various parts of the United States as the campaign gets under way. Most of them are injured men.

The preliminary Liberty Loan speaking work also is being accomplished on a larger scale than ever before. By the opening date of the loan more than 500 Liberty Loan meetings will have been held in various cities. Patriotic meetings have been in progress in different parts of the country ever since March 11.

## BOY SCOUTS WINS HONOR

C. D. Wallies, 17, of Memphis, Sold More Bonds Than Any Other Scout in Town.

Boy Scouts did valiant service in selling Liberty Bonds of the first and second issues. Plans have been launched for the Scouts to sell many thousands more of bonds in the third issue. Out of the army of Scouts in America, C. D. Wallies, Jr., 17 years old, of Memphis, Tenn., has the distinction of having sold the largest number of bonds of the second issue. Young Wallies has just received a gold medal given by the president of the National Boy Scouts Council in New York to the Scout who sold the most bonds. The Memphis youth, who is employed in a bank, sold 1,390 bonds, valued at \$445,000.

Troop 22, Boy Scouts, of which Wallies is a member, won the state flag given by President Wilson for selling the largest amount of bonds. The troop sold \$665,000 in bonds.

## WHY YOU INVEST IN BONDS

It Is Easier Than to Pay Tribute to the Kaiser and His War Machine.

It took you a long time to wake up to the war, but now that the ruthless German war machine is battering at the gates of Paris and threatening the line of communication from England to France, you are beginning to realize that America also is menaced. Failure to support the government, which means failure to back the army in France, would bring disaster and shame upon every American citizen.

Invest in Liberty Bonds and receive the interest on your money and a final return of the principal or you will pay tribute to the Kaiser and get nothing in return.

Every theater in Los Angeles will hold a Liberty Loan Night. It is expected that the movement will spread to every city and town in the United States.

DO YOUR BIT!

## A FORMER CRISIS IN U. S. HISTORY URGES BOND SALE

During Civil War Need Was Great, but Financial System Did Not Equal Present.

By William Chauncey Langdon, L. E. Chittenden, Lincoln's Register of the Treasury, tells in this "Personal Recollections of President Lincoln" of the anonymous Englishman who came forward in 1862 to lend the United States \$5,000,000, and the herculean efforts made to repay him.

British shipbuilders were constructing two armored vessels for the Confederacy. Our Minister, Charles Francis Adams, secured the issue of a restraining order just in time, but it could not be enforced until damages had been secured by the deposit of \$5,000,000 sterling in gold coin, with gold at 160. Where could he get it? There was no trans-Atlantic cable. When he had given up all hope of arresting these vessels, a quiet gentleman called upon him and asked if he might be favored with the opportunity of making the deposit of coin required by the order. "The only condition was that his name should not be made known."

In this war many Englishmen—and others—whose names we do not know have supplied us with money or its value—with munitions, and men and safety and immunity from German attack.

To this, our blood-bought benefit, hundreds of thousands of anonymous Englishmen and Frenchmen and Italians and Belgians have contributed.

Shall we not repay them promptly in kind by coming to their aid with money and munitions and ships and men, to the safety from German fury of those who remain, or of their widows and children?

This will cost! Will YOU help? How much? How soon? Buy a Liberty Bond and thus pay a little toward the freedom you have enjoyed thus far, as well as contribute toward the insuring of a like freedom and, we trust, of an even greater liberty for all in the years to come!

## NO NEW AUTO—BUYS BONDS

Liberty Loan Speaker Enlivens Assemblage of Missouri Dentists.

Dr. Val Kunz, a dentist, of 3258 South Jefferson avenue, is going to rattle along in his old automobile for another season, at least.

The doctor hadn't intended to. In fact, he had all but closed a deal that would have given him a much better machine in exchange for his old one.

But just at this point Dr. Kunz attended a meeting of the St. Louis Dental Society at the St. Louis Club. Among the speakers at that meeting was Thomas Q. Dix, a speaker for the Liberty Loan Organization of the Eighth Federal Reserve District, which is backing the Third Liberty Loan drive.

Mr. Dix brought home to the assembled dentists the importance of the success of the loan in a manner that "rattled" him from their chairs. "Early next morning Dr. Kunz got the other man in the automobile trade on the phone."

"It's all off," said Kunz.

"Why—what you mean?" asked the astonished trader.

"I heard a Liberty Loan speaker last night," said Dr. Kunz. "And I've just concluded that Uncle Sam needs my dollars more than I need another automobile. I bought a few hundred dollars' worth of the other loans. I thought I was doing my full duty. I thought I was a sacrificing American. Then I forgot all about it."

"Henceforth I'm eating, sleeping and living this war. I've been a slacker, in so far as making the sacrifice that an American should make in this cause. That deal is off. My \$1,000 and every other dollar I own goes into Liberty Bonds. Good bye!"

## PATRICK HENRY'S FAMOUS ADDRESS NOW APPLICABLE

Liberty or Death, Issue in War of Revolution, Is Issue in the Great World War.

One hundred and forty-three years ago in the Provincial Convention at Richmond, Va., Patrick Henry, patriot to the last drop of his heart's blood, flung into the faces of his wavering fellow delegates his now world-famous call to arms.

"Mr. President," he cried, "if we mean to preserve inviolate those inestimable privileges for which we have been so long contending; if we mean not basely to abandon the noble struggle in which we have been so long engaged and which we have pledged ourselves never to abandon until the glorious object of our contest shall be attained; we must fight!"

"Our brethren are already in the field! Why stand we here idle? What is it that gentlemen wish? What would they have? Is life so dear or peace so sweet as to be purchased at the price of chains and slavery? Forbid it, Almighty God! I know not what course others may take; but as for me, give me liberty or give me death!"

There spoke a patriot true. And he won his fight. Liberty's struggle was long and trying, but victory came at last. And the shield of freedom, blazoned upon the doorways of a new nation, has grown brighter and more resplendent with the passing of the years, until it stands today an inspiration for all the world.

Yet over yonder across the sea the mailed fist of Prussian autocracy is raised in menace. Its shadow is growing smaller, but it is a shadow still. It has lost some of its power, but the will to strike is yet there. And all those "inestimable privileges" of which Patrick Henry spoke are threatened and will continue so to be until Prussianism is crushed utterly.

"Our brethren are already in the field! Why stand we idle here? Think but a moment on stricken France, on pillaged Belgium, on outraged Serbia, on every land upon which the polluting hand of the Hun has fallen, and fancy what our portion will be if that same mailed fist is tossed upon our shores."

Then loosen your purse strings. Buy Liberty Bonds.

Patrick Henry was right. Death would be immeasurably preferable.

## THE FARM AND THE NATION

Agriculturists Must Do Their Bit and Help Win World War.

Every now and then, in driving through the country, one sees a particularly well kept farm. Everything is in shape and everything indicates prosperity. The farm is a success.

What is the secret of this? It is that everybody on the place is a busy man, helping himself and helping the others. All work and all work together. No matter what the weather, no matter what attacks the crops, no matter what the market, the business prospers.

This country is engaged in a big war. Now is the time for everybody to work and work hard and help himself and others. The best way to help if one is not at the front fighting, is to help finance the undertaking. We can't fail if we at home do our share when we have men at the front making the supreme sacrifice.

Buy Liberty Loan Bonds.

## WHAT YOUR BOND WILL DO

The farmer who purchases a \$1,000 Liberty Bond need not think he has not done anything toward directly providing the War Department with the means to defeat the Kaiser and his armies. When the War Department gets \$1,000 it has the funds where with to equip 25 soldiers and furnish them with two rifles each. These 25 men may be holding a snail shell or a section of a trench, deciding a battle that will decide this war in our favor.

## TO CUT WHEAT USE ONE-HALF

Military Necessity Demands That Each American Eat Only 1 1/2 Pounds Wheat Products Weekly.

### CORN AND OATS SUBSTITUTES.

Allies Must Have Wheat Enough to Maintain Their War Bread Till Next Harvest.

If we are to furnish the allies with the necessary proportion of wheat to maintain their war bread from now until the next harvest, and this is a military necessity, we must reduce our monthly consumption to 21,000,000 bushels a month as against our normal consumption of about 42,000,000 bushels, or 50 per cent. of our normal consumption. This is the situation as set forth by the U. S. Food Administration at Washington. Reserving a margin for distribution to the army and for special cases, leaves for civilian consumption approximately 1 1/2 pounds of wheat products weekly per person. The Food Administration's statement continues: Many of our consumers are dependent upon bakers' bread. Such bread must be durable and therefore requires a larger proportion of wheat products than cereal breads baked in the household. Our army and navy require a full allowance. The well-to-do in our population can make greater sacrifices in the consumption of wheat products than can the poor. In addition, our population in the agricultural districts, where the other cereals are abundant, are more skilled in the preparation of breads from these other cereals than the crowded city and industrial populations.

With improved transportation conditions we now have available a surplus of potatoes. We also have in the spring months a surplus of milk, and we have ample corn and oats for human consumption. The drain on rye and barley as substitutes has already greatly exhausted the supply of these grains.

To effect the needed saving of wheat we are wholly dependent upon the voluntary assistance of the American people and we ask that the following rules shall be observed:

1. Householders to use not to exceed a total of 1 1/2 pounds per week of wheat products per person. This means not more than 1 1/2 pounds of Victory bread containing the required percentage of substitutes and one-half pound of cooking flour, macaroni, crackers, pastry, pies, cakes, wheat breakfast cereals, all combined.
2. Public eating places and clubs to observe two wheatless days per week, Monday and Wednesday, as at present. In addition thereto, not to serve to any one guest at any one meal an aggregate of breadstuffs, macaroni, crackers, pastry, pies, cakes, wheat breakfast cereals, containing a total of more than two ounces of wheat flour. No wheat products to be served unless specifically ordered. Public eating establishments not to buy more than six pounds of wheat products for each ninety meals served, thus conforming with the limitations requested of the householders.
3. Retailers to sell not more than one-eighth of a barrel of flour to any town customer at any one time, and not more than one-quarter of a barrel to any country customer at any one time, and in no case to sell wheat products without the sale of an equal weight of other cereals.
4. We ask the bakers and grocers to reduce the volume of Victory bread sold, by delivery of the three-quarter pound loaf where one pound was sold before, and corresponding proportions in other weights. We also ask bakers not to increase the amount of their wheat flour purchases beyond 70 per cent. of the average monthly amount purchased in the four months prior to March 1.
5. Manufacturers using wheat products for non-food purposes should cease such use entirely.
6. There is no limit upon the use of other cereals, flours, and meats, corn, barley, buckwheat, potato flour, etc.

Many thousands of families throughout the land are now using no wheat products whatever, except a very small amount for cooking purposes, and are doing so in perfect health and satisfaction. There is no reason why all of the American people who are able to cook in their own households cannot subsist perfectly well with the use of less wheat products than one and one-half pounds a week, and we specially ask the well-to-do households in the country to follow this additional programme in order that we may provide the necessary marginal supplies for those parts of the community less able to adapt themselves to so large a proportion of substitutes.

In order that we shall be able to make the wheat efforts that are absolutely demanded of us to maintain the civil population and soldiers of the allies and our own army, we propose to supplement the voluntary co-operation of the public by a further limitation of distribution, and we shall place at once restrictions on distribution which will be adjusted from time to time to secure as nearly equitable distribution as possible. With the application of these restrictions, until then we ask for the necessary patience, sacrifice, and co-operation of the distributing trades.

## UNCLE SAM'S EYE ON FINANCIAL SLACKERS

Names of Men Failing in Duty on File in Washington.

Poss of the Third Liberty Bond issue throughout the United States will be listed and their names placed on file in the Treasury Department, where secret service agents will have access to them at all times. The several million Liberty Bond salesmen throughout the country will carry full low cards furnished by the government, upon which they will write the name, address and objections of all persons who refuse to buy a bond.

When a person shows an attitude hostile to the loan the salesman will take out a yellow card and tell him it will be necessary to get his name and address in an exact statement as to why he will not subscribe, so that it may be filed with the District Liberty Loan Committee and also in the Treasury Department at Washington. Secretary McAdoo in his instructions to the various Liberty Loan committees throughout the country has explained that the government does not intend to force persons to invest in bonds, who cannot afford to do so, but in each case the man who fails to do so will be asked to give his reasons. It is pointed out that many who bought \$50 and \$100 bonds on the other loans could have invested in \$500 and \$1,000 bonds, and these will be listed.

The government is determined not only to list the military slackers of the nation but also the financial slackers. Uncle Sam takes the position that the man who can afford to invest in a Liberty Bond and refuses to do so is just as much a slacker as the man who attempts to dodge the draft. The government has launched a campaign to keep tab on the delinquent men and women of the nation and no one may escape.

Congress has been asked to enact a law that will provide a fine of \$10,000 or imprisonment for not more than 20 years for persons who circulate seditious and traitorous propaganda, whether by word of mouth or literature. One of the principal objects of the proposed law is to halt opposition to the Liberty Loan campaign.

### KAISER VS. BUTCHER WEYLER

Devastation and Cruelty in Cuba Done in Belgium and France.

All America shuddered with shame and contempt when a heinous Spanish atrocity drove 400,000 peaceful inhabitants of Cuba from their homes and forced them into concentration camps to suffer, to starve and to die.

But no one ever accused the Madrid government of such brutality as marks the cruelty inflicted upon children, or the unmentionable barbarity shown to women by the heartless Germans in invaded lands.

What the Prussian has done in Belgium, in Russia, in Roumania and the other European countries he would do in America if the Kaiser wins the war.

Buy a Liberty Bond and register a protest against the sabre-rattling, bloodthirsty Prussian war lord.

America must win the war or civilization is doomed. Uncle Sam can and he will win, but he must have the loyal support of the men who stay at home as well as the soldier who goes to France.

Billions must be raised to supply the guns, the food, the thousand and one things that are necessary to support the army.

The free citizens of the United States must supply the money with which to feed, clothe and munition the army. The best way to do this is to buy a Liberty Bond—the safest investment in the world.

### MISSOURI PIGS ALSO LOYAL

They Will Root for Third Liberty Loan Bond Campaign.

Missouri pigs will root for the world's freedom, will supply food for the Sammies and create a fund for the purchase of Liberty Bonds.

A whole trainload of young porkers will send their way from Audrain County, Mo., to the St. Louis market, where they will enter the shambles and willingly give up their lives that the boys "over there" may live.

The "pig" idea is the product of the fertile brain of a Missouri woman. Mrs. C. F. Clark of Mexico, realizing that "pigs is pigs" no longer, but money instead, took her project up with the farmers, who heartily endorsed her plan. They have agreed to load up the train with pigs and invest the proceeds in Liberty Bonds of the third issue.

### PICTURES TO MOVE PATRIOTS

Slides and Trailers Prepared in Washington and Sent Broadcast.

Moving picture shows throughout the Eighth Federal Reserve District, embracing seven states and parts of others, will educate their patrons through a series of slides and trailers that will be supplied through the national organization at Washington.

## FOUR BILLION ESTIMATED RETURNS FROM INCOME TAXES.

Washington, April 15.—Recent reports from revenue collectors indicate that the government may receive from incomes and excess profits taxes in June much more than the \$2,500,000,000 estimated. Some estimates, based on preliminary examinations of returns filed ten days ago, run as high as \$4,000,000,000.

If these calculations of big collections are borne out by further examination of returns within the next two weeks, the treasury department may recommend legislation to provide for installment payment of taxes, probably in June, August and October. The treasury's decision on this question also depends largely on the success of the Liberty loan in the next week or ten days.

### Large Income Tax Paid by Some

Chicago, Ill., April 15.—Some men in the United States are paying as high as \$30,000,000 in income tax, according to Charles A. Eaton, head of the national service section of the United States shipping board and emergency fleet corporation.

The statement was made in the course of an address today to the shipping section of the annual meeting of the Chamber of Commerce of the United States.

### May Grant Furloughs to Farmers.

For the purpose of augmenting agricultural production it is the intention of the war department to grant furloughs to enlisted men to enable them to engage in farming during the present season. Commanding officers may grant such furloughs within prescribed rules whenever it appears they will contribute to increased farm production.

Furloughs may be given by commanding officers of posts, camps, cantonments, divisions and departments. They will be for short periods, largely for seeding and harvesting time. They will not be granted to enlisted men of or above the grade of first sergeant, nor in an organization that has been ordered to move or is in transit from points of mobilization or training to a port of embarkation. All furloughs granted will be recalled and the men ordered to their organizations when they have received preparatory orders for duty overseas.

Furloughs granted for farm work will be without pay and allowances, except that enough pay will be retained in each case to meet allotments in force on the day of the order, war-risk insurance and pledges on Liberty bonds.

For specially qualified experts in agriculture furloughs may be granted by the secretary of war upon application by the secretary of agriculture, providing such furloughs are voluntarily accepted by the persons for whom application is made.

Individual application for furloughs submitted by relatives will be on a form to be furnished by local draft boards. Two sections are to be made out and presented to the local board, which will complete the form.

If the furlough is granted the application will be filed by the commanding officer and a certificate furnished the soldier. If not granted the application will be returned with reasons for disapproval.

If the soldier initiated the application he will give the name of the person for whom he desires to work, from whom will be ascertained the need for farm service.

Furloughs may be granted en bloc to men who are willing to accept them, upon requests of farmers, when time consumed in traveling from the post to the place of labor will not exceed twenty-four hours. In making these applications farmers will use a form of the provost marshal general's office, also going to the local board.

### Card of Thanks.

We take this method of trying to express our gratitude and thanks to the doctors and our many kind neighbors, friends and relatives who were so faithful and untiring in their efforts to assist us in our affliction, and for the letters of sympathy received from those who could not be there. They all manifested such deep sympathy for us in the sad loss of our dear daughter and sister, Vera Desiree, and every one will ever have a kind memory in our hearts. Mr. and Mrs. Ben Taylor and children.

### RUB-MY-TISM—Antiseptic, relieves rheumatism, sprains, etc.

Some cynical persons have remarked that the Golden Rule has no place in business. They have taken the position that instead of doing unto others as you would have them do unto you, the only safe and sane plan is to do others before they have a chance to do you.

Fortunately for business and for the world at large, however, these persons are few and far between. The great majority of people are honest.

It has been proven repeatedly that even in business it pays to practice the Golden Rule, just as it has been proven repeatedly that "honesty is the best policy." It not only makes a man feel better down in his heart when he employs the principle of the Golden Rule, but he finds that it is good business. This applies not only to the man who stands behind the counter and gives a full pound of sugar to the man who asks for a pound, but also to the man who stands on the other side of the counter and pays his money for the pound of sugar.

### Does Consumer Do His Part?

The consumer expects the merchant to be honest and square and give him his money's worth for every penny that he spends with him, but how often does the consumer stop and ask himself the question, "Am I being as fair and honest with the merchant as he is being with me?" The consumer not only expects the merchant to give him honest weight and full measure at the lowest possible price, but he expects a world of other things at the same time. Nine times out of ten he expects the merchant to give him credit, and nine times out of ten the merchant does it. Many times he expects the merchant to "carry" him for three or four months before he pays for what he buys, and as many times the merchant does it. He expects the merchant to pay for advertising space in the church program which he is getting up, and the merchant does it. He expects the merchant to "kick in" most liberally when he is raising a fund for the benefit of the town band, and the merchant does it.

He expects the merchant to provide the bonus which is to be paid to obtain a new factory which will benefit the working man, the clerk and every body else in the town, and the merchant does it. He expects the merchant to "come across" with a donation to help the poor family which otherwise would become a charge upon the common funds of the community, and the merchant does it.

### Another Side to Picture.

Now, look on the other side of the picture. Mr. Consumer decides that he needs a new suit of clothes, or Mrs. Consumer decides that she wants a new kitchen range, or some of the little Consumers express a desire for a train of cars or a bobbed. Mr. Consumer picks up the big mail-order catalogue which the mail-order house has printed with his money or that of others like him, and he looks it over until he finds a picture that strikes his eye. It's a picture of a "nifty" looking suit of clothes. Of course, he can't feel the picture to see whether the cloth is as good as it looks; he can't look the mail-order man in the eye and ask him whether he will guarantee it to wear for at least a month or six weeks; he can't tell the mail-order man that he will drop in the first of the month and settle for it; he can't tell the mail-order man that he would like to have a little of his business or a chance to do a little carpenter work or painting or plumbing work for him, as long as he is buying his goods from him, for the mail-order man hasn't any business or any work to give him. But the picture is a pretty one, so Mr. Consumer digs out his hard-earned cash, goes down to the postoffice, buys a money-order and sends it to the mail-order man.

After a week or ten days, or possibly two weeks, the suit arrives. It may be nothing like the picture. The cloth may be of poor quality. The chances are that it doesn't fit at all. But there is nothing for Mr. Consumer to do but put the suit on and wear it. He can't get his money back. He might send the suit back and the mail-order man might send another in its place, but the chances are that it wouldn't be any better than the first and Mr. Consumer would only be out the additional express charges.

### Found Golden Rule Pays.

Mr. Consumer found that it pays to remember the Golden Rule in business. If he had done unto the merchant as he would like the merchant to do unto him, he would have got more for his money and he would have aided in making it possible for the merchant to help him and his town when they needed help.

### The World has discovered that the Golden Rule is not for use only on Sundays, but that it is value on every day of the week.

## LIBERTY LOAN BONDS.

Ledger readers are again directed to the advertisement for the Third Liberty loan appearing on the eighth page of this issue. Read it slowly and look at the picture thoughtfully. Scores of Calloway boys are going to give for liberty just what Capt. Tupper gave—their lives. This same act will be repeated by Calloway boys in the trenches. If they can give their lives can't you afford to loan the government your dollars? The American citizen who has the money with which to buy bonds end defiantly refuses to do so is not entitled to the protection this government gives him. Calloway citizens must double the quota assigned to them, and there yet remains about ten days in which to buy bonds—in which to loan money to the government at a reasonable rate of interest. It is the best investment in the world. Buy a bond today.

## STRAIGHTFORWARD TESTIMONY

Many Murray Citizens Have Profited By It.

If you have backache, urinary troubles, days of dizziness, headaches or nervousness, strike at the seat of the trouble. These are often the symptoms of weak kidneys and there is grave danger in delay. Doan's Kidney Pills are especially prepared for kidney ailments—are endorsed by over 50,000 people. Your neighbors recommend this remedy—have proved its merit in many tests. Murray readers should take fresh courage in the straightforward testimony of a Murray citizen.

J. N. Reed, farmer, R. F. D. No. 7, says: "Last fall I hurt my back with heavy lifting. Sometimes I bent over and could hardly get up. Doan's Kidney Pills cured me of this trouble and I am glad to recommend them because I consider them a reliable kidney medicine."

Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Reed had. Foster-Milburn Co., Mfgs., Buffalo, N. Y.

Discharged Selects to Register Again

All men who are of draft age and receive discharges from the regular army are required to register with their local boards—the latest regulations received by the local board. Volunteers who were accepted in the regular army and later discharged for any reason has an opportunity of evading military service, as frequently after volunteering they had received deferred classifications.

## RED CROSS IS READY TO AID SOLDIERS' KIN

Provides Loans, Grants and Allowances, Where Necessary, to the Fighting Men's Relatives and Charges No Interest.

EDITOR'S NOTE.—This is the third of a series of five articles prepared by Mr. Brown, who is in charge of civilian relief work in Ohio, Indiana and Kentucky. The subjects of the other two articles in the series will appear in "What Has Red Cross Taught Home Service Workers?" and "Organizing and Training 10,000 Home Service Committees."

By James L. Plesner, Director, Bureau Civilian Relief, Labor Division, American Red Cross.

Mrs. Brown is in pressing need of funds to meet her grocery bill and the government check for her separation allowance is slow to arrive.

Or there may be sickness, followed by death and funeral expenses, in the Charnoski family circle, for which the government allowance, made because of Private Charnoski's enlistment, is insufficient.

Or aged Mr. O'Reilly, overcome by rheumatism, can no longer support himself and Mrs. O'Reilly. Their only son, Barney, is a gunner's mate on a man of war. Yet there is no government allowance check for the O'Reillys because Barney, for a year or more previous to his enlistment in the navy, did not have to help the "folks" because Father O'Reilly then was able to boss his gang of street menders and keep up the little home on a side street.

It is for the Browns and Charnoskis and O'Reillys that the American Red Cross, through its chapter Home Service Sections, provides monetary relief in the form of loans (without interest), grants and allowances.

And practically every chapter in Ohio, Indiana and Kentucky is preparing to assist, or has prepared and is assisting the Browns, the Charnoskis and the O'Reillys. They are also preparing to assist relatives of men serving in the armies and navies of our allies.

Fully Explains Loans.

When it becomes necessary for a Red Cross chapter to loan money to an enlisted man's family, the conditions of repayment are thoroughly explained, the obligations put in writing and signed and the collection of the loan carefully followed up when it becomes due. As has already been stated, the Red Cross does not charge interest for a loan.

Grants may be made necessary by demands which the family income and government allowance cannot be expected to provide for, such as sickness, funerals and need of special training to create or increase earning power. Grants in small amounts may be required to tide over a period of acute distress until proper inquiry can be made and a plan of service decided upon.

Allowances are payments at regular intervals of a stated sum by the Red Cross Home Service Sections to the relatives of a soldier or sailor. They are usually limited, though not always, to those not entitled to government allowance, such as, for example, the families of men serving for one of our allies.

One may wonder how a Red Cross chapter, buying several thousand dollars worth of supplies monthly to be made into surgical dressings, woolen socks and convalescent gowns, can spend money for civilian relief work.

Have Civilian Relief Funds.

Last summer American Red Cross chapters raised more than a million dollars for the Red Cross War Fund. Each chapter was permitted to claim a refund of up to 25 per cent of the amount collected for the expenses of the campaign, for the purchase of raw supplies and for its civilian relief work. In making claim for refund, each chapter was required to state how much of the refund was to be expended for civilian relief. And now the chapters are obligated to keep the civilian relief portion for civilian relief work. To date it has not been necessary to draw heavily from this reserve.

IRRESPECTIVE OF THE DIFFERENCE IN STANDARDS AND COSTS OF LIVING IN THE MANY COMMUNITIES LOOKED AFTER BY RED CROSS CHAPTERS, THE AMERICAN RED CROSS WILL NOT BE SATISFIED WITH CIVILIAN RELIEF WORK THAT WILL PERMIT THE LOWERING OF THE STANDARDS OF LIVING OF THE RELATIVES OF AN ENLISTED MAN. RATHER, ITS AIMS TEND TOWARD A BETTERMENT OF THESE STANDARDS.

## A Roof for Every Building

Made to Best Protect That Character of Building

Never in the history of the roofing business has quality in roofing been so important as now. At present prices no man can afford to buy carelessly, or be indifferent as to results. Nor can any man afford to put off roofing that is necessary.

The roof to buy is that which best protects and lasts the longest. Any other kind is wasteful.

The McHenry-Millhouse business has been built upon the sound principle that a roof best serves its purpose when made in a particular way for a particular building.

To that end it has studied buildings, the kind of roof they need and require and made a special product for each.

It is this specializing that assures you the most of durability in any McHenry-Millhouse product you buy.

Tell us the kind of building you have to protect and we will see that you get the right kind of roofing for this character of building.

Asphalt and Rubber Roofing, Asphalt Shingles, Asphalt Four in One Shingles. Anything else in Lumber, Brick, etc.

Let us show you. We have the goods at the right price.

### Big Shows Scarce This Year.

For a time it was feared there would be no big tented attractions this year owing to the railroad congestion prevailing throughout the country. It was one of the most perplexing problems for the consideration of Commissioner of Railroads McAdoo, and involved careful research and deep thought; finally after due deliberation he decided the American public this year of all others needed directness, and made arrangements to move several of the more meritorious ones, notably Sun Brothers' Shows. So bright and early on the morning of Tuesday, May 7th, this old favorite, with its multitude of American and European sensations, will arrive in Murray and the work of unloading the big train will commence. The clowns, the elephants, the seals and other animals will all be here.

### "Corn-Less Day" For Feet, Every Day

Use "Geta-It," the Great Corn Discoverer! Makes Corns Peel Right Off! Look at the illustration below. See the two fingers peeling off a corn as though it were a banana peel! And the man is smiling while he's doing it! All done painlessly, joyfully. The moment "Geta-It" touches a corn or callus the growth is doomed. It takes but two seconds to apply "Geta-It." The corn is peeled off at once. You can sit at your desk or work with absolute ease. You can apply "Geta-It" conveniently almost anywhere where you can take your shoes and stockings off for a moment or two. "Geta-It" dries at once; then put your shoes and stockings on again. There's no further excuse for suffering from corns and corn-pain.

Deliveries of tobacco have continued heavy this week and hundreds of loads of the weed have been brought to market. Street sales continue good and prices paid since the last issue of the Ledger have been the highest paid this season, fine leaf reached \$19, with prices ranging from \$13 to \$16.50 for other grades.

A report was current here fourth Monday to the effect that a number of Murray merchants had been hailed before government officials for profiteering. The Ledger has thoroughly investigated the report and finds that it is without foundation whatever and was evidently started by malicious persons with the purpose of casting odium on local business concerns.

This issue of the Ledger contains the regular quarterly statement of the First National Bank, and a careful reading will convince the public that this youngest of Calloway financial institutions is growing at rapid strides, showing total assets of \$323,554.32. This bank is a carefully managed institution and under direct supervision of the government makes it one of the soundest concerns of the kind in the state.

Albert A. Jones, a well known farmer west of town, is telling a mighty big sheep story the last few days, and before he starts in to tell it he prefaces his remarks with this declaration, "I know you won't believe it and I don't blame you, but just the same it is a truth." Mr. Jones owns a small bunch of sheep, just twelve ewes. Each of these ewes brought him a lamb in February and on the 22nd of this month, last Monday one of the ewes brought another lamb. Mr. Jones admits that the only way you will ever be convinced is to come out to his farm and see the two months old lamb and the last born also. He is now compelled to take the first lamb from its mother in order to raise the one born last Monday.

"Dainty Dresses," the daintiest materials, new models, sizes 3 to 6, attractively priced, \$1.25 to \$3.50, worth \$2 to \$5. —Hale's Ready-to-Wear Department.

Mrs. Wrather and grand daughter, Mrs. Tibbs, of Amarillo, Texas, are in the county the guests of the former's son, F. P. Wrather, of the west side.

The Arts and Crafts club of this city has adopted a French orphan and will support the child by monthly assessments. Thousands of these little war orphans are wards of charitable institutions and individuals throughout the world, and at the low cost at which an orphan can be maintained it appeals to the Ledger that each Sunday school, each church, each lodge and each club or other organization through this county will neglect a duty if they fail to follow the action taken by the Arts and Crafts club.

### ORDER OF ELECTION.

A call term of Calloway County Fiscal Court held March 15, 1918, met on Friday morning at Court House, Murray, Ky., pursuant to adjournment.

Presiding, E. P. Phillips, judge, together with W. N. Beale, J. E. Thurmond, A. J. Burken, G. M. Potts, J. T. Glasgow, Eugene Woodall and T. M. Fisher, magistrates.

Motion made by Eugene Woodall, seconded by A. J. Burken that, a special election be held on May 11, 1918, for the purpose of submitting to the voters of Calloway county a proposition of voting a tax in the sum of 20 cents on the \$100.00 on all property subject by law to local taxation under section 157 of the constitution for the improvement and construction of the public roads and bridges of the county, either one or both as the court may direct for a period not exceeding ten years and that no amount of money in excess of the amount

that can be raised by the levy in any one year shall be expended in that year.

The vote being taken and all members of the court voting in favor of said motion the motion prevailed.

It is therefore ordered by the court that J. D. Houston, sheriff of Calloway county, hold an election at the several precincts in said county on Saturday, May 11, 1918, and said sheriff is hereby ordered and directed to advertise the time and purpose of the election and the amount of tax to be levied each year in all the newspapers published in this county for 30 days before the election.

Ballots shall be printed as provided for in the general election laws, section 1459 Kentucky statutes on said ballots shall be submitted the question:

"Are you for a property tax of 20 cents on each one hundred dollars worth of property in the county, to be levied each year for not exceeding 10 years, for the purpose of improving or

constructing, either or both the roads and bridges of the county?"

All legal voters in Calloway county shall be qualified and allowed to vote in said election and no amount of money in excess of the amount that can be raised by the levy in any one year shall be expended in that year.

It is further ordered by the court that in the event said tax shall be voted, then a sum equal to the amount of tax so collected from each magisterial district shall be expended on the roads and bridges of that magisterial district for each year so collected.

R. M. PHILLIPS,

Clerk.

By L. A. L. Langster, D. C.

By virtue of an order of the Calloway Fiscal Court issued to me at a call session held March 5, 1918, directing me to call an election for the purpose of submitting to the voters of Calloway

county the question whether or not they are for a property tax not to exceed twenty cents on each one hundred dollars worth of property in the county subject to local taxation, to be levied each year, not exceeding ten years, for the purpose of improving or constructing, either or both, the roads and bridges of the county.

Notice is hereby given to the legal voters of Calloway county that on Saturday, the 11th day May, 1918, between the hours of 6:00 a. m. and 4:00 p. m., an election will be held at the various precincts and voting places in said county, at which the following question will be submitted to be voted on:

Are you for a property tax of twenty cents on each one hundred dollars worth of property in the county to be levied each year for ten years for the purpose of improving or constructing, either or both, the roads and bridges of the county.

Given under my hand as sheriff of Calloway county, Kentucky, this the 26th day of March, 1918.

J. D. Houston, Sheriff County.

Farmers Take Notice.

War Prices. If you want to save money in buying your fertilizer, when you see this ad in your paper drop me a card telling me how much you intend to use this spring and I will file it away and when a car comes will phone or write you and let you know when the car is at the depot.

My goods are just the kind I have handled for fifteen years—the Boar Head Brand, Bone and Tankage filler, and feeds good through your drills.

By handling fertilizer in this way can save storage and drayage, and have it at the place when you get ready for it. My prices are going to be right. Here they are: \$1.10 per hundred for the cheap tobacco grower, and \$1.75 per hundred in 125 pound bags. 10c for empty sacks returned in good shape. Shake them out and don't let them get wet. My company has agreed to pay 10c each for them if I would pay freight and ship them back. You know it is war times and sacks are scarce and high.

I will try to keep fertilizer in the house all the season, but it is hard to do, so take advantage of the car price and you will have it when you get ready for it. Terms will be cash, and fertilizer guaranteed to be just what I have handled for the farmers for years. Don't lay this paper down and forget what you have read in this ad, it means something to you, for it is going to be hard for any of us to keep it in stock if you don't help us by taking it from the cars to your barns. The car situation is bad, and if you want the old reliable Boar Head fertilizer mail me a statement of amount wanted fat once. It don't obligate you in any way to take it if you don't need it. I have a fresh car of cement coming at the right price.

## NATION'S PRESENT CRISIS REQUIRES FULL DUTY OF ALL

SECRETARY McADOO POINTS OUT  
THE OBJECT OF WAR SAVINGS  
AND THIRD LIBERTY LOAN.

### LOAN CAMPAIGN INTENSIVE

The Work of Neither War Savings  
Nor Loan Organizations Should  
Be Permitted to Overlap.

By WILLIAM G. McADOO,  
Secretary of the Treasury.

To the Executives and Workers of  
the Liberty Loan and War Savings  
Campaigns:

As the time for the opening of the  
campaign for the Third Liberty Loan  
approaches, it seems advisable to set  
forth in a definite way a plan by  
which the activities of these two or-  
ganizations shall be brought into uni-  
son for the period of this campaign.

The War Savings Organization  
should have for its primary object  
the education of our one hundred mil-  
lion of people to the idea that at this  
time of war and national crisis the  
practice of thrift is not alone a mat-  
ter of personal wisdom or advantage,  
but is vitally necessary to the welfare  
of the nation. The United States gov-  
ernment, in its prosecution of the war,  
requires the use of the products of  
labor to the extent of billions of dol-  
lars per annum, while at the same  
time it has been necessary to remove  
from productive employment over one  
million five hundred thousand men.  
This demand for material cannot be  
met if the normal needs of our popu-  
lation are continued. To a reduction  
of these needs the chief activities of  
the War Savings Organization should  
be directed, and as a complement to  
this work the savings thus effected,  
when translated into terms of money,  
should be invested in U. S. govern-  
ment securities.

On the other hand, the Liberty  
Loan Organization, as confronted  
with a problem of raising within a  
short space of time billions of dollars  
to meet the immediate requirements  
of the Treasury Department. Insofar  
as these monetary requirements can  
be met out of savings, the situation is  
thereby benefited, but in any case the  
money must be raised, and raised  
quickly. The campaign must there-  
fore be intensive and, while pointing  
out the necessity of self-denial in ex-  
penditures, must be directed toward  
amounts of subscriptions as well as  
numbers of subscribers. The needed  
amount must be raised, even though  
present savings are not sufficient and  
even though it becomes necessary to  
pledge future savings through the use  
of credit facilities.

In the coming Liberty Loan drive,  
therefore, the War Savings Organiza-  
tion should continue their efforts in  
the formation of War Savings Soci-  
eties, educational work in the schools  
and general thrift propaganda. Their  
actual selling organization should,  
however, be combined and co-ordinat-  
ed with that of the Liberty Loan Or-  
ganization to the end that during this  
period sales of government securities,  
both Liberty Loan Bonds and War  
Savings Stamps, should be made in  
the largest amounts possible to each  
individual buyer, but the purchase of  
Liberty Loan Bonds rather than War  
Savings Stamps should, during this  
period, be the main object. To this  
end, during this period, all donated  
advertising space should be devoted  
to Liberty Loan offerings.

The first effort of both the Liberty  
Loan and War Savings Organization  
during the coming drive should be to  
sell Liberty Loan Bonds, and no mem-  
ber of the War Savings Organization  
should endeavor to divert a purchaser  
of Liberty Loan Bonds to the pur-  
chase of War Savings Stamps. On  
the other hand, there are persons who  
are unable to buy Liberty Loan  
Bonds, and all these persons should  
be urged to buy War Savings Stamps.

With regard to partial payment sub-  
scriptions to Liberty Loan Bonds,  
these should be encouraged, but where  
employers of labor or others have  
formed efficient War Savings Soci-  
eties which are actually obtaining sys-  
tematic and adequate subscriptions to  
War Savings Stamps this work should  
not be interfered with by an endeavor  
to supersede the War Savings Soci-  
eties by the introduction of the partial  
payment plan for subscriptions to Lib-  
erty Loan Bonds. Such War Savings  
Societies should make every possible  
endeavor to promote the sale not only  
of War Savings Stamps but Liberty  
Loan Bonds during the coming drive.

The loyal army of workers in both  
these organizations must realize that  
they are working for a common cause,  
though by different methods; that  
each is a part of the Treasury Depart-  
ment force, and that each is under  
Treasury Department control.

Complete harmony and unity of pur-  
pose helps both organizations in the  
attainment of the purpose of each—  
the successful financing of the war  
on a sound basis. We must have com-  
plete and cordial co-operation between  
the two organizations, and I am sure  
that I may count upon every member  
of each organization for that kind of  
patriotic work.

I ask that these suggestions be car-  
ried into effect both in letter and in  
spirit.

Any maker may claim for his product all the qualities there are. That is his privilege. He may even think his claims are justified.

You read the advertisements, so you know that makers, as a rule, are not over modest in that regard.

If you believe them all, they all make super-cars.

In your experience, that theory doesn't hold.

Maxwell is different.

We never claim anything we cannot prove.

As a matter of fact we never have claimed anything for this Maxwell that has not already been proved in public test and under official observation.

Maxwell claims are not therefore claims in the ordinary sense—they are state-  
ments of fact—proven facts.

They are, in every case, matters of official record attested under oath.

For example: The famous 22,000-mile Non-Stop run was made with the Maxwell every minute under observation of the A. A. A. officials.

That still remains a world's record—the world's record of reliability.

That particular test proved about all that anyone could ask or desire of a motor car.

Among other things it still stands the world's long distance speed-record.

Just consider—44 days and nights without a stop, at an average speed of 25 miles per hour!

And that, not by a \$2,000 car, but by a stock model Maxwell listing at \$825.

You will recall perhaps that a famous high powered, high priced six in a trans-  
continental trip made 28 miles average over a period of five days and eleven hours.

Now compare those two feats—one of less than six days, the other of 44 days. You know automobiles—which was the greater test?

Is there any comparison on grounds either of speed or endurance?

Proves you don't need to pay more than \$825 to obtain all the qualities you can desire in a motor car—if you select a Maxwell.

For that Maxwell Non-Stop run was made, not on a track but over rough country roads and through city traffic—average of all kinds of going.

And—listen to this.

So certain were we of the condition of the Maxwell at the end of that great feat, we announced that at the stroke of eleven on a certain morning, the car would stop in front of the City Hall, Los Angeles, for the Mayor to break the seal.

Five seconds after he had pulled the switch plug and stopped the motor after the 44 days and nights continuous running, she was started again and off on a thousand mile jaunt to visit various Maxwell dealers.

How is that for precision—certainty of action? That incident brought a storm of applause from the assembled thousands.

Hill climbing?—this Maxwell holds practically every record worth mentioning—especially in the West where the real hills are.

The Mount Wilson record—nine and one-half miles, 6,000 feet elevation!—was taken by a stock Maxwell.

Two months ago a 12-cylinder car beat that record by two minutes.

Then—three days later—a stock Maxwell went out and beat that 12-cylinder record by thirty seconds! Pretty close going for such a distance and such a climb—wasn't it?

So Maxwell still holds the Mount Wilson honors.

Ready to defend it against all comers too, at any time—a stock Maxwell against any stock or special chassis.

Economy—also a matter of official record.

Others may claim—Maxwell proves.

Thousands of Maxwell owners throughout the United States on the same day averaged 29.4 miles per gallon of gasoline.

Not dealers or factory experts, mind you, but owners—thousands of them—driving their own Maxwells.

Nor were they new Maxwells—the contest was made by 1915, 16, and 17 models, many of which had seen tens of thousands miles of service—three years' use.

Nor could they choose their own road or weather conditions—all kinds were encountered in the various sections of the country.

Good roads and bad—level country and mountainous regions—heat and cold—sunshine and rain—aspalt and mud.

And the average was 29.4 miles per gallon!

There's economy for you. And under actual average driving conditions—not laboratory test.

But that isn't all.

The greatest achievement of this Maxwell was in its showing of speed and reli-  
ability and economy all in the same run.

In that 44 days-and-nights Non-Stop run, though no thought was given to either speed or economy, it still remains a fact of official record that the Maxwell averaged 22 miles per gallon and 25 miles per hour.

Now you know that speed costs—and that economy tests are usually made at slow speed—closed throttle, thin-mixture conditions.

You know too that you can obtain economy of fuel by building and adjusting for that one condition.

Speed you can get by building for speed. Any engineer can do that.

But to obtain that combination of speed and economy with the wonderful reliability shown in that 44 days Non-Stop run—that car must be a Maxwell.

# JUST BEFORE HE WENT "OVER THE TOP"

As an illustration of the lofty sentiment possessed by men who die on the European battlefield in the war for democracy and a reminder for Americans who may be backward in contributing to the Third Liberty Loan for the same great cause, the Liberty Loan Committee has made public the last letter written by Captain V. G. Tupper, of the Canadian Scottish Sixteenth Battalion, to his father, Sir Charles Hibbert Tupper, before his death at the battle of Vimy Ridge last April. The soldier wrote:

My Dear Father--I am writing one of these "in case" letters for the first time, and, of course, I hope you will never have to read it. If you are reading it now, you will know that your youngest son "went under" as proud as Punch in the most glorious day of his life. I am taking my company "over the top" for a mile in the biggest push that has ever been launched in the world, and I trust that it is going to be the greatest factor toward peace.

Dad, you can't imagine the wonderful feeling; a man thinks something like this: "Well, if I am going to die, this is worth it a thousand times."

I don't want any of you dear people to be sorry for me, although, of course, you will, in a way. Mind you, I know what I am up against, and that the odds are against me.

Goodby, dear father and mother, and all of you. Again I say that I am proud to be where I am now.  
GORDIE.

He went "over the top" and didn't come back. He gave his life on that April day, without a murmur, for the sake of peace and freedom. And he was proud to do it.

What a contrast between a hero like that and the man or woman with warped and shrunk soul who *doesn't* even buy a Liberty Bond to help the same great cause!

## Buy Bonds of the Third Liberty Loan

It is seldom one can help a great cause without personal sacrifice. But you can. These bonds are the safest, best investment in the world. Security? Why, they are a first mortgage upon the United States. Every railroad in the country, every homestead, farm or public building, every industry, every income or salary, everything we own--everything you own--is pledged as collateral.

If you can't pay cash for your bonds, you can borrow a part of the money at your bank, using the bonds as security; or, you can buy them at your bank on easy partial payment plan. It is no trouble to buy Liberty Bonds; it is no trouble to pay for them. See your banker today.
