County Now Almost Free Of Brucellosis

Marshall County has won federal certification as a Modified Certified Brucellosis Area, Agriculture Commissioner Emerson Beauchamp's office has announced. A spokesman for Commissioner Beauchamp stated that a certificate issued by the U. S. Department of Agriculture would be presented to Marshall County farm leaders in the near future.

Dr. R. W. Hammermeister, State veterinarian, reported that 7,504 cattle in 1,019 herds were tested in the county. The blood test results showed that there were 35 herds with infection and 46 reactor cattle. None of the reactors were retained.

A county may receive accreditation if the number of reactors does not exceed 1 per cent and herd infection does not exceed 5 per cent. According to Dr. Hammermeister, the percentage of reactors was .61 and the herd infection rate was 3.43 per cent. This certification is in effect until June 14, 1963. At that time, at least 20 per cent of the cattle and the herds must be tested in order for the county to get re-certified for another three years.

Tobacco Growers Will Dedicate New Building

The Western Dark Fired Growers Association, Murray, will hold open house and dedicate their new, ultra-modern office building on Tuesday, Aug. 2, from 1 to 4 p. m. All tobacco growers are especially extended an invitation to see and visit the new facilities.

A short dedication ceremony will be held at 2:30 p. m., with Congressman Frank Albert Stubbins delivering the address. The new building was designed by Clemons and Gingles, architect firm of Nashville, and built by the Calloway County Lumber company of Murray. The \$62,000 facility is faced with a solar screen of ceramic tile, a new architectural trend that is just being introduced in this section of the country.

The interior of the building is finished in sound absorbent plaster made from Murray's own silica sands.

The east side of the building is occupied by the Western Dark Fired Tobacco Growers Association staff. The large front office on the west side is occupied by the Murray Chamber of Commerce. The northwest side is occupied by the United States Department of Agriculture Grazing Service, and one office is not occupied at the present time.

One of the offices contains a plastic dome natural daylight illumination.

The entire building is heated and cooled by a modern automatic, time-set control system. The tobacco Association is governed by a 12-man board with Boone Hill, president. Mr. Hill has served as president since 1932. Mr. Hiram Finney was the first president, serving a six-month term in 1932. The approximately 17,000 member organization serves the Jackson Purchase and Henry, Weakley, and Obion counties in Tennessee.

Wheat Vote In County Set For Thursday

BY ROBERT RUDOLPH

Polling places for July 21 referendum on marketing quotas for the 1961 crop of wheat have been announced by Robert Rudolph, chairman, County Agricultural Stabilization and Conservation Committee.

Growers eligible to vote in the referendum will be those who will have more than 15 acres of wheat for harvest as grain in 1961 (except growers taking part in the feed wheat program).

The wheat quota ballots may be cast on Thursday, July 21, from 8 a. m. to 6 p. m. at the ASC office in Benton.

Mr. Rudolph points out that at least two-thirds of the growers voting in the referendum must approve the quotas if they are to become effective. Under quotas, marketing penalties will apply on "excess" wheat resulting from noncompliance with the farm's wheat acreage allotment, and price supports will be available on the crop at not less than 75 percent of parity—the exact rate to be announced before the vote.

On the other hand, if more than one-third of the voters oppose the quotas, there will be no restrictions on wheat marketing, but allotments will remain in effect as a condition for price support at 50 percent of parity, as directed by law.

Wheat growers voting in a referendum each year have approved marketing quotas for the past seven wheat crops.

Telephone Talk

By EDNA ROBERTSON
Your Chief Operator

PROGRESS TO DATE A Major Program is now underway in Paducah Traffic Department for operators to record long distance calls on "Mark Sense Tickets." Calls placed through an operator are recorded in Mark sense form on punchcards which will allow machine billing. A special electrographic lead pencil is used to mark the details of the call. The marks are sensed by a machine and converted to punches in the card for further machine processing. One big advantage in mechanization is the uniformity and high degree of accuracy obtained in billing.

In Line with this new practice any special instructions concerning the call must be given to the operator when the call is placed. For example, making a call collect, billing a call to a third station, or a request for time and charge.

OF COURSE Long Distance is very helpful on many occasions this time of year. It's good to phone before visiting people out of town—for one reason, they might be on the way to visit you. If you can't get together with the folks, it's very satisfying to have a nice phone chat. On the road, it's a lot of fun to call friends at home and report some of your vacation happenings. Just look for the nearest booth, walk-up or drive-up telephone—they're easy to spot.

WE THOUGHT we'd heard all possible stories about telephones helping locate lost children and property—then we ran across this true item. In Kansas, a man found a lost parakeet that was chirping, "Call Mary, Jackson 3-4312!" Just curious, the man called the number. "Mary," who lived in the next town, answered the phone... happy to hear about her bird that had flown 12 miles from home.

Striped Bass Still Biting Good at Lake

Kentucky Lake had another big weekend, with thousands of visitors here from surrounding states.

Fishing remains fairly good, with stripes and bluegill the best bet for the anglers.

Fisherman's One-Stop has reported some real fancy catches recently.

Bob Wells and Bob Harris came up from Nashville and caught 115 stripes. And Albert Jordan of Crofton, Ky., caught 148 stripes in two days of fishing.

Ted McCuiston of Murray, 57 stripes, and Preston Orr, also of Murray, got 25.

J. E. Dossert of Hopkinsville caught 100 stripes, and Jack Rutland, also of Hopkinsville, caught 113 on two trips.

Minnows were used to catch

TODAY'S 4-H YOUTH ... TOMORROW'S SAFE DRIVERS

The 4-H automotive project is a joint undertaking supported by the Cooperative Extension Service, National 4-H Service Committee, and Firestone Tire & Rubber Co.

4-H Youth Learn Safe Driving

A new 4-H Automotive program introduced nationally early this year has a potential membership of 400,000 boys and girls. Half this number reaches driving age each year, according to the Cooperative Extension Service which directs the program.

The project is a voluntary undertaking for older 4-H Club members to be carried out over

a three-year period. Specialized training will supplement driver education courses given in many high schools, but in some instances will be the only "supervised" instruction available to 4-H'ers in their home communities.

The work assignments will be guided by experienced volunteer adult leaders assisted by state

and county highway engineers, police, automotive experts and others qualified to help do the job.

Firestone Tire & Rubber Company is sponsoring the program.

"NERVOUSNESS" HAS PHYSICAL ORIGIN

HERNIE H. OAKLEY, D. C.

Herman H. Rubin, M.D. in book *Eugenics*, states that psychoanalysts are so absorbed in the study of the mind, and analyzing the free association of ideas and determining the psychology and hidden explanation of dreams that they often overlook the effects of nerve irritation from spinal displacements as a cause of these conditions.

Dr. Rubin, a fellow of the American Association of the Advancement of Science, and author of the "Mysterious Glands" etc. writes that: "It may never occur to a (psychoanalyst) that headaches, stomachable neuritis, or nervous stability they attempt to may be due to nothing more or less than a displaced vertebrae which any chiropractor can restore to normal position, which can be put back by mental means in ten years or ten and years."

These are strong words in this prominent medicine, and research scientist, like statements have been out of scientific research centers with increasing frequency the past few years several years ago a young year-old mother was brought to the Oakley Chiropractic Clinic in the depths of

a nervous collapse. She had suffered intermittent seizures of "nervousness" and mental depression for over eight years.

Her parents had been summoned, and after making the usual rounds of clinics, hospitals and specialists they still had a very sick daughter. Discouraged, they brought her to our clinic in a note of desperation.

All the usual nervous symptoms such as tight head, choking sensation, trembling shakes, dizziness, blackout spells, stomach cramps, nausea, diarrhea, despondency, fearfulness, phobias, etc., were present, as well as a history of female trouble and irregularity such as we so frequently find associated with so-called "mental sickness." That symptom alone should cause some thought about the physical side of the disorder.

Our spinal examination and x-rays located the causative factors in the central nervous system and our corrective spinal adjustments restored normal nerve function by removing the offending vertebral disturbances. She was released, well and happy. She has remained well over the years since.

It's wonderful to feel good again. Why not investigate, who knows, health may be as near as the Oakley Chiropractic Clinic. Try for it.

Located on Highway 68 at Aurora. Hours: 1:00 to 8:00 p.m., daily except Tuesday and Saturday. No appointment is necessary for consultation.

Mr. and Mrs. Rubert Provine had as guests for dinner last Monday Mr. and Mrs. Ernest Caldwell and grandson of Akron, Ohio, Mrs. Jeter Wright of Lansing, Mich., and Mrs. Lizzie Rousen of Linville, Ky.

Mr. and Mrs. Jackie Greenfield of Miami, Fla., are visiting Mr. and Mrs. Carl Greenfield and other relatives.

Benton Pony Team Loses To Calvert In A Close Contest

In an exhibition game at Calvert City Community Park, last Friday night, Calvert City Pony Team defeated Benton in a close ball game 7 to 6. Calvert led 6 to 0 until the fifth inning, when Benton got two and then added four more in the seventh inning to tie the score. Harvey Barrett drove in the winning run for Calvert in the seventh inning.

On the mound for Calvert were Gerald Barrett and Barry Travis. Harvey Barrett was catcher and Cecil Burken was plate umpire. Getting hits for Calvert were Garland Barrett and Duane Puckett.

On July 7, Calvert Kings defeated a solid Eddyville team to tune of 7 to 6. Errors on the part of a normally sound team played a big part in Eddyville's last three tallies.

Sonny English pitched 6 innings of superb ball after relieving reliable Terry Lynch in the first inning, with none out. Terry was suffering from an infection in his arm.

Ronald King had three for three for a perfect night at the plate, two doubles and a single. Gary Gordon layed down a beautiful bunt that caught Eddyville off guard.

For the Kings, it was seven

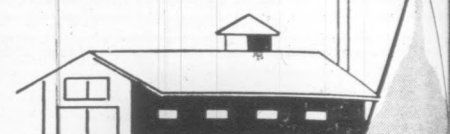

runs, 7 hits, 5 errors and 6 walks. For Eddyville, it was 4 hits, no errors and 4 walks. Calling the game was Louis Grief.

Mrs. Zera McDowell, Florence Phelps of Paducah and Edna Salts of Benton attended the rites at the Gordon Vance.

False Security

Lesson for July 17, 1960

AMM whistles blew, sirens sounded, signals flashed. The city should have been in an uproar. But it was going about its business as usual. Excited officials moved everywhere, a mistake made, this is no drill, just attention. But nobody paid attention to the signs, the signs, the signs. Head-phones had a phone call, but the signs, the signs, the signs. There must be a mistake. Not a soul took notice.

Dr. Foreman

prophet Amos, speaking for a nation (Israel) small, ours by far, but just as great, just as sure that nothing could go wrong, just as gently led by a feeling of national pride. The facts and factors made them feel so safe and secure, familiar to any who take the time to observe the American mind. For one thing, they were a sign operating by military. Many of its kings, if not all, had been generals of the. In case of rival claimants to throne, the man with the sword usually got the prize. Country had knocked off its one by one. Football, we know that no winning lasts for ever.

Woe and Culture

A little country of Israel was only safe at the moment from any attack, it was preparation for built homes of ivory—that way, decorated with ivory in a way. They had money for the finest wines, they had money and leisure for the arts. As pointed out, all this luxury only on certain streets. There other streets where people hungry and cold. But the Amos talked to were mostly the country-club suburbs. Never did believe what Amos them, that prosperity is not something as security. There's a hint in throwing a big party house is burning down over head. We are a little like the Amos, aren't we? Many Amos think we can buy our way any trouble, we can make any nation just by giving money there.

Enemy Within

For all, enemy armies were the greatest danger to Israel. When a wind blew a tree in the forest, we say the wind was to blame. But the wind, or was it the slow the tree-trunk? The wind struck other trees but did not fall. This one fell because it was hollow, a little push it tumbling. What concerned Amos, looking (we may say) through God's eyes at Israel, was foreign politics and foreign conditions inside Israel. People would have said to him, Amos are not bad here. Look at temples, they are filled every day. The number of sacrifices has been greater. But Amos was impressed. God did not care for their religion; it was only religion, which is another thing. He more impressed by justice righteousness than he is by religion. "worship services" made it clear that church Amos is no guarantee of a nation's safety. The burning question: What do the people who go church do to other people the nation's heart is not sound. These are her defenses?

o'clock in the morning I hope
 they raise his pay instead of fir-
 ing him.
 He said he climbed in the
 church window looking fer prow-
 lers and didn't find nobody got
 carried away with the sight of
 the pulpit and all them rows of
 empty seats, and just decided to
 try making a speech. He didn't
 know the pulpit was wired fer
 loudspeakers outside and that
 he woke up the whole neigh-
 hood.
 I believe the pore feller was
 telling the truth. I'll bet half
 the people in this world wonders
 if they could make a speech, and
 this policeman just decided to
 try it. This thing could happen
 to anybody, and if I was in a
 empty church at 4 o'clock in the
 morning I think I'd try it.
 And the folks that was listen-
 ing said he was making a pritty
 good speech too. The only trou-
 ble was he was in a strong Re-
 publican ward and he announced
 the subject of his speech would
 be "Down With Nixon." He just
 picked the wrong candidate fer
 that particular ward and fer that
 hour of the day.
 I reckon I'll git him fired, but
 I got a lot of sympathy fer him.
 Anyhow, Mister Editor, fer

 this is the life.
