COMPLETE COVERAGE OF ALL CALLOWAY  
COUNTY NEWS EVERY WEEK

## REA MEMBERSHIPS CLIMB; 59 HAVE SIGNED CONTRACTS

Explanatory Meeting to be  
Held Saturday in Court  
House Here

POWER OPPORTUNITY  
NOW IS UNEXCELLED

Fifty-seven farmers and two churches took advantage last week of the rural electrification program in Calloway county and signed applications for membership.

A huge map in the office of the county agent shows all roads and location of all the homes and has 59 map tacks in it. This represents 59 applications, showing the exact location of persons applying.

Many persons interested in rural electrification called at the office of the county agent Saturday afternoon and discussed the future of the enterprise.

In a statement today, County Agent J. T. Cochran said all persons wishing rural electrification should make their desire known at once, because time is growing short. The deadline for membership in the cooperative is October 15.

This is the first time in history, he said, that rural people in Calloway county have had the opportunity to have the conveniences which are concomitant with electricity. With current running in lines by their farms, rural people can have the facilities largely of their city brother and sister, he said, and will be less discriminated by frictions noises typical of the larger towns.

It was Cochran's view that when one counts up his expenses today for what electricity can do for him tomorrow, he will recognize the money-saving feature of power for his farm energy.

A meeting will be held for the purpose of explaining the situation to interested persons at 1:30 Saturday afternoon in the courthouse. The University of Kentucky has estimated the value of the average farm will increase 20 per cent the minute electricity lines are made available. As a personal investment, Cochran maintained, rural electricity is well worth its cost.

LIME SUPPLY IS LOW

## Murray High Expects Win Over Mayfield Here Tonight

Game Is Scheduled For 7:30 O'clock

Notwithstanding some Murray fans' convictions that the Mayfield Cardinals may eke out a victory over the Murray Tigers here tonight, Coach Preston Holland and his boys are confident they'll send the Bon Ton boys home with a lacing they'll remember.

"My boys are in the best condition they've been in since the opening of practice this fall," Holland said with enthusiasm in his voice. "They've been practicing hard, and they're going to fool somebody."

With the team working around Captain Clyde Crider, heavy senior tackle, the Tigers almost stemmed the Trojan offense at Metropolis Friday night, the Illinois gridgers eking out a 6-0 victory. They scored on a long pass across the goal line which officials ruled was interfered with by a Murray player.

When Coach Holland said the boys were in better shape than they were the first of the season, he was not excluding those practice sessions when he had James Buchanan and E. W. Gardner, who

More than a thousand persons were in attendance, paying their respect to the memory of a prominent daughter of a prominent family. Burial services were conducted in the Murray cemetery immediately following the funeral procession.

## Cotton Sales Are Brisk at Gin Here

Price Today Advances to \$3.60 Per Hundred Pounds; Quality of Crop is Good

More than 100 bales of cotton already have been purchased from Calloway county farmers by the Murray cotton gin, Charles P. Currier, operator, said today.

According to Currier, cotton this year is of far superior quality than it was or has been in preceding years; cause of which is attributed largely to the dry and excellent growing conditions. The fibre, he said, is long and strong.

Currier said the price has advanced to \$3.60 per hundred pounds today.

Notwithstanding the more ideal season for growing cotton this year, there will be less produced than formerly, Currier said, principally because of the Farm Program's acreage control policy this year. Whereas in 1937 his gin received more than 700 bales, he estimated he would take in no more than 500 bales this year.

## Second Annual County Fair to be Held Here October 14-15; Many Exhibits to be Displayed

### SHERIFF GIVES MAN RIDE; DISCOVERS HE'S WANTED FOR CHILD DESERTION

If you're wanted by the law, it doesn't exactly pay to start walking along the road to pie suppers or things, especially if you're going to accept rides from people who pass along.

Anyway, that's the opinion of J. R. Colson, of the East Side. Sheriff Ira Fox has been holding a warrant for Colson's arrest for more than a year. Last Saturday night as Sheriff and Mrs. Fox were on their way to a community pie supper they came even with a young man who looked as if he wanted a ride.

They stopped, and the young man got in. Sheriff Fox immediately recognized him, informed him that he had a warrant for his arrest, and brought him into town where the youth made bond of \$250.

The charge was child desertion.

### MURRAY GRIDDERS MEET MOREHEAD SATURDAY AT 2:00

Eagles Have Scored 134 Points in Two Games; Thoroughbreds 60

RACERS TO PLAY HERE NEXT IN HOMECOMING

The next obstacle in the way is Morehead.

That was the idea uppermost in the minds of Murray College's Thoroughbreds and Coaches Roy Stewart and Jim Moore today after they had administered a 34-0 shellacking to the Blue Raiders of Middle Tennessee Friday night in Murfreesboro.

It was the Racehorses' second win of the season and first conference victory in two games played. Although Stewart and Moore's second loss to an SIAA opponent in two years, both losses coming at the hands of Murray. Both Stewart and Moore were well-pleased with the work of the Thoroughbreds. Although Stewart played his entire 30 men, the only distinguishing feature about the men playing was that some were starters and others were not.

McVeen's spectacular 35-yard touchdown return of Middle Tennessee's kickoff at the beginning of the second half was matched by the charging ground-gaining of Mitchell and the end runs of Yarbrough and the pass receiving of Tamm Atwell. No one man in either Murray's backfield or line stood out, for all were consistent; but Co-Captain Dale Deibert as did his associates in the line played marvelous games.

In two games Murray has scored 60 points while holding its opponents scoreless. It has amassed a yardage against major opponents creditable to any team. In seeking its second SIAA championship in two years, Murray has more than 30 men, either of whom may be chosen, as one of the starting eleven. It has played two games against strong opponents and has seven more to play against tough teams, six of which are conference games.

Morehead will be next to face the Thoroughbreds—the game to take place Saturday afternoon at 2 o'clock. A twin institution to Murray State, Morehead has never won an athletic contest from the Thoroughbreds. Last year, Murray spoiled an otherwise perfect record for the Eagles with a 32-7 win at Murray.

Information from Morehead reveals the Eagles are preparing to meet their foremost foe when the Thoroughbreds invade. Pep sessions, drills, scrimmage sessions have all pointed to the Murray game.

Coach Stewart made no predictions as the outcome of the Morehead game; neither did Coach Moore; but they did not appear worried. General Murray enthusiasm, however, is high, and the team itself thinks it could beat Notre Dame.

And so with confidence, they face the next obstacle, Morehead.

A marker on the campus of Murray State College pays tribute to Nathan B. Stubblefield, said to be the first man to send and receive the human voice through the ether without benefit of wires."

FARM BUREAU IS FESTIVAL SPONSOR

Calloway county's second annual Farm Bureau-sponsored fair will take place Friday and Saturday, October 14-15, in the A. G. Outland Association receiving tobacco barn in Murray. It was announced today by Garland Neale, president of the Farm Bureau.

Admission to the fair will be free. Exhibits are restricted to residents of Calloway county, and all entries must be made by the exhibitor or his representative before being eligible for competition and must not be removed from the fair building before 3 o'clock Saturday afternoon, October 15; otherwise premiums won may be forfeited. Although the management assumes no responsibility for any loss in either animal or other exhibits, it does guarantee care will be taken against such loss occurring, if there is only one entry in a department, "only second prize money is allowed. Each exhibitor will furnish his own feed and bedding for livestock.

A new feature of the fair this year will be a baby show—a contest sponsored by the Murray Hospital club—which will determine the healthiest baby boy and girl in the county. Only first and second ratings will be made in this department.

All parents who wish to enter their child in the contest—it must not be over one year old—must register it with the county health office in Murray on Thursday and Friday, October 13 and 14. Awards, however, and announcement of the winner will be made by the judges Saturday morning at 10 o'clock. When the babies will be displayed:

An excellent crop year—with certain reservations—should have insured the production of farm product exhibits which will be superior to last year's crops on exhibit. Dog and poultry shows, horses and hogs, dairy and beef cattle and other livestock will be of paramount display.

The premium list for the fair will be found elsewhere in this newspaper.

No suit can be worn very long without cleaning. It may be old after one cleaning; or retain its newness after a score of cleanings. It all depends upon WHO cleans it. Three New Hollywood Coiffures . . .

We study ways to make you more beautiful, and your hair arrangement is your most valued possession.

Your outward age is determined by the appearance of your hair.

We give you the same service that Hollywood experts give the movie stars.

It's the designedly crooked part that does it . . . that takes away the babyish look from symmetrical features and gives them an unexpectedly grown-up quirk. Judy Garland shows it here. A one-sided arrangement adds to apparent age.

Conversely, a symmetrical coiffure (like on both sides of face) is young-looking. A center part is always youthful and adds length to a square face or a low forehead. Deanna Durbin wears flowers to accent youthful symmetry.

Carole Landis has her page-boy bob thinned out and trained close to her head to look grown-up. You don't need to be told, by now, that there's more than one way to turn the trick. All that remains is to decide which is yours!

All that remains is to decide WHICH WAY IS YOURS?

## Faxon High School

By Kathleen Duncan  
We are finding it hard to buckle down to the work of the first term-exams since the great fun and excitement of the annual community fair.

The fair was a great success and seemed to be enjoyed by all. Much interest was manifested in the local contest staged by the eighth grade, sophomore and junior classes as Faxon number one and by the seventh, freshman, and senior classes as Faxon number two.

They brought respectively 399 and 345 entries in farm, poultry, and women's departments. The number one group won by 44 points. The losing side will give the winning side a party soon.

**Fifth and Sixth Grades**  
We are glad to get back to real studying after the fair. There is almost full attendance in our room this week, and we are very glad to have Thomas Colson back in school after a few weeks' absence.

The honor roll for the first month is fifth grade—Marge Jean Miller, Wilma Jane Hopkins, sixth grade, Sarah Ruth McClure, T. G. Shelton, Ruby Miller, Mary Lou Hargis, Mary Elkins, Pauline Cunningham, Linda Lee Dyer, and Sue Roberts.

**Third and Fourth Grades**  
We have finished our study of Holland. The third grade drew and painted Dutch children and windmills. The fourth grade made wooden shoes, paper tulips, and windmills.

The boys made a 'dike' for our sand table. We also collected many Dutch pictures.

**Athletics**  
The Faxon boys played their last home game of football last Friday. They had a good season, winning every game. The community is proud of this team and manifested its appreciation by the eats and drinks given the boys when they won over Hazel by a score of 4-1 the day of our fair.

The schedule for this season is as follows:  
Faxon 7 Independents 3  
Faxon 6 Kirksey 0  
Faxon 4 Concord 3  
Faxon 2 Caldwell 3  
Faxon 3 Almo 2  
Faxon 4 Hazel 1

The players plan to finish the season by winning the county tournament which will be played next Friday and Saturday.

**F. A. A.**  
On Wednesday night, October 12, the Faxon Future Farmers are planning to initiate the "green hands" into the Faxon chapter. They will be initiated following a regular meeting of the FFA.

## Phone Company's Open House Has Large Attendance

Nearly 3,500 persons attended open house at the Southern Bell Telephone and Telegraph company's new operator's house on North Sixth street Thursday and Friday.

A corps of trained telephonic experts ushered guests in a courteous style through the different zones of the telephone office. Visitors were especially enthralled by the sound mirror, a device which through magnetic disposition repeated the voice of the speaker a short time after he had spoken, reproducing his voice exactly as others hear him over the telephone.

Gaining enthusiastic appreciation were the designs of operative service, intricate devices of line control, and the hundreds of completed wires, which composed the media for city telephone units.

Long distance facilities, amplifiers, and intrinsic charging displays were of feature interest to guests, as also were telephone directories of Mexico, South America, China, Japan, and other countries.

A demonstration shelf showing numerous means by which service could be disrupted by the individual telephone owner was especially timely.

Hours of open house were from 4 o'clock until 5:00 on Thursday and Friday afternoons, and from 7 o'clock until 9:00 on the same evenings.

The new telephone house was built this spring, and the new touch service was inaugurated in Murray in June as a result of stimulation to the movement by local civic organizations in co-operation with the Public Service Commission of Kentucky.

## RED CROSS AIDS MULTITUDE IN HURRICANE AND FLOOD AREA IN NEW ENGLAND AND NEW YORK: APPEAL IS MADE

The Red Cross is giving emergency aid and rehabilitation to approximately 15,000 families in this devastated section, Mr. Davis said.

## Stella Gossip

We attended the Francis-Wilcox revival meeting in Murray Saturday night. The nine congregations in Calloway county are going to help the colored Church of Christ in Murray to construct a new church house of worship, which is a very worthy cause.

"To preach the everlasting gospel unto every nation, tribe and language." Rev., 14:6.

Pres. Woodrow Wilson died of a broken heart, in his sleep Feb. 3, 1924, because his own nation would NOT sign a world peace pact. Now President Roosevelt's influence had much to do in the Europe peace treaty September 27, 1938. Are you listening?

A certain man made application in the office of Social Security act for work. They (?) said, "Too late. The doctor is out. He will be back in January, probably."

Rufus, Bastus Johnson Brown, what are you going to do when the rent comes around?

The wheat, corn and potato crop in Calloway county this year of 1938 is extra large. But, Oh Massey me, the peach and apple crop got hit hard by Jack Frost and the freeze out on the first night in April. Then the last four days in July with excessive rains damaged the tobacco crop 50 per cent. The tobacco crops near the "old iron bridge" was side "wipped off" completely. Nevertheless, people, some how, some way will "get by."

Just reflect back to 1930's awful drought with hot, east wind for days weeks and months which ruined the crops. Did the people finally "get by"? Yes, I reckon so.

It is probable that a light and power line will be shortly established from Murray down the new highway via Coldwater to Mayfield. Subscribers here have sent in application blanks. We hope it will "be a go". Please ladies and gentlemen don't let this useful enterprise go down: Light and Power!

If the bridges and culverts are not repaired between Coldwater and Bazzell's graveyard (all caved down to a regular jump-off—a disgrace—I aim to be buried elsewhere and I don't mean perhaps. Hold the phone!

Since I have become older (?) my recollection is bad. I meet people whom I am well acquainted with and I can't remember their names. Completely bewildered! Twenty years ago there lived a respected colored woman in this village who had two sons, both boys. Nicodemus said, "How can these things be?"

Bishop Frank Rice of Denver had to close and lock the church-house doors, because there was so much arguing and confusion. Could not hear himself read the Bible. Now don't that head you?

## "Puny" Turtle is Winner in Derby at Lynn Grove

While turtles with such suggestively speedy names as "Tornado", "Always First", "Hitler", "Jesse" were lagging almost at the starting line, a speedy flash by the "Owens", "Lightning", and others named "Puny" was winning the first annual turtle derby staged Friday night by the Future Farmers of America of Lynn Grove high school.

"Puny" won his heat with yards to spare, and in the championship heat in which six turtles participated—champions of their respective groups—the allegedly sickly "ons pulled out in front and raced like a scared rabbit to the boundary of the arena.

While he ran, two thousand fans cheered him on. Second in the race was "Harvest Dream", and the turtle which placed third was named "Friday". First and third ratings in the derby—put of 60 turtles in the race—were owned by two local undertaker's offices.

Prof. Bobbie Grogan, sponsor of the derby, said the school will sponsor a similar race next year.

## TVA Physicians Test For Malaria

Dr. O. M. Derryberry of Malaria Control Division Conducts Examinations

Dr. O. M. Derryberry and assistants, of the TVA, malaria control division, in cooperation with the county health department here, this week completed a malaria survey on Calloway county's east side.

Dr. Derryberry with Dr. J. A. Outland, Miss Virginia Ivan, Mrs. J. A. Outland, and Mrs. Marcell Shoemaker—local health unit officials—took spleen and blood tests of school children and others within two miles of the Gilbertsville reservoir. Schools visited were Palestine, Kirk's Ridge, Faxon, Center Ridge, Russell's Chapel, Pottertown, McClellan, Woodlawn, Pleasant Valley, Pine Bluff (colored), Mallory, Grindstone, New Concord, and East Spannon.

Results of the test will be announced sometime this month, the physicians reported.

More than \$500 in awards were given at the Germantown fair to 4-H club members and FFA members from three counties.

Large interest is displayed by Mason and Fleming county farmers in securing electrification service.

Old Sam is dead and buried in a deep gully. He died of old age and general debility. Had been a faithful servant of Pitman Paschall for the past 29 years in making crops. Hold on to that Mule Miss Lizzy Jane, Bound to go this way!"

### For Fire Prevention Week

Campaign to Lessen Fire Menace to Continue Through-out Week; Business Buildings to Be Inspected for Fire Hazards

Because fire plays a dual role in the life of mankind, that of master and destroyer, authorities have been moved to create National Fire Prevention Week. During the week of October 9 to 15, Fire Prevention Week will be observed in Murray. Mayor George Hart has issued a proclamation calling upon all citizens to observe the week by practicing safety in and out of home, office and factory. The watchword is "Be Careful and You'll Be Safe—Be Insured and You'll Be Protected."

Fire Chief Hughes pointed out that "The fire department will make every effort to illustrate the dangers of fire. Lectures will be given in all city schools. In addition, we are preparing circulars and posters to be distributed during the week."

"We are also going to make inspections of the various business buildings," the chief said, "and warn owners who are negligent in their fire preventive attitude."

#### Proclaimed by Many

Fire Prevention Week has been proclaimed by the President of the United States and various governors and mayors of practically every state and city in the union. It will be observed throughout the nation by civic, business and fraternal organizations, industrial and mercantile establishments, schools and churches.

A hazard which takes thousands of lives annually in this country and destroys millions of dollars worth of property is a hazard which deserves the serious attention of every man, woman and child, here and everywhere. A continuation of educational programs in fire preventive measures will go a long way in checking deaths by fire and reducing the enormous property losses incurred.

## Behind the Scenes in American Business

NEW YORK, Oct. 5.—BUSINESS

—Virtually unnoticed the last month because of complete domination of the news by the European crisis, business in America has quietly been staging a steady upward climb from spring's low levels. Steel mill operations have returned to 36.7 per cent of capacity, and steelmen look for a rate of 60 per cent before the end of October. Sales managers say incoming orders from wholesalers and retailers to manufacturers reflect confidence that consumer purchasing power will continue to gain. Study of the Federal Reserve Board's business summary for August, reported last week, indicates that for September the board's index of "nation-wide industrial production rose above 90 for the first time in 11 months. Based on 1923-25 as 100, such an index figure would compare with 89 in August, 83 in July and 76 in May.

WASHINGTON.—With scrutiny of the nation's tax structure scheduled to be a major undertaking of the next Congress, a call for a national labor-tax council, made by L. P. Marcant, New Jersey Federation of Labor committee's report which urged labor and industry to cooperate in effecting revision of the nation's "simpler patchwork" tax structure.

THINGS TO WATCH FOR—

Tooth cleaner in liquid form. Vegetable ice creams, developed by a New Jersey dairy; its line will soon include tomato, spinach, pea and lima bean ice cream. Increase of armament purchases by U. S. Government as a result of war scare. A carbon monoxide detector being offered by an insurance company; simple to install, this device is said to guard against accidents resulting from breathing enough of the fatal gas while driving to cause headaches and excessive fatigue. A paint-stripping tool that works like a fountain pen; it will lay single, double or triple lines of uniform weight and thickness at a desired spacing by a simple adjustment of guides. Another movie like the hit, "Mr. Deeds Goes to Town"; if produced, it may be called, "Mr. Smith Goes to Washington."

BAD WEATHER AHEAD?—A five year accumulation of rain "deficits" in America makes it an odds-on bet that this fall and winter will be a wet one.

## THE HOME DECORATOR

BY OSCAR SKAGGS

The Modern Manner

"Modern" furniture is, of course, very much in vogue and it's strange to find that in a decorating sense, never before has color been used in such a riotous fashion—there's another new shade and new color around every corner.

A great deal of the modern furniture is of unstained or unpainted wood, and much is painted in light colors—grays, creams, white, ivory, and so on. In which case it's COLOR for the walls, a grand luxury of color.

The new paint mixture can be used to great advantage here—eggplant, chartreuse, deep blues, gorgeous yellows and brilliant greens. And the simplicity and light color of the furniture is a perfect foil for the burst of color on the walls and it's not tiring, either. A popular treatment is to have one or two walls one color and the remainder another. This gives a depth and an illusion of space which is most satisfactory. And these shades in paint have a richness of fabric—woolens, chintz, cotton—on fur.

The ceilings get their color bath, too. Deep brown walls with light peach ceiling are very effective, or the same walls with a soft yellow. Some people, particularly if their rooms are very high-ceilinged, reverse the order and keep the walls a light shade and the ceiling dark to break down the height of the room. And it is charming.

Another interesting thing about this modern furniture—it can be purchased unpainted and then you can go to work on it yourself with a can of enamel in your own chosen shade, thus making it ever so much simpler to work out your own color scheme. We are for it in every way. Just try one room for yourself. It'll give you a new lease on life and a wealth of pride once you've finished.

Get rid of it  
When functional pains of menstruation are severe, take CARDUI. It doesn't benefit you, consult a physician. Don't neglect such pains. They depress the tone of the nerves, cause sleeplessness, loss of appetite, wear out your resistance.

Get a bottle of Cardui and see whether it will help you, as thousands of women have said it helped them.

Besides easing certain pains, Cardui aids in building up the whole system by helping women to get more strength from the food they eat.
