The Owensboro Election. The Owensboro option election was no surprise to anyone interested in the temperance movement. The result was in keeping with the actions of the people of all large cities. And the revenue from the sale of alcoholic liquor is a source of income that is no longer desired. The temperance people worked hard to make the election a success. The local option election was a victory for the temperance movement.

OWENSBORO LOCAL OPTION ELECTION A WET VICTORY

OWENSBORO, Ky., April 20.—Today's election resulted in a victory for the wets, who won by a majority of 181 votes in the city of Owensboro, and by a majority of more than 1,000 votes in the county outside the city, giving big dry majorities in the county.

Many voters, dry, if whisky had been sold in the city, would have voted for prohibition, and it is believed that the results of the election in two localities will be repeated in other places.

The ground of the drys' contentions flows down the gullet of a politician.

That Saloons Are Nuisances and
Can Not Be Lawfully Licensed

Woolworth, Ind., April 24—Prosecutions are piled over against saloons in that state in spite of their efforts to evade the
law. The ruling of Judge W. M. Christiansen is in effect over all Indiana and
if it is not legal to run a saloon in one county, it is not legal to
run one in any other county. In the case of the running of Judge Christiansen
It is said that the license law is unconsti-

be given an opportunity to appeal before

EMPRESS WILLIAM CHEAP FUEL POSITIVE SECRET OUT

FOUNDER WILL PRODUCE SHOES, HATS & DEPARTMENT STORES, A NEW SECRET OUT.

BOSTON—April 21st. The report that shoes and hats are being manufactured in the United States, has been discounted by the British Government, as the result of a recent investigation. The investigation, conducted by a special committee, has revealed that the production of shoes and hats in the United States is not as extensive as previously believed.

The committee's report states that the production of shoes and hats in the United States is limited to a small number of factories, and that the majority of the output is imported from abroad. The report further states that the prices of shoes and hats in the United States are higher than in other countries, and that the quality is not as good.

The committee recommends that the Government take steps to encourage the production of shoes and hats in the United States, and to promote the development of the industry. The committee also recommends that the Government provide financial assistance to local producers, and that the industry be protected from foreign competition.

The report states that the production of shoes and hats in the United States is a valuable industry, and that it provides employment for thousands of workers. The committee believes that the industry has the potential to become a significant contributor to the national economy.

MATERIAL LIEN CREDITORS GET THEIR MONEY FIRST

REFEREE DECIDED THAT PARTIES HOLDING NOTRE WORTH OF MATERIAL LIEN CLAIMS AGAINST ME MUST PROVE THE CLAIMS BEFORE OTHER CREDITORS ARE PAID OFF—CLAIMS OF YOUNG HARRISON STAYED TO BE RESCOMPTED CONFIRMED.

By Harry Fyffe of the bankruptcy court in the late bankruptcy proceedings, dealing with material liens on the assets of "material lien" in the U. S. district court for the southern district of Illinois, the referee has decided in favor of the material lien creditors. The referee was instructed by the court to hold a hearing to determine the value of the material liens, and to fix the amount of such liens as to be paid off before the claims of other creditors are paid off.

The referee has decided that the material lien creditors are entitled to their money, and that the claims of other creditors must be paid off first.

The decision of the referee is final, and the case is now in the hands of the court for final disposition.

JUDGE REED HAS NO INTENTION OF RESIGNING

Although he has not yet given an answer about the matter of resigning, Judge Reed has no intention of resigning.

From many sources comes the report that Judge Reed is about to resign, and who would resign his seat in the circuit court of the county if the matter were submitted to the voters.

The position being only temporary, it is not certain that the matter would be submitted to the voters.

If the matter were submitted to the voters, it is not certain that the voters would approve the resignation of Judge Reed.
