ECONOMY IN THE CLOTHING TRADE.

The American customers, Chad, demand the choicest of materials and the choicest of labor, after examining the prices at which we sell, we know the trade will be glad to see the result of this excellent value. We will not sell an article at such low price that it will not last. We are in business for the Hawker to sell the best and most perfect article of clothing. We have an extensive line of goods at prices from $1.50 to $5.00 per suit. Our stock is divided into two classes, one for the best class of customers, the other for the average customer. We are not afraid of any competition and are willing to give a fair trial to our goods. We are happy to say that we have sold many thousand suits in a year and are still selling.

**Real Estate Profits**

Low priced lots on the city limits show the largest per cent profit in real estate investments. Suburban lots become residence lots just as certain as the little green apple of the spring becomes the big red apple hanging in the tree in the fall. This happens with certainty unless the tree dies or the city stops growing — both very unlikely. The above is the reason why many real estate traders deal in suburban lots and own very little or no high-priced property. Fountain Avenue lots less than 10 years old that have changed hands lately cost $1,500.00. Something like five years ago West Jefferson lots sold for $300.00—the last sale was $350.00. This is a profit of 50 per cent FOR YOURSELF. All suburban lots have shown big profit but these are the leaders. You say the above is ancient history and will never occur again—so be it. As the country is being taken in at a swinging pace, a great many people will be at a loss to know what to do with the money they have earned. If you own real estate it is likely that you will be able to sell it for double or even triple the amount you paid for it. Everyone wants a home or a place to live in. Many merchants are offering to sell property at a very low price. If you have a house or a lot in the city and are willing to sell, you can do so at a very good profit.
