## Doran to Speak At Dinner For Scout Leaders Meeting Planned Night Of Jan. 27 At Hickman, Ky.

**PARENTS ARE INVITED**  
Adron Doran, president of the Kentucky Education Association, member of the state legislature, principal of Wingo high school, and editor of the Daily Leader, will address a dinner meeting of Scouters and Cub Scouters of Fulton, Hickman and Carlisle counties at the First Christian church of Hickman Jan. 27 at 7 p. m.

The dinner is planned to show appreciation of the work of volunteer Scoutmasters, Cub Masters and Den Mothers of the district who have served faithfully during the year.

Parents of Cub and Scouts, and parents of boys who are interested in Cubbing and Scouting, may obtain reservations for the dinner meeting by contacting Robert Burrow, district Scout committee chairman, Fulton, or C. N. Holland, Hickman.

Five Scouts from the Dry Lake District will receive the Eagle Scout award, Scouting's highest honor, at the annual meeting of the Four Rivers Council to be held in Paducah Jan. 31.

They are Jerry Lowe, Troop 44, Fulton, and Danny Baird, Troop 43, Fulton, who completed Eagle Scout requirements last summer; Phil Porter, Troop 37, Clinton, who was recognized as an Eagle Scout at the last District Court of Honor held in Fulton Oct. 24, 1946, but could not receive his badge at that time; W. G. Adams and Ralph Adams of Troop 68, Cayce, who recently completed the Eagle requirements.

The latter two boys are cousins and are sons of twin brothers, Rob and Ray Adams of Cayce.

### Kentucky Today

By The Associated Press  
Whitesburg—James E. Bentley, 30, was asphyxiated while trying to warm himself near a burning slag dump near Jenkins, when Archie Craft said. The body was found beside the slag dump yesterday.

Frankfort—State personnel Director William L. Smith said some relief will be found for Kentucky's \$100 a month clerks when the personnel council meets here Feb. 3. Clerks' salaries range up to \$130 a month.

Harlan—The threat of a flood on the upper Cumberland River appeared to have eased up today, following the cessation of heavy rainfall. Automobile traffic was interrupted at several points by earth slides and school was suspended at Gray's Knob when a temporary bridge was threatened by high water. Water covered several low points in and near Harlan.

Harlan—Thirty women employees walked out yesterday at the Eagle Laundry, closing Harlan's only laundry plant. The women, represented by the AFL-United Construction Workers Union, District 30, walked out in an effort to gain higher wages.

Lexington—A \$46,000 contract was awarded here yesterday for remodeling and enlarging the milk and pasteurization plant at the U. S. Public Health Service Hospital. The contract went to the Hargett Construction Company of Lexington.

Lexington—James Holiday and Joseph Lee Boone, partners in a Harrodsburg automobile firm, were fined \$900 by District Federal Judge H. Church Ford here yesterday on charges of selling cars at prices in excess of Federal ceilings. They admitted the charges.

Lexington—The midwinter ministers' conference of the Disciples of Christ churches will open at Transylvania College today.

Paducah—The Tennessee River here, swollen by heavy rains upstream, was expected to reach a crest of 38.7 feet by Saturday. The Weather Bureau predicted. This is less than a foot below flood level but little of any damage is anticipated.

## Brynes Prepares To Sign Treaties

Secretary of State James F. Brynes (center) looks over the World War II peace treaty with Italy at the State Department before signing it and treaties (also on desk) with Hungary, Romania and Bulgaria. Looking on are Senators Arthur Vandenberg (R-Mich.) (left) and Tom Connally (D-Tex.), peace conference advisers to Brynes.

## General Fund May Be Larger

**Revised Estimates Make Total Of \$44,500,000 Possible, Howard Says**  
Paris, Ky., Jan. 21—(AP)—Revised estimates indicate Kentucky's general fund will receive about \$44,500,000 during the current fiscal year, State Revenue Commissioner O. M. Howard said here last night.

This figure would be considerably in excess of an estimate of \$4,645,000 forecast last June. Howard spoke before the Paris Kiwanis club.

Howard also estimated there would be about \$27,000,000 of \$28,000,000 in the road fund by the end of the fiscal year, March 31.

The revenue commissioner said he favored a substantial reduction in the state tax on intangibles.

## Radar Fails, WAVE Killed

**Navy Plane Crashes At Oakland Airport With 20 Additional Casualties**

Oakland, Calif., Jan. 21—(AP)—A WAVE medical corpsman was killed and 20 other persons, including three women, were injured in the crash of a four-engine navy plane at Oakland airport yesterday when, for the first time in more than 76,000 landings, radar sound-control failed to guide a ship to safety.

The big naval air transport plane landed 150 feet short of the fog-shrouded runway and crashed into a four-foot rock wall at the edge of the field. Its undercarriage sheared away and the plane skidded across the field on its fuselage for 1,000 feet shedding wreckage and passengers as it went. Then it caught fire and burned.

The dead WAVE was identified by the navy today as Aviation Specialist 3c Margaret Wallace, whose father is Harry W. Wallace, of Pittcairn, Pa.

## Rio Non-Voters Will Be Fined For Their Negligence

Rio De Janeiro, Jan. 20—(AP)—Chief Justice Jose Linhares announced today that some 1,750,000 qualified voters who stayed away from the state and city elections yesterday would be fined \$5 to \$15 under the law which makes balloting obligatory.

Tabulations were to begin at noon in the election which in effect tested the strength of the communist party, larger and more aggressive in Brazil than in any other American country. Each of the 20 states selected a governor and a third senator, and the Rio De Janeiro federal district chose 50 aldermen and a senator.

## Talmadge Offers To Run In Democratic White Primary Election When Legislature Dismisses

Atlanta, Jan. 21—(AP)—Herman Talmadge offered today to submit the controversy over the governorship of Georgia to the people in a "Democratic White Primary" election as soon as the legislature completes its session.

Speaking to the general assembly as governor of Georgia upon its invitation, Talmadge said:

"If the lieutenant governor will resign, your governor will resign. The speaker of the House of Representatives will assume executive authority."

## Gubernatorial Claimants Meet

Herman Talmadge (left), claimant to governorship of Georgia on basis of his election by General Assembly, seated behind desk in his office in the capitol at Atlanta, Ga., is confronted by M. E. Thompson (right, profile), elected lieutenant governor and who now claims to be acting governor. Thompson demanded that Talmadge vacate the office and executive mansion. But Talmadge refused. Man in right center is identified as George Wilson, former state patrol officer and former aide to the late Eugene Talmadge.

## Farm Bureau Gets Funds For Scholarship

**Fulton County First In State To Reach Goal**  
**CAN CHOOSE DOCTOR**

Fulton County Farm Bureau is the first Kentucky Farm Bureau County to establish a medical scholarship, J. B. McGehee, secretary, stated today.

At a recent Board of Directors' meeting in which Mr. Vigil Steed, Director of funds of the Kentucky State Medical Association, and Roscoe Stone, Director of Kentucky Farm Bureau Federation were present, the Board voted unanimously to appropriate \$500 to start a fund for this scholarship and took the responsibility of soliciting contributions for the balance of \$1500. This was done in less than twelve hours. Twenty-seven members and business men gave from \$5 to \$200 each.

"By sponsoring this as we did it entitles us to the honor of having it named The Fulton County Farm Bureau Scholarship," Mr. McGehee said. "This also gives us the chance to choose the young doctor student who would probably be from our own county, if one is available for this scholarship, and of course he would be our rural practicing physician for as many years as he used our scholarship fund," Mr. McGehee continued.

This great effort is, of course, being possible through the Kentucky State Medical Association in cooperation with the University of Louisville School of Medicine. It is the purpose of the Association to have established a total Medical Scholarship Fund of \$100,000,000 or more in the State as a revolving fund from which young medical students who are not able to finance themselves can borrow money at 2 pct. interest. Such a movement is bound to aid the students, help overcome the acute doctor shortage and will place our rural population in a better standard of living, McGehee said.

## Wintry Wave Covers State

**High Winds, Light Snow Reported In North, East; Forecast Is "Colder Yet"**

Riding on gusts of high wind and swirls of light snow, a cold wave blew into Kentucky today.

It froze rain and snow on city streets and rural highways and sent thermometers scooting down to readings as low as 15 at Covington and 17 at Louisville at 9:30 a. m. (CST).

The U. S. Weather Bureau at Louisville said the snow squall lasted less than half an hour, ending at 7:55 a. m. here. Then the sun came out, but it gave no warmth and the forecast for tonight in Kentucky is "near 10 degrees." The prediction for Wednesday is "very cold."

For the remainder of the week, an extended U. S. Weather Bureau forecast says: "rather cold Wednesday, somewhat warmer Thursday, with light snow likely, warmer over the weekend, with light rains."

Harlan reported that the freeze today after heavy rains in that vicinity yesterday, made roads dangerous. Highway crews were at work spreading salt and cinders. Eleven landslides blocked or partially obstructed roads in the Harlan area. Corbin reported rain and sleet with a minimum temperature last night of 24.

Central Kentucky had temperatures of 20 at Lexington and 25 at Frankfort, with snow flurries but good road conditions.

Hopkinsville recorded a low temperature of 23 this morning and Bowling Green had 26 with high winds and snow.

## Burley Average Down To \$40.84

Louisville, Ky., Jan. 21—(AP)—The statewide price average of burley tobacco sagged to \$40.84 a hundred pounds on Kentucky markets yesterday, the state department of agriculture reported.

This represented a drop of 73 cents below the average for last Friday, the last previous day sales were held.

Prices on individual markets ranged from \$44.21 at Lexington to \$29.71 at Mayfield.

## Sheriffs May Stay At Home

**Can't Be Compelled To Go Into Another State For Fugitive—Dummit**

Frankfort, Ky., Jan. 21—(AP)—Belief that a sheriff can not be compelled to go to another state after a fugitive was expressed by Attorney General Eldon S. Dummit today.

Replying to a question from Bath County Sheriff S. B. Cannon of Owingsville, whether a sheriff must return a fugitive and wait until 1948 for reimbursement, the attorney general explained that the person who returns a fugitive acts as agent of the governor, and added:

"The agent who returns an extradited fugitive to this state pays his own travel expenses, the expense of transporting the fugitive and also any accumulating costs incurred in apprehending and holding the fugitive until he is extradited."

"These necessary expenses can very easily entail a very considerable cash outlay. It is our opinion that it is unreasonable for a sheriff, as agent, to bear these necessary expenses and to wait until 1948 for reimbursement. Our answer is no."

## "I'll Do My Best." Gen. George Marshall Says In Taking Oath Of Office As State Secretary; Ceremony Is Held In President Truman's Office

Gen. George C. Marshall, Secretary of State Designate, and Mrs. Marshall wave from the observation platform of the Manhattan limited in Chicago, Ill., as they departed by train for Washington, D. C. Gen. Marshall was scheduled to have become Secretary of State January 20, but the plane bringing him from the west coast to the capital was grounded at Chicago because of poor flying conditions at Washington.

## Debate On TVA Fiscal Policy, Clapp Nomination Scheduled

Washington, Jan. 21—(AP)—Fiscal policy of the Tennessee Valley Authority seemed a major issue today as the Senate Public Works Committee opened hearings on the nomination of Gordon R. Clapp to be a member and chairman of the three-man TVA board.

Chairman Revercomb (R-W.Va.), told a reporter before hearings opened (10:30 a. m. EST), that other senators, in addition to Senator McKellar (D-Tenn.), were interested in the TVA policy of its receipts from power and fertilizer sales.

McKellar has repeatedly attempted to win senate approval of a law to require the authority to turn over its receipts to the Treasury Department and then come to Congress for an appropriation.

At present, the authority puts its receipts back into its fund for building and operating purposes and then asks Congress for any additional money it deems necessary.

Revercomb said this would probably be a major issue in questioning of Clapp. He said he will take no position on the nomination until hearings are finished.

The chairman said the TVA fiscal policy issue might be the beginning of a move to require TVA, Boulder Dam and other profit-making government authorities to turn in their receipts.

Clapp and Senator McKellar will face one another for the first time as the senator visits the committee to question the nominee.

McKellar, who told a reporter he "wouldn't know Clapp if I saw him," was frankly irritated because two letters he wrote the nominee asking questions on Clapp's TVA policies were unanswered.

The senator said the TVA general manager and acting chairman didn't have the "gentlemanliness" to answer either letter or to pay attention to a "mere senator."

The presidential nominee has support, however, from two Tennessee members from the opposite end of Capitol Hill. Reps. Kefauver and Gore, Democrats, both of whom describe Clapp as a "fine public servant" are to appear in his behalf.

## Truman Voices His Appreciation To New Secretary

**VINSON GIVES OATH**  
Washington, Jan. 21—(AP)—Gen. George C. Marshall took the oath today as Secretary of State in the presence of President Truman and then pledged, "I'll do my best."

Numerous notables gathered in Mr. Truman's office to witness the ceremony and to them Marshall said:

"I appreciate sincerely the honor and the compliment of your confidence. I'll do my best."

The wartime chief of America's victorious armies was assured by Mr. Truman that he felt the duties of Secretary of State are in "safe hands."

Mr. Truman told Marshall that while he regretted very sincerely the decision of James F. Brynes to resign as secretary he appreciated "very much your willingness to accept that burden."

The ceremony was brief. Members of the cabinet, top-ranking congressional foreign policy leaders and newsmen representing publications and radio organizations all over the globe crowded into the office.

The oath, administered by Chief Justice Fred M. Vinson, places Marshall in line for the presidency in the event a vacancy should occur before the end of Mr. Truman's term.

Marshall, wearing civilian clothes, arrived scarcely five minutes before the 11 a. m. (EST) ceremony. A throng in the White House lobby stepped aside to let him enter the office where the President, Brynes and the other officials awaited him.

He stood opposite Chief Justice Vinson to take the oath. His double-breasted blue suit was unbuttoned as he raised his right hand to solemnly swear again to support and defend the constitution of the United States.

"I do," he said firmly as Vinson completed the oath.

He shook hands with Vinson. Then President Truman expressed his pleasure in having Marshall as top-ranking member of the cabinet.

Washington, Jan. 21—(AP)—Gen. George C. Marshall said today he is not a candidate for any political office and "never could be drafted"—even for the presidency.

Arriving to take office as Secretary of State, Marshall told reporters he considered his new post non-political. He then volunteered:

1. "I cannot be considered a candidate for political office."  
2. "I never could be drafted."  
3. "I am being explicit and emphatic in order to terminate once and for all any discussion of my name with regard to political matters."

## Frank C. Taylor Tobacco Leader, Dies In Lexington

Lexington, Ky., Jan. 21—(AP)—Frank C. Taylor, 67, widely known in the Burley tobacco industry, died here last night of a heart ailment. He was admitted to a Lexington hospital Jan. 11.

Taylor had been secretary of the Burley Tobacco Growers Cooperative Association since 1929 and before that was associated with the organization for five years. He operated a warehouse at Carlisle for some time before his affiliation with the growers cooperative.

It was largely through his efforts that much of the state's tobacco legislation was passed.

SLIP COVERINGS and sewing. Call 638. 231 tfe

MIMEOGRAPHING: Letters, cards, programs, etc. Mary Burton, phone Clinton 2851. MOTHER BURTON'S GIFT SHOP. 17tfc

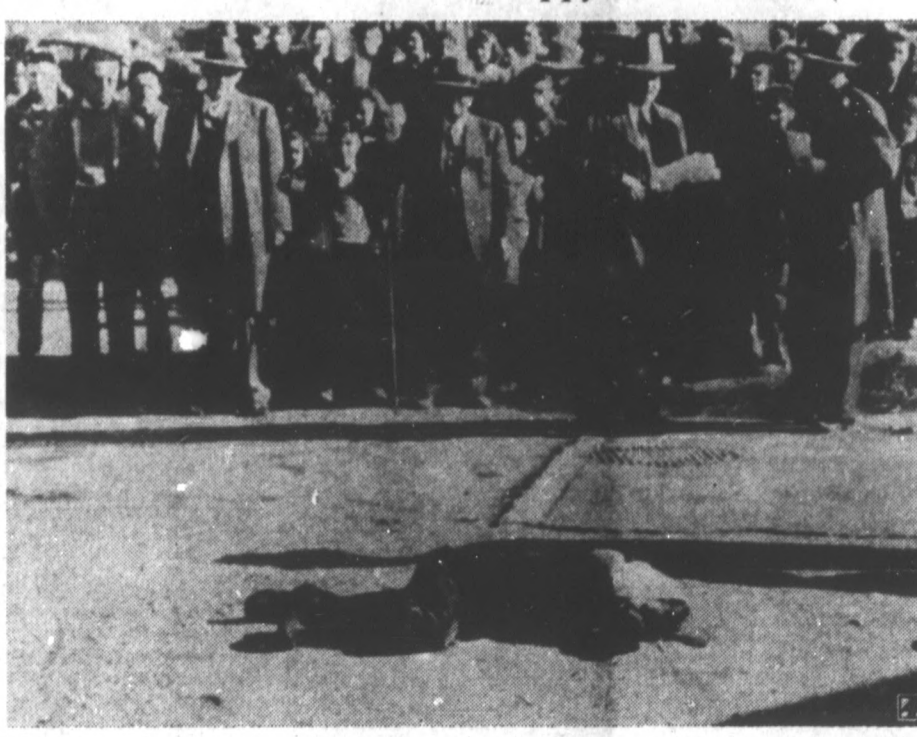

ADDING MACHINES, TYPE WRITERS and CASH REGISTERS BOUGHT—Sold, repaired. Office supplies. FULTON OFFICE SUPPLY COMPANY, Phone 85.

ALLEN TRUCK SERVICE: Local and long distance hauling. Phone 808-J or 9163. 25-12c

#### Notice

NOTICE ALL ROYAL ARCH MASONS  
 Jerry Moss Chapter, No. 119, Royal Arch Masons, will meet in regular stated convocation, 7:30 p. m., Tuesday night, Jan. 21. Regular business and work in Mark and Past Master Degree. Several from Murray and Clinton will attend. All members expected. Visiting companions cordially welcomed.  
 H. B. REAVES, High Priest  
 T. J. SMITH, SEC'Y. 27-2tc

### She Died Happy

Marsha Woodruff, 7, and her brother Richard, 12, spent a gay morning at a free children's rodeo performance at the National Western Stockshow in Denver, Colo. They started home, hand in hand to tell their mother of the wonders they had seen. As they halted to wait for a bus before crossing a street, Marsha tripped, and sprawled headlong under the rear wheel of the bus, which snuffed out her life and left her crumpled body in front of hundreds of other children.

### Casa Grande, America's First Skyscraper, Is Now Model For Southwestern Building Planners

By Murray Sinclair  
 (AP) Newsfeatures  
 Tucson, Ariz.—After towering over the desert for 800 years or more Casa Grande, America's first "skyscraper," is today being used as a model of construction by people of the southwest.

"It is true that in many respects Arizona's prehistoric Indians knew more about the kind of architecture suitable for living in the southwest than the average present day Arizonan," declares a speaker for the University of Arizona in discussing the state's extension housing program.

Today the building—a National monument—is covered by an umbrella roof, and most of it is intact although it was abandoned to the elements for centuries.

There is mystery surrounding the early Americans who built this four-story, 40-foot high, 11-roomed adobe building.

On one wall is a highly complicated design not reported from any other place in North or South America.

A design identical in every detail has been found on 2,000-year-old coins discovered on the island of Crete in the Mediterranean sea. There is no other connection between the peoples.

"What happened to the Hohoham," "the people who have gone," who built Casa Grande, remains one of the major mysteries of the southwest. They walked out of their skyscraper apartment house and their villages for no known reason and disappeared.

Archaeologists consider the ruins among the most interesting prehistoric structures in southern Arizona.

Around 1690 Padre Eusebio Francisco Kino, devoted Spanish missionary, heard the Indians speak with awe about a ghost city to the north in the center of which was a great building. Father Kino was the first white man to find the abandoned city dominated by the tallest buildings the Indians had ever built.

The missionary found the central building much as it is today, laid out perfectly to the cardinal points of the compass and the doors and window plumb and square.

Its walls are four feet thick at the bottom, tapering to 18 inches at the top. They were made by packing adobe mud into wicker frames that could later be slipped off. The building is 40 feet long, 60 feet wide.

The five rooms on the main floor were never intended to be lived in, and the walls were never plastered. The Indians were trying something new in building "skyscraper." They didn't want it to topple over, and were willing to sacrifice the bottom rooms for the precious space on top. After the lower walls were up, it is estimated, they spent at least 10,000 extra man hours in filling the ground floor with dirt.

Approaching enemies could not be seen when more than 400 yards away from the windows of the city's ordinary houses. But from the top of the "big house" they could be seen miles away, allowing plenty of time for look-outs to sound the alarm and withdraw workers from the farthest field.

The poles used for beams came from 75 miles away. It is thought the Indians cut them in the mountains, floated them down the Gila river until close by the city, then carried them to the building.

When Lieut. Juan Mateo saw the ruins in 1697 he wrote, "the walls are so smooth on the inside they resemble planed boards and so polished they shine like pueblo pottery."

In one of the upper rooms are two holes so placed that the early morning sun shines through one of them. Twice a year, on the 7th of March and October, the sun shining through one hole would strike the hole on

the opposite wall, giving the Indians their calendar.

In this way, anthropologists say, the prehistoric people recorded the passing of time, knowing when to plant crops and when to hold ceremonies.

Today the building has settled slightly, but twice a year the sun from one hole shines within a quarter of an inch of the other.

Today the building ideas of the primitive people are being studied with care. They used available materials to build the type of building best suited to their environment, culture and civilization.

University of Arizona experts call the eastern and northern style houses in which the majority use fell off and more eastern day "impractical incongruities."

For generations adobe was the standard building material for this part of the southwest. Then its use fell off and more eastern building materials were used.

Now Donald L. Hitch, building specialist for the university, is recommending the use of adobe for present day building in the southwest.

"We are urging that adobe be used wherever possible," he says. "It is one of the easiest to secure and best adaptable forms of building materials available in the southwest."

"Adobe, when properly made, is an excellent and economical material. It is free from termites, will last a long time as indicated by the Casa Grande ruins, and when plastered makes a nice surface."

"Previously it was difficult to anchor door and window sashes to adobe walls but we have gotten around this by using cement blocks around the frames."

The university put on a broadcast from its radio bureau recently giving some of the history of the Casa Grande ruins and showing how building ideas might be taken from these ruins for use today.

Leaders of the Japanese foreign colony in Brazil did not admit Japan's surrender for more than a year after V-J day.

Gold production in Nicaragua increased from a value of \$848,808 for the year 1937 to \$7,177,155 for the year 1945.

### Arlington News

Raymond Moyers arrived Thursday from East St. Louis to spend a few days here with his parents, Mr. and Mrs. Bryan A. Moyers and family, Route 1.

Mrs. Lena McKendree and Miss Olive McKendree were Tuesday guests of their son and brother, J. U. McKendree, and Mrs. McKendree of Fulton.

Hunter Glass, Route 2, has entered a Veterans Hospital in Indiana for treatment. Mr. Glass is a veteran of World War I.

Mr. and Mrs. Jewel Hoskins have gone to Pontiac, Ill., where he has employment.

Mr. and Mrs. Haul Bryant and daughter, Sandra, of Murray spent the week end here with his mother, Mrs. Edda H. Bryant.

Roy Berry was a Sunday and Monday guest of his daughter, Mrs. Jimmy Turner, and Mr. Turner of Anna, Ill.

Mr. and Mrs. Elmo Dodson of Murray were visitors over the weekend with his mother, Mrs. Roma Gould, of West End.

Mr. and Mrs. T. V. Goin were guests of their son and daughter-in-law, Mr. and Mrs. Thomas Lee Goin and family of Millington, Tenn.

Mr. and Mrs. T. V. Goin, Jr., and children left Tuesday for their home in Seattle, Wash., after a several weeks' visit here with his parents, Mr. and Mrs. T. V. Goin, Sr., and family.

Miss Mary Elizabeth Goin, day operator of the Arlington Telephone Company here is confined to her home by illness this week.

Charles Yates, student at Murray State Teachers College was a visitor of his parents, Mr. and Mrs. Ed Yates and family over the weekend.

Miss Shirley Cavanah was a weekend visitor of her sisters, Misses Sara Mae and June Cavanah of Hopkinsville.

Rev. G. O. Cavanah, was able to preach Sunday after a weeks illness.

Jesse Howard Lambert, S-1, son of Mr. and Mrs. Ed Lambert of this city, has called for a several weeks stay in China.

Elbert Beasley, of the U. S. Army occupational force is stationed in Germany. He is a son of Mrs. Beasley of this city.

Charles Brown Carter, son of Mr. and Mrs. Willis C. Carter, Route 2, is stationed with the U. S. Army in Germany.

Fred Harp, bookkeeper at L. H. Barclay and Sons, has returned to his work after being confined to his home in Milburn by an attack of pneumonia.

The Aces of the Arlington high school will engage the Wingo quintets on the Wingo floor tomorrow night.

To date the Aces have played fourteen games and have only lost two and those were to Central of Clinton and Blandville.

Beelerton News  
 Rev. McMinn filled his regular appointment Sunday morning at Wesley.

Friends of Mrs. Harry Fite and son, Ralph, are enjoying hearing them sing in the Wingo Quartet which broadcasts from the Mayfield radio station.

Mr. and Mrs. Charles Young and son are visiting Mr. and Mrs. Wallace Webb.

Mrs. Lon Wright is getting along very well at her home following a recent operation.

Mrs. Susan Johnson is getting along nicely after being quite sick at her home.

Billie Dockery is in bed with a bad throat.

Mrs. Mark Cooley is visiting her daughter, Cordella, and husband and new nine and one-half pound grandson at Akron, Ohio. The new grandson arrived January 3.

Larry Binford recently sold

his farm to Raleigh White.

Mrs. Grace Gardner and Mrs. Robert Gardner spent Friday with Mr. Ben Felts. Mr. Felts is in the Fulton hospital.

James Kimbell, formerly of Beelerton, is now sole owner of the Clinton Food Locker, having bought the interest of Tolly Saylor.

Edward Nall who is employed in Louisville spent last Saturday with his parents, Rev. and Mrs. E. C. Nall.

Mr. and Mrs. Hamp Clapp and Tommie and Jan Nell spent Sunday with Mr. and Mrs. Leon Wright and Billie.

Mr. and Mrs. Harold (Red) White, newlyweds, are residing in the S. J. Walker house.

Mrs. Lillie Bastick returned home with Mr. and Mrs. Art Brauner for several weeks visit. They reside in California.

As for military control of atomic knowledge, the association said:

"We are impressed with the strength of the case made in

Washington, Jan. 20—(AP)—By not acting today, the Supreme Court delayed at least until February 3 a decision in the government's contempt case against John L. Lewis.

A ruling today would have been exceptional since argument of the case was heard only last Tuesday, February 3 is the next Monday on which the court hands down opinions. There is no certainty, however, that the case against the United Mine Workers' president will be decided at that time.

Lewis was held in contempt by Federal District Judge T. Alan Goldsborough for not calling off last fall's coal strike at his order.

Atomic reactors are ovens which produce heat, radioactive rays and new atoms. The association said they are of little use for military purposes, but valuable for the purposes of scientific research and for the production of tracer elements for research in medicine and other fields.

It suggested that plans and personnel be offered by the "know how" nations—defined by officials of the association as the United States, Britain and Canada.

### Suggest Atom Study Plants

Americans, Canadians, British Asked To Make Small Atomic Reactors

London, Jan. 20—(AP)—The British atomic scientists association urged today that the United States, Britain and Canada immediately give other nations help in setting up atomic research plants "of little use for military research."

"It would be a generous and helpful measure if the nations now possessing the most advanced knowledge of atomic energy were to offer to other nations collaboration in setting up small atomic reactors," a 2,400-word statement by the association's council said.

Atomic reactors are ovens which produce heat, radioactive rays and new atoms. The association said they are of little use for military purposes, but valuable for the purposes of scientific research and for the production of tracer elements for research in medicine and other fields.

It suggested that plans and personnel be offered by the "know how" nations—defined by officials of the association as the United States, Britain and Canada.
