Study Cites River Area As "Big" Potential

An 18-month study of the industrially important Ohio River Valley Region, released today by Spindletop Research, predicts substantial economic growth for much of the area which includes sections of Kentucky and six other states.

Among chief economic advantages of the region, the report lists "inexpensive electric power and natural gas, proximity to raw materials and product markets, and excellent barge and rail transportation."

The comprehensive study, made under a grant from the Kentucky Department of Commerce, defines the Ohio Valley Region as 85 counties along both sides of the 981-mile river route from Pittsburgh to Cairo.

The 400-page report, entitled "Economic Development in the Ohio River Valley Region," cites the need for detailed knowledge of the region's present economic base and industrial development potential in order to match its resources with the location and service requirements of industry.

Post Office Officially Opened With Dedication

The new post office in Fulton was dedicated on Sunday, April 26.

The program was officially opened at 2 p. m. by Joe W. Treas, Fulton postmaster, who introduced William Scott, president of the Chamber of Commerce, who served as master of ceremonies. Mayor Gilbert DeMyer of Fulton extended greetings to the visitors and told of the great progress made in the twin cities during the past year. Mayor Milton Council of South Fulton also extended greetings, complimenting all who had a part in the new post office. Robert Hoeft, superintendent in charge of construction, for the Jerome Building Company of Detroit, presented the keys to the building to W. L. Roper, assistant postmaster.

The dedicatory address was given by William J. Rahter, assistant to the regional director, Cincinnati, who said the Fulton postoffice is another new link in the greatest postal system the world has ever known.

Frank Albert Stubblefield, Congressman, was introduced by Mr.

Scott and addressed the crowd of several hundred persons. His talk was on the role of the postal system in the nation's economy and he traced the postal system from 1763 to the present time.

Special guests in the postal service were introduced by Postmaster Treas, also the local post office employees. At the conclusion of the program Congressman Stubblefield presented the flag, which had flown over the Nation's Capitol, to Postmaster Treas, who, in turn, presented it to a member of Explorer Post 43 color guard. After the flag was raised the Fulton High School Band played "The Star Spangled Banner."

The invocation was given by Rev. W. T. Barnes, pastor of the First Methodist Church, and the benediction by Rev. Glenn Kaperman, pastor of the Cumberland Presbyterian Church.

Following the dedication, open house was held in the post office and punch and cookies were served by members of the Twin Cities Development Association.

"Stars in My Crown" Open June 26

WESTERN KENTUCKY'S musical drama "Stars in My Crown" got a boost from native son Governor Edward T. Breathitt during a recent meeting with members of West Kentucky Productions Association. From left are John Perryman, Smith Broad-bent, Mrs. Jo Westpheling, Bob Long, Governor Breathitt, Max Hurt (association president) and Dr. Raymond Roof. "Stars in My Crown" opens its second season at the Kentucky Lake State Park amphitheatre on June 26. Billy Edd Wheeler and Jim Maddux will again co-star in the Kermit Hunter story.

Literary efforts remind me of the "book" that has been compiled to tell the story of this year's Banana Festival. I don't know whether or not it will be a best seller, but it took the best combined talents of some rather literate people around here to put it together. The book is not for general distribution yet, but if you care to see it, ask anyone of the Festival folks to let you see a copy.

The best laid plans of mice and men often go for naught, as was evidenced this past week-end. Montez Baird, Elizabeth Joyner and I were to take off at daybreak Sunday for a nice leisurely trip to Washington on Banana Festival business. I was in Frankfort and Murray on Friday and Saturday, but I pecked every little thing so

State To Open Offices In Chicago and New York In July To Maintain Full - Time Wooing New Industry

Back when Bruce Kennedy was head of what is now Kentucky's Department of Commerce, he once told us that it was his firm belief that the greatest thing his department could do (it couldn't afford it at that time) was to establish a full-time office in New York City to maintain constant contact with industrial prospects interested in locations in Kentucky.

We respected Bruce's judgement, too, for he had a hard-driving department and a hard-working crew, under the constant whip of Wilson Wyatt to "go out and get the job done" and those boys worked and worked at it, just as Mr. Wyatt did. And we are sure that Ned Breathitt, at that time a State employee (now Governor) was also aware of the hard pitch that Bruce—and his successor Jim Nutter—were making to get new industry to Kentucky.

And so, it is with a feeling that "we are moving ahead" that we learn this week that Kentucky will open full-time offices both in New York and Chicago to "expand its drive to attract new industry to the State" and maintain on-the-spot contact with top management of most of the Nation's larger industry.

In announcing the move, Governor Breathitt and State Commerce Commissioner Katherine Peden said that each office will be staffed by a person with experience in finance or

business and with a great number of business and industrial contacts.

"These offices will help show the progress Kentucky is making on the industrial front. They will aid in showing industrial prospects just what the Bluegrass State offers in the way of plant sites, transportation, raw materials, labor, access to markets, and the many other advantages which spell success for a new or expanded industrial enterprise," the Governor explained.

He added that the two offices will be backed up with the full range of plant location and economic data maintained by the State Commerce Department, other agencies of State Government, and by individual communities across the state.

We have only one wish to make: that whoever is given these jobs will stay "on the ball" and produce results. This is the glad-hand, cocktail-party, good-will circuit, and that's part of the job, mixing and mingling, along with the serious pitch at the right moment. The jobs ought to be right enjoyable, but let whoever is assigned them remember that they are there first and foremost to produce results.

These offices are going to be expensive; Bruce Kennedy told us several years ago that even one was far too expensive for his budget at that time. We hope the results justify the expense.

Observations on some early - morning, ear - splitting train whistles: Can't we lessen their volume?

At best, sleep in a hospital is a precarious thing: sometimes it is accomplished without drugs, but more often than not, some kind of sedation is necessary to stop the all-night twisting, turning, tossing.

So about 2:00 or 3:00 a. m., if you're having a bad night, you finally fall asleep, exhausted, for a few hours. Or if you've taken a sleeping pill at 10:00 p. m. it will keep you asleep the rest of the night, or should.

Nothing I know of will get you past 5:00 a. m.

For beginning around 5:00 a. m. there begins the loudest blasts of ear-splitting diesel horns imaginable, made all the louder by contrast with the early-morning quiet and peacefulness. An IC passenger train is heading out of the station and rounding the curve to cross three deserted grade crossings downtown.

The noise some mornings is infuriating, to say the least. It ends all efforts to sleep, right then and there. And what we are wondering is this:

Is the engineer mad at everybody in Fulton?

Is he trying to impress someone?

Young Drivers Continue to have Worst Safety Record

Once again in 1963, young drivers had the worst safety record of any age group, according to a report by The Travelers Insurance Companies.

The report, issued annually since 1931 except during the war years, is compiled by The Travelers from information provided by state motor vehicle departments.

A Travelers spokesman pointed out that drivers under 25 years of age

comprise only about 15 per cent of all licensed drivers in the United States, in spite of which, 15,400 (or more than 29 per cent) of the drivers involved in fatal accidents in 1963 were under 25 years of age. This represented no significant change in performance, since this same age group accounted for 28.9 per cent of all highway deaths in 1962.

The Travelers report shows that young men and women under 25 were also involved in a great number of non-fatal highway mishaps. In 1963 the percentage was 26.1 as compared with 27.3 per cent in 1962.

Our senior citizens - drivers 65 years of age and over - also made a poor showing. In fact these older drivers were involved in 8.1 per cent of the total number of fatal accidents in 1963, as against only 6 per cent in 1962.

The performance record of the largest age-group (drivers from 25 to 64 years of age) improved slightly from involvement in 65.1 per cent of the fatal accidents in 1962 to only 62.8 per cent in 1963, thus contributing the only bright spot in an otherwise grim picture.

STRICTLY BUSINESS by McFeathers

"I started this business from scratch!"

Kentucky Windage

By F. W.

Observations from a hospital bed, (where there is plenty of time to observe): Have just watched a squirrel run straight up a tree, and then run straight down ... and got to wondering. Does a squirrel have reversible claws?

Now a cat can run up a tree, but has to come down backwards. I know its claws all face the same way.

But I'd like to know just how a squirrel can run straight down without falling on its face in the process. What's more, it can even come to a complete face-downward stop before it reaches the ground, if it wants to.

A good smile or two always helps the day ... and I had my share last week.

One day the mailman brought what I thought was a "sorry-you're-in-hurry-up-and-get-out" card, but when I opened it, it was a "Congratulations on the coming blessed event" card. Addressed to ME.

So I gave the sender a call over the phone, and told her that if Dr. Glynn delivered a girl I would name it after her, and if a boy I would let her name it after anyone she chose except Happy Chandler.

And then it was her turn to explain that in her search for cards at home, all she could find was the "blessed-event" variety, so she had just sent that, and had evidently forgotten to change the message.

I WILL say that of all the cards I have received—and thanks to all of you who have sent them—THAT ONE was the most remembered!

And then in an afternoon mail came a letter from a sweet little girl to whom I had sent some Indian-head pennies, together with directions for shining them. Says she: "Dear Mr. Westphling, thank you for the Indian-head pennies. In the last few days I have been

building a box to keep fishing worms. Here is the way to make one:

And she proceeded to outline all nine steps in detail.

Well, M'lady, if I ever build one I'll sure use your formula, and I shall save your letter. I just hope you have real good luck getting yours stocked. As I recall, the last time I was in your area, worms were so hard to find that we had to sit out in the yard, wait for a robin to discover one, wait until he had tugged it out of the ground and then chase him away and appropriate it ourselves!

Dr. Ward was by the room last Tuesday to say that a number of Rotarians were right curious to know what was the matter with me, but he wouldn't tell them. So I told him to handle it this way: tell anyone who wants to know, with the understanding that the next time THEY are in the hospital I expect a full clinical report on them for publication in the next issue. Fair enough, you guys???

A great big "Thank you" for beautiful flowers from the gardens of Mrs. Ernest Willey and Miss Emma Edwards ... and for others from Ruth Scott and the Harvey Caldwells.

Well, I see where our good friend and able journalist from Central City, Bobby Anderson, has accepted the position as editor of the McKenzie Banner and Dresden Enterprise, come May 1. Bobby is a protégé of Larry and Amos Stone of the Central City Times-Argus; I don't know just how much of their heads-up brand of rip-sportin' journalism has rubbed off on him, but we shall see. The whole crew up there in Central City has won so many prizes that they ran out of wall space long ago.

Welcome to the Ken-Tenn area, Bobby! Come up and visit us.

● CHESTNUT GLADE

By Mrs. Harvey Vaughn

Moving seems to still be the order of the day in this community. The Cummings have moved to the farm they bought from Willie Harwood; Mr. and Mrs. James Clark and daughters are moving to the house vacated by Mr. and Mrs. Vernon Melton. A welcome is extended to each of these families, as they lived in this community a few years ago.

Mr. and Mrs. Tom Farnell and children, from Nashville, spent the weekend with her parents, Mr. and Mrs. Milburn Orner, and other relatives.

The Nanny family is looking forward to a visit from Ruth, Pat and Magdalene and her family from Akron, Ohio next weekend.

Mrs. Ed Strong was taken to Hillview Hospital last Saturday in a Jackson Brothers ambulance.

Friends will regret that Dean Terrell's eye was found to be in such condition that it was necessary to have it removed. The surgery was performed in Mayfield on Saturday, after examinations there and in Memphis.

Mrs. Jewell Griffin, from Chicago, is spending the week with her father, Ben Jenkins, and sis-

ter, Mrs. Cecil Barber, and family. Mr. and Mrs. Tom Strong and Guy Strong from Mayfield visited Mrs. Edna Strong, who has been a shut-in for the past several days, and Mrs. Ed Strong, who is a patient in Hillview Hospital.

Miss Pigue, Mr. Outland Are Wed At The First Methodist Church

Mr. and Mrs. Terry Outland

Miss Phyllis Pigue, daughter of Mr. and Mrs. Oliver Pigue of Fulton, was married to Terry Outland, son of Mr. and Mrs. Willard Outland, Route 5, Fulton, on Friday, April 17. The double ring ceremony was performed at six-thirty in the evening in the First Methodist Church with Rev. W. T. Barnes, pastor of the church, officiating.

A program of organ music was presented by Mrs. Martha Logan, who also accompanied Miss Sally Williams, Miss Mary Elizabeth Mitchell, Miss Lynn Dallas and Miss Carol Pigue in a harmonized arrangement of "I Love You Truly."

The bride entered the sanctuary on the arm of her uncle, Mr. Charles Winsett. Mr. Winsett was replaced at the altar by the bride's father, who gave her in marriage.

Serving the bride as matron of honor was Mrs. Donald Weldon. Mr. Weldon attended the groom as best man.

The bride was beautiful in a ballerina length dress of white pima mist cotton, with a bolero yoke trimmed with Schiffli embroidery. Her three-tiered shoulder length veil fell from a white satin rose sorsage. She carried a cascade bouquet of white carnations centered with a purple throated orchid.

Immediately following the ceremony, the couple left for an unannounced wedding trip.

that I would be all ready on the traveling day. But Paul took to the hospital and of course delayed the trip. (Note to Paul's parents: "Don't worry, it's nothing serious. He'll be out and at home and I'll be in Washington by the time this paper reaches you.")

And as another parenthetical note just take these words of wisdom from me. I'd rather be sick a month than to put up with one sick man for one minute. Paul's a nice, sweet understanding man, but this is his first hospital confinement since the Stork delivered him, I think, and he is taking a dim view of the whole business. And so am I!

Rev. and Mrs. Ronald Bynum are the proud parents of a new daughter, Stacia, born at Obion County General on Tuesday. Mrs. Bynum and baby are at the home of her parents near Gleason for a few days before returning to their home in Waynesboro.

Mrs. Joe Griffith of Clairmont, California suffered a severe heart attack and is in a hospital there, according to a message received by her niece, Mrs. Dorell McCall. Being a native of our locality, she has many friends here. Her address is 1003 Yale Avenue, Clairmont, Calif.

Mrs. Rebecca Mayo has moved to her new home, the Dr. Shelton place at Boydeville. She recently sold her farm near Dukedom to William Davidson.

Mr. and Mrs. Walter Williams were able to be at church Sunday and were feeling better. They have not been well most of the winter.

Mr. and Mrs. Randall Brown were in Martin during the weekend at the bedside of a 9-year-old brother of Mrs. Brown, who is critically ill.

Mr. and Mrs. Raymond Glover are busy making an addition to their home, which they recently bought at Pilot Oak. At present they are living with Ed Parker and caring for him.

Your Wisest investment of time... REGULAR CHURCH WORSHIP

"I was glad when they said unto me, let us go into the house of the Lord."

It takes a Good Eye...

TO THREAD A NEEDLE

Did you ever thread a needle?

...Most everyone has, it takes a good eye, for the opening is small. Did you ever try to thread one while someone else held the needle?

...This is almost impossible. All this brings us to the point that... there are some things that we must do ourselves. We can not send someone else to church for us, we can not have someone else worship the Lord for us. These things are strictly on an individual basis. ATTEND CHURCH THIS SUNDAY ...YOU'LL BE GLAD THAT YOU DID.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

South Fulton Students Attend Latin Tournament

The first mid-south Latin tournament was organized in what is now Memphis State University in 1923 by Dr. Nellie Angel Smith, long time Dean of Women and Latin instructor at Memphis State, where a dormitory now bears her name. She was fond of saying that Latin is not a dead language, but only the beginning.

This year's tournament, open to all Latin students in the area, was held at Memphis State University on Saturday, April 25.

CAMPING IS A FAVORITE ACTIVITY

ROBERT BELL

in Kentucky's growing tourist industry. Bell's task is to make the parks even better prospects for tourist dollars.

KENTUCKY ALL OVER

KENTUCKY'S PARKS—State and National—and numerous lakes are geared to accommodate every conceivable taste in vacations. Whether you're going camping or want a resort, you'll find it in Kentucky's top-ranked State Parks. Thirteen of the 34 are resort

parks offering complete vacations for the entire family. You'll find interesting history in museums and shrines. Before you go out-of-state, travel Kentucky in all its wonderful vacation areas. There are exciting things to do and see in Kentucky.

KENTUCKY ASSETS

Accommodations, Southern Cooking

With fare from old ham and red-eye gravy to fillet mignon, Kentucky eating establishments watch their reputation for mouth-watering good food because owners are keenly aware that the vacationer travels on his stomach.

Increasing attention to good food at Kentucky's vacation resorts results in growing national acclaim for Kentucky and Southern cooking at its best.

In response to tourists' preferences, many restaurants throughout the state concentrate on menus which reflect Kentucky's eating traditions and regional foods.

From the Mississippi River east to the Appalachian highlands, travelers can find good food in home-owned and privately-operated restaurants, State Parks and in nationally-known chain restaurants.

MRS. KENTUCKY, Betty Pock Cox, Richmond, is one of thousands of Kentucky citizens who help promote Kentucky's travel attractions. The shopping bag she displays here was borrowed from the supply used by the Kentucky Department of Public Information at travel shows this spring in other states.

NEW ROADS MAKE TRAVEL EASIER, SAFER

The new Western Kentucky Parkway stretches from Elizabethtown to Princeton and the Mountain Parkway from Winchester to Salyersville. These and other new and improved highways have set national road-building records for Kentucky.

ROBERT BELL

Parks Head Is Lexington Man

Robert D. Bell, of Lexington, is commissioner of Kentucky's State Department of Parks.

The 34 parks, rated best in the nation, are a prime factor in Kentucky's growing tourist industry. Bell's task is to make the parks even better magnets for tourist dollars.

CAMPING IS A FAVORITE ACTIVITY

From All Over Nation Tourists Explore Kentucky

Kentucky is host to millions of out-of-state tourists each year in its State and National parks and at such outstanding attractions as the Kentucky Derby.

The Travel Division of the Kentucky Department of Public Information is currently receiving from 3,000 to 5,000 letters a day from people in other states asking about Kentucky's attractions. Local tourist promotion groups also receive thousands of inquiries.

Kentucky is being promoted by colorful movies, advertisements in newspapers and magazines, travel show exhibits, systematic release of feature stories in all media and a score of other methods.

Promotion by the State and local organizations is a quick-return investment to attract tourist dollars to Kentucky's public and private attractions.

Kentucky's tourists come from every state in the nation and many foreign countries, with two-thirds of the total from Illinois, Tennessee, Indiana, Ohio, Michigan, Missouri, Texas, Virginia and Florida.

KENTUCKY DAM VILLAGE STATE PARK

Diamonds In Your Own Backyard

If you are planning a vacation, don't overlook the diamonds in your own backyard.

Kentucky has outstanding vacation attractions and most Kentucky communities have one or more good tourist lures.

Well-developed tourist attractions are the backbone of a major Kentucky industry. Out-of-state visitors spent \$220 million in this state in 1963.

This state now has among its 34 State parks and shrines 13 vacation resort parks recognized as the finest resort park system in the nation. Among other major attractions are three National parks — Cumberland Gap at Middleboro; Lincoln Historical Birthplace Site near Hodgenville, and Mammoth Cave; Breaks Interstate Park, near Pikeville; Cumberland National Forest, and seven State forests; 11 giant lakes and recreation areas including 170,000-acre Land Between the Lakes National Recreation area being developed between Kentucky Lake and Barkley Lake.

Besides these public facilities there are scores of attractive, interesting, privately-owned attractions and vacation accommodations in Kentucky.

Consider Kentucky First

In recognition of the importance of the tourist industry to all Kentuckians, this eight-page "Vacation in Kentucky" supplement is presented as a special feature by the Fulton County News as a public service in cooperation with the Kentucky Department of Public Information.

Kentucky has over 300 tourist attractions and this special section is designed to acquaint Kentuckians with the possibilities in selecting a place for a vacation.

If you plan a vacation this year and have not seen the scores of interesting attractions Kentucky offers, explore Kentucky first!

KENTUCKY LAKE State Park attracts thousands of vacationers each year for varied recreation possible in this area. Added numbers are attracted by the outdoor drama, "Stars in My Crown" playing in the summer at the park.

Big Lakes, Beauty, Barbecue

WESTERN KENTUCKY

THREE COMPLETE vacation resort parks (Kentucky Dam Village, Kentucky Lake and Pennyrite State Parks), a giant new national recreation area, numerous other attractions and scores of private boat docks, restaurants, motels and barbecue pits make Western Kentucky a mecca for mid-America's vacation-bound. Fish-rich Kentucky Lake with 2,350 miles of shoreline yields ground-dragging

strings of fish. Crappie and bass, in particular, are abundant. Besides boating, camping, fishing, picnicking, swimming in pool or by the beach, there's golf, tennis, water skiing, horseback riding, shuffleboard at the big State park in this area. Travelers reach this vacationland by plane, boat, bus or auto. There are two airports and good, new roads into the region.

\$35 Million Project Under Development

COMPLETION of Barkley Lake in 1965 will give Kentucky three of the ten largest man-made lakes in the world. A 38-mile-long peninsula of 170,000 acres between Barkley and Kentucky Lakes is being developed as a National Recreation Area by the Tennessee Valley Authority. T.V.A. officials plan to develop as many different types of outdoor recreation on the peninsula as possible, including 6,000 individual camp sites. The \$35-million project is expected to draw millions of visitors per year by 1966, when most of the facilities will be completed. Barkley and Kentucky Lakes combined will have 11,900 3,200 miles of shoreline.

LAND BETWEEN THE LAKES NATIONAL RECREATION AREA

VARIETY IN WESTERN KENTUCKY

NINE OF KENTUCKY'S 34 State parks and shrines are in Western Kentucky, offering a variety package to vacationers. In 1963, Kentucky Dam Village attracted the largest single-park visitation, 2,215,605 persons; famous Kentucky Lake State Park drew 881,605 persons; and Pennyrite Forest State Park at Dawson Springs — the favorite of many Kentuckians — drew 365,949 visitors. "Stars in My Crown," a drama about Western Kentucky, is presented in the Kentucky Lake Park amphitheatre.

KENTUCKY DAM VILLAGE State Park is a complete holiday resort that pleases the entire family. The 56-room Village Inn and cottage accommodations are modern and first class, the food excellent. The park has a big sandy beach, unexcelled boating, horseback riding, and some of the world's best year-round fishing. Kentucky Lake, impounded by Kentucky Dam, is the world's biggest man-made lake.

OVER 1400 ACRES of beautiful woodland and grounds at Kentucky Lake State Park provide carefree days for the year-round fishermen. In the park visitors enjoy golf, tennis, swimming in pool and lake, sunbathing, boating, horseback riding, picnicking, hiking, shuffleboard and planned recreation. Kenlake Motel has 60 attractive guest rooms. Completely equipped vacation cottages are located in wooded areas. There are excellent privately owned motel accommodations nearby.

Drama Under The Stars

OUTDOOR DRAMA is a summer treat for vacationers in Kentucky. There are outdoor plays at four State Parks, and again this summer Pioneer Playhouse, Danville, offers 10 new plays on a Wednesday-to-Monday schedule from June 25 to September 7. Shakespeare in Central Park is offered free by the City of Louisville Thursday, Friday and Saturday evenings from July 12 to August 22.

"The Stephen Foster Story," at Bardstown (June 20 - September 6) plays every night except Monday. The rollicking, toe-tapping show sparkles with 50 Foster songs.

"Home is the Hunter," at Harrodsburg, is a rip-roaring thriller about pioneer life. With colorful dances, it plays every night from June 27 to September 6.

"Stars in My Crown," at Kentucky Lake State Park, Harrodsburg, is a rousing, colorful pageant of life in Western Kentucky. Each night except Mondays, June 19-August 30.

"The Book of Job," at Pine Mountain State Park, Pineville, plays nightly except Sunday; June 25-August 29. Based on Book of Job from the Bible, it is exceptional.

Three National Parks In Kentucky

ABRAHAM LINCOLN National Historical Birthplace Site, near Hodgenville, contains the birthplace cabin of America's beloved Emancipator. Favorites here include the museum and the ancient boundary oak, a landmark at the time of Lincoln's death.

THE PINNACLE OVERLOOK in Cumberland Gap National Historical Park, near Middlesboro, surveys mountain grandeur. Discovery of this pass through the Allegheny Mountains, resulted in the start of the conquest of the American West.

VISITORS TO MAMMOTH CAVE National Park gaze in awe at this underground world. The Frozen Niagara, a favorite sight, is 75 feet high and took over a hundred million years to form. Above ground, deer herds and hiking trails are tourist favorites.

Over 300 Kentucky Attractions

Kentucky has over 300 vacation attractions ranging from the Moonbow at Cumberland Falls to the depths of Mammoth Cave and from colorful festivals to historic homes of illustrious Kentuckians.

There are State, National and locally-owned parks; lakes, rivers and ports; State and National forests; mountain scenes; race tracks; wildlife refuges, amusement parks; boat rides; horses and horse museums; a buried city; superhighways; natural arches; covered bridges, and golf courses galore.

Scenery, Serenity, Silvery Lakes

THE MAGIC MOUNTAINS

IN THE SCENIC MOUNTAINS of Eastern Kentucky, silent, misty mornings turn into active days of fishing, hiking or swimming. Scenery viewing, nature trails, wildlife study, photography and square dancing are vacation favorites here. Lakes, rivers and streams offer good fishing. Among major vacation areas in Kentucky's mountains are State Parks — Jenny Wiley, Prestonsburg;

Natural Bridge, near Slade; Carter Caves, between Olive Hill and Grayson; Cumberland Falls, near Corbin; Levi Jackson, near London; Lake Cumberland State Park, near Jamestown; Buckhorn Lake, near Hazard, and others. Cumberland Gap National Park is near Middlesboro, and Breaks Interstate Park, on the Kentucky-Virginia border, is near Pikeville.

A PERFECT MOUNTAIN VACATION can be found at Jenny Wiley State Park, overlooking the blue water of Dewey Lake in the heavily forested Eastern Kentucky hills near Prestonsburg. Jenny Wiley offers an air-conditioned, 36-room resort lodge, 12 guest cottages, swimming pool, lake swimming, boating, water skiing, bathhouse, boat deck, tent and trailer grounds and a sporty nine-hole golf course.

THE HERNDON EVANS lodge at Pine Mountain State Park, Pineville, is delightfully rustic in exterior appearance, but its 20 units are completely modern. Swimming pool, cottages, a dining room, hiking trails and boating can be enjoyed.

BREAKS INTERSTATE PARK, near Pikeville, on the Kentucky-Virginia border, is operated jointly by the two states. The park overlooks a spectacular gorge. Rhododendron Ledge has an inviting dining room and there are picnicking areas, hiking trails, tent camping sites and a mountain life museum, plus breath-taking panoramic views of Kentucky's highest mountain country.

NATURAL BRIDGE State Park, near Slade, is Kentucky's new, scenic Mountain Parkway yields spectacular views and fascinating geological formations. A new 20-unit lodge will open in 1964. A recreation program, cottages and camping sites are available.

Vacation Game

How Many of Kentucky Have You Seen?

Using a state map, cross out the counties you and your family have visited. You'll be amazed at how many vacation areas remain.

Hams, Hoecakes, Flourishing Farms

THE CAVE COUNTRY

MAMMOTH CAVE, tourist attraction since 1837, is the hub of Kentucky's famous Cave Country where underground streams have carved out limestone caverns and decorated them with beautiful rock formations. Among numerous other prime attractions in this South Central Kentucky area are My Old Kentucky Home State Park, recently-completed Rough River Dam State Park

with its excellent lodge, Rough River Reservoir and Nolin Reservoir. Several privately-operated caves have good attractions and accommodations. In this region you'll find especially good Country Ham and other foods with the exacting home touch. Here, too, you'll see good farms and big fields of burley tobacco and rich historical background.

One Of World's Spectacular Wonders

A BOAT RIDE on underground Echo River awaits you as one thrill at ever-popular Mammoth Cave National Park. On cave tours you see beautiful formations, huge cavern rooms and spectacular pits and domes. Excellent accommodations are available at Mammoth Cave and in nearby cities. Mammoth Cave is a year-round attraction, with cave temperature steady at 54 degrees at all times.

World-Known Park Is At Bordstown

MY OLD KENTUCKY HOME is familiar to people everywhere in the world. It's a State Park and one of the top tourist attractions in America. The Bordstown area offers good accommodations year-round and has several good attractions including the outdoor drama "The Stephen Foster Story". At the park there are picnicking tables; camping facilities and golf at the nine-hole course adjacent to the park provide varied recreation for the family.

Complete Vacation Now Possible At Rough River

ATTRACTIVE, modern architecture characterizes Kentucky's 12 new State Park lodges. At this lodge at Rough River Dam State Park, between Hardinsburg and Litchfield, each of 24 air-conditioned units has a private patio overlooking 5,000-acre Rough River Reservoir. Other features of the park include 13 new housekeeping cottages, paved airstrip, boat docks, launching ramps, swimming beach and picnicking and camping areas.

THE BLUEGRASS COUNTRY

THE KENTUCKY BLUEGRASS REGION, world-famous headquarters for champion horses! Here you are welcome to explore acres of blue-hued pastures, follow the miles of spanking white fences and view fastidiously-kept horse barns. Besides 250 horse farms, historic homes and sites abound. You'll want to visit Keeneland race track and the Saddlehorse Museum. Constitution Square,

where Kentucky declared its statehood, is at Danville; Fort Harrod, the white man's first permanent settlement west of the Alleghenies, is at Harrodsburg. Among many other major attractions are Lincoln Homestead State Park, near Springfield, and beautiful, meandering Herrington Lake for fishing and water sports of all kinds.

Horse Farms Are Interesting Attractions

KENTUCKY'S most famous horse farms are concentrated in the Bluegrass region within a 35-mile radius of Lexington. Maps showing exact location of farms and other points of horse interest are available through automobile clubs, the Lexington Chamber of Commerce and some service stations. Many farms are open to visitors until 4 p.m. most days.

Lincoln Homestead Has Much History, Recreation For You

NEAR SPRINGFIELD in Lincoln Homestead State Park is a replica of the cabin where Abraham Lincoln's grandfather lived and the log house where Thomas Lincoln, Abe's father, came to court Nancy Hanks. The buildings are open to the public. Golf, picnicking, and playground recreation are available at this interesting park.

Restoration Started At Shakertown

SHAKERTOWN, at Pleasant Hill, city of a famous extinct religious sect, is being restored near Harrodsburg at a cost of more than \$2 million. It will be both a tourist complex and an educational center. Shakertown was founded in 1805 when a small band of Mercer Countians embraced the Shaker doctrine of celibacy, separation from the world, confession of

sins and communal sharing of goods. Membership grew eventually to 500 and Pleasant Hill was regarded as the most beautiful and successful of several such colonies in the United States. It gradually declined after the Civil War and in 1910 the last dozen members deeded away their remaining lands in return for care during their lifetime.

THE NORTHERN LURES

THE COUNTIES along Kentucky's northern border offer a rich variety of attractions and accommodations for the vacationer. Louisville, home of the Kentucky Derby, provides cultural delights for all Kentuckians. The mighty Ohio River is noted throughout the world for its beauty and commerce. Worth a trip to see,

it's home to big barges, sail boats, water skiing, fishing and pleasure cruises. Northern Kentucky attractions range from the big bones of mastodons near Covington to the historical heritage of Daniel Boone and Simon Kenton and to the site of one of the bloodiest battles of the Revolutionary War in the Maysville area.
