EN'TIRE NATION MOURNS LOSS.

MRS. MCKINLEY PASSED AWAY PEACEFULLY SUNDAY MORNING.

Conneaut, O., May 28—Mrs. William McKinley, aged 65, died at 2 a.m. this morning at her home, 121 Water Street. She had been in poor health for more than a year, and had been attended continuously by 21 doctors. The end came peacefully and gradually, and it was a shock to her family and friends when they heard the news.

There was an unusual degree of poise during the last moments, and much of the credit for the happy ending is due to the nurses. They were very kind and considerate, and their work was done with the utmost care.

Funeral services will be held at 3:30 o'clock this afternoon at the church, and interment will be made in the family plot in the Conneaut Cemetery. The program will be simple and dignified.

Mrs. McKinley was born in Conneaut and was the daughter of Mr. and Mrs. William S. Sisson. She was the widow of President William McKinley. She was a woman of great strength and character, and her death is a great loss to the country.

TARIFF SHOULD BE ABOLISHED.

St. Paul, Minn., May 28—The tariff should be abolished, said Senator Charles B. Schroeder, of Minnesota, in a speech delivered today. He argued that the tariff is a source of great hardship to the people and that it is unfair to discriminate against foreign goods.

The senator also called for the abolition of the yellow cake tax, which he said is a worthless tax and is specifically designed to raise money for the support of the Democratic party.

IS CONCEIT THE WORST OF ALL AGGRAVATIONS OF MARRIED LIFE?

What is the most aggravating thing in the world? It is a question that people have been asking for centuries. Some say it is unfaithfulness, others say it is jealousy, and still others say it is neglect. But no one has ever found a more aggravating thing than conceit.

Conceit is the feeling that one is superior to others. It is the belief that one is better than others. It is the belief that one is entitled to more than others. It is the belief that one is smarter than others. It is the belief that one is more important than others. It is the belief that one is more special than others.

Conceit is a disease that affects all races, all religions, all ages, and all genders. It is a disease that is spread through the air, through the words of others, and through the actions of others.

Conceit can be cured, but it is not easy to do so. It requires a lot of self-reflection, humility, and a willingness to learn from others. It requires a lot of effort, but it is worth it.

So the next time you encounter someone who is conceited, remember that it is a disease, and do your best to help them overcome it.

WOMAN IS THE VICTIM

BY MAE NODAL

Woman the Victim, the Viennese view of life, was always composed of two parts, the Established and the Established. In the first, there is the woman who is not, but who is expected to be. She is a creature of social customs, and her life is a series of restrictions and compromises. The second part is the woman as she is, with all her individuality and freedom. This is a world of personal achievement and success, but it is a world that is often difficult to achieve.

The article discusses the DEATHRONT OF ALCOHOL in Paducah, Kentucky, and how it is being addressed through mediation. It mentions a program to save up $2 per month and own a little off the Mayfield road, from Norton street and between 13th and 17th streets. The article also talks about the STEEL CAR STRIKE through mediation of city officials and the terms agreed upon by the manager and there being a representative of employees. The agreement also states that grievances may be laid before the manager and there be representation of both sides. Under the new scale of wages, the company would offer the men, and what is that they will have to work in a more systematic and ordered manner.
