It is obvious that the triumph of the anti-Communist movement will be dependent on the whole-hearted support of the American people. And it is impossible to overestimate the importance of the American people's support for the anti-Communist movement.

We believe this situation is a matter of national importance, and we urge the President to take the necessary steps to ensure the success of the anti-Communist movement.

We are confident that the American people will support the anti-Communist movement, and we are confident that the anti-Communist movement will succeed.

We ask that you seriously consider the importance of the anti-Communist movement and give it the support that it needs.

"I Didn't Realize Importance Of Health Department Work"

A few days ago, I stopped at one local health office for a moment to talk with Mr. Cavendar and Mrs. Rule Gardner. I asked about their work. They told me that they were going to be doing for our community.

Part of their program was to go into schools and homes, check on the health of children, and do other needed work. It was doing as well as any other county to the best of my knowledge.

Sure It Snows In Bell!

Mrs. Helen Collins, a young woman who has been working with the Hampton White-Collar Fund, was doing as well as any other county to the best of my knowledge.
