BIG SUBSCRIPTION DRIVE STARTS MONDAY

Tobacco Festival Big Success Last Saturday

Woman's Club Arranges Yearly Program

Calloway County's fourth annual tobacco festival was staged Saturday evening, July 12, in the Murray high school gymnasium against a patriotic background of flags, bunting, colorful yard furniture and posted tobacco plants.

Fred Shultz was master of ceremonies, and the program was opened with a band concert by the Murray High School band under the direction of Harold K. Inglis. Then followed the baby parade, and it was a difficult decision the judges had to make in choosing the winners. Little Miss Joan Webb was awarded first place, and little Miss Prentice Ann Overby and the Douglas twins, Ann and Gayle, tied for second place.

The pet parade showed much ingenuity on the part of the children in displaying their pets. Walter Jones Jr. won first place with his billy goat and gaily decorated wagon; Hazel Lee Boyd was second with his dog that rode the bicycle, and third place went to the Olive Street gang who had their combined pets rigged up as a circus. Members of the gang were Lucile Fay Hart, Patricia Brouch, Ann Fenton, Patricia Brouch and Robert Dugger Houston.

All the children in the contests were given favors and ice cream. Between the features the audience was entertained with music by Paul D. Bailey, the novelty trio composed of Tommie Rusbanks, Gayle Perry and Garvis Douglas, and tap dancing by Lucile Robertson.

The feature of the evening was the choosing of Miss Calloway County, who will represent us at the Tobacco Festival at Princeton on August 28. Sixty lovely girls from Murray and the county turned up all their dazzling charm for the benefit of the judges and the audience. Miss Marjorie Bowden emerged the winner and was crowned Miss Calloway County by Mayor George Hart. Her attendants were Miss Robbie Nott Myers of Lynn Grove, who was named second, and Miss Helen Hirt third. The queen and her attendants were escorted to the throne by ushers Wells Lovett, Oliver Hood and Donald Brumbaugh.

Lamar Farmer was awarded the prize for the best plant of potted tobacco.

Judges for the baby parade and Miss Calloway County contest were G. M. Pedley of Princeton, editor of the Kentucky Progress Magazine, the Princeton Leader and Edville Record and former president of the state press association; Mrs. Berthine Williams of Hopkinsville, former state president of the Business and Professional Women's Club; Emmett Hayden of Hopkinsville, Tobacco Festival; Mrs. E. D. Sommers of Miami, Fla., and Mrs. Seph Inman of Linton, Ind. Judges for the pet parade were Johnny Graham of Princeton, county agent of Caldwell County and a winner of the Lions Club silver trophy for outstanding service to his community; Mrs. G. M. Pedley of Princeton, and Dr. Northington, veterinarian, of Mayfield.

The festival was sponsored by the Murray Woman's Club and all proceeds will go toward paying the debt on the community house which they opened almost a year ago. In appreciation of the fine cooperation they received, the club opened the house on Monday evening for a party in honor of the tobacco festival. The Murray Woman's Club, their escorts, members of the band, and all those appearing on the program, Mrs. A. O. Woods was chairman of the committee which planned the games and entertainment for the evening. Approximately one hundred were present.

Mrs. George Baker, chairman of the float committee, continues with her plans for the float which the club will send to Princeton during the Tobacco Festival.

Mrs. A. F. Doran, president of the Woman's Club, and Mrs. George Hart, chairman of arrangements for the festival, extend their sincerest thanks of the club to every advertiser, contributor, worker, promoter, to the individuals in the program and in the parades for their cooperation in making this event possible. The club desires to cooperate with you in any of your worthy projects.

New Deacons Elected at First Baptist

Five new deacons have been named for the First Baptist Church as follows: G. A. Murphy, Ray Brownfield, J. I. Fox, Vester Orr and Hunter Love. These men are elected as Life Deacons and were selected by the church last Wednesday. Ordination ceremonies will take place at an early date.

Present members of the Board of Deacons are L. L. Dunn, J. T. Hughes, H. M. McElrath, A. L. Bailey, J. H. Churchill, R. W. Churchill, W. T. Sleds, R. W. M. Caudill, R. H. Falwell Sr., Fred Gingles, T. C. Arnett, A. B. Lassiter, O. C. Wells Sr., Tremont Beale, Hall Hicks, Gus Robertson, J. W. Outland, and Wallace Lassiter.

FLYING METEORS THRILL LARGE MURRAY CROWDS

The Flying Meteors, a truly big time aerial act with bounding net, are amazing the large crowds which gather nightly on the grounds of the Reading Shows at the show lot on West Main Street. This act, consisting of the father, whose real name is William G. Bittling, of Beatrice, Neb., and his two sons, Wayne, age 18, and Willard, age 15, have developed an entirely different routine on the high bars unlike any act playing the show world today. No somersaults or performance unless it is either a double one or a double twist and with highly developed speed.

Willard Bittling, the father, has been in show business for over 30 years, having learned his trade from his father in his home state of Nebraska. Bittling has traveled the length and breadth of the land and has performed before many and varied audiences. His memories of various events, and things connected with the show world and various parts of the nation are truly refreshing in just what can happen in America.

This thoroughly congenial family have their own car and trailer and book themselves independently, incidentally they are booked solid for one event or another for the entire season. Bittling says he does not like to perform during the extreme cold months but returns to his home in Beatrice where he has a small business. Patronage of the show grounds for the remaining three days, today, Friday and Saturday are in for some extra thrills as the Bittlings have four Murray audiences to their liking and as all real trouper of show business, respond more to such an appreciative audience than they would to money. Several new and novel stunts along with the comedy clown routine will be added.

The Reading shows are pleasing hundreds nightly and there will be a notice of a Children's Day with a coupon elsewhere in today's paper to admit a child to many rides for one price. Cut the coupon out, kiddies, and be a guest of the American Legion, the Reading Shows and this paper.

The rides are safe and with just enough speed to elicit a gasp from the hardest of souls and good entertainment is mixed with the ever tempting odor of hamburgers coming from the cook tent, popcorn, music and merry crowds blend to make a real carnival spirit and good time insurance for all.

Candidates to File Expense Accounts By Friday

Friday, July 18, is the last day for candidates in the county races to file their expense accounts at the office of the County Clerk. This was announced today.

Kentucky law requires all accounts of candidates to be filed by 15 days preceding election day. One of the largest fields in the county several elections are squared off waiting the final bell. Every office has opposition and in some of the races the field is top heavy with entrants. Only 15 days remain for the candidates to establish their respective cases and much interest is being aroused as candidates and their friends put on steam for the final push.

DARK WEED POOL HANDLED 8,900,000 LBS. LAST SEASON

Boone Hill of Sharpe, president of the Western Dark Faced Tobacco Growers Association, in a report Monday said, the association advanced money on a 1940 crop total of 8,912,220 pounds, almost seven times as much as the 1939 advance total of 1,280,000 pounds.

The average advance was given as \$7.50 per hundredweight on the 1940 crop as compared with \$6.77 the preceding year.

The association handled through all sources 72.6 per cent of the 1940 crop, exceeding the average annual handling of 68 per cent for the past 10 years.

The report said the association is composed of 11,355 members in Graves, Calloway, Marshall, Ballard, Carlisle, Fulton and Hickman Counties, Kentucky, and Obion, Henry and Weakley Counties, Tennessee.

During the last marketing season, 1,689 new members joined, the report showed.

Hill said the association this year for the first time caused advances to be made to growers of Type 35 air cured one-stem tobacco through affiliation with the Eastern Dark Faced Association, shipping tobacco received to the latter's district to be pooled with its receipts.

"The facts prove beyond doubt," Hill asserted, "that the association has been the only salvation for tobacco growers especially during the past year when conditions in Europe have virtually closed our export markets. Even though we suffered the loss of this trade, your association has enabled tobacco growers to receive more for their crop than in past years."

The association made contracts with all licensed floors in the district for the first time, and shipping tobacco received to the latter's district to be pooled with its receipts.

A total commitment of \$1,000,000, it added, was made available for advances through the association by the Louisville Bank For Co-operations.

RICHMOND THANKS CITIZENS FOR AID TO CHINA

Miss Alice Keys, executive secretary of Murray State College, today announced that the total amount of money raised in Calloway County for the United China Relief fund had increased from the previously announced sum of \$338.50 to \$350.26. Dr. James H. Richmond was chairman of the United China Relief committee for Calloway County.

The additional funds were raised mainly at the "March of Time" program presented in a repeat performance by the United Daughters of the Confederacy, Monday evening, July 14, on the campus of Murray State College.

With Mrs. Warren Swann as chairman of the committee, in charge of the program, the UDC gave a tea at the home of Mrs. G. B. Scott last week, but the program was interrupted by a heavy downpour of rain. At the many requests of her friends, Mrs. Swann agreed to have the program repeated this time on the campus of Murray State College.

Dr. Richmond, in paying tribute to the loyalty and cooperation of the various groups of this area, made the following statement:

"I want to thank all organizations for their work in this worthwhile drive," President Richmond told the press today. "I have never yet seen Calloway County fail to cooperate when called upon to assist in any progressive or humanitarian project. I am sincerely grateful to our citizens for their unselfish support in this matter."

SALES CONTINUE ACTIVE AT LOCAL STOCK YARDS

Tuesday proved another big day for Murray Livestock Company with gross sales reaching \$18,845.77. This constituted 186 checks being issued to livestock raisers in this and surrounding territory.

Another large crowd greeted the auctioneers as they opened and selling was brisk and direct. Nine hundred sixty-seven head of cattle was sold during the sale and the operators are expecting next Tuesday's number to climb even higher.

Operators of the local enterprise have worked out all details for the yards maneuvers and are anticipating handling the biggest volume of business in this entire section of Kentucky and Tennessee. This sale, as did the first one, drew cattlemen from all sections of the country and several sellers' trucks were noted from far points in Missouri and Alabama. The local operators have spent considerable time and spared no methods of publicity to advertise the local operation.

Hundreds of Dollars To Be Given Away by The Ledger & Times

\$300.00 As First Prize; Everybody Wins A Cash Prize or Commission In "A Ledger & Times In Every Home" Drive Which Begins July 21

"A Ledger & Times in every home Murray and surrounding territory." Rather ambitious, we'll admit, but read on.

Next Monday, July 21, we will officially open the big Ledger & Times circulation campaign, presenting a dazzling array of cash prizes in return for a little honest effort and enterprise in securing subscriptions for your home-town newspaper.

Elsewhere in this issue you will find a page of interesting announcements, which describe in detail the purpose of this campaign and the prizes, rules and regulations, and the methods of making the awards.

Positively the most stupendous cash gift campaign ever conducted in this section of Calloway County, and as stated above the purpose of the whole gigantic gift distribution is the placing of the Ledger & Times in every home in this territory.

Raid Nets Plenty Of Moonshine

Cooperating with Federal Officers Harris and Wilson, Sheriff Ira Fox and fellow officers raided the home of Miss Josephine Tolbert, Monday at 12:30, finding 46 jug white moonshine and two dozen cans of beer.

Jim Coleman, Murray, was arrested along with Miss Tolbert. The raid was made just out of the Murray City limits, east of the railroad on Main Street.

Both persons were given bond and the examining trial was set for July 22.

The loot is in the vault of the sheriff's office.

HOMECOMING

There will be a homecoming at Almo Church of Christ Sunday, July 27. The Rev. C. L. Francis of Murray will speak at the morning hour, 11 o'clock. Dinner will be served on the ground at noon and the afternoon will be devoted to stinging.

The liberality of this offer is expected to create interest and there should be many entrants. The fact that "All Contestants Will Profit" and the ease which anyone can win the biggest prize—just a little earnest effort in getting during the spare moments of the day will do it. The prizes selected are expected to attract workers from every section of the territory which the Ledger & Times serves. Anyone certainly can use the sums of cash that will be distributed with those who enter this contest.

To be a candidate is easy and to win even the biggest prize is just as easy, if you apply yourself by clipping out your spare time. Elsewhere in this issue will be found an entry blank, which, properly filled out and mailed or brought to campaign headquarters at The Ledger & Times office will start you with 10,000 votes. Additional votes can be obtained in two ways, by clipping the free vote card which appear in The Ledger & Times, and by getting new or renewal subscriptions to the paper.

Votes are issued in large amounts at the beginning for subscribers according to the length whether old or new. Further information can be found in the announcement appearing in this issue and it makes no difference where a worker resides so far as his or her chances of winning the big prize are concerned.

The campaign is to be a very short one considering the number and the value of the prizes which are to be distributed and under no condition will the contest continue after the date advertised. At the close of the campaign the judges will gather and tabulate the votes and announce the winners. At that time those who have applied themselves profitably in their spare time will receive big cash prizes and awards that their work has merited.

Persons who have never taken part in a campaign of this magnitude are unable to realize how rapidly the start is made. Votes pile up like magic in the beginning. It is not expected that workers will depend entirely upon their own efforts, as friends will help them to gather votes, and what a merry time it will be on a strictly business basis. The bigger your effort, the bigger your prize.

Campaign office of The Ledger & Times will be open each evening until 6 o'clock.

Which Road?

When this war is over there seems to be a common assumption among many so-called "thinking" people that the remaining democracies will have to live in the future under a taint of Socialism. In other words, the idea is prevalent that we cannot survive the ordeal without absorbing some of the poison that has given civilization such a bellyache. Here in our own country, many public officials, and thousands of private citizens, cry in alarm against appeasement. They say you cannot appease the monster that is sweeping Europe. They say, and rightly so, that there can be no compromise with the philosophy whose ultimate aim is enslavement of the common man. But, strangely, these self-same people accept calmly the idea of adulterated Democracy. They propose, after the war, mind you, to attempt a compromise with the very thing that they know cannot be compromised with, cannot be appeased—Authoritarian Government. A Hitler is simply the result when authoritarian government finally reaches maturity.

Right now in this country we are condoning a compromise with the forces that destroy freedom for the individual. We are allowing our basic industries, the key to the whole free enterprise system, to be edged closer to government domination—apparently in the belief that it cannot be helped in view of the world trend.

What feeble rationalizing! What kind of appeasement is this? We are either going to have freedom and representative government in this country now—and after the war—or we are not. If we try to appease the forces of Socialism by allowing government to gradually absorb the banks, railroads, mining, and oil—under the guise of creating a better post-war society—we are heading for trouble. We will find that our basic industries have become mere patronage machines. Labor will find itself caught in a titanic struggle between two systems—the free enterprise system versus the Authoritarian system of the same brand that has engulfed Europe.

We have seen that the European Graspers cannot be appeased. We have not yet found it out at home.

Nothing would make some men work their gardens more than having them in the front yard instead of the back.

A profiteer is a man making money you would like to have yourself.

WHAT OUR NEIGHBORS THINK

Greatest Power In The World

This great explosion of hatred and malice in Europe brings its reactions to all of us over here. It sweeps in great waves of unrest and mental disturbance which we must understand and conquer.

There is no devil but fear, and nobody and nothing can harm us but ourselves. We are as strong as our trust and faith and if we believe in ourselves, the world will believe in us. The greatest power in the world is the Power of Good. Knowing this, we can shake off the waves of fear and unrest.—Christian Science Monitor.

WHO?

Identify This
Person For a
\$1.00 Prize

The picture is the most complete description of the person whose picture we ran last week. The Ledger & Times will send one dollar to Mrs. W. T. Chesley, 119 So. 12th Street, Murray, Ky. The text of the letter is as follows:

The picture featured in the Ledger & Times of July 10 is that of Perry H. Thornton, the only son of Mr. and Mrs. Joe Thornton of Cherry Creek, Ky. Perry's father died leaving him a little lad of four years old, with five sisters. His mother, Mrs. Bush Hicks Thornton, with the aid of her father and mother, Mr. and Mrs. H. Hicks, also of Cherry Creek, reared this son, Perry, with the five sisters, to be grown and all married. He attended the Cherry school.

As the grandparents grew to be old, this young man, Perry H. Thornton, gave help to them the same as to his widowed mother and sisters. When his grandmother Hicks died, he then took his grandfather in and took care of him.

Perry H. Thornton was quite a handsome young man and had several admirers. However, at the age of 18, he chose the charming Miss Frouse Evans for a bride and married on the month of June, 1901. He is the father of four daughters and two sons.

He, with his family, now resides on a nice farm about one mile east of Murray. He is a brick mason by trade and has owned and operated quite a nice dairy. He is a prosperous farmer.

See if you can figure this one out. Remember that everyone except employees of this paper are eligible to enter this contest, and your entries in to us by 5 p.m. Monday, in writing.

This Week In Defense

President Roosevelt informed Congress he had ordered a Navy force to Iceland to "forestall any pincer movement" by Germany against the Western Hemisphere. He said German occupation of a country would threaten American continent.

The President later told his press conference that whether Iceland lies outside the Western Hemisphere is an academic question. He said there are points outside the commonly accepted Hemisphere limits which are of importance to U. S. defense, and that in occupying Iceland he acted to forestall a hostile move which strategists considered logical or likely.

Selective Service
Selective Service Headquarters announced that 21-year-olds who registered July 1 will be given draft numbers so they will be called in proportion to previous registrants rather than ahead of or after older men. Order numbers will be determined by national lottery on July 17.

Headquarters advised local boards to defer men who have volunteered for civilian or military duty with Canadian or British forces. The House passed legislation to permit deferment of all men who were in the armed forces of the United States on July 17.

Alien Education
The President allocated \$14,000,000 of WPA funds for a program to educate 1,000,000 aliens in the duties and responsibilities of citizenship. More than 11,000 teachers on WPA rolls will conduct classes for aliens who wish to become citizens.

Registered Civilian Organizations
WPA announced that more than 200,000 civilian organizations and local organizations with 50,000 members will be catalogued within the next 60 days to determine the parts the organizations and individuals can play in home defense. The Office of Civilian Defense can find qualified persons for new programs. All except purely social clubs will be indexed.

Civilian Supply
OPM conservation officials announced that "out purchases" our habits our daily lives, perhaps our styles, will be controlled by the requirements of national defense. Some of the changes facing the public according to OPM: No corks in bottle tops; beverages in bottles rather than cans; silk used in parachutes will make silk stockings more scarce; women will have fewer permanent waves, combs, and facial creams; it will not be patriotic to buy two automobiles; farmers will choose from 300 instead of 1,400 types of plows; chrome, copper, aluminum and woods such as mahogany will probably not be available to the furniture industry; and many designs will be eliminated.

Buy Coal Now
The Federal Bituminous Coal Consumers' Council appealed to the nation to "buy coal now" so it can be moved from the mines before growing defense production turns the country's transportation system. There is an ample supply of coal, the Council said, but September 15 short-rail cars may develop unless coal is stored for the winter before then.

Prices
The War Relocation Authority announced that price ceilings on rubber tubes and other rubber products will be deferred for several months to allow the industry time to work out price problems voluntarily. He announced, however, that selling prices will be suspended within a certain grade of West coast lumber used by the government in the Philippines and started that recent action to check

Collie Loves His Work Despite Painful Injury

T. C. Collie, popular manager of Adams Brownbilt, was suffering from a painful injury to his eye after having been hit by the end of a shoe box but even this did not dampen his enthusiasm for the shoe business.

T. C. is a local boy, having been born here in Calloway the son of Mr. and Mrs. E. E. Collie. He was educated at Murray High leaving there in 1931 and then finishing at Murray State in 1936. While attending school he was part time employed by Corn-Aust Clothing store. After finishing college he spent 10 months with Lemmas then going to Paducah to become connected with the Walls Shipper Shop. This proved T. C.'s undoing for since that time he has been definitely a shoe man.

Loren Adams brought him back to Murray when he opened the present store but after a short stay here he was transferred to Morristown, Tenn. In 1940 T. C. came home, as he put it, to stay.

In 1936 T. C. persuaded Mildred Crider of Bradford, Tenn., that two could live as cheap as one while she was visiting Murray and since that time they have proceeded to prove it. T. C. lives in his home on the Benton Road and if you should happen to see a stray dog or so hanging around think nothing of it for Collie has a decided weakness for his canine friends. He indulges in quite a bit of tennis but no amount of questioning can make him admit that he is good at the game.

During his travelling around and getting his feet on the ground in the shoe business, T. C. managed to graduate in the Dr. Scholl's School of Practicalities and has spent a good deal of time in St. Louis markets studying the various trends of the shoe marketing game. He says he has watched many novelties come and go but the standard lines still are the "bread and meat of the merchant."

He likes to point to the present paved streets of Murray and the church. T. C. never misses an opportunity to invite you to attend his Sunday School class at the First Baptist.

WORK STARTS ON FINE ARTS BUILDING

The WPA started work Monday, July 14, on the new \$125,000 fine arts building on the campus of Murray State College.

The building was officially authorized on April 10 when the Murray regents sold \$60,000 worth of bonds to Stull Brothers & Boyce of Louisville for the construction of the unit. The bonds are to be retired out of additional fees charged students using the facilities of the new building.

Members of the board of regents who were present at the sale of the bonds were George W. Hart, Claude Winslow, Charles Ferguson, and C. E. Crum.

Prof. Price Doyle is head of the fine arts department which includes music, dramatics, and arts. G. Tandy Smith, Paducah, is architect for the new building.

According to Miss Alice Keys, administrative secretary, the estimated cost of the new building is approximately \$125,000. The bonds are secured by a first lien on the gross revenues derived from the operation of the fine arts building. They were issued under provisions of chapter 72 of the act of the General Assembly of Kentucky, 1934.

Known in the first World War, The Commission said the greatest single weight saving measure was the introduction of welding to replace riveting so that entire ships are now built without a single rivet.

POSTMASTER SLEDD EXPLAINS USE OF DEFENSE BONDS

Postmaster Harry I. Sledt today spoke concerning Defense Savings Bonds and explaining their use to our Government.

"Defense Savings Bonds are of the land and the people. Through the ownership of these bonds, great numbers are building for future security and importantly, these bonds are doing their part in works of peace and defense of our country."

"Savings Bonds have been bought and are held by more people than any other security. Every section of this country, every city, town and village has an impressive number of owners of Savings Bonds—volunteers in a great peace-time army, and of tremendous potentiality should war reach our shores."

Further emphasizing the basic purpose of these securities, Mr. Sledt said: "The registration of United States Savings Bonds sold on and after April 1, 1940, has been restricted to individuals. "Defense Savings Bonds and Stamps give us all a way to take a direct part in building the defense of our country—an American way to find the billions needed for

DEFENSE BOND QUIZ

Q. What is the price of a Defense Savings Bond?
A. For the smallest Bond, you pay \$18.75. The Bond will increase in value in 10 years to \$25. For \$75, you get a Bond which will increase to \$100; other Bonds are in proportion.

Q. What will the Government do with the money I pay for my Bond?
A. Your money will be put to work at once in the National Defense Program to protect the freedom and safety of the United States, and all of its people everywhere.

NOTE:—To purchase Defense Bonds and Stamps, go to the nearest post office or bank, or Defense Program to protect the freedom and safety of the United States, and all of its people everywhere.

National Defense.
"The United States is today, as it has always been, the best investment in the world. This is an opportunity for each citizen to buy a share in America."
"The local Post-Office," Mr. Sledt said in conclusion, "has on hand Defense Stamps and Defense Bonds of all sizes and denominations."

Not Again In A Lifetime

When political and moral standards deteriorate and become warped; when our whole conception of life, and business, and work is threatened; when we no longer know where to turn for security; when, in short, the world is threatened with moral and financial chaos as today, then there is nothing for the individual to do but to turn to real values for protection.

A home is such a value, fundamental and unchanging.

Against a future that for every family in this country is dark with the terrible uncertainty of war, the home stands out in bold relief as the only sure and satisfying refuge.

The cycle of war for the individual and the nation is always the same—artificial prosperity, rapidly rising prices, personal misery and unhappiness, some kind of inflation, and then harsh readjustment.

Although not now a belligerent, this country has already entered the first phase of the cycle—artificial prosperity. Rapidly rising prices will follow soon. But there is still time for the individual permanently to fix his shelter costs at a reasonable level.

The man who does this now may be sure that he is acting wisely and well. He has built a strong shelter against the storms without. And when this dreary period of killing and destruction, of insane ambition and wanton sacrifice ends, as end it must, his home will stand as a blessing to his family and a living tribute to his foresight.

Whatever happens to your or your job, you must have shelter. Today you are buying that shelter at the lowest cost.

No other possession is safe. Money, stocks and bonds are not values, but only symbols. They can disappear over night, but a home remains always that. The only real security is a home of your own.

Today you are far surer, far safer, investing in a home than you can be of anything else.

Yes, this is a good time to build.

In the lifetime of most of us, there will never be a better.

Today, as never before, and probably not for years to come, will the time be more opportune to build than now. Prices of materials are at their lowest point, labor is available at very reasonable cost, and financing is easily possible on the best terms in the history of building. These, together with the fact that land or lots are available now at prices that are sure to be higher in the near future, is ample reason to seriously consider this opportunity.

If you own an old residence in this vicinity it will be well to consider the foregoing in the light of remodeling. Especially consider remodeling into modern, small apartments for which there is already a demand. Income property is especially valuable at a time like this. We will be glad to discuss with you all details, which will not obligate you in the least.

Wild Game Will Be Plentiful in Kentucky

FRANKFORT, July 16—Prospects for an abundance of wild game for Kentucky sportsmen during the coming hunting season now appear bright, according to reports which are being received by officials of the Division of Game and Fish from interested conservationists in every section of the state.

It has been reported time after time that the squirrel population has increased by leaps and bounds and that they are now so numerous that the farmers are complaining of damage which they are doing to the crops adjacent to wooded areas. Many young squirrels have been seen crossing highways and hopping along the roadsides which was not noted so much last year, although the nimble rodents enjoyed an unusually good season of hunting the little bushy-tailed animals during August 15-October 31, 1940.

With rains falling when most needed, reports have been received by the Division of Game and Fish which would indicate that those Bob White Quail released by the Division and the sportsmen during April, this year have mated and are now escorting coveys of young birds proudly over the farmlands. Large numbers of the Bob Whites escaped the hazards of the 1940-41 winter and are also rearing broods of young birds. If mother nature will be kind for the next four months and favor men and wildlife with the proper seasons and if man will observe the game laws and protect the old and young quail, there is no reason why Kentucky hunters should not enjoy an exceptionally good hunting season this fall.

Western Kentucky Wheat Yields Big

The annual meeting of farmers and farm women at the Western Kentucky Experiment Substation at Princeton is scheduled for July 31. It is announced by S. J. Lowry, superintendent. Crops, fruit, soil experiments, and the dairy herd and the poultry flock will be seen by the visitors. This annual event usually attracts 1,500 to 2,000 persons from the western counties of the State and from other states.

Special programs have been arranged for persons interested in field crops for those interested in fruit growing, and for those interested in dairying and in poultry raising. There also will be a special session for women during the morning.

The principal address will be delivered at 1 o'clock by Prof. George Roberts, head of the experimental work in crops and soils at the main Experiment Station at Lexington and at the experiment substations at Princeton and Quicksand.

Progress has been made at the Princeton Experiment Substation in improving both sandstone and limestone soils and crops, fruits, hays and grasses will be seen growing on these lands. The Substation has an orchard of peaches, apples, strawberries, raspberries, boysenberries and grapes.

Jaws and protect the old and young quail, there is no reason why Kentucky hunters should not enjoy an exceptionally good hunting season this fall.

Will Speak

Mrs. Chas. W. Sewell

Mrs. Chas. W. Sewell of Chicago, administrative director, Associated Women of the American Farm Bureau Federation, will share speaking honors with Larry Williams of Indianapolis, sales promotion manager, Farm Bureau Mutual Insurance Companies, Inc., at the district Farm Bureau basket picnic to be held on July 23 in Senator Graves' woods just north of Georgetown on Long Lick Pike, just off U. S. 25.

Mrs. Sewell will stress the need for a larger membership in the Farm Bureau in order that agriculture may serve as a balance wheel around the conference table where national policies are formed. It was Mrs. Sewell, an Indiana farm woman, who in 1934, thought out and organized the wives of Farm Bureau members into the Associated Women organization. She realized that if school, church, and community are to grow together, the women would play an important role.

The counties expected to attend the picnic at Georgetown include Lewis, Mason, Fleming, Nicholas, Bath, Bourbon, Harrison, Pendleton, Campbell, Grant, Gallatin, Carroll, Owen, Trimble, Henry, Shelby, Franklin, Anderson, Woodford, Jessamine, Madison, Clark, Fayette and Boyd.

STATE FAIR PLANS ARE NOW BEING MADE BY JEWELL

LOUISVILLE, July 16—This is a story about what Mary had, as if you hadn't already guessed, only it has to do with grown-up lambs or Mother Goose doesn't enter into the picture. You can gamble on it, too.

Robert B. Jewell, manager of the Kentucky State Fair, which this year will hold the spotlight for eight nights and seven days from the big Saturday night prelude, September 6, through Saturday, September 13, has announced eight new classes for Kentucky ewe and wether spring lambs, and while a bit late in inaugurating this addition to the Sheep Division, he has wholehearted support and assurance from practically every State breeder that in time it will be of national scope.

Added money and ribbons have been hung up for exhibitors of best pens of the Southdowns, Hampshire and cross-bred ewes and wethers, best single ewe or wether in the Southdown, Hampshire and cross-bred division and for grand champion ewe and wether. Added up as three prizes for best pens of three in the three classes and best single lambs in the order named accounts for six prizes and the grand championships rounds out the eight. All entries are to be strictly butcher lambs dropped in 1941. Mr. Jewell explained, adding that the premium catalog now in the hands of the printer will soon be put in the mails for benefit of exhibitors. Full details of the competition will be contained in the book.

"This is strictly a fat lamb competition," said Manager Jewell, "and it is by no means to be confused with breeding classes in the Sheep Department. We are going to have an even bigger and better sheep show than ever before in the history of the exposition and we hope the new ewe and wether classes will enable us to show how important the Kentucky Spring lamb is in the national defense set-up. Unless I, miles my guess, it's going to be one of the outstanding features of the fortieth annual Fair. True, we're a bit late in getting going on this thing, but I am confident we're on the right track."

A stipulated rule in the competition for these eight awards makes it obligatory on the part of all exhibitors that the grand champions be sold at public auction on Friday of the week on the grounds and the management is looking forward to spirited bidding and new highs for the offering. Hotel men and restaurateurs already are showing interest in the auction and undoubtedly these prize-winning lambs will be served up with mint sauce and the other necessary "fixins" later in local and out-of-state eating places.

When selecting your Representative, give consideration to experience and interest in legislation for the public good. Do not select him because his name is Tom Turner or John Jones, but if he has felt the sting of taxes he will be more economical and interested in what becomes of the tax dollar and will not tie himself up for a job.

The state is out of debt and should help the counties out of debt.

My opponent pays only a poll tax. That does not disqualify a voter or a candidate for this position, but he has been on the pay roll about 16 years. I think, drawing about \$10,000, and only paying a poll tax. This does not show thrift. I have not paid less than \$860 in taxes any year in 20 years.

I pay willingly, but am interested in getting back to our county and town a just share of the benefits of government—for schools, old age pensions, and other benefits from the general tax dollar.

The Road Fund is not a general tax, but comes from the special tax on motor vehicles. Then why stand still and see the road program of Calloway County lag as it has for the last two years? An officer of the Highway Department told me a few days ago that the Rural Highway Department of Calloway County was less efficient than any county in the First District. What excuse is there for this condition? Well, if your supervisor is more interested in running for office, he will use the job each day for what he thinks is his political benefit, but if he loves the roads more than selfish interest he can get one-third more roads for the tax dollar.

There will be the biggest melon cutting in Frankfort next winter in the history of our state—\$5,000,000 annually to be distributed to the institutions of the state. Since there is no more state debt to pay, shall we put up a fight to get a just share for Calloway, schools, old age, and other just demands?

If last session had passed an enabling act to contract with TVA power a saving of \$12 annually would have resulted to all home users, but your Representative did not vote for it. Since we lose the lands to the TVA, why not get the benefit of cheaper electricity? But your representative did not vote for it.

The TVA will pay the county for the roads that will be flooded. Why not plan to rebuild and relocate the roads in that area?

The bridges must be freed; the trucks need relief for the movement of farm products to market. I am not worrying about winning, but do dread the real job of serving in this most important session in the history of the state if you do elect me. Central Kentucky has the advantage; we must contend for our share.

Come to the coolest store in town. Buy what you need for the near future, as prices are going higher. Each purchase is a saving, and this goes for all stores.

KENTUCKY HAS BIG CROP OF PEACHES

To help dispose of one of the biggest and best crops of peaches ever grown in Kentucky, and also to encourage canning and preservation of more food in homes, the Department of Markets and Rural Finance of the College of Agriculture and Home Economics is working for the widest possible distribution of peaches throughout the State.

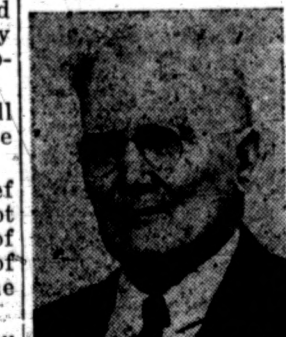

Surveys are being made to determine the amount of peaches storekeepers will need to supply family requirements for canning and preserving. County home demonstration agents, through homemakers' clubs, are giving demonstrations in canning peaches and other fruits, and are furnishing recipes and other information about ways of using and preserving fruit. Families are urged to consider canning large quantities of peaches—enough for one or two years.

Associations of fruit growers have agreed to provide peaches for any community in the State. Prices will be such, it is believed, that many families will put up hundreds of cans. In the face of rising food prices, it is considered good economy to take advantage of the large crops of peaches, apples and other fruits, says a statement from the College of Agriculture and Home Economics.

Experiment Station Holsteins Classified

The Holstein-Friesian Association of America, with headquarters at Brattleboro, Vt., has awarded a herd classification certificate to the Kentucky Agricultural Experiment Station at Lexington, based on the official classification made by Prof. F. W. Atkeson of Kansas State College. Thirteen animals in the herd were classified. One—red, excellent, two very good, five good plus, three good and two fair.

A family gathering and dinner was given in honor of Ralph Crouch Saturday, July 12, at the home of his parents, Mr. and Mrs. R. D. Crouch.

William Smith left for Ohio recently to accept a truck driving job.

The Sunday School class of Mrs. Lucile Potts entertained the class of Mrs. Neuma Cooper's at the Coldwater Methodist Church Wednesday afternoon. Refreshments of cookies, sandwiches and lemonade were served. A nice time was reported.—K. T. Did.

WHEAT YIELD UP

Wheat on the farm of R. N. Ratliff, Bath county produced 32 bushels to the acre. Eight years ago the yield on the same land was six bushels. The increased yield according to County Agent Joe Thompson, came from the use of limestone and superphosphate, the field having received 2½ tons of limestone to the acre and quantities of 47 per cent Tennessee Valley Authority phosphate.

S. Pleasant Grove News

The revival at Oak Grove Baptist Church is in progress. The pastor, Rev. J. H. Thurman, is being assisted by Bro. Ardeburn of Detroit, Mich. Four conversions were made Sunday and Sunday night. We understand this church still believes in an altar of prayer, which is a great help to the unsaved in repenting and receiving the joy of salvation. Very large crowds are attending this revival.

Rudolph Paschall and Master Ellis Hayes returned home last Tuesday from a visit with relatives in Detroit.

Tricky, the little pet dog belonging to Ellis Hayes, won second premium in the pet show at Murray Saturday evening.

C. R. Paschall and daughter and son, Miss Viola and Ellis made a business trip to Mayfield Saturday afternoon and reported a heavy haul.

LIVING FROM THE FARM

By C. O. BONDURANT, Associate County Agent

American farm home life is the greatest and most democratic life in the world today. The people of Calloway County can help do their part in this period of national emergency, toward preserving that life, as a human heritage, by conserving and utilizing more efficiently, first their own human resources, and second the physical productive resources (soil, climate, and topography) which they are blessed. The responsibility for the preservation and efficient utilization of the soil rests with the people, and with proper care the soil of this county will continue to produce full "quota" of high quality tobacco and an abundance of excellent feed and feed crops.

With the intensive system of farming which already exists in most of the county, and high location value of Calloway County (and hence there's a good reason to believe that more high value and nutritionally important foods such as dairy products, poultry products, and fruits and vegetables and fruits should be produced. These products properly canned, preserved and stored on the farm and in the farm home will improve and stabilize home life in the county, and the portions sold will improve family living standards in the county and at the same time will help to properly feed and save this nation and the world.

Wonderful progress has been made along these lines during the past few years through the untiring efforts of Mr. Cochran, and his helpers, and the fine leadership of the county.

In addition to these, the families should can a large amount of the price of many foods that have to be purchased from stores, particularly those that are commercially processed, have already advanced and may advance still further. With prices of products in general going up the farm family should do everything possible to use to best advantage all foods available from the garden and orchard.

Peaches may be canned, preferably in sirup and this is probably the method most of the fruit is preserved for future use. Another method, very inexpensive and easy, is drying. This method saves cans and lids, fuel, and long hours of hot work.

County Home Agents To Collect Aluminum For Defense

County farm and home demonstration agents throughout Kentucky are to take an active lead in the rural sections in the campaign for the collection of old aluminum for defense, according to T. R. Bryant, assistant director of the extension service of the State College of Agriculture and Home Economics. The campaign will begin on a nation-wide basis the week of July 21.

Mr. Bryant has instructed a county extension agents to coordinate their activities with those of the committees which the Governor is appointing in all counties.

To do the job effectively, a house-to-house canvass will be made through local committees, women's clubs and 4-H club members.

The campaign in Kentucky will be a part of the nation-wide drive to collect old and unwanted aluminum to supplement the large quantities of this material needed in the production of defense equipment.

Sunday afternoon, Mr. and Mrs. Henry Ellis were county guests of Miss Annie Willis and Jessie McClure.

KENTUCKY ROADS WILL CARRY SENSIBLE LOADS!

Major Thomas H. Cutler, Chief Engineer of the Kentucky Highway Department, says our roads are designed to sustain at least 16,000 pounds per axle load and our newer bridges will take care of two 15-ton loads passing each other at any point on the span. But our law limits the gross weight of a truck (including its payload) to 18,000 pounds. (Many passenger buses crossing Kentucky weigh from 22,500 to 30,000 pounds, empty!)

Under Kentucky's antiquated law two vehicles 30 ft. long are required to carry the "pay" load which one vehicle 40 ft. long could transport if our state load law limits the gross weight of a truck (including its payload) to 18,000 pounds. Instead of reducing highway congestion and traffic hazards, actually increases these dangers.

WEATHER WEARS CAUSE 75% OF HIGHWAY DAMAGE

Heat, frost, erosion of shoulders and subgrades accounts for 75 per cent of highway maintenance costs, according to a study made by highway experts and announced by Joseph B. Eastman, former Federal Coordinator of Transportation. Vehicles with balloon tires—and almost every commercial truck is equipped—have no appreciable wearing effect on modern roads.

KENTUCKY HIGHWAYS PAY PROFITS—COULD PAY MORE!

Reports the Louisville Courier-Journal (June 18, 1941): "The State Highway Department believes that high type trunk highways pay for themselves in added revenue from gasoline and other taxes and ultimately produce profits that can be used to build local feeder-farm to market—highways."

THESE PROFITS WOULD BUILD MORE ROADS

But the profits would be far larger—and build more and more secondary roads—if Kentucky's motor truck laws were up-to-date. You can see this when you consider that more than 75,000 or 20% of the licensed vehicles in Kentucky are Commercial trucks, and they pay 35% of the total gasoline tax. Indiana Highway Department statistics show that trunk highways under the Indiana load limit—32,500 pounds—show a net profit of \$2,000 per mile, per year. Kentucky will never match this figure with a 18,000 pound gross load limit—too many truck lines "by-pass" our state and we lose the revenue!

77% OF KENTUCKY COMMUNITIES ARE SERVED ONLY BY TRUCK

Every person in these communities is paying a hidden transportation tax, because of Kentucky's antiquated load limit law.

KENTUCKY'S PRESENT LAW INCREASES HAULING COSTS 37½%

Carefully analyzed figures prove that, with a 32,000-pound truck load limit in Kentucky, 37½% of actual hauling costs could be saved on everything imported to or exported from Kentucky by truck.

The Motor Transportation Industry of Kentucky is seeking to modernize Kentucky's motor truck law, to eliminate trade barriers which are now making Kentucky a transportation bottleneck, and which Federal officials say are impeding National Defense. For your own pocketbook's sake you should support this program. Talk to your legislative candidate about it!

Hall Hood Makes Strong Appeal For County Attorney

The campaign is nearing the finish, and I want to take time out for a few minutes, that we may talk together, and reason each with the other.

Gratitude is a feeling so deep that it is difficult to express. I wish I were able to adequately express to you the deep, heart-warming feelings your kindnesses have caused me to experience.

Soon after you had done me the great honor of nominating me your County Attorney heretofore, I received a Civil Service appointment call, tendering me a position in Boston, Mass., at a salary of \$3,600 per year to start with. That is more than three times as much salary as I have ever received per year in my life. I turned it down for one reason and one reason only: Calloway County is the place of my birth; of the birth of my forefathers, and the best place on earth, I think, to live and rear a family. I would rather just live moderately, supported by the friendship and understanding of my neighbors of Calloway County, than to live extravagantly or acquire a fortune any where else.

Unfortunately, there are a few people who like to believe the worst thing they hear, or can manufacture out of their own imagination, about any one who has been exposed to the searching light of public office holding. If we had had a few speeches, some of this propaganda could probably have been brought out into the light. I can't run down, analyze, or expose every false and malicious statement that is circulated, but let us reason together.

Will you take time out and learn for yourself who the pastor of your church—the pastor who lives and works for God and man in your own community—is for? He may or may not be for me, but he won't mind telling you why he is for whoever is his choice.

My life and work as a public officer is so well known that I would gain nothing by declaring it, or attempting to explain it.

When I entered this race I knew that there would be bootleggers and ex-bootleggers, criminals, and enemies of good government who would fight me every step of the way with both fair and foul means. I knew there would be many good people, who for reasons satisfactory to themselves, would not support me. But, I knew then and I know now, that the great mass of God-fearing, law abiding citizens of this county would and will support me. Rackeeters and outlaws will not tell you they are against me because I am an enemy of their business; they are usually smart enough to make up some reason which covers their real purpose.

Then there is propaganda. These paid, or voluntary propagandists, will go from group to group, and place to place, singing some pre-arranged tune such as, "that 'so-and so' is gaining fast" or "will get a lot or all the votes in certain places," etc. Often this is nothing but propaganda. The chances are the person talking doesn't know how a single person in that community is going to vote. Then you will hear that Hall Hood thinks he can win without seeing the people, or some other such clap-trap. The truth is, of course, that I have and am making a tremendous effort to see every one, and personally ask for your vote. I really enjoy that part of a campaign wherein I am permitted to see and talk with you. It is also true that obligations which I have no right to ignore have kept me from making as close a house-to-house campaign as I would like to make.

In conclusion, may I ask that you consider carefully these questions: Who, of the candidates, is best qualified for County Attorney? In whose hands, in your judgment, can the important duties of this office be most safely entrusted? Whose judgment would you rather risk on a question of public policy? Who is able to aid most the County Judge, Fiscal Court, Sheriff, Clerk, County Board of Education, and other officers? Would you employ a man to plow your corn because some one said he was a nice fellow, or would you want to know that he could do the job without plowing all your corn up?

I can only request that you cast your vote for me. The decision and the vote are yours. THIS IS MY PERSONAL APPEAL TO YOU. NOW, WHILE YOU READ THIS, THANK YOU VERY MUCH.

CCC OFFERS SEVERAL JOBS TO ENROLLEES

Unlimited opportunities are now being offered enrollees in CCC Camps, according to advice received from Conservation Corps officials. The CCC is interested in obtaining enrollees who would be interested in and adaptable to special jobs and training courses that now exist in the corps.

Mrs. Mildred Dunn, referral agent, Calloway County, issues the following lists with specifications for several jobs that would enable the enrollee to become thoroughly trained in this special field but in addition to become thoroughly trained in the program already being used by CCC.

The following positions are available to enrollees with the proper training, experience and interest:

Typists—Typists are needed for filling out catalogue cards and records. High school graduates are preferred. The work will consist of taking data from field records, transferring it to cards and other forms, and filing these cards and forms. In the filing, cross indexing is followed. Many technical terms will be met in the work. Enrollees should type around 40 words a minute, be accurate, neat and adept at spelling.

Lettering and Drafting—Enrollees are needed for work of this nature. This work will consist of (1) printing labels (2) making outline drawings (3) making titles on maps and plot sheets, (4) making drawings of type artifacts, (5) numbering and labeling photographic negatives and (6) making signs. Enrollees with a high school education and experience in mechanical drawing or art or both are preferred. With the training received in connection with the project work enrollees should be capable of securing jobs as sign painters or apprentice draftsmen.

Modelers and Repairers—Enrollees are needed for the repair and restoration department in our archaeological laboratory. The work which the enrollees will be called upon to do consists of repairing Indian artifacts, making models

and plaster casts. Boys who are skillful with their hands and who have plenty of patience are required. The training is fine in preparing for work as museum preparators, modelers and restorers.

Photographers—Enrollees with an interest in photography are needed for the project-darkroom. The work will consist of developing and printing field photographs. Also, the photographing of artifacts. High school graduates or boys with considerable previous training in photography are needed. The job will give training sufficient so that boys should obtain jobs in photographic processing shops, or to establish themselves in a photographic developing or supply business. The training received would also be excellent for clerks in photographic supply shops.

Surveying—Enrollees, preferably high school graduates, who were especially good in mathematics (particularly trigonometry) are needed in connection with topographic mapping work. Qualified enrollees will receive instructions in the use of the transit and alidade. After the training received here they should be qualified to secure jobs as rodmen.

Mineral Identification—Enrollees with an interest in geology, especially mineralogy, is needed to identify minerals. A high school background is preferred, although not required, if supplemented by an interest in the subject. The work will consist of identifying the rock and minerals used in artifact making and in tracing their local sources.

Laboratory Assistants—Enrollees are needed to work in this capacity. The work will consist of classifying artifacts and describing them. These enrollees will work directly under specialists in this line. An interest in Indian material would be a helpful prerequisite. Boys should be high-school graduates. Some work in tracing the distribution of artifacts in the archaeological laboratory will be required.

Ethno-history—Enrollees with a strong liking for history is needed for the work of gathering and organizing data in regard to the early history of Western Kentucky. He should be a high school graduate with a high scholastic standing. The work will be largely

Some Early History

By JOHN WRIGHT HOLAPPLE

As previously stated the first white settlers in Calloway County were James Stewart and David Jones who settled near Wadesboro. That was in 1818, the year in which General Jackson and Isham Shelby purchased from the Chickasaw Indians all the land in Western Kentucky lying between the Tennessee and Mississippi rivers. This is the reason why that part is called Jackson's Purchase.

Settlers moved in from the Carolinas, Virginia, Pennsylvania, upper Kentucky and other sections. Distilleries were common. Whiskey was a popular commodity. I once heard an old citizen say he paid a barrel of whiskey for a quarter section of land while the land office was at Wadesboro. Paducah was settled about the time Wadesboro was. The first house there was a little wooden structure in which whiskey was sold. Paducah was incorporated as a village in 1830 and as a city in 1856.

I recently saw a unique business card. On one side was printed the name of the firm with its business, on the other side was the following:

Read this sentence: FINISHED FUNDAMENTAL MANUFACTURED ITEMS ARE THE RESULT OF YEARS OF SCIENTIFIC STUDY, COMBINED WITH THE EXPERIENCE OF YEARS. Now, count the F's in that sentence. Count them only once; do not go back and count them again.

A bibliographic nature although some work with micro-films may be brought into the research.

Comparative Anatomy—Enrollees with at least a high school background and an interest in biology is needed for work in identifying animal bones. The work will consist of collecting (under a collector's permit) of species of local fauna, cleaning, preparing and mounting the bones on identification boards. Also in identifying bones recovered from archaeological excavations by comparison with mounted types.

There are seven F's. One of average intelligence finds four of them. If you spot five you are above the average. If you get six you can turn up your nose at most anybody. If you caught all seven you are a genius and a lot too smart to be wasting your time on foolishness like this.

In the year 1818 there was a revival meeting held under a brush arbor near Madisonville, Hopkins County. A church was organized which is still in existence. It was first called Christian Union, but later given the name of Grapevine because of the great number of grape vines which grew up on the arbor. Alexander Campbell preached there once. They first built a log church building which was later torn down and succeeded by a frame. Later this gave place to the fine brick building which I held a meeting there in October 1890. The church issued a Centennial History in 1934 in which it is said that was a wonderful meeting. There were 45 additions. I shall never forget that meeting. J. F. Story was their minister and lived on a farm nearby. When I reached his home on Saturday before time for meeting to begin he proceeded at once to tell me that they did not expect many additions but wanted to keep up the longstanding custom of having a protracted meeting every Fall, and that he did not want me to be disappointed. He said they kept the available material worked up pretty well and there were few prospects, etc. The aforementioned year book makes the following reference to that meeting:

"On September 21, 1890, a three weeks' revival was begun in which Elder J. W. Holapple assisted. There resulted from it forty-five additions to the church membership. What a wonderful meeting that was, with the kindly, sincere country folks coming from far and near in wagons and on horse back, every bench in the house filled and people standing around the walls. It must have been a real old-fashioned meeting with old fashioned religion and singing."

I stayed in the preacher's home. One night it was raining and we doubted whether or not we would find anybody at church. But we went, found a house full and had

Former Callowayan Dies in Paris, Tenn.

Funeral services were held at Shady Grove Church Saturday at 2 p. m. for Thomas Roscoe Jenkins, 77, who died Thursday at the home of his daughter, Mrs. E. D. Nanner, Rev. D. W. Billington, of Murray, Ky., and Rev. T. L. Cole, of Springville officiated. Burial was in Shady Grove Cemetery.

Born in Humphreys County, Mr. Jenkins was the son of the late Elijah Allen and Sarah Ann Pruett Jenkins and at an early age moved to Calloway County, Ky., where he lived until 22 years ago when he came to this county. He was a retired farmer and for the past 7 1/2 years made his home with his daughter. He was married to Mrs. Stella Pruett Stewart, May 11, 1912, and to this union were born two daughters, Mrs. E. D. Nanner of this county and Mrs. Joe Starbuck, of Old Hickory, Tenn., both of whom survive. He is also preceded by one step-son, Cedric Stewart of Madison, Tenn., one granddaughter and two step-grandchildren. Paris (Tenn.) Post-Intelligencer.

STARTS VACATION

Leo Cunningham, popular member of the State Highway Patrol, started Monday on his vacation. Leo has been stationed here in Murray for some time and is a former Paducah boy.

Several confessions: Their first regular preacher was Washington Dunkerson. Then came Orville Collins, W. C. Dimmitt, H. B. Davis, D. M. Brooker as predecessors of Brother Story. Several fine preachers have gone out from that church during the intervening years. Other congregations have been the outgrowth of this old church. I think of Madisonville, Morton's Gap and Bethlehem, and there were probably others.

Even as far back as 1890 when I held the Grapevine meeting they had one of the nicest country cemeteries to be found anywhere. It was extra nicely kept, with a full-time janitor, if I have not forgotten.

Culvers Injured in Auto Accident Monday

Mr. and Mrs. Lowell Culver, Paducah, Route 2, sustained injuries Monday afternoon on the Paducah Highway, north of Hardin, when they were hit by a automobile driven by Monroe Jones Jr. from Grand Rivers, Ky., who was charged with driving a car while intoxicated, leaving the scene of the accident without offering aid and flourishing a deadly weapon. Jones caught a bus at the scene of the accident and proceeded to Hardin. Russell Baldree and Leo Cunningham, state highway patrolmen, caught him on Highway 98 east of Hardin. He was brought to the Murray jail.

Mr. and Mrs. Culver are reported as resting very well.

STATE TRUCKING LAW DESCRIBED AS UNFAIR

Fifteen states during the past year have adopted legislation liberalizing the size and weight limits of transport motor trucks, a survey in the current issue of "Business Week" magazine reports. The new laws also liberalize other restrictions which have created trade barriers between the states.

As a result, Kentucky is today the only state in the Union which still remains a serious "bottle-neck" in truck transportation, it is stated by Lew Ulrich, managing director of the Motor Truck Club of Kentucky. Kentucky's law limits the gross weight of a

motor truck and its load to only 18,000 pounds, besides imposing other restrictive measures. No other state has a load limit less than 30,000 pounds.

Even the Kentucky Highway Department must recognize that these restrictions are antiquated and oppressive, because just this week load limits were waived for Georgia trucks carrying perishable fruits and vegetables through Kentucky.

The Highway Department permits also shipments up to 32,000 pounds under certain restrictions for national defense materials. However, no exceptions are made for Kentucky farm products or other merchandise.

"Business Week" magazine reports that upwards of 50,000 communities have no other means of freight transportation except by truck and that more than 4,600,000 freight carrying trucks are operating over the highways of the

The Veterinarian Says

by Dr. L. J. Jones

Bang's disease, a so-called infectious abortion, can be eliminated by the isolation or slaughter of the infected animal. A reliable diagnosis of Bang's disease in cattle, hogs, or humans is made by subjecting a sample of the blood to a test similar to that used in detecting typhoid fever in humans (the agglutination test).

Through use of the blood test it has been possible to rid thousands of fine herds of cattle of the disease. More than 200 counties in the United States have been accredited as free of bovine Bang's disease by area use of this method.

In the State of Kentucky cows that react to the blood test are tagged, branded and sent to slaughter. If a cattle owner applies for an agreement with the Kentucky Department of Agriculture for the testing of his cattle, he will receive payments from the state of Kentucky and the federal government for reacting cattle. The state will pay one-third the difference between the net proceeds from the sale of such animals and the appraised value. This amount will not exceed \$125.00 for grade animals and \$25.00 for registered animals. The federal government will pay an amount not to exceed that paid by the state.

This is a program adopted by the Kentucky Department of Agriculture, and the writer of this article has only attempted to answer a few questions raised by cattle owners and has by no means covered the subject thoroughly.

Lynne Roberts, star newspaper gal, meets cub reporter Ted North in "The Bride Wore Crutches" and double trouble arrives for both of them and for others, too! North has a great talent for getting into scrapes with editors, police and gangsters, and Lynne risks her pretty neck to save him. Others featured with them in the strong cast of the lively 20th Century-Fox film, coming Tuesday and Wednesday to the Varsity Theatre include Edgar Kennedy, Robert Armstrong, Lionel Stander and Richard Lane.

W. T. Vaughan Dies July 7 After Lengthy Illness in Mayfield

William T. Vaughan, former Mayfield mayor and one of Mayfield's leading business men, died at his home on South Seventh street at 11:30 o'clock Monday night, July 7, following a lengthy illness. Funeral services were held at 10:30 o'clock Wednesday, July 9, at the First Christian Church, Mayfield, the pastor, the Rev. F. F. Drowota, officiating. Burial was in Maplewood cemetery of that city.

Mr. Vaughan was a native of Christian County, Kentucky, and a son of the late M. V. and Elizabeth M. Vaughan. She served eight years as mayor of the City of Mayfield and was a councilman for several terms.

He was a member of the Odd Fellows and Lions Club and was a director of the Young Men's Building and Loan Association.

In 1897, the year the First Christian Church was founded in Mayfield, Mr. Vaughan was made a deacon and he served in that capacity for several years, being made an elder. He resigned this church post when he became ill several years ago. He was a teacher of the young men's Bible class at the church and superintendent

of the Sunday school for two years.

Mr. Vaughan was president of the Health and Welfare League and was one of the city's civic leaders.

For many years he was engaged in the real estate and garage business in Mayfield and was interested in the insurance and wholesale gasoline and oil business, being secretary-treasurer of the West Kentucky Oil Company for six years.

Surviving are his widow, Mrs. Gertrude Vaughan, a son, Dr. William L. Vaughan, Nashville, two brothers, Jack Vaughan, Mississippi and George Vaughan, Chicago, two sisters, Mrs. Ed Carter, Paducah, and Mrs. William Jones, Boaz, a half-brother, Powell

TO THE VOTERS OF CALLOWAY COUNTY:

On August 2 you will nominate someone to be your next County Judge. The office of County Judge is one of the most important offices to be filled, and the people should be very careful about whom they elect.

Your County Judge should be well qualified for the place. He should be a man of good judgement who will wisely and impartially consider all matters that may come before him. He should be absolutely honest, fair, and impartial. He should be sober and possess good moral principles, which are very essential to good government.

Your County Judge should be aggressive, and one who has constructive ideas. He should take advantage of every opportunity to get all the outside aid possible from the State and Federal Governments that will be to the best interest and progress of the county.

He should be interested in building and maintaining good roads—not by his farm and a few of his friend's only—but should assist and aid the people over the entire county to build-up a good road system that will serve the most people possible. Anyone holding public office who practices favoritism and denies anyone, group, or community, their just share of the road funds proves himself unfair, dishonest, and unworthy of public trust.

If you elect me your County Judge I will, to the best of my ability, fulfill the following pledges:

1. Build and maintain more and better roads for the amount of money spent.
2. Use light road equipment for maintaining lateral or county roads.
3. Use concrete tile to take the place of small bridges—thus saving the taxpayers thousands of dollars.
4. Effect a substantial saving in the purchasing, operation, and the upkeep of road machinery and other material.
5. Provide better and more sanitary rest rooms in the county house.
6. Build a county jail.
7. Undertake a just and equal distribution of all road funds.
8. Will build roads where needed most—regardless of friends or foes.
9. Pledge elimination of all favoritism.
10. All problems coming before me will be considered, and whatever action is taken will be based upon merit and not politics.
11. I will stand for strict enforcement of the laws.
12. I will give honest, impartial, and efficient service.
13. I will fulfill the duties of the office to the best of my ability.
14. I will not favor or permit any illegal tax levies to be made.
15. I will have no pets; no bosses. Neither will I be obligated to any individual, group, or community by political ties or promises.
16. The public shall at all times have access to, and be permitted to be present at each and every session of the court (no closed sessions). And at no time will I refuse the public access to the court room during office hours; neither will I permit the doors to be locked and deny anyone access to the rest rooms.
17. I will give fair and courteous treatment to all.
18. I shall not ask the people to forever keep me on the payroll or deed me an office. I believe anyone having served a reasonable length of time (not 10, 15 or 20 years) in public office that justice demands that he step aside and help elect someone else to such office, and thus "do unto others as he would have them do unto him." I do not believe it was the purpose and intention of those of Kentucky that anyone remain in office beyond a reasonable length of time; that such practice is unwise, unfair, and is contrary to the principles of Democracy.

If you believe the above mentioned principles to be right and to the best interests and progress of the people of Calloway County, I ask your support and influence in the coming primary on August 2.

May I thank you in advance for your expressions of confidence, loyalty, and support.

Respectfully,

J. R. SCOTT

Seen At THE MOVIES

By SCREEN TEST

Opening our program this week we see a recent new-comer to the screen in the person of Ted North, co-starred with Marjorie Weaver, Ned Sparks and Joan Davis, in the title picture "For Beauty's Sake."

North is supposed to be a woman hater but it takes pretty Marjorie Weaver to change his mind about women.

For the first time in quite a while we present one of the "Saints" pictures. These pictures, like the Charlie Chan and Nick Carter pictures, are mystery thrillers. Hugh Sinclair plays the part of the Saint in the title picture "The Saint's Vacation."

Sunday and Monday we see the title picture "Man Hunt," starring Walter Pidgeon as the Hunter and George Sanders as the Hunter out of the shadows. These three need no introduction to Murray theatre patrons and this picture should be put on your must see list.

Tuesday and Wednesday we bring a comedy romance in the nature of "The Bride Wore Crutches." A fast and furious fun-fest with the year's sweetest mirth and menace cast, starring Lynne Roberts and Ted North.

Saturday and Sunday we bring back the comedy "Cisco Kid" in the title picture "Ride on Vaquero." Starring Cesar Romero and Mary Beth Hughes. Also—Chapter eight of "Captain Marvel."

CANDIDATE FOR County Attorney

Fellow Citizens of Calloway County:

I come now to the defense of every citizen of Calloway County, just as I have already pledged myself to uphold and defend the public interest if I am elected to the office of County Attorney. To tag a fellow-American "foreign" because he comes here from another state to make this his home is un-American and un-Democratic. It is a reflection on every citizen of this county, for the simple reason that all of us either came here from other counties or states, or our forefathers immigrated here from other states. Furthermore, there is hardly a family in this county which does not have at least one member or a friend now engaged in various pursuits in other states.

As I stated in my announcement, I became a citizen of Kentucky ten years ago. I was born in North Dakota, as were my people before me, my grandparents having pioneered that part of the Northwest and having endured the same sacrifices and hardships as the early settlers of this state in order that we, their descendants, might come to enjoy the great heritage which is America. Although I did not have the good fortune to be born in Calloway County, I did all within my power to correct that grave mistake (which, after all, was not mine) and came here as soon as I learned of the advantages of Calloway County and could conveniently get here. In this respect I am far ahead of the self-styled "Native Son" in this race, who knew about the attributes of Kentucky and Calloway County before I was born, and so highly does he regard this county and its people that he elected to make ARKANSAS his home for about 30 YEARS before becoming a resident of Kentucky.

As for my qualifications, I have more than fulfilled all the requirements fixed by the laws of Kentucky for County Attorneys or, obviously, I would not be a candidate for such an office. Furthermore, the Tennessee Valley Authority necessarily demands the highest qualifications of its attorneys, both as to character and ability, and makes the most intensive investigation before employing attorneys to be entrusted with clearing defects in titles to lands which in Calloway County alone aggregate hundreds of thousands of dollars in value. Upon resigning my position as such an attorney, the Tennessee Valley Authority placed the following comments on my record: "During his services with us he has demonstrated himself to be a thorough, capable, and competent workman. He is a gentleman of the highest type, and is exceedingly well-liked and respected by the public and his associates." What more could you ask of your County Attorney than those qualifications?

In reply to all comments, criticism, and propaganda being circulated by the opposition, I need only remind you that the hounds who are on the trail, but often far behind, make the most noise, while the fox, in the lead, goes merrily on—minding his own business.

I wish at this time to thank you for the kind reception and genuine encouragement which is daily being extended me in various parts of the county.

Respectfully yours,

ALVIN H. KOPPERUD

"Double Trouble" Visits George Rhea, Murray Route 6

George Rhea, who with his family lives at the Will Sparkman farm on Murray Route 6, declares that his troubles come in pairs. Mr. Rhea told the Ledger & Times Friday morning the following story: "Monday morning, July 7, we were quite disturbed when our daughter, Wynema, was taken seriously ill and was rushed to a Murray hospital where she underwent an operation. On the following Thursday afternoon during the electrical and rain storm, the lightning struck my stables and the flames consumed the building along with some hay, gear and other equipment. However, my close neighbors and friends quickly came to my assistance and we managed to save the nearby cabin which held a fair quantity of corn. "Just before the lightning struck the stables I had just remarked to members of my family: 'I am always anxious during an electrical storm; it might hit my stables and stock.' I went to the door after a severe lightning display, but my outbuildings seemed safe. Just in a minute or two I smelt smoke and ran out to see the building in flames. Two head of horses were in the building and, only after whipping them severely was I able to get them to go out the door. One of them apparently had been hit by the bolt as he had numerous bruises and cuts about the head and legs. "However, I am sincerely glad to report that my daughter is now recuperating nicely. And as to the stable, I guess it can be rebuilt some time in the near future."

Stella Gossip

We (#) had been crying for rain for many many months and at last on Friday, July 11, 1941, we received a ground soaked and gully washer for the space of an hour and 21 minutes. Finally I cried for it to quit. Wind and thunder and lightning were severe! A large, tall peach tree was blown bottom and up 10 feet high and the half dead lightning rod tree was a total wreck. Now I have fire wood "to let". "Down near the Coldwater bridge at Clarence Morgan's, the auto garage almost turned "summer salt" and the two old hens that were setting on a nest full of eggs, sang a song of six pence, a bottle full of rye, four and twenty blackbirds baked into a pie. "Billie Jones, a graduate of the theological college, will preach at West Fork Baptist Church next Sunday at 10:45 a. m. and Jewel Norman will preach at Antioch Sunday morning at 10:45. Eld. Clarence Francis of Murray will preach a memorial sermon at the Bazzell cemetery last Saturday in July, the 26th. Bring a "lunch". Annual reunion from far and near. I hope no body will have the audacity to beg money from candidates, which would be equal to "intrigue". Time is at hand for protracted meetings in the rural districts. Some will advocate "grace only", others "faith only", and predestination, and Mark 16:16. Everybody to their own notion, said the dame that kissed the calf. "I read an "ad" (not in county paper) that whiskey had been reduced from \$125 to \$115 a pint. Well-sir, I can remember 50 years ago when it was 50 cents a quart. I have not drunk any since nor before that date. Now because of old age I am unable to do a real day's work, therefore, I do not even buy nor drink "sodda-pop" nor chew chewing gum. Honest to goodness I have not been in a "movie show" in 40 years and I'll bet you five dollars I'm better myself. I venture to assert that there is more money spent for "things" that's worse than useless than is paid for spread of the Gospel. "Keep on coming oh ye faithful Ledger & Times! welcome guest each week in the home of "Old Eagle".

RHUBARB IN COLD STORAGE

With rhubarb abundant, members of homemakers' clubs in Kenton County, Ky., are putting it in cold storage. The stalks are cut into inch pieces and packed in 5-gallon cans, and then put into storage and frozen. The raspberry crop also was good in Kenton County, the berries being large and of excellent flavor. Large quantities were preserved.

HOGS PROFITABLE

Woodie Mitchell of Taylor County sold two litters of pigs which weighed 2,365 pounds when 168 days old. Records which he kept showed a net profit of \$180.99. They had the rub of red-clover pasture.

METHODIST CHURCH NOTES

Sunday, July 26, 1941

At the morning worship hour, 10:30 o'clock, the pastor will preach on "The Awakened Life", from the text: "and when they were awake, they saw his glory." Luke 9:32. Too many times our mental and moral blindness shuts out the glories of God and the universe about us.

At the evening hour, 7:45, the pastor will preach on "God Is Not Limited by Circumstances", from the text: "Can there any good thing come out of Nazareth?" History is a continuous revelation of the fact that when God wants a man to rise him up from the most unexpected places.

All the other services at the usual hours at the church. The Youth Caravan will arrive in Murray on Saturday, July 26, to remain with us till Saturday, August 2. During their stay with us there will be five classes each day, four for young people and one for adults, and these classes will meet at four o'clock in the afternoon, and again after supper, at the church. A picnic lunch will be served each evening, beginning Monday, at 6:30, and all the young people of this section are invited to attend. We welcome to our fellowship and to our classes all the young people of other denominations in and near Murray. The class for adults will meet at the same hours. You will be at liberty to come and go as you wish during the session of the classes. The questions most vital to the religious welfare of young people will be discussed by those who have made this a special study.

Again we urge the fine people coming to Murray to "join up" with one of our good churches and bear their part of the religious responsibility of our community. It is not quite fair to have all the benefits of religion and the churches and do nothing to make these blessings possible. You will find a noble band of Christians in every one of our churches.

J. Mack Jenkins, pastor.

CHURCH OF CHRIST

Lord's day: Bible study at 9:45 a. m. Worship at 10:45 a. m. and 7:30 p. m. Young people meet at 6:30 p. m.

"Sin Against God" will be the topic at the morning hour of worship.

Wednesday: Bible class for ladies at 3:30 p. m., prayer meeting at 7:30 p. m.

We are conducting a series of meetings at Shiloh each evening at 8:00 o'clock. We extend a most hearty welcome to all who will come.

C. L. Frahm, Minister

FIRST BAPTIST CHURCH

The pastor will preach at the morning hour on the subject, "THE CENTURIES OLD QUESTION". This subject and service will be devoted to OUR BOYS IN CAMP and in an effort to present the matter of adequate arrangements whereby our gallant young men shall have the very best possible religious, spiritual influences while in training. The Home Mission Board of the Southern Baptist Convention out to secure \$500,000 for the above purpose. The members of the church and all friends will have the golden opportunity of making a self-denial or Love Offering to this very worthy cause at all services the 27th, beginning at the morning hour. Certainly this cause will win from every one their very best effort in every possible way to provide our dear boys with the best possible, for their bodies, minds and souls.

Billy Jones will preach at the evening hour while the pastor is assisting Bro. Gough in a revival meeting at Farmington. Church School will have classes for all ages, meeting in separate rooms for the Bible study for the day, under the direction of faithful spiritually-minded officers and teachers.

Training Union with a program arranged to meet the needs of all ages beginning with the Story Telling Hour. This is the camp of training for better members and better serving at home and abroad, the Union is under the care of faithful competent officers, director and helpers.

Mid-week meeting, under the care of various groups of members, week by week. This is proving to be one of the most vital of all our vital meetings; is being attended by ever increasing numbers, and is adding greatly to the spiritual development and strength of all those who attend it.

The church and pastor cordially invite every one to attend all the meetings of the church, to enjoy the gospel messages and helpful fellowship of those who worship here. You will find friends here at all services who will welcome you heartily.

COMPARES VALUES OF EWES

Raising both "native" and northwestern ewes, Clarence McAtee of Trigg County found that imported ewes sheared an average of four pounds more wool per head and that their labs were ready for market 10 days ahead of lambs of the "native" ewes. He paid \$10.25 each for the northwestern ewes and sold \$14.45 worth of wool and lambs from each. County Agent Thomas W. Morgan reports increased interest in northwestern ewes.

A large crowd attended services at Providence Christian Church Sunday. The revival meeting there opened Sunday morning. Bro. Coleman Overly will preach there at 3 o'clock in the afternoon and at 7:45 in the evening. Jim Burton, from Camp Shelby, Miss., surprised the home folks recently with a visit. He returned to camp Thursday afternoon. Mrs. Lula Rowlett visited relatives nearby this week. Tigham Lamb is now working in Detroit—Sweet Pea.

Sunny Tennessee News

It has been several days since I have seen news from the brown-sage fields. It has been rainy over here for the last few days and McLaugh Creek has been over quite a bit of the crops. Pulling cars out of the creek and mud holes has been keeping the men busy here lately.

Picking berries and canning other things is the women's occupation this week.

Cotton crops are looking fine also. Corn is tasseling and looks very nice. Tobacco is late and we can't tell very much about the weed crop yet.

TO THE CITIZENS OF CALLOWAY COUNTY:

For the past two months or more I have been traveling through the county attempting to see each and every man, woman and child in an effort to solicit their votes and influence toward my candidacy for Jailer. I realize that in a county the size of Calloway I have failed to see some of the citizens. Further, I realize that when this campaign is over I will not have seen every person in the county. However, I have been exerting, and will continue to so exert, every effort possible to contact every person in Calloway County. To those that I have failed to see, and may hereafter fail to see, I take this method of earnestly and sincerely soliciting your vote and influence.

To the many people, in whose homes I have visited during this campaign, I wish to express my thanks for your interest, encouragement, influence and best wishes in my behalf.

I am not making this campaign on the basis of sympathy; however, I do need the office. As heretofore stated in my announcement, I am the father of ten children, seven of which are living. My widowed daughter and her two and one-half year old daughter (my grand-daughter) are living with me, and are dependent on me for their support. My chief help in the way of support, my son, Macon Rickman, will be called for military service within a few days.

Again I state that I am not making a sympathy campaign; but I feel qualified to fulfill the duties, and will fulfill the duties, of the office of Jailer if elected.

To the men, women and children of Calloway County, I promise you that, if elected, your rest rooms in the Court House will be kept clean during my term of office.

If you citizens of this county will elect me your Jailer for a four year term, I will not ask you for endorsement. So far as I am concerned said office will then be available for someone else who is qualified and needs same.

Again I wish to express my appreciation for all your kindness shown me thus far in the campaign.

Sincerely Yours,

EDD C. RICKMAN

Hardin Juniors to Meet Pine Bluff Sunday Afternoon

The Hardin Independents winners of the Purchase League last season, were again the victors in the Hardin Juniors when they thumped Pine Bluff 9-0 in the nightcap. Able to get only six blows off the pitching of Mel Crowe, diminutive righthander, the Independents took advantage of six errors miscue to score their run. Twice the Juniors had men on second and third only to let them die. Bill Woodruff required the help of George Culp to put out the last Junior rally, while he let the Bluff down with one hit in the bottom of the ninth.

Cherry Corner

Today (Monday) brings one of the most thrilling and exciting day of all days for both children and grown-ups—that of the opening day of school. It is good to know that our children's minds are being trained in the right way and worthwhile imprints made in their young brains. There's come a time when most everyone is beginning to sense the importance of education in preparing boys and girls for the great responsibilities soon to be placed on their shoulders.

To All the Voters in Calloway County:

its familiar toll and everyone knew at once that it was time for

books'. There were twenty-five students and a large number of parents and former students present, as Mrs. Daurelle Forrest, capable instructor, took the initiative and began what we feel will be a successful series of lectures. Let's each one concerned do our utmost in helping her in any possible way to succeed in her mission.

To make a good County Court Clerk the person you elect should possess a fair understanding of our Kentucky laws. It seems to me that the two very splendid people who are running against me are, by their own statements—part of which has been published—thoroughly unaware of the Kentucky law which prohibits a County Court Clerk from making the exaggerated income these two candidates quote the County Clerk's office as making.

To be perfectly fair and honorable with you, I have operated the Clerk's office so that it has paid me about one-half the amount that Kentucky law would allow me to make. This is enough to satisfy me and is the best pay I ever had in my life. I have not charged the fees the law says a Clerk may charge because I want to be good to a county of people who are Clerk extremely good to me. This I did not promise to do to you in my election, but did of my own free will and accord after you had shown your confidence in me by electing me to this important office.

and Janice and her mother, Mrs. Cora Yarbrough, also visited Mrs. Houston.

Wade Roberts left Sunday morning for Camp Shelby to resume his training under Uncle Sam.

If I had made the practice of charging all the fees the law entitles me to charge then one term would be long enough. Since taking over this office I have shared my legal, rightful income with each and every one of you, not favoring a few big families, favorite communities, or political groups.

lost with him in the home of Mr. and Mrs. Ray Houston were: Messrs Hoyt Phillips, Clifton and D. D. Roberts, Messrs. J. W. Geurin, and Miss Ruth Garland, Mrs. Geneva Dunn, Mrs. Roberts and Mr. and Mrs. Houston.

Mrs. Clint Stewart was a weekend guest of her daughter, Mrs. Maudie Stewart.

Mr. and Mrs. Jim McCuiston and children were in the home of Mrs. Maudie Stewart.

For instance: I have never charged a cent for looking up a previous year's automobile registration. The law says I may charge 50c for this service. I have never charged a cent for taking an acknowledgement or for preparing affidavits for birth certificates. The law says I may charge 50c for this service. I can safely say as many as two thousand of these have been prepared in this office. I have never charged anything for road petitions, because I know everybody would get the benefit of roads. I could have legally charged several hundred dollars on this item alone; I have not charged the full fee on qualifying Administrators, Executors, Guardians, etc., nor have I charged the full fee on settlements of such personal representatives.

AUDITOR OF PUBLIC ACCOUNTS

When the State of Kentucky admits that a County Court Clerk's income is very reasonable—then it is just that way, because the office is audited to the penny, every year, by the State Auditor.

If you endorse this plan of operating the County Clerk's office I shall be most happy to have you say so by your vote on August 2. If you endorse the other plan then you better get ready to dig down in your own pockets because the fees the other candidates say they want will have to come from you.

Million And Half Pounds of Dark Fired Sold in June

According to L. L. Veal, manager, Western Dark Fired Tobacco Growers Association, over a million and a half pounds of their tobacco have been sold to domestic markets. This, Mr. Veal states, is gratifying in view of foreign markets being closed to us at present. The outlook for the future is good, according to Mr. Veal, whose statement follows:

"We think the outlook for prices next year for good tobacco is better than it was for the past year. We think there will be a demand for all the good, heavy-bodied tobacco that is produced this year. The farmer should make every effort to grow heavy-bodied tobacco and to make good care of it and fire it well after it is housed."

TIME OUT FOR A WORD OF APPRECIATION

No candidate for public office can mix and mingle with the good people of our great Calloway County without having his heart warmed by the generosity and hospitality of its citizens.

I just want to take time out in the midst of this campaign to thank every man, woman, and child in the county for the courtesy I have received as I have visited in your homes, or have stopped at your gate or place of business, or have met you on the road or street. These pleasant contacts have served to increase my desire to live among you as your Sheriff for the next four years.

As the campaigning nears its close and election time comes near, I also want to take this opportunity to pay tribute to my worthy opponents in this race. So far as I have been able to learn, they have not stooped to indulge in petty politics or to appeal to trivial jealousies and prejudices, or to deal in unethical and unfair half-truths or suggestive rumors in order to secure votes. In this connection, I wish to renew my pledge to conduct my candidacy upon a high plane, relying solely upon your judgement as to my qualifications and your examination of my record as a public servant.

It is in this spirit of good will and hearty fellowship that I have felt prompted to pause from asking you to vote for me and to say

Thank You For Everything

Sincerely,

CARL B. KINGINS

"March of Time Tea" Thursday Benefits Chinese Medical Relief

The March of Time Tea which was given Thursday afternoon, July 10, by the United Daughters of the Confederacy at the lovely colonial home of Mr. and Mrs. G. B. Scott, netted a substantial sum for the benefit of medical relief to China. The party given in memory of Confederate veterans of Calloway County, illustrated five periods in American history with the participants in costume appropriately to the period.

Mrs. Roy W. McKinney of Paducah, past president general of the UDC, received on the front lawn with Mrs. H. C. Corn, president of the J. N. Williams Chapter. The state president, Mrs. Will Ed Duquid of Louisville, was unable to be present on account of illness in the family. Guides and assisting hostesses, wearing costumes of the sixties, were Mrs. W. P. Roberts, Mrs. W. S. Swann, Mrs. Elhel Bowden, Mrs. Fred Gingles, Mrs. George Hart, Mrs. Thos Banks, Sr. Mrs. Charles V. Farnham, the R. M. Mason, and Mrs. M. D. Holton. Mrs. Clifford Melugin relayed the donations, and Mrs. J. P. Lassiter and her sister, Mrs. R. L. Moore of San Antonio, kept the register.

The first group was one of the colonial period, showing the making of the first American flag. The scene was outside the lawn of the Philadelphia home of Betsy Ross played by Mrs. Luther Jackson. Her guests for the afternoon were Mrs. W. A. Carter as Mrs. Benjamin Franklin, Mrs. A. O. Woods as Mrs. Thomas Jefferson, Mrs. A. P. Doran as Mrs. George Washington, and Mrs. Homer Williams as Mrs. John Hancock. Taking the part of the children present were Mary Sue LaFollette, Betty Sue Hutson and Janice Smith. To the music of the melody, played by a lovely representative of colonial life, Miss Ann Elizabeth Randolph, the minutemen were danced by Misses Frances, Mary, and Mary Ann. Ryan, Martha Lou Hayes, Martha Bell Hood, Louise Putnam, Mary Adams Callie, Joanne Fulton and Jane Saxton. Miss Randolph accompanied the charmingly composed quartet composed of Miss Lulu Clayton, Miss Paul Willis of Atlanta, Miss L. J. Harris and Mrs. J. R. Williams who sang so delightfully the songs of the colonial period. "Drink To Me Only With Thine Eyes," "Lullaby," "Derry Air" and "London Bridge."

The second group portrayed the covered wagon period, and represented a pioneer family of the West. Mrs. Bun Crawford represented the young woman, David Holton, McConnell, the young father, Mrs. V. Buchanan, who was at the spinning wheel and Mrs. Edgely Roberts, the grandmother. Mrs. Anna Edgely, daughter of Mrs. W. H. Fox, the young brother, with his fiddle, charmed away their waiting hours. Children in the family were Charles Boyd Norman of Somerville, Tenn., Jean Corn, Billie and Roberta Fox and Lochie Fox Hart.

The garden was the setting for the third group representing the period of the sixties. It was here that Mrs. H. C. Corn, dressed in a gown of the period, was given a life party in honor of Mrs. Robert E. Lee played by Mrs. J. V. Stuart. Mrs. Albert Lassiter as Mrs. Clement Clay presided at the tea table, and other guests were Mrs. J. D. Peterson of Benton as Mrs. Lamar, Mrs. N. Waters as the wife of Colonel Holt, Mrs. Rumph as Basil Duke, Mrs. Callista Butterworth Jones as Mrs. Breckenridge, Mrs. Grover Miller as Mrs. J. E. B. Stuart and Mrs. Dixie Robinson as the wife of General Thompson. "Beautiful Decamers" and "Jeane With the Light Brown Hair" were sung by three southern beauties, Tommy, Hilda and Janice Humphreys and Mrs. Brown who also recited the graceful southern belle at the party. Misses Margaret Graves, Mary Elizabeth Roberts, Margaret Rumph and Gels Hamrick, all of the local school, were the guests of honor.

Tablecloth Dress

Style creators are discovering new and novel ways of using fabrics. Materials which were never associated with smart costume design are now being utilized in ways never dreamed of in the past. Today it is considered ultra modern and swank to create fashionable apparel out of such amazing things as striped bed-ticking (the regular old fashioned kind), plain workaday jeans (you can get it in several colors with special stripe accent on yellow denim), or quilted calico in bizarre South American colorings. Upholstery glazed chintz and humble burlap have come to be fabric so frequently used for the yoke and about the skirt hemline. It is a smart style by one of America's foremost designers. Comes in various colors but looks newest in green or brown.

Members of the Eastern Star gave a party and shower Monday evening in honor of Mrs. Max Churchill. Mrs. O. C. Wells and Mrs. Chas. Ryan were hostesses for the occasion at the home of Mrs. Wells.

My Neighbor SAYS:

Tuberose may be planted any time after June 1. Plant bulbs in six inches of soil.

To keep marshmallows soft store them in a tightly covered jar or can. If they've hardened they will soften up again if you put them in the breadbox overnight.

Apricot or peach halves or pineapple slices, are browned and then spread generously with mint jelly and a dash of tannin, make a fancy garnish for chops, roasts, steaks or fowl.

A covered box or closet in the laundry-room is very useful for storing away such accessories as cleaning powders, scrubbing brushes, clothespins and lines, iron and ironing board. Have them there and ready for immediate use each washday.

Penny Homemakers Enjoy Fish Fry

Members of the Penny Homemakers Club and their families enjoyed an outing and fish fry at Pine Bluff, Monday afternoon, July 14. Those enjoying the bountiful supply of fish and other good things were as follows:

Mr. and Mrs. Marjorie Russell, Mr. and Mrs. Paul Futrell and daughter, Alice Hope, Miss Martha Spann, Mrs. Walter Dent, Miss Sue Bagwell, Mr. and Mrs. Ned Coleman and son, Zane, Charles Bagwell, Mr. and Mrs. Bob Lassiter, Mr. and Mrs. Gailin Copton and daughter, Janice, Imogene Adams, Mr. and Mrs. Tony Boggs, Mr. and Mrs. Waldrop, Mr. and Mrs. Preston Boyd and sons, Elmo and Lloyd, Mr. and Mrs. Jesse Washburn and niece, Anna Margaret Wren.

The next regular meeting of the club will be Monday, August 11, at the home of Miss Martha Spann.

A month ago victory in the West appeared to be in Hitler's grasp. He stated, "Britain was in a perilous position in the Atlantic Near East, and in her own islands. None of us would have predicted that, within a few days of even months, the Germans would suddenly abandon these campaigns which they were waging, and invade Russia."

"Hitler—apparently hoped—to achieve several things from this campaign which have not materialized. He hoped by the complete suddenness and surprise of his move, to win a great victory in a few weeks. This did not happen. If the Russians are able to hold out but a little longer, the Ukrainian wheat will be ripe and growing, so it can be burned and the Nazis will lose this greatest of prizes which they are seeking."

"Hitler must have hoped to create confusion in the minds of his enemies," Dr. Pogue continued, "an uncertainty in Britain and the United States, neither of which has been sympathetic to the present Russian regime. If his Russian campaign could be made to appear a 'holy war' for civilization against Bolshevism, Hitler hoped to gain the support of Catholics and Protestants abroad, thereby giving Britain a breathing spell."

"But we must not make the mistake of assuming that, because the Germans seem to have moved more slowly in this campaign than is their wont, that the Russian campaign will become a war of attrition. There is no proof available that Russia can yet marshal such defensive strength."

The New German campaign is giving Britain a breathing spell. The English can now build up their air force and their home defenses, do great damage along the German coast, and bring their position in the Middle East. But after Germany destroys Russia, Hitler could reassert his position in the West again within a short time. And he will have Russian resources to tide him through a war of attrition.

"Britain might then hope to make a fairly favorable peace with Germany," he said in conclusion. "But the goal of complete victory over Nazism is not in sight, and won't be unless Britain and the United States are willing to make far greater efforts than have been made to date. It must have been with this in mind that the President and his military advisers asked last week for authority to retain training in service beyond short time, and for repeal of restrictions against using our forces outside the Western Hemisphere."

Misses Carolyn Wingo and Ella Wiehing were hostesses at the practice house Monday evening to members of the executive committee and chairman of the department of the American Association of University Women.

Plans were discussed for projects during the coming year, and for the program of study. Dainty refreshments were served by the hostesses.

Pogue Says Britain, America Must Make Greater Effort If Hitler Is To Be Defeated

"While Hitler's attack upon Russia has apparently averted the possibility of a complete defeat for Britain, it also makes it more certain than ever that a final defeat of Nazi Germany can only be won by much greater efforts on the part of Britain and the United States," Dr. Forrest C. Pogue of Murray State College told members of the Paducah Lions Club Tuesday.

Dr. Pogue, professor of European history at Murray and a special foreign relations scholar at the University of Paris, France, in 1937-38, spoke at the Paducah club's weekly luncheon meeting at Hotel Irvin Cobb.

"A month ago victory in the West appeared to be in Hitler's grasp," he stated. "Britain was in a perilous position in the Atlantic Near East, and in her own islands. None of us would have predicted that, within a few days of even months, the Germans would suddenly abandon these campaigns which they were waging, and invade Russia."

"Hitler—apparently hoped—to achieve several things from this campaign which have not materialized. He hoped by the complete suddenness and surprise of his move, to win a great victory in a few weeks. OUR NEIGHBORS

She was a small, cute little tot, the type that always causes the second look and if possible you try to say "Hello, darling" too. Dressed in an immaculately clean play suit and sandals on her feet. She didn't hesitate when she entered the drug store but walked right up to the counter and called in her small voice: "I wanna-vanilla ice cream cone."

The soda man looked over the counter and spying the tot's hungry filled her order saying: "Thank you little lady." "Thank you," she promptly replied. Then she turned to begin that operation on a cone that only a child can perform. But suddenly over her little face came that serious look that can spell almost anything at her age.

We wondered what had happened. We turned and watched. At a table sat a bustling-pompous lady whose every action spoke of one being used to being the center of things—the type who commands an audience whether one like it or not.

"And how are you?" she asked, calling the little one's name. Without waiting for a reply she hurried along with these lines: "Did your father get in from Hopkinsville last evening? Did he bring you anything? And what has your mother decided about her vacation trip?"

The little one crunched her cone of cream and from her expression you could plainly see she didn't want to answer. The lady, however, called her to come over with that "bless you little one" look. As the child reluctantly came the

pompous one again propounded a question concerning the child's father. This answer came: "Mrs. I don't know all the questions you ask but Daddy does always stand up for you—he says you're only the worst gossip in this town—not in the world."

With these words the little Miss marched out of the store, continuing her unrelenting attack on the cone.

They will help make the future secure.

THE LEDGER & TIMES

EVERYBODY WILL PROFIT

In The Ledger & Times'

Profit Sharing Circulation and Free Gift Campaign

Cash Prizes, Cash Commissions, given away FREE to ambitious men and women, boys and girls, throughout the circulating territory of The Ledger & Times. Everyone who enters and participates will profit. Costs nothing to enter and share in these awards. Everybody Wins - Come In and Let Us Explain This Great Campaign.

THE CAMPAIGN PLAN IN BRIEF

How To Become A Candidate

The first step in order to become a candidate and participate in this Free Gift Campaign is to clip the NOMINATION BLANK appearing in this announcement. Fill in your name or that of a friend whom you wish to nominate and bridge or mail to the Campaign Department of The Ledger & Times. This coupon entitles you or the person whom you wish to nominate to 10,000 FREE VOTES. These votes are given you as a stager and speed you on your way to win. Only one of these coupons will be accepted from any one candidate.

Upon receipt of your nomination you will be supplied with the necessary working outfit, consisting of a receipt book and all other necessary supplies and information as will be helpful in making your campaign a complete success.

Let it be fully understood that this is not a beauty contest and will be conducted on a strictly competitive basis from start to finish.

Everyone Has An Equal Chance

Everyone, regardless of where they may reside, has an equal chance at all the prizes. There will be no handicap for one that will not exist for all. There are no required number of subscriptions a candidate must secure to be eligible for any of the prizes. Should one find subscriptions hard to secure then others will find them the same way. Then, too, double votes are allowed for all new subscriptions.

Read every word of this announcement carefully and then cut out the Nomination Blank, fill in your name or that of some friend or relative and bring or send to the Campaign Department of The Ledger & Times today. If not convenient for you to call at the Campaign Department personally, write a card and a representative will gladly call at your home and explain just how easy you may go about winning the prize of your choice. This will not place you under any obligation - you are to be the sole judge.

Does Money Mean Anything To You?

The Ledger & Times extends an invitation to the residents of Murray and surrounding territory to enter and participate in the mammoth Free Gift Campaign. This is entirely different from anything ever attempted in this vicinity before.

Just a few spare minutes a day is all that is necessary. It costs nothing to enter, and you are guaranteed a prize or cash commission.

Advisory Board

It is the sincere aim of this newspaper to conduct this campaign from start to finish in a fair, honorable, and impartial manner to all concerned. Every precaution has been taken to safeguard the interests of all participants and absolute honesty in all dealings is assured. However, not all wisdom lies with any one man or institution, and for that reason an advisory board has been decided upon, whose functions shall be to decide any question of sufficient moment that might happen to arise during the competition and from which a committee shall be selected to act as judges and count the votes the last night of the campaign. The names will be supplied later.

How The Prizes Will Be Awarded

RULES AND REGULATIONS OF THE LEDGER & TIMES' CAMPAIGN

1. Any reputable woman, man or child living in Calloway County or surrounding territory who is not a salaried employee, or blood relation of any employee (this does not include correspondents) of the Ledger & Times, is eligible to enter and compete for a prize. Nominations may be made at any time during the campaign. The management reserves the right to reject any and all nominations.

2. The winners of prizes will be decided by their accredited votes, said votes being represented by ballots issued on subscriptions, opportunity coupons, clipped from papers.

3. Candidates are not confined to their particular town or community in which to secure votes and subscriptions but may take orders anywhere in this section or for that matter in the State or United States.

4. Cash must accompany all orders where votes are desired. There will be no exception to this rule. Candidates are allowed to collect renewals as well as entirely new subscriptions and votes will be issued on both.

5. Votes are free. It costs the subscriber nothing extra to vote for his favorite. Subscribers should ask for votes when paying their subscription. Votes cannot be purchased. Every cent accepted through the Campaign Department must represent subscriptions.

6. Votes are not transferable. Candidates cannot withdraw in favor of another candidate. Votes on such transferred subscriptions will be subject to disqualification at the discretion of the management.

7. Any collusion on the part of the candidates to nullify competition or any other combination or effort to detriment of candidates or this newspaper will not be tolerated. Any candidate entering into or taking part in such an agreement or effort, will forfeit all right to a prize or commission.

8. Any ballots issued on subscriptions may be held in reserve and voted at the discretion of the candidates or this newspaper. The printed coupons appearing in the paper must be voted on or before the expiration of the date thereon.

9. In the event of a tie for any one of the prizes a prize identical in value will be given each tying contestant.

10. In case of a typographical error it is understood that neither the publisher nor the campaign manager will be responsible except for the necessary corrections upon the same.

11. No statement, assertion or promise, either written or verbal, made by any of the solicitors, agents or candidates will be recognized by the publisher or campaign manager.

12. Every candidate is an authorized agent of the Ledger & Times and may collect subscription payments from the present as well as new subscribers.

13. Extension of subscriptions will receive votes according to vote schedule in effect when the first subscription was given, except that no extension votes will be given in the final period.

14. It is distinctly understood and agreed that candidates will be responsible for all money collected and that they will remit such amounts in full at frequent intervals or on demand to the Campaign Department.

15. There will be several big prizes awarded besides 20 per cent cash commission to all ACTIVE non-prize winners, but it is distinctly understood that in the event ANY candidate becomes INACTIVE, failing to make a semi-weekly cash report he or she will, at the discretion of the management, become disqualified and thereby forfeit all rights to a prize or commission.

16. To insure absolute fairness in awarding the prizes, the race will be brought to a close under a "sealed ballot box," and will be under the personal supervision of two or more of the judges. The last few days of the campaign, the box, locked and sealed, will repose in the vault of a local bank where candidates and their friends will deposit their final collections and reserve votes. And not until the race has been declared closed will the seals be broken, the box unlocked, and the judges begin the final count. In this way no one, not even the campaign manager, can possibly know the voting strength of the respective candidates, which precludes any possibility of favoritism and insures fairness to the minutest degree.

17. The right is reserved to increase or add to the list of prizes.

18. The Ledger & Times guarantees fair and impartial treatment to all candidates, but should any question arise, the decision of the management shall be absolute and final.

19. 40,000 extra votes will be given on each new yearly subscription during the first period of the campaign; 30,000 during the second period; 20,000 during the third period; and 10,000 during the final period; 200,000 extra votes will be accredited to every candidate who turns in ten one-year subscriptions or their equivalent during the first week after candidate accepts nomination.

20. Campaign officially opens Monday, July 21, and closes on September 20, 1941.

In accepting nomination candidates agree to abide by above conditions.

LOCAL MERCHANTS TO BENEFIT FROM NEW COTTON PLAN

F. H. Graham Says Set-up Offers Chance For Cooperation

A preliminary estimate based on the number of cotton farmers in Calloway County who have so far filed notice of intention of participating in the Supplementary Cotton Program indicates that local merchants taking part may expect to enjoy at least \$10,000 of new cotton business during 1941. This information was released today in a statement made by Jno. T. Cochran, county agricultural agent, following the most recent check on the indicated farmer participants to date.

"Naturally," added Mr. Cochran, "alert, merchandising-minded retailers who aggressively push cotton products not only to their stamp customers, but to the general public as well, will stand to benefit most from the program."

Suggestions along this line of action were made by the Cotton Stamp Committee, included extensive advertising of the many cotton "bays" now on the market; attractive store displays of cotton household articles and clothing appropriate for a wide variety of uses and occasions; and the segregation of 100% American cotton products in the stores.

Mr. Graham pointed out that merchants who used ingenuity in the sales promotion of their cotton merchandise would not only perform an important service to their customers, and the nation in helping to solve an important national problem, but would gain profitable business as well.

"The program," he said, "offers merchants an unusual opportunity to cooperate with the Government's efforts to increase the domestic consumption of American cotton by making every citizen conscious of the value and importance of cotton merchandise, as the chosen fabric of both the soldier and the budget-balancing housewife."

MERCHANTS RECEIVE INSTRUCTIONS

In anticipation of the issuance of Cotton Order Stamps to cotton farmers of Calloway County participating in the Supplementary Cotton Stamp Program within about August 15, the Government is carrying on an extensive educational campaign to acquaint local retailers of cotton products with the program's operation.

This announcement was made today by Jno. T. Cochran, county agent, in stating that A. P. Stens, representative of the Surplus Marketing Administration planned to call personally on the managers of every retailer of cotton products in the county.

"It is of utmost importance," said Mr. Cochran, "that these merchants and their clerks fully understand the rules and regulations governing the operation of the program. Retail merchants dealing in cotton goods will be one of the most important groups in this program designed to help our cotton farmers, ourselves, and the Nation."

Number 1 industry as a whole.

"Many more citizens of the United States depend upon cotton for a living than upon any other crop we grow. It is the most important cash crop we grow. On 2,000,000 cotton farms of the South and Southwest more than 10,000,000 persons are dependent on cotton for the greater part of their income.

"The war has sharply curtailed our exports of American cotton which, more than any other American crop has been dependent on foreign buyers for its market. Accordingly, it is today more in the national interest than ever before that we increase our domestic consumption of cotton goods grown, processed, and manufactured in this country. Merchants, farmers, and the general public should cooperate in this important national objective of increased cotton consumption."

ICE CREAM SUPPER

An ice cream supper will be given at Dexter Saturday night, July 19, in honor of the Calloway County Candidates. Funds will go for the benefit of Dexter School. The public is invited.

Our Sincere Purpose...

is to help you in every way possible, and the real extent of our efforts in your behalf is determined by your needs and wishes in token of this.
